Complete Warm Up and Daily Routine for Tuba (E-book 1) - Angelo Piazzini 2022-05-09

My new book, entitled Complete Warm Up and Daily Routine for Tuba, is designed to provide students, amateurs, and professional tuba players with a useful guide to warming up and daily exercises. This new series of exercises enables tuba players to experience rapid, step-by-step progression in embouchure and, as a result, in their technical precision and speed. In particular, this enables:

- step-by-step development and progression in embouchure
- improvement and increased confidence in attacks
- improvement and increased confidence in all registers
- improvement and increased confidence in control in legato
- increased confidence in moving from one register to another and in leaps
- increased technical precision and speed

My advice is to tackle these exercises starting at a comfortable pace (75 - 80 on the metronome) and then to gradually pick up speed in order to reach the maximum attainable pace. Another idea might be to practice in major and minor keys on alternate days, or to play in the ordinary way on one day and the opposite the next. Everything is at the sole discretion of the player. As always, I leave full freedom of execution up to tuba players who want to try their hands at this new series of daily exercises for rapid, step-by-step progression as part of their training as musicians. The Cambridge Companion to Vaughan Williams - Alain Frogley

2013-11-14

An icon of British national identity and one of the most widely performed twentieth-century composers, Ralph Vaughan Williams has been as much misunderstood as revered; his international impact and enduring influence on areas as diverse as church music, film scores and popular music has been insufficiently appreciated. This volume brings together a team of leading scholars, examining all areas of the composer's output from new perspectives, and re-evaluating the cultural politics of his lifelong advocacy for the music-making of ordinary people. Surveys of major genres are complemented by chapters exploring such topics as the composer's relationship with the BBC and his studies with Ravel; uniquely, the book also includes specially commissioned interviews with major living composers Peter Maxwell Davies, Piers Hellawell, Nicola LeFanu and Anthony Payne. The Companion is a vital resource for all those interested in this pivotal figure of modern music.

Method for Bass and Contrabass Tuba - e-Book 2 - Angelo Piazzini 2022-05-25

The present "Method for Bass and Contrabass Tuba" provides daily exercises for the pupil which are conceived for a progressive and gradual advancement in the academic course of study of the tuba at the Conservatory. My decades of experience in the field of musical and instrumental teaching, led me to perfect this series of exercises; they are

an excellent support as well as a useful guide for the pupil, the student, or the professional that will perform them. As usual, I leave full freedom and total discretion in the execution of these to the musician that will play them. Good study to all! Progressive balancing in staccato for bass trombone - Angelo Piazzini 2022-05-21

This "Progressive Balancing in Staccato - Advanced Progressive Technical Exercises" is entirely dedicated to the study of the staccato. This essay is indeed composed by a first part in a major tonality and a second part in a minor tonality, which are in turn divided into a regular and reverse mode. This, first of all, gives the brass instrument players (may they be professionals or students), the possibility to increase their speed, their precision in the technique and in the staccato, developing, by a gradual balancing of the embouchure, the attacks, the staccato, the octaves, the register, the control, the embouchure, the accuracy and the speed in the technique. I suggest to start at a comfortable metronome speed (75-80), to then gradually increase till the maximum reachable speed, in order to accelerate these advanced technical exercises. I abstain on purpose from proposing instructions as regards the dynamics of performance, because in this case they do not play a significant role, in contrast to what usually occurs in music and scores. I suggest, however, to face the exercises of this essay with some dynamics that can go from "mf" (mezzo forte) up to "f" (forte), or from "mp" (mezzo piano) up to a considerable "mf" (mezzo forte). I leave the player completely free to choose the type of staccato. I suggest however to change it day by day, for example by employing a simple staccato the first day, a double staccato the day after, and a triple one the third day, going back to a simple staccato and so on. Besides, one may choose to play, every other day, major and minor tonalities, or one day only the regular mode and the next day the reverse one, all at the complete discretion of the player. Advanced Flexibility in Legato for bass trombone - Angelo Piazzini 2022-05-21

This "Progressive Balancing" is divided in two parts: the first one is in a major tonality while the second one is in a minor tonality; each one of them, in turn, is split in regular and reverse flexibility. This arrangement allows to streng then a successful and useful "daily routine and

procedure" aimed at the development and maintenance of a good embouchure. The objectives that we daily pursue to face a concert, a lesson or an audition are more or less the same; this method takes these different single aspects, developing them by the gradual balancing of a good embouchure, that is: the attacks, the legato, the octaves, the register, the control and the embouchure. It is recommended to start at a comfortable metronome speed (65-70), and gradually increase the pace, little by little, so as to speed up the entire "progressive flexibility". Dynamics have been omitted on purpose. In such an essay on flexibility, and therefore in flexibility itself, dynamics do not play such an important role as they usually do in music and scores. More over, some freedom has been intentionally left to the performer who is about to play the piece. It is advisable not to exceed with dynamics, that is avoid performing too loudly or too softly. Experience suggests to preferably perform by using dynamics that go from mezzopiano up to forte or from piano up to mezzoforte. Angelo Piazzini

Arranging for the Concert Band - Frank Erickson 1999-11-27

Arranging for the Concert Band and the separately available workbook are intended to introduce students to basic techniques of arranging for the concert band. Arranging can be divided into two separate processes. The first deals with scoring and transcribing. Scoring is concerned with such things as voicing, doubling, balance and color. The term scoring also means the actual writing of notes on the score paper. Transcribing is scoring music written for one kind of musical instrument or group -- say a piano or orchestra -- for a different kind of group. This text deals with those matters. The second part of arranging is the more creative process of writing introductions, modulations, endings, background figures and so on.

A New Dictionary of Music - Arthur Jacobs 2017-07-28

What is a fugue? What is the difference between a saxophone and a saxhorn? Who besides Puccini wrote an opera called La Boheme? In what year, was the National Broadcasting Company Orchestra formed under Arturo Toscanini's direction? These and thousands of similar questions are answered in this comprehensive dictionary that remains unrivaled as a single-volume summary. A New Dictionary of Music is a basic reference work for anyone interested in music, whether performer or layman. It covers orchestral, solo, choral and chamber music, opera, and (in its musical aspects) the ballet. There are entries for composers (with biographies and details of compositions); works well known by their titles, such as operas and symphonic poems; orchestras, performers and conductors of importance today; musical instruments (including those of the dance and brass bands); and, technical terms. English names and terms are used whenever possible, but foreign terms in general use are cross-referenced. Particular importance has been attached to bringing the reader abreast of new musical developments. The composers and musical works chosen were those most likely to be encountered. Where an opera is given an entry, a brief explanation of the title follows. Similarly explication is provided for other works bearing literary or otherwise allusive titles. Among performers and conductors, only the following are included: those who, although dead, continue to be prominent through recorded performances (e.g. Gigli); the highest-ranking international artists of today, plus a very few apparently on the verge of attaining that rank; and, a few who, though not necessarily at the very head of their profession, are closely associated with composers in bringing out new works, or are conductors in charge of important orchestras.

Program Notes for the Solo Tuba - Gary Bird 1994

This volume is a guide to 88 of the most important works for the solo tuba. Most of the program notes were written by the composers themselves; a few, describing works by composers who are now deceased, were contributed by distinguished musicians familiar with these compositions and their composers' styles. Program Notes for the Solo Tuba includes works for the tuba alone, tuba and piano, and tuba with other types of accompaniment - woodwind quartet, string quartet, orchestra, etc. Each entry gives the name of the publisher; the dates of composition, publication, and premiere; the titles of the movements; the instrumentation; the history of the piece; and a description of its musical structure and characteristics.

Brass Music of Black Composers - 1996

Aaron Horne provides the most comprehensive guide to brass music written by black composers. He covers composers from around the world in the 19th and 20th centuries. Included in the book is biographical information; commission, duration, instrumentation, date of publication, premiere, publisher, discography for each piece; bibliographical sources; and an index which groups the music by numbers, medium, and ensemble. This is the fourth volume in Aaron Horne's monumental effort to provide the most comprehensive guide to music composed by black composers. In this volume he covers composers from around the world in the 19th and 20th centuries, including William Grant Still, Ulysses Kay, Anthony Davis, John Coltrane, and other major figures from the world of classical, jazz, and popular music. The main body of the book is divided into sections devoted to African, African American, Afro-European, and Afro-Latino composers. Within each section composers are arranged alphabetically; each entry provides biographical information as well as commission, duration, instrumentation, date of publication, premiere, publisher, discography for each composition. Backmatter includes a Brass Music Index which groups the music by numbers, medium, and ensembles; a title index; discography; and bibliography. As with the earlier volumes, this is an essential reference tool for anyone with an interest in researching and/or performing the music of black composers.

David Baker - Monika Herzig 2011-11-16

A Living Jazz Legend, musician and composer David Baker has made a distinctive mark on the world of music in his nearly 60-year career—as player (chiefly on trombone and cello), composer, and educator. In this richly illustrated volume, Monika Herzig explores Baker's artistic legacy, from his days as a jazz musician in Indianapolis to his long-term gig as Distinguished Professor and Chairman of the Jazz Studies department at Indiana University. Baker's credits are striking: in the 1960s he was a

member of George Russell's "out there" sextet and orchestra; by the 1980s he was in the jazz educator's hall of fame. His compositions have been recorded by performers as diverse as Dexter Gordon and Janos Starker, the Beaux Arts Trio, the Composer's String Quartet and the Czech Philharmonic. Featuring enlightening interviews with Baker and a CD of unreleased recordings and Baker compositions, this book brings a jazz legend into clear view.
