By the Sword - Richard Cohen 2007-12-18

“Like swordplay itself, *By the Sword* is elegant, accurate, romantic, and full of brio—the definitive study, hugely readable, of man’s most deadly art.”—Simon Winchester With a new Preface by the author Napoleon fenced. So did Shakespeare, Karl Marx, Grace Kelly, and President Truman, who as a schoolboy would practice fencing with Bess—his future wife— when the two of them returned home from school. Lincoln was a canny dueler. Ignatius Loyola challenged a man to a duel for denying Christ’s divinity (and won). Less successful, but no less enthusiastic, was Mussolini, who would tell his wife he was “off to get spaghetti,” their code to avoid alarming the children. *By the Sword* is an epic history of sword fighting—a science, an art, and, for many, a religion that began at the dawn of civilization in ancient Egypt and has been an obsession for mankind ever since. With wit and insight, Richard Cohen gives us an engrossing history of the world via the sword. Praise for *By the Sword* “Touché! While scrupulous and informed about its subject, Richard Cohen’s book is about more than swordplay. It reads at times like an alternative social history of the West.”—Sebastian Faulks “In writing *By the Sword*, [Cohen] has shown that he is as skilled with the pen as he is with the sword.”—The New York Times “Irresistible . . . extraordinary . . . vivid and hugely enjoyable.”—The Economist “A virtual encyclopedia on the subject of sword fighting.”—San Francisco Chronicle “Literate, learned, and, beg pardon, razor-sharp . . . a pleasure for practitioners, and a rewarding entertainment for the armchair swashbuckler.”—Kirkus Reviews (starred review)

Romania - Lucian Boia 2001

Romania occupies a unique position on the map of Eastern Europe. It is a country that presents many paradoxes. In this book the preeminent Romanian historian Lucian Boia examines his native land's development from the Middle Ages to modern times, delineating its culture, history, language, politics and ethnic identity. Boia introduces us to the heroes and myths of Romanian history, and provides an enlightening account of the history of Romanian Communism. He shows how modernization and the influence of the West have divided the nation - town versus country, nationalists versus pro-European factions, the elite versus the masses - and argues that Romania today is in chronic difficulty as it tries to fix its identity and envision a future for itself. The book concludes with a tour of Bucharest, whose houses, streets and public monuments embody Romania's traditional values and contemporary contradictions.

Biography and the Black Atlantic - Lisa A. Lindsay 2013-10-09

In *Biography and the Black Atlantic*, leading historians in the field of Atlantic studies examine the biographies and autobiographies of eighteenth- and nineteenth-century African-descended people and reflect on the opportunities and limitations these life stories present to studies of slavery and the African diaspora. The essays remind us that historical developments like slavery and empire-building were mostly experienced and shaped by men and women outside of the elite political, economic, and military groups to which historians often turn as sources. Despite the

scarcity of written records and other methodological challenges, the contributors to *Biography and the Black Atlantic* have pieced together vivid glimpses into lives of remarkable, through previously unknown, enslaved and formerly enslaved people who moved, struggled, and endured in different parts of Africa, the Americas, and Europe. From the woman of Fulani origin who made her way from Revolutionary Haiti to Louisiana to the free black American who sailed for Liberia and the former slave from Brazil who became a major slave trader in Angola, these stories render the Atlantic world as a densely and sometimes unpredictably interconnected sphere. *Biography and the Black Atlantic* demonstrates the power of individual stories to illuminate history: though the life histories recounted here often involved extraordinary achievement and survival against the odds, they also portray the struggle for self-determination and community in the midst of alienation that lies at the heart of the modern condition.

Women and Gender in Early Modern Europe - Merry E. Wiesner 2000

This is a major new edition of the most stimulating and authoritative textbook on early modern women currently available. Merry Wiesner has updated and expanded her prize-winning study; she summarises the very latest scholarship in her chapters and bibliographies, adding new sections on topics such as sexuality, masculinity, the impact of colonialism, and women's role as consumers. Other themes investigated include the female life-cycle, literacy, women's economic role, artistic creation, female piety - and witchcraft - and the relationship between gender and power. The clear and helpful structure of the first edition remains: it reflects the tripartite division of the self - mind, body, and spirit - traditional in western philosophy. Coverage is geographically broad; the second edition includes longer discussions of the border areas, such as Russia, Ireland, and the Iberian peninsula. Accessible, engrossing, and lively, this book will be of central importance for courses in gender history, early modern Europe, and comparative history.
