Forex Swing Trading - Logan Trade 2020

Do you know what Swing Trading in Forex is? Do you want to know how Swing Trading is done? You have come to the right place! Swing trading is trading that occurs over a longer period of time than day trading; however, this does not mean that the investor will hold onto a share for longer than a day. This means a swing trader might trade a share within an hour or at the end of the trading day. As the name might suggest, a swing trader is looking to profit from a situation where the market is going to change directions over a given period of time. This being the case, timing is perhaps more important for a swing trader than it is for a day trader. Day traders have to worry about time less than swing traders, because they are often trading in a much higher volume and at a much faster pace than swing traders. A swing trader is looking for more patterns in the forex market than a day trader, especially if the day trader's strategy is to sell a share as soon as the price rises even a tiny bit. Fundamental Analysis and Swing Trading Fundamental analysis is a research tool used by many investors. Its application goes beyond the forex market; however, for swing traders, in particular, fundamental analysis is considered to be of great importance. Fundamental analysis is a type of research methodology that goes beyond the numbers that exist on charts, tables,

and the like. In forex, fundamental analysis analyzes economic, social, and political forces that may affect the supply and demand of an asset. Traders have to look at different factors to determine countries and currencies backed by strong or weak economies, understand the reasons why and how certain events like an increase in the unemployment rate affects a country's economy and monetary policy which ultimately, affects the level of demand for its currency. The idea behind fundamental analysis is that if a country's current or future economic outlook is good, their currency should strengthen since the better shape a country's economy is, the more foreign businesses and investors will be willing to invest in that country. In this book we will discuss the following topics: What Swing Trading Is Why It Is a Relatively Simple Trading Technique The Use of Technical Analysis How to Study Graphs Use of Indicators Candlesticks And Many More! Do we have your attention now? Are you excited? Look no more! Buy our book now and learn everything about Swing Trading in Forex!

Stock Patterns for Day Trading and Swing Trading
- Barry Rudd 1998

numerous articles on currency trading strategy and technical analysis for major financial publications. These include Forbes.com, Futures Magazine, Technical Analysis of Stocks and Commodities Magazine, and Stocks, Futures and Options (SFO) Magazine.

How to Day Trade for a Living - Andrew Aziz
2016-07-28

Very few careers can offer you the freedom, flexibility and income that day trading does. As a day trader, you can live and work anywhere in the world. You can decide when to work and when not to work. You only answer to yourself. That is the life of the successful day trader. Many people aspire to it, but very few succeed. Day trading is not gambling or an online poker game. To be successful at day trading you need the right tools and you need to be motivated, to work hard, and to persevere. At the beginning of my trading career, a pharmaceutical company announced some positive results for one of its drugs and its stock jumped from \$1 to over \$55 in just two days. Two days! I was a beginner at the time. I was the amateur. I purchased 1,000 shares at \$4 and sold them at over \$10. On my very first beginner trade, I made \$6,000 in a matter of minutes. It was pure luck. I honestly had no idea what I was doing. Within a few weeks I had lost that entire \$6,000 by making mistakes in other trades. I was lucky. My first stupid trade was my lucky one. Other people are not so lucky. For many, their first mistake is their last trade because in just a few minutes, in one simple trade, they lose all of the money they had worked so hard for. With their account at zero, they walk away from day trading. As a new day trader you should never lose sight of the fact that you are competing with professional traders on Wall Street and other experienced traders around the world who are very serious, highly equipped with advanced education and tools, and most importantly, committed to making money. Day trading is not gambling. It is not a hobby. You must approach day trading very, very seriously. As such, I wake up early, go for a run, take a shower, get dressed, eat breakfast, and fire up my trading station before the markets open in New York. I am awake. I am alert. I am motivated when I sit down and start working on the list of stocks I will watch that day. This morning routine has tremendously helped my mental preparation

for coming into the market. Whatever your routine is, starting the morning in a similar fashion will pay invaluable dividends. Rolling out of bed and throwing water on your face 15 minutes before the opening bell just does not give you sufficient time to be prepared for the market's opening. Sitting at your computer in your pajamas or underwear does not put you in the right mindset to attack the market. I know. I've experienced all of these scenarios. In **How to Day Trade for a Living**, I will show you how you too can take control over your life and have success in day trading on the stock market. I love teaching. It's my passion. In this book, I use simple and easy to understand words to explain the strategies and concepts you need to know to launch yourself into day trading on the stock market. This book is definitely NOT a difficult, technical, hard to understand, complicated and complex guide to the stock market. It's concise. It's practical. It's written for everyone. You can learn how to beat Wall Street at its own game. And, as a purchaser of my book, you will also receive a membership in my community of day traders at www.vancouver-traders.com. You can monitor my screen in real time, watch me trade the strategies explained in his book, and ask questions of me and other traders in our private chat room. I invite you to join me in the world of day trading. I'm a real person who you can connect with. I'm not just a photograph here on the Amazon site. I love what I do. You can follow my blog post under Author Updates on my Author page on Amazon. It's honest. You'll see I lose some days. You can read the reviews of my book. I know you will learn much about day trading and the stock market from studying my book. You can join at no cost and with no obligation my community of day traders at www.vancouver-traders.com. You can ask us questions. Practical, hands-on knowledge. That's **How to Day Trade for a Living**.

Day Trading and Swing Trading the Currency Market - Kathy Lien 2015-12-14

You'll learn how the interbank currency markets work, and how to borrow strategy from the biggest players to profit from trends. Clear and comprehensive, this book describes the technical and fundamental strategies that allow individual traders to compete with bank traders, and gives you comprehensive explanations of strategies involving intermarket relationships, interest rate differentials, option volatilities, news events, and more. The companion website gives you access to video seminars on how to be a better trader, providing another leg up in this competitive market. The multi-billion-dollar foreign exchange market is the most actively traded market in the world. With online trading platforms now offering retail traders direct access to the interbank foreign exchange market, there's never been a better time for individuals to learn the ropes of this somewhat secretive area. This book is your complete guide to forex trading, equipping you to play with the big guys and win—on your own terms. Understand how the foreign currency markets work, and the forces that move them Analyze the market to profit from short-term swings using time-tested strategies Learn a variety of technical trades for navigating overbought or oversold markets Examine the unique characteristics of various currency pairs Many of the world's most successful traders have made the bulk of their winnings in the currency market, and now it's your turn. Day Trading and Swing Trading the Currency Market is the must-have guide for all foreign exchange traders.

Forex Trading: Beginner's Guide to the Best Swing and Day Trading Strategies, Tools, Tactics and Psychology to Profit from Outstandin - David Reese 2019-03-06

Are you searching for a reliable source of passive income to supplement your salary? Would you like to gain financial freedom and eventually quit your day job? Are you new to investing and looking for expert guidance to help you enhance your skills? If you're ready to take your fortune into your own hands by making smart investments, this is the book for you. Read on! Forex, also known as exchange or FX, involves buying and selling different currencies with the

aim of earning profits based on fluctuations in the values of these currencies. This essential guidebook empowers you to understand the ins and outs of forex trading, develop winning strategies and identify the indicators necessary for success. While stock market investments can generate a great deal of profit, the average investor actually loses money over the course of a year. Effective trading requires applying specific strategies and developing a certain mindset. Trading blindly is nothing more than gambling --- and not worth the risk. The forex market is the largest market in the world. Because it is decentralized and even bigger than the stock exchange market, forex attracts a large number of traders, from beginners to experts. This makes finding a buyer or seller easier than in other trade markets. Despite the inherent risks that come with any type of trading, Forex offers many advantages, from leverage to fast returns to simple tax rules. In the past, traders had to go through brokers. Today, advancements in technology enable traders to transact directly using trading platform software and apps. FOREX TRADING 2019: Beginners' Guide to the Best Swing and Day Trading Strategies, Tools, Tactics, and Psychology to Profit from Outstanding Short-Term Trading Opportunities on Currencies Pairs, David Reese will guide you step-by-step with powerful tactics for accessing the foreign exchange market and its great potential to become a highly lucrative stream of income. You will learn all about: Day trading and swing trading strategies in the forex market How to take advantage of volatility and liquidity The 12 greatest benefits of forex trading 7 approaches to fundamental analysis, explained in plain English 8 simple day trading strategies that work Recommendations for the best tools and software to assist you The 5 most common mistakes to avoid And much more! The time-tested practices in this book are simple to follow. If you are willing to put forth the effort, with focus and persistence you'll start to see and benefit from the results. Even if you're a brand-new beginner to forex trading, you can discover confidence and success with the help of the tools and techniques outlined in this book. The information clearly presented here will provide you with the key strategies you need. Ready to uplevel your investment skills? Start today by

Millionaire Traders - Kathy Lien 2010-03-01

Trading is a battle between you and the market. And while you might not be a financial professional, that doesn't mean you can't win this

battle. Through interviews with twelve ordinary individuals who have worked hard to transform themselves into extraordinary traders, Millionaire Traders reveals how you can beat Wall Street at its own game. Filled with in-depth insights and practical advice, this book introduces you to a dozen successful traders-some who focus on equities, others who deal in futures or foreign exchange-and examines the paths they've taken to capture considerable profits. With this book as your guide, you'll quickly become familiar with a variety of strategies that can be used to make money in today's financial markets. Those that will help you achieve this goal include: Tyrone Ball: trades Nasdaq stocks almost exclusively, and his ability to change with the times has enabled him to prosper during some of the most treacherous market environments in recent history. AShkan Bolour: one of the earliest entrants into the retail forex market, he trades in the direction of the major trend, rather than trying to find reversals. Frank Law: a technician at heart, identifies a trading zone, commits to it, and scales down as long as the zone holds. Paul Willette: has mastered a method that allows him to harvest some profits right away, while ensuring that he can still benefit from an occasional extension run in his favor. Order your copy today and beat the Street.

Swing Trading using the 4-hour chart 1-3 - Heikin Ashi Trader 2016-09-15

Swing Trading using the 4-hour chart 1-3: 3 Manuscripts Swing trading is too fast for investors and too slow for day traders. It takes place on a timeframe in which you will find very few professionals traders. Swing traders usually use 4-hour charts. This period falls exactly between that of the investor and the day trader. As a swing trader, you are prone to sit on the fence, and that's good, because here you are almost alone. This book describes the swing trading method of the Heikin Ashi Trader. It is ideal for individual investors who do not want to sit all day in front of the computer screen. Part 1: Introduction to Swing Trading 1. Why Swing Trading? 2. Why should you trade using the 4-hour chart? 3. Which markets are suitable for swing trading? 4. What instruments you can swing trade? 5. Swing Trading Setups A. Support and Resistance B. double top and double bottom C. breakouts D. flags and pennants 6. Money

Management 7. Why you need a Trading Diary 8. What is it all about? Part 2: Trade the Fake! In the second part of the series "Swing Trading using the 4-hour chart" the Heikin Ashi Trader speaks about the phenomenon of stop fishing and Fakeouts as well as the many deceptions that major players and algorithms stage in today's financial markets. These often seem more the rule than the exception. 1. A feint at its finest! 2. How to identify fakes? 3. How do I trade Fakes? 4. Fakes at technical chart patterns A. flags B. triangles C. Trend Channels 5. Trading cross rates 6. More complex patterns Glossary Part 3: Where Do I Put My Stop? In the third part of the series on "Swing Trading using the 4-hour chart", the Heikin Ashi Trader treats the question on where the stop should be. Once a trader stops introducing stops, he will discover that his hit rate will worsen. However, by doing this he gains full control of the trade management. Stops are therefore not unavoidable, but remain an integral part of a trading system that is profit-oriented. Table of Contents 1. Are Stops Necessary? 2. What Is a Stop Loss Order? 3. Stop Management 4. Play Your Own Game 5. Cut Your Losses 6. And Let your Profits Run 7. Stop Management in Trending Markets 8. Stop Management with Price Targets 9. The Swiss Franc Tsunami, a Healing Moment of the Trader Community 10. How Many Positions Can I Keep at the Same Time? Glossary Profitable Day and Swing Trading, + Website - Harry Boxer 2014-07-28

"Harry Boxer's proven techniques for short-term traders...explains the trading tactics that draw on price, volume, and pattern recognition...offers the information needed to recognize chart patterns, identify trades, and execute entries and exits that will maximize profits and limit losses...reveals his concept of price-volume surges as the key to identifying the most lucrative trades...describes his routine for preparing for each trading day...his strategies can be applied for both day trading and swing trading"--

Following the first section that explains in plain English—what is Forex trading, how money is made in the Forex "game," the six major players involved, and the importance of knowing one's Trader Profile—the second section focuses on specific and practical guidance which includes: A "Trader Profile Test" to help the reader get a clear picture of his natural trading style and which of five trading profiles he belongs to (Scalper, Day

Trader, Swing Trader, Position Trader or Mechanical Trader) 17 proven trading strategies (between 2 to 5 strategies for each trader profile) for the reader to immediately start cashing in on the Forex market. Descriptions of an array of real-world trading scenarios, with tips on how to address them. A section that shows the reader how to custom-tailor a trading system designed for his sensibilities and risk tolerance. Forex hedging strategies for finance professionals at multinational corporations. Short on theory and long on practical insights and step-by-step guidance, 17 Proven Currency Trading Strategies—How To Profit in the Forex Market will help anyone—from beginners to professionals, and everyone in between—to master the Forex market and be consistently profitable.

Forex Swing Trading - Trade Logan 2020

Do you know what Swing Trading in Forex is? Do you want to know how Swing Trading is done? You have come to the right place! Swing trading is trading that occurs over a longer period of time than day trading; however, this does not mean that the investor will hold onto a share for longer than a day. This means a swing trader might trade a share within an hour or at the end of the trading day. As the name might suggest, a swing trader is looking to profit from a situation where the market is going to change directions over a given period of time. This being the case, timing is perhaps more important for a swing trader than it is for a day trader. Day traders have to worry about time less than swing traders, because they are often trading in a much higher volume and at a much faster pace than swing traders. A swing trader is looking for more patterns in the forex market than a day trader, especially if the day trader's strategy is to sell a share as soon as the price rises even a tiny bit. Fundamental Analysis and Swing Trading. Fundamental analysis is a research tool used by many investors. Its application goes beyond the forex market; however, for swing traders, in particular, fundamental analysis is considered to be of great importance. Fundamental analysis is a type of research methodology that goes beyond the numbers that exist on charts, tables, and the like. In forex, fundamental analysis analyzes economic, social, and political forces that may affect the supply and demand of an asset. Traders have to look at different factors to

determine countries and currencies backed by strong or weak economies, understand the reasons why and how certain events like an increase in the unemployment rate affects a country's economy and monetary policy which ultimately, affects the level of demand for its currency. The idea behind fundamental analysis is that if a country's current or future economic outlook is good, their currency should strengthen since the better shape a country's economy is, the more foreign businesses and investors will be willing to invest in that country. In this book we will discuss the following topics: What Swing Trading Is Why It Is a Relatively Simple Trading Technique The Use of Technical Analysis How to Study Graphs Use of Indicators Candlesticks And Many More! Do we have your attention now? Are you excited? Look no more! Buy my book now and learn everything about Swing Trading in Forex!

Swing Trading: For Your Financial Freedom. The Ultimate Beginner's Guide with the Best Strategies to Make Profit and Maximize Your Ga - Warren Lynch 2020-10-03

Do you want to know the ins and outs of Swing Trading while enjoying your morning coffee? If yes, then keep reading! The concept of swing trading is deceptively simple. All it means is that you can buy and sell stocks or other investments to make short-term profits. In other words, swing trading seeks to profit from short-term price movements on the stock market (or other markets such as currency trading). However, unlike day trading, the price movements we are interested in, last from days to weeks or possibly up to a couple of months or so. It differs from day trading in one key aspect. Swing trading involves holding securities overnight, possibly for weeks at a time. Therefore, you can be looking for short-term swings in the price of a stock, for example. Some people who swing trade can even lengthen that period out to a couple of months or so. You might even say you are a swing trader if your strategy is to hold stocks for several months, but buy low and sell high over that period. This book covers: - How Swing Trading Works - Tools and Platform - Financial Instruments for Swing Trading - Risk and Money Management - Fundamental Analysis - How Much I Have to Trade with Swing Trading? - Swing Trading Strategies - Entry and Exit Points And

much more! Swing trading can be used in virtually any market. It's a technique, rather than something specialized for a specific market like cryptocurrency. Nevertheless, swing traders primarily trade on stock markets. But you could apply swing trading to anything that gets traded. Would you like to know more? Forex Trading - David Reese 2021-02-06

Are you searching for a reliable source of passive income to supplement your salary? Would you like to gain financial freedom and eventually quit your day job? Are you new to investing and looking for expert guidance to help you enhance your skills? If you're ready to take your fortune into your own hands by making smart investments, this is the book for you. Read on! Forex, also known as exchange or FX, involves buying and selling different currencies with the aim of earning profits based on fluctuations in the values of these currencies. This essential guidebook empowers you to understand the ins and outs of forex trading, develop winning strategies and identify the indicators necessary for success. While stock market investments can generate a great deal of profit, the average investor actually loses money over the course of a year. Effective trading requires applying specific strategies and developing a certain mindset. Trading blindly is nothing more than gambling --- and not worth the risk. The forex market is the largest market in the world. Because it is decentralized and even bigger than the stock exchange market, forex attracts a large number of traders, from beginners to experts. This makes finding a buyer or seller easier than in other trade markets. Despite the inherent risks that come with any type of trading, Forex offers many advantages, from leverage to fast returns to simple tax rules. In the past, traders had to go through brokers. Today, advancements in technology enable traders to transact directly using trading platform software and apps. In this guidebook, David Reese will guide you step-by-step with powerful tactics for accessing the foreign exchange market and its great potential to become a highly lucrative stream of income. You will learn all about: Day trading and swing trading strategies in the forex market How to take advantage of volatility and liquidity The 12

greatest benefits of forex trading 7 approaches to fundamental analysis, explained in plain English 8 simple day trading strategies that work Recommendations for the best tools and software to assist you The 5 most common mistakes to avoid And much more! The time-tested practices in this book are simple to follow. If you are willing to put forth the effort, with focus and persistence you'll start to see and benefit from the results. Even if you're a brand-new beginner to forex trading, you can discover confidence and success with the help of the tools and techniques outlined in this book. The information clearly presented here will provide you with the key strategies you need. Ready to uplevel your investment skills? Start today by SCROLLING UP AND CLICKING THE BUY NOW BUTTON!

Risk and Money Management for Day and Swing Trading - Wieland Arlt 2020-03-06

Make your trading success predictable! Professional risk and money management is indispensable for every trader in order to improve trading results permanently and sustainably. In the heat of the moment, this is often neglected. Wieland Arlt outlines simple methods that can be implemented in practice with little effort to improve your day and swing trading. He explains different concepts for various trading styles, so that short- and medium-term oriented traders are individually accompanied from the planning of a trade to the choice of the appropriate financial market. Wieland Arlt gives practical advice and demonstrates that professional risk and money management make trading success predictable.

Thirty Days of FOREX Trading - Raghee Horner 2012-07-03

Whether you're a full-time trader looking to make a living or a part-time trader looking to make some extra money, the foreign exchange (forex) market has what you desire--the potential to make sizeable profits and 24/7 accessibility. But to make it in today's forex market, you need more than a firm understanding of the tools and techniques of this discipline. You need the guidance of someone who has participated, and

prevailed, in this type of fast-paced environment. Raghee Horner has successfully traded in the forex market for over a decade, and now, in *Thirty Days of Forex Trading*, she shares her experiences in this field by chronicling one full month of trading real money. First, Horner introduces you to the tools of the forex trade, and then she moves on to show you exactly what she does, day after day, to find potentially profitable opportunities in the forex market. Part instructional guide, part trading journal, *Thirty Days of Forex Trading* will show you--through Horner's firsthand examples--how to enter the forex market with confidence and exit with profits.

A Practical Introduction to Day Trading - Don Charles 2018-11-14

Many individuals enter financial markets with the objective of earning a profit from capitalizing on price fluctuations. However, many of these new traders lose their money in attempting to do so. The reason for this is often because these new traders lack any fundamental understanding of financial markets, they cannot interpret any data, and they have no strategy for trading. Trading in markets is really about deploying strategies and managing risks. Indeed, successful traders are those who have strategies which they have proved to be consistent in granting them more financial gains than financial losses. The purpose of this book is to help a potentially uninformed retail trader or inquisitive reader understand more about financial markets, and assist them in gaining the technical skills required to profit from trading. It represents a beginner's guide to trading, with a core focus on stocks and currencies.

Forex Trading Strategies - IFC Markets

"Forex Trading Strategies" is a complete guide of most popular and widely used strategies in Forex trade. You can read about day trading and its main types, understand the strategies based on market analysis, learn about portfolio and algorithmic trading, and many more. The book represents the ins and outs of each strategy -

why and how it is used and how to get profit from trade. It is suitable for all traders who are novice in trade or want to improve their skills. All the strategies classified and explained here are for educational purposes and can be applied by each trader in a different way.

Swing Trading Strategies - Victor Lucas 2019-09-12

Anyone interested in getting into the stock market could easily be intimidated by the frenzy of day traders. They may want to earn money fast and are not inclined to wait for the long wait like trend traders. For those kinds of people swing trading is the perfect solution. Here in this book, you will learn four strategies that will help you to enter the market at a pace that is more to your liking. There is no doubt that trading in stocks can be a very lucrative venture but to be a successful trader, you need to learn at least a few basic tricks of the trade. There is always a risk and to minimize that risk a new trader needs to develop unique strategies that will help him to protect himself as he navigates the often murky waters of the stock market. Here in this book, you'll learn: How to develop the right mindset of a trader What sector rotation is and how to use it How to read and make the best of the 4-hour chart What to do when you find yourself in a fakeout Simple steps to momentum trading As a trader, every decision you make could make or break you so it pays to have a resource at your disposal that will help you to cut through the confusion so you can make every step with confidence. Once you learn the ropes, you'll be trading like a pro in no time. If this is an area of interest for you, then it's time for you to get started and download this book now.

Start Day Trading Now - Michael Sincere 2011-02-18

Are you intimidated by day trading? Think it's only for the select few who are savvy with stocks or are financial savants? Well, think again, because anyone can master day trading--and once you learn the basic techniques, it's possible to make a boatload of money! The flip side: if you don't know what you're doing, you can lose your shirt. In this entry-level guide to day trading, MarketWatch columnist and financial journalist Michael Sincere assumes you know nothing. Zip. Zero. Inside, he shows you how to get started and breaks day trading down by clearly

explaining: What computer equipment you'll need How much money is required The technical jargon of day trading Key strategies you'll employ while trading How you can manage risk Most important, Sincere lets you in on the biggest secret of all: how to master the mind game of day trading. Thousands of day traders have watched their bank accounts balloon thanks to Wall Street. Now you can get into the market and enter their coveted ranks.

Lien's Day Trading and Swing Trading the Currency Market and The Insider's Guide to Forex - Kathy Lien 2013-04-01

This set combines Lien's book, Day Trading & Swing Trading the Currency Market with Lien's DVD, The Insider's Guide to Forex Trading. One of today's most popular forex trading educators, Lien provides an in-depth explanation of the factors that drive the forex market, market psychology, and fundamental and technical analysis. The book provides a great deal of background on the underlying dynamics of the forex market, discussing historical events, short-term market drivers, seasonalities, and currency correlations. Both the book and video delve deeply into forex trading strategies. Lien shows how to combine fundamentals with technicals, entry and exit strategies, and how to limit losses and maximize profits. Combined, the book and video will give traders a solid understanding of the forex market and how to identify and profit from market trends and fluctuations.

The Art of Currency Trading - Brent Donnelly 2019-06-05

Now you can master the art of foreign exchange trading While most currency trading and foreign exchange books focus on international finance theory or simplistic chart-based strategies, The Art of Currency Trading is a comprehensive guide that will teach you how to profitably trade currencies in the real world. Author Brent Donnelly has been a successful interbank FX trader for more than 20 years and in this book, he shares the specific strategies and tactics he has used to profit in the forex marketplace. The book helps investors understand and master foreign exchange trading in order to achieve sustainable long-term financial success. The book builds in intensity and depth one topic at a time, starting with the basics and moving on to intermediate then advanced setups and

strategies. Whether you are new to currency trading or have years of experience, The Art of Currency Trading provides the information you need to learn to trade like an expert. This much-needed guide provides: an insider's view of what drives currency price movements; a clear explanation of how to combine macro fundamentals, technical analysis, behavioral finance and diligent risk management to trade successfully; specific techniques and setups you can use to make money trading foreign exchange; and steps you can take to better understand yourself and improve your trading psychology and discipline. Written for currency traders of all skill levels, international stock and bond investors, corporate treasurers, commodity traders, and asset managers, The Art of Currency Trading offers a comprehensive guide to foreign exchange trading written by a noted expert in the field.

7 Winning Strategies For Trading Forex - Grace Cheng 2007

Many traders go around searching for that one perfect trading strategy that works all the time in the global FOREX (foreign exchange/currency) market. Frequently, they will complain that a strategy doesn't work. Few people understand that successful trading of the FOREX market entails the application of the right strategy for the right market condition. 7 Winning Strategies For Trading Forex covers: - Why people should be paying attention to the FOREX market, which is the world's largest and most liquid financial market - How understanding the structure of this

market can be beneficial to the independent trader - How to overcome the odds and become a successful trader - How you can select high-probability trades with good entries and exits. Grace Cheng highlights seven trading strategies, each of which is to be applied in a unique way and is designed for differing market conditions. She shows how traders can use the various market conditions to their advantage by tailoring the strategy to suit each one. This revealing book also sheds light on how the FOREX market works, how you can incorporate sentiment analysis into your trading, and how trading in the direction of institutional activity can give you a competitive edge in the trading arena. This invaluable book is ideal for new and current traders wanting to improve their trading performance. Filled with practical advice, this book is a must-read for traders who want to know exactly how they can make money in the FOREX market.
