European Union Law for International Business - Bernard Bishop 2009-08-18

Written specifically for exporters and those without legal training, this book is an introduction to the business laws of the European Union that need to be understood by those operating outside the EU. It is a practical guide to the regulatory and procedural issues that exporters and businesses need to be aware of. While providing an overview of how the EU operates as a governing body, the book addresses the key matters that exporters will face during their business transactions. Topics covered include: • Direct export transactions to the EU • Exporting via an agent or distributor • Customs laws and procedures • Resolving international business disputes • How to establish a permanent business presence within the EU The book uses case studies to illustrate how these transaction types can be applied to real world business dealings. It is an essential resource for anyone involved in international business with customers in the European Union.

International Merchandise Trade Statistics - United Nations Department of Economic and Social Affairs 2017-02-22

The International Merchandise Trade Statistics: Compilers Manual, Revision 1 (IMTS 2010-CM) supports statisticians in countries in the implementation of the new and updated recommendations contained in International Merchandise Trade Statistics: Concepts and Definitions, Revision 3 (IMTS 2010). The Manual contains further and more detailed explanation of certain recommendations and provides practical guidance for trade statistics compilers by

describing good or best practices applicable under different circumstances. However, the Manual is also a very valuable source of information for all users and analysts of trade statistics as it highlights critical issues of trade statistics and its compilation and describes existing country practises in numerous examples. Readers will gain an inside look in trade statistics, allowing an in depth understanding of issues and practises.

Environmental Taxes Handbook - Ian Fleming 2006

Some aspect or other of the negative impact of human activities upon the environment hits the headlines on an almost daily basis. While differences remain between the major industrialised nations over the steps which should be taken to reduce that impact, many European countries, including the UK, have introduced rules to their tax systems to penalise those activities likely to cause most environmental damage, and have introduced tax incentives to reduce detrimental environmental impact. Businesses which are involved in any activity identified by the law as attracting an environmental tax penalty will need to know what their liabilities and obligations are. Equally, businesses eligible for environmental tax incentives will want to be in a position to claim their full entitlement to allowances. This book covers the UK "penalty" taxes, namely landfill tax, climate change levy and the aggregates levy, as well as the topical issue of the EU emissions trading scheme and the system which allows companies a tax deduction for the costs of cleaning up contaminated land. It also deals with the tax incentives, such as special benefit rules for cars with low CO2 emissions and tax incentives to encourage staff to cycle to work. The book provides a comprehensive guide to the current range of UK environmental taxes and incentives aimed at businesses (and their advisers) potentially affected by them.

Introduction to Marine Cargo Management - Mark Rowbotham 2014-03-21

Cargo management, especially in the maritime sphere, plays a vital role in the transfer of goods between seller and buyer. However, despite over 90% of the world's international trade being conducted by sea, often very little is known about this subject by either party. This unique text provides a clear and comprehensive introduction to the principal elements involved in the management of marine cargo and the carriage of goods by sea. Not only does it analyse key theories and debates in the maritime freight sector, it is equally instructive on practice and logistics. Furthermore, the book provides a thorough guide to the roles and responsibilities of all parties involved in this dynamic industry. This second edition has been fully revised and updated to incorporate the very latest changes in cargo management legislation and procedures, including: Offshore oil & gas supply management The revised INCOTERMS 2010 Tramp shipping and spot cargo trading Project cargo management Dry and liquid bulk cargo management The IMDG Code and the marine carriage of dangerous and hazardous goods Cabotage Salvage Risk management and best practice This is an essential guide for shipping

professionals, academics and students of marine logistics, and international trade.

The Trade and Climate Change Nexus - Paul Brenton 2021-10-22

While trade exacerbates climate change, it is also a central part of the solution because it has the potential to enhance mitigation and adaptation. This timely report explores the different ways in which trade and climate change intersect. Trade contributes to the emissions that cause global warming and is itself also affected by climate change through changing comparative advantages. The report also confronts several myths concerning trade and climate change. The Trade and Climate Change Nexus: The Urgency and Opportunities for Developing Countries focuses on the impacts of, and adjustments to, climate change in developing countries and on how future trade opportunities will be affected by both the changing climate and the policy responses to address it. The report discusses how trade can provide the goods and services that drive mitigation and adaptation. It also addresses how climate change creates immense challenges for developing countries, but also new opportunities to promote trade diversification in the transition to a low-carbon world. Suitable trade and environmental policies can offer effective economic incentives to attain both sustainable growth and poverty reduction.

Understanding the Freight Business - Kevin Willmott 2001

The movement of cargo between the UK and overseas markets - and the administration surrounding it - can be complex. Each transport mode has its own ground rules and such mystery can appear daunting to any newcomer. This reference book aims to unravel these complexities. It covers topics such as: transport modes; insurance; customs practice; e-commerce; documentation; and payment for exports. It is designed to be a comprehensive tool for freight forwarders, shippers, importers, exporters and transport operators.

Handbook of Asian Criminology - Jianhong Liu 2012-12-09

The Handbook of Asian Criminology aims to be a key reference for international scholars with an interest in the broad theme of international criminology in general, and the Asian region in particular. Contextualization is a key theme in this book. The role of context is often underemphasized in international criminology, so the Handbook of Asian Criminology's premise that crime and the responses to it are best understood as deeply embedded in the cultural specificity of the environment which produces them will play a key role throughout the work. Attention will be given to country- and region specific attitudes towards crime and punishment.

International Business Law and the Legal Environment - Larry A. DiMatteo 2021-01-29

The fourth edition of International Business Law and the Legal Environment: A Transactional Approach gives business and law students a clear understanding of the legal principles that govern international business. This book goes beyond compliance by emphasizing how to use the law to create value and competitive advantage. DiMatteo's transactional approach walks students through key business transactions—from import and export, contracts, and finance to countertrade, dispute resolution, licensing, and more—giving them both context and providing real-world applications. More concise than previous editions, this new edition also features: • Added coverage of new technologies, such as smart contracts, digital platforms, and blockchain technology • Discussion of businesses and sustainability, climate change, and creating a circular economy • Greater focus on UNIDROIT Principles and a review of INCOTERMS 2020 • Expansion of common carrier coverage to include CMI trucking and CMR railway conventions • International perspective and use of a variety of national and international law materials • Great coverage of EU substantive law Upper-level undergraduate and postgraduate students of business law and international business will appreciate DiMatteo's lucid writing style, and professionals will find this book to be a comprehensive resource. Online resources include an instructor's manual, PowerPoint slides, test bank, and other tools to provide additional support for students and instructors.

A Manual on Statistics of International Trade in Services - International Monetary Fund

2003-03-06

The Manual sets out an internationally agreed framework for the compilation and reporting of statistics on international trade in services in the broad sense. It addresses the growing need, including in international trade negotiations and agreements, for more detailed, comparable, and comprehensive statistics on this type of trade in its various forms. The recommendations will enable countries to progressively expand and structure the information they compile in an internationally comparable way. The Manual conforms with and explicitly relates to the System of National Accounts 1993 and the fifth edition of the IMF's Balance of Payments Manual. It is published jointly by the United Nations, European Union, IMF, OECD, UNCTAD, and World Trade Organization.

Africa's digital future - Ali Parry 2021-12-31

The main thrust of this book is to examine whether Africa is in a position to benefit from the digital age, given the continent's many development challenges and slow adoption of digital technologies. While there is substantial literature on the digital economy and the quickening pace of the Fourth Industrial Revolution (4IR), comparatively little research has been conducted on what the digital age means for Africa. This book aims to close this research gap by using various qualitative and quantitative research methodologies to arrive at a cross-section of original findings and perspectives on how Africa can capitalise on the benefits of digital developments, including their potential to create jobs and bring about more inclusive growth. The book's main contribution is its coverage of a range of topics that will affect Africa's digital future, including industrialisation, global value chains, transport and logistics, trade facilitation, labour-market dynamics, employment and education. The theme of digital trade forms a backdrop to many of the chapters, along with references to the COVID-19 pandemic. The book acknowledges that although African countries should learn from international best practices, they need to chart their own course according to their own particular circumstances. By adopting a digital mindset, countries should be able to diversify economically and extend their market reach across the continent. Furthermore, while Africa should be looking to the future and determining how digital technologies can become effective tools of sustainable development, the continent has much catching up to do.

International Merchandise Trade Statistics - United Nations 2011

This edition provides a comprehensive methodological framework for collection and compilation of international merchandise trade statistics in all countries, irrespective of the level of development of their statistical system. The conceptual framework reflects both the multipurpose nature of these statistics and concern for availability of the adequate data sources and data compilation procedures. It is intended primarily for the producers of international trade statistics, particularly the staff of national statistical offices and/or customs involved in the collection and compilation of merchandise trade statistics, but may be also useful to researchers and other users interested in better understanding the nature of trade statistics.
