Introduction to Data Science - Rafael A. Irizarry 2019-11-20

Introduction to Data Science: Data Analysis and Prediction Algorithms with R introduces concepts and skills that can help you tackle real-world data analysis challenges. It covers concepts from probability, statistical inference, linear regression, and machine learning. It also helps you develop skills such as R programming, data wrangling, data visualization, predictive algorithm building, file organization with UNIX/Linux shell, version control with Git and GitHub, and reproducible document preparation. This book is a textbook for a first course in data science. No previous knowledge of R is necessary, although some experience with programming may be helpful. The book is divided into six parts: R, data visualization, statistics with R, data wrangling, machine learning, and productivity tools. Each part has several chapters meant to be presented as one lecture. The author uses motivating case studies that realistically mimic a data scientist's experience. He starts by asking specific questions and answers these through data analysis so concepts are learned as a means to answering the questions. Examples of the case studies included are: US murder rates by state, self-reported student heights, trends in world health and economics, the impact of vaccines on infectious disease rates, the financial crisis of 2007-2008, election forecasting, building a baseball team, image processing of hand-written digits, and movie recommendation systems. The statistical concepts used to answer the case study questions are only briefly introduced, so complementing with a probability and statistics textbook is highly recommended for in-depth understanding of these concepts. If you read and understand the chapters and complete the exercises, you will be prepared to learn the more advanced concepts and skills needed to become an expert.

The House of Morgan - Ron Chernow 2010-01-19

Published to critical acclaim twenty years ago, and now considered a classic, The House of Morgan is the most ambitious history ever written about American finance. It is a rich, panoramic story of four generations of Morgans and the powerful, secretive firms they spawned, ones that would transform the modern financial world. Tracing the trajectory of J. P. Morgan's empire from its obscure beginnings in Victorian London to the financial crisis of 1987, acclaimed author Ron Chernow paints a fascinating portrait of the family's private saga and the rarefied world of the American and British elite in which they moved—a world that included Charles Lindbergh, Henry Ford, Franklin Roosevelt, Nancy Astor, and Winston Churchill. A masterpiece of financial history—it was awarded the 1990 National Book Award for Nonfiction and selected by the Modern Library as one of the 100 Best Nonfiction Books of the Twentieth Century—The House of Morgan is a compelling account of a remarkable institution and the men who ran it, and an essential book for understanding the money and power behind the major historical events of the last 150 years.

The Swachh Bharat Revolution - Parameswaran Iyer 2019-09-28

On 15 August 2014, in his maiden Independence Day address to the country, Narendra Modi became the first Prime Minister of India to take on the national shame of open defecation. Launched a few weeks later, on Gandhi Jayanti, the Swachh Bharat Mission has come a long way over the past five years. India is now close to declaring itself an Open Defecation Free nation on 2 October 2019, the 150th birth anniversary of the Father of the Nation. The Swachh Bharat Revolution looks at all that went into making this remarkable transformation happen, and how a nation of over a billion people led the largest people's movement in the world to make the impossible possible. This is a compendium of essays -- with names such as Arun Jaitley, Amitabh Kant, Ratan Tata, Sadhguru, Amitabh Bachchan, Akshay Kumar, Tavleen Singh, Bill Gates and many more, along with a message from Prime Minister Modi himself -- that celebrates a historic national achievement.

Renewable Energy Forecasting - Georges Kariniotakis 2017-09-29

Renewable Energy Forecasting: From Models to Applications provides an overview of the state-of-the-art of renewable energy forecasting technology and its applications. After an introduction to the principles of meteorology and renewable energy generation, groups of chapters address forecasting models, very short-term forecasting, forecasting of extremes, and longer term forecasting. The final part of the book focuses on important applications of forecasting for power system management and in energy markets. Due to shrinking fossil fuel reserves and concerns about climate change, renewable energy holds an increasing share of the energy mix. Solar, wind, wave, and hydro energy are dependent on highly variable weather conditions, so their increased penetration will lead to strong fluctuations in the power injected into the electricity grid, which needs to be managed. Reliable, high quality forecasts of renewable power generation are therefore essential for the smooth integration of large amounts of solar, wind, wave, and hydropower into the grid as well as for the profitability and effectiveness of such renewable energy projects. Offers comprehensive coverage of wind, solar, wave, and hydropower forecasting in one convenient volume Addresses a topic that is growing in importance, given the increasing penetration of renewable energy in many countries Reviews state-of-the-science techniques for renewable energy forecasting Contains chapters on operational applications

Things to Leave Behind - Namita Gokhale 2016-11-14

A rich, panoramic historical novel shows you Kumaon and the Raj as you have never seen them It is 1856, in picturesque Kumaon. History has already begun its steady march. Six native women clad in black and scarlet pichauras huddle around Naineetal Lake, attempting to cleanse it of threatening new influences. For, these are the days of Upper Mall Road (for Europeans and their horses) and Lower Mall Road ('for dogs, servants and other Indians'). And this is the story of feisty young Tilottama Dutt, whose uncle hangs when he protests the reigning order—and her daughter, Deoki, who will confront change as Indians, and as women. Things to Leave Behind brings alive the romance of the mixed legacy of British-Indian past. Full of the fascinating backstory of Naineetal and its unwilling entry into Indian history, throwing a shining light on the elemental confusion of caste, creed and culture, illuminated with painstaking detail, here is a fascinating historical epic—and Namita Gokhale's most ambitious novel yet.

For its comparative analysis and insights, it is of value to the entire competition community.

Changing Economic Order - Julien van den Broeck 1992

Lean Construction - Patricia Tzortzopoulos 2020-02-26

This book collates the main research developments around Lean Construction over the past 25 years with contributions from many seminal authors in the field. It takes stock of developments since the publication of Koskela's (1992) Application of the New Production Philosophy to Construction and, in doing so, challenges current thinking and progress. It also crystallises theoretical conceptualisations and practically situated learning whilst identifying future research challenges, agendas and opportunities for global collaborative actions. The contributors present the development of Lean Construction as a fundamental part of improving construction productivity, quality and delivery of value to clients and users of built infrastructure. In doing so, the book introduces the reader to the foundational principles and theories that have influenced the way we now understand Lean Construction and has provided very useful insights to students, practitioners and researchers on key junctures over the last 25 years. Highlighting the key contemporary developments and using global case study material the chapters demonstrate good practice but also help introduce new thinking to both lay readers and experienced practitioners alike. This book is essential reading for undergraduate and postgraduate students, researchers and practitioners with an interest in Lean Construction and construction management, providing a general understanding of the area, current state of the art knowledge as well as providing an insight into areas for future research.

A Gandhian Affair - Sanjay Suri 2019-07-05

Hindi cinema, ever since Independence, has revolved almost entirely around issues of sex and money. This may seem odd given the conservative taste of the times. But that we do not 'see' sex does not hide just how much sex there is in the cinema. As for money, a nagging theme is the impact of money - or the lack of it - on sex. Sanjay Suri argues that Hindi cinema was an unlikely offspring of the Father of the Nation - the product of Gandhi's celibacy and austerity. His heroic retreat from wealth and sexuality was written into the cinema and then elaborately filmed shot by shot. Suri draws on numerous examples - from Mother India to Do Bigha Zameen; Shree 420 to Pyaasa; Sahib, Bibi aur Ghulam to Guide; and Dilwale Dulhania Le Jayenge to Lage Raho Munnabhai - to show how cinema was made within well-defined moral fences that were built with dos and don'ts about sex and money. A Gandhian Affair is a history of India through the preoccupations of its cinema.

Forty Thieves - Thomas Perry 2015-12-15

Married sleuths cross paths with married assassins in this "priceless" mystery by the bestselling author of the Jane Whitefield series (The New York Times). Sid and Ronnie Abel are a first-rate husband-and-wife detective team, both ex-LAPD. Ed and Nicole Hoyt are married assassins-for-hire living in the San Fernando Valley. Except for deadly aim with a Glock 17, the couples have little in common—until they're hired to do damage control on the same murder. The body of research scientist James Ballantine has been pulled from a storm sewer, with two bullet holes in the back of his head. With the case turning cold, Ballantine's former employers bring in the Abels to succeed where the police have failed. As for the Hoyts, their mysterious

contractors want to make sure that the facts about Ballantine's death stay hidden. Now the Abels must try to survive as they circle ever closer to the truth, and to a dangerous pair guarding it with their lives. From "a master of nail-biting suspense" (Los Angeles Times), comes a "propulsive, darkly humorous" (Publishers Weekly) "double-barreled Southern California thriller that moves almost faster than a speeding bullet" (The Wall Street Journal).

Climate Change Litigation: Global Perspectives - Ivano Alogna 2021-04-26

This ground-breaking volume provides analyses from experts around the globe on the part played by national and international law, through legislation and the courts, in advancing efforts to tackle climate change, and what needs to be done in the future. Published under the auspices of the British Institute of International and Comparative Law (BIICL), the volume builds on an event convened at BIICL, which brought together academics, legal practitioners and NGO representatives. The volume offers not only the insights from that event, but also additional materials, solicited to offer the reader a more complete picture of how climate change litigation is evolving in a global perspective, highlighting both opportunities, and constraints.

The Remains of the Day - Kazuo Ishiguro 2010-07-15

BOOKER PRIZE WINNER • From the winner of the Nobel Prize in Literature, here is "an intricate and dazzling novel" (The New York Times) about the perfect butler and his fading, insular world in post-World War II England. This is Kazuo Ishiguro's profoundly compelling portrait of a butler named Stevens. Stevens, at the end of three decades of service at Darlington Hall, spending a day on a country drive, embarks as well on a journey through the past in an effort to reassure himself that he has served humanity by serving the "great gentleman," Lord Darlington. But lurking in his memory are doubts about the true nature of Lord Darlington's "greatness," and much graver doubts about the nature of his own life.

Data Interpretation & Data Sufficiency - Ananta Ashisha, Sandeep Bajaj 2020-09-17

Excessive Pricing and Competition Law Enforcement - Yannis Katsoulacos 2018-10-16

This volume examines the controversy surrounding the use of competition law to combat excessive pricing. While high or monopolistic pricing is not regarded as an antitrust violation in the US, employing abuse of dominance provisions in competition laws to fight excessive pricing has gained popularity in some BRICS jurisdictions and a number of EU-member states in recent years. The book begins by discussing the economic arguments for and against the prohibition of excessive or unfair prices by firms with market power. It then presents various country studies, focusing on developed countries (such as the UK and Israel) and on the BRICS countries, to highlight various practical challenges involved in recognizing

excessive prices as abusive conduct on the part of dominant firms, including how to define, measure and identify excessive prices. The contributors also discuss other policy options that can be used to fight excessive prices in order to protect consumer welfare.

When God Is A Traveller - Arundhathi Subramaniam 2020-01-25

Arundhathi Subramaniam's poems explore ambivalences -- the desire for adventure and anchorage, expansion and containment, vulnerability and strength, freedom and belonging, withdrawal and engagement, language as exciting resource and as desperate refuge. These are poems of wonder and precarious elation, and all the roadblocks and rewards on the long dangerous route to recovering what it is to be alive and human. Winner of the inaugural Khushwant Singh Poetry Prize and shortlisted for the 2014 T.S. Eliot Prize, *When God Is a Traveller* is a remarkable book of poetry.

Objective Arithmetic: Numerical Ability Tests for Competitive Examinations - R. S. Aggarwal 1990

Financial Shenanigans - Howard M. Schilit 2002-03-22

Techniques to uncover and avoid accounting frauds and scams Inflated profits . . . Suspicious write-offs . . . Shifted expenses . . . These and other dubious financial maneuvers have taken on a contemporary twist as companies pull out the stops in seeking to satisfy Wall Street. *Financial Shenanigans* pulls back the curtain on the current climate of accounting fraud. It presents tools that anyone who is potentially affected by misleading business valuations from investors and lenders to managers and auditors can use to research and read financial reports, and to identify early warning signs of a company's problems. A bestseller in its first edition, *Financial Shenanigans* has been thoroughly updated for today's marketplace. New chapters, data, and research reveal contemporary "shenanigans" that have been known to fool even veteran researchers.

The xVA Challenge - Jon Gregory 2015-09-24

A detailed, expert-driven guide to today's major financial point of interest *The xVA Challenge: Counterparty Credit Risk, Funding, Collateral, and Capital* is a practical guide from one of the leading and most influential credit practitioners, Jon Gregory. Focusing on practical methods, this informative guide includes discussion around the latest regulatory requirements, market practice, and academic thinking. Beginning with a look at the emergence of counterparty risk during the recent global financial crisis, the discussion delves into the quantification of firm-wide credit exposure and risk mitigation methods, such as netting and collateral. It also discusses thoroughly the xVA terms, notably CVA, DVA, FVA, ColVA, and KVA and their interactions and overlaps. The discussion of other aspects such as wrong-way risks, hedging, stress testing, and xVA management within a financial institution are covered. The extensive coverage and detailed treatment of what has become an urgent topic makes this book an invaluable reference for any practitioner, policy maker, or student. Counterparty credit risk and related aspects such as funding, collateral, and capital have become key issues in recent years, now generally characterized by the term 'xVA'. This book provides practical, in-depth guidance toward all aspects of xVA management. Market practice around counterparty credit risk and credit and debit value adjustment (CVA and DVA) The latest regulatory developments including Basel III capital requirements, central clearing, and mandatory collateral requirements The impact of accounting requirements such as IFRS 13 Recent thinking on the applications of funding, collateral, and capital adjustments (FVA, ColVA and KVA) The sudden realization of extensive counterparty risks has severely compromised the health of global financial markets. It's now a major point of action for all financial institutions, which have realized the growing importance of consistent treatment of collateral, funding, and capital alongside counterparty risk. *The xVA Challenge: Counterparty Credit Risk, Funding, Collateral, and Capital* provides expert perspective and real-world guidance for today's institutions.

Budding Hopes - Vivien Dean 2022-02-12

For eight months, Dr. Mark Vance has been visiting Sheehan's Nursery to buy flowers for his mother's grave, and every week, Hal Sheehan slips an extra lily into the bunch. Mark would love nothing more than to get to know the gentle giant better, but in 1950s Baltimore, a man just doesn't ask another man out. His fears are compounded when a visit the day before Valentine's casts doubts on Hal's intentions. Maybe he really was meant to live a life of secrets. Or maybe he just needs the holiday to discover the best secret of them all.

The Business of Sharing - Alex Stephany 2015-04-07

The 'sharing economy' is changing the rules of business. Why buy a hedge trimmer that you use twice a year? Why not borrow someone else's? Why leave your driveway empty all day while you're at work? Why not charge someone to park there while you're not using it? And if your business is selling hedge trimmers or parking - or anything else people can share - what do you do about it? Already, the sharing economy or 'collaborative consumption' lets people earn over \$15 billion a year by renting and selling what they own: from cars and homes to money and time. And that's almost nothing. According to PwC, the sharing economy will grow into a \$335 billion market by 2025. TIME Magazine calls it "One of 10 Ideas that will Change the World." Pulitzer Prize-winner Thomas L. Friedman calls it "The real deal". Today, fast-moving tech startups like Airbnb and Uber are disrupting huge sectors of the old economy, mobilising millions of micro-entrepreneurs in the process. As Silicon Valley investors pile cash into sharing economy startups, some of the world's largest companies are watching their backs. How can the 20th century's corporate beasts not only survive but thrive in a new world of peer-to-peer commerce and sharing? Written by one of the business leaders of the movement, *The Business of Sharing* is an insider's guide to the sharing economy: for anyone thinking of entering the sharing economy and profiting from the upheavals ahead. From the boardroom of Sequoia Capital to 10 Downing Street, Stephany meets the powerbrokers pulling the strings in this new economy. And he meets the ordinary people cashing out. This critically acclaimed new book includes colorful original interviews with entrepreneurs like the founders of Airbnb and Zipcar and the world's top venture capitalists, plus case studies of major brands from around the world. *The Business of Sharing* is essential reading for anyone looking to get to grips with one of today's must-understand global trends.

Ethnic Business - Brian C. Folk 2013-03-07

The role of ethnic Chinese business in Southeast Asia in catalyzing economic development has been hotly debated - and often misunderstood - throughout cycles of boom and bust. This book critically examines some of the key features attributed to Chinese business: business-government relations, the family firm, trust and networks, and supposed 'Asian' values. The in-depth case studies that feature in the book reveal considerable diversity among these firms and the economic and political networks in which they manoeuvre. With contributions from leading scholars and under the impressive editorship of Jomo and Folk, *Ethnic Business* is a well-written, important contribution to not only students of Asian business and economics, but also professionals with an interest in those areas.

With these new unabridged and inexpensive editions, Wiley hopes to extend the life of these important works by making them available to future

generations of mathematicians and scientists. Currently available in the Series: Emil Artin Geometric Algebra R. W. Carter Simple Groups Of Lie Type Richard Courant Differential and Integral Calculus. Volume I Richard Courant Differential and Integral Calculus. Volume II Richard Courant & D. Hilbert Methods of Mathematical Physics, Volume I Richard Courant & D. Hilbert Methods of Mathematical Physics. Volume II Harold M. S. Coxeter Introduction to Modern Geometry. Second Edition Charles W. Curtis, Irving Reiner Representation Theory of Finite Groups and Associative Algebras Nelson Dunford, Jacob T. Schwartz Linear Operators. Part One. General Theory Nelson Dunford, Jacob T. Schwartz Linear Operators, Part Two. Spectral Theory—Self Adjacent Operators in Hilbert Space Nelson Dunford, Jacob T. Schwartz Linear Operators. Part Three. Spectral Operators Peter Henrici Applied and Computational Complex Analysis. Volume I—Power Series-Integration-Contour Mapping-Location of Zeros Peter Hilton, Yet-Chiang Wu A Course in Modern Algebra Harry Hochstadt Integral Equations Erwin Kreyszig Introductory Functional Analysis with Applications P. M. Prenter Splines and Variational Methods C. L. Siegel Topics in Complex Function Theory. Volume I —Elliptic Functions and Uniformization Theory C. L. Siegel Topics in Complex Function Theory. Volume II —Automorphic and Abelian Integrals C. L. Siegel Topics In Complex Function Theory. Volume III —Abelian Functions & Modular Functions of Several Variables J. J. Stoker Differential Geometry
