The Automotive Body - L. Morello  
2011-03-04

"The Automotive Body" consists of two volumes. The first volume produces the needful cultural background on the body; it describes the body and its components in use on most kinds of cars and industrial vehicles: the quantity of drawings that are presented allows the reader to familiarize with the design features and to understand functions, design motivations and fabrication feasibility, in view of the existing production processes. The second volume addresses the body system engineer and has the objective to lead him to the specification definition used to finalize detail design and production by the car manufacturer or the supply chain. The processing of these specifications, made by mathematical models of different complexity, starts always from the presentations of the needs of the customer using the vehicle and from the large number of rules imposed by laws and customs. The two volumes are completed by references, list of symbols adopted and subjects index. These two books about the vehicle body may be added to those about the chassis and are part of a series sponsored by ATA (the Italian automotive engineers association) on

the subject of automotive engineering; they follow the first book, published in 2005 in Italian only, about automotive transmission. They cover automotive engineering from every aspect and are the result of a five-year collaboration between the Polytechnical University of Turin and the University of Naples on automotive engineering.

**Pure Profit** - Robert C. Repetto 2000  
This study demonstrates a methodology that translates the implications of a company's environmental performance into financial terms. The methodology is forward-looking, deals explicitly with uncertainties regarding future environmental developments, and is consistent with established financial valuation techniques. The approach should also be easily adapted for use by company managers as an internal strategic planning tool. An application of this methodology to 13 leading companies in the US pulp and paper sector shows that pending environmental issues will have material financial impacts on companies in the pulp and paper sector and that these financial exposures vary considerably between companies. Knowing which companies are best positioned with regard to environmental issues could improve investors' decision-making.

**Presidential Trivia** - Richard Lederer 2009-02-19

Presidential Trivia: The Feats, Fates, Families, Foibles, and Firsts of Our American Presidents Revised and Updated from the beloved Richard Lederer comes another kind of trivia book—Presidential Trivia. In it you'll find all the details about the lives of the United States presidents. It answers such questions as: Who was the first president to be assassinated? Who was the first president to be born an American citizen? Who was the first to be impeached? It also answers less important but certainly interesting questions such as: Who was our fattest president? Our tallest? Who played golf? Who played poker?

**The Groomer** - Jon Athan 2020-03-13  
Andrew McCarthy grows concerned for his family after he catches a young man, Zachary Denton, photographing his daughter, Grace McCarthy, and other children at a park. To his dismay, Zachary talks his way out of trouble when he's confronted by the police. He hopes that's the end of it. Then he finds Zachary at a diner and then at a grocery store. He knows their encounters aren't coincidences. And just as Andrew prepares to defend his family, Grace vanishes. As the police search stalls and the leads dry up, Andrew decides to take matters into his own hands. He starts by searching for sex offenders in the area and researching enhanced interrogation techniques... He convinces himself he'll do anything to rescue his daughter, unaware of the pure evil he'll face in his journey. He's willing to hurt-to torture-anyone to save his family. Jon Athan, the author of *Into the Wolves' Den* and *The Abuse of Ashley Collins*, delves into the underworld of internet predators in this disturbing horror novel. Are your children safe? Montessori Madness - Trevor Eissler 2009

"We know we need to improve our traditional school system, both public and private. But how? More homework? Better-qualified teachers? Longer school days or school years? More testing? More funding? No, no, no, no, and no. *Montessori Madness!* explains why the incremental steps politicians and administrators continue to propose are incremental steps politicians and administrators continue to propose are incremental steps in the wrong direction. The entire system must be turned on its head. This book ask parents to take a look--one thirty-minute observation--at a Montessori school. Your picture of what educations should look like will never be the same"--Back cover.

Schneier on Security - Bruce Schneier  
2009-03-16

Presenting invaluable advice from the world's most famous computer security expert, this intensely readable collection features some of the most insightful and informative coverage of the strengths and weaknesses of computer security and the price people pay -- figuratively and literally -- when security fails. Discussing the issues surrounding things such as airplanes, passports, voting machines, ID cards, cameras, passwords, Internet banking, sporting events, computers, and castles, this book is a must-read for anyone who values security at any level -- business, technical, or personal.

**The Automotive Chassis** - Giancarlo Genta 2008-12-11

The aim of the book is to be a reference book in automotive technology, as far as automotive chassis (i.e. everything that is inside a vehicle except the engine and the body) is concerned. The book is a result of a decade of work heavily sponsored by the FIAT group (who supplied material, together with other automotive companies, and sponsored the work). The first volume deals with the design of automotive components and the second volume treats the various aspects of the design of a vehicle as a system.

**Privatization in Malaysia** - Jeff Tan  
2007-10-02

In recent years, privatisation has fallen out of favour in many countries because the underlying political factors have not been well understood. This book examines Malaysia's privatisation programme,

focusing on how political constraints resulted in the failure of four major privatisations: the national sewerage company (IWK), Kuala Lumpur Light Rail Transit (LRT), national airline (MAS), and national car company (Proton). It considers why developing countries such as Malaysia might want to embark on privatisation, the factors that lead to policy failure, and what is needed to make it work. It shows clearly that political motives driving privatisation often dominate purely economic considerations, and thus it is necessary to analyse privatisation within the specific country context. It argues that failure in the Malaysian case was due to political considerations that compromised institutional design and regulatory enforcement, leading to problems associated with corruption. It concludes that privatisation does not necessarily improve incentives for efficiency or enhance the finance available for capital investment, and that successful privatisation depends on the state's institutional and political capacity to design and manage an appropriate set of subsidies. Overall, this book is a comprehensive examination of privatisation in Malaysia, providing important insights for understanding the political economy of this process in other developing countries.

**Disciple IV** - Abingdon Press 2005-05  
DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase

DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

*Carbon Finance* - Sonia Labatt  
2011-07-20

Praise for Carbon Finance "A timely, objective, and informative analysis of the financial opportunities and challenges presented by climate change, including a thorough description of adaptive measures and insurance products for managing risk in a carbon constrained economy." -James R. Evans, M. Eng. P. Geo., Senior Manager, Environmental Risk Management, RBC Financial Group "Climate change will have enormous financial implications in the years to come. How businesses and investors respond to the risks and opportunities from this issue will have an enormous rippling effect in the global economy. Sonia Labatt and Rodney White's insights and thoughtful analysis should be read by all who want to successfully navigate this global business issue." -Andrea Moffat, Director, Corporate Programs, Ceres "In Carbon Finance, Labatt and White present a clear and accessible description of the climate change debate and the carbon market that is developing. Climate change is becoming an important factor for many financial sector participants. The authors illustrate how challenges and opportunities will arise within the carbon market for banking, insurance, and investment activities as well as for the regulated and energy sector of the economy." -Charles E. Kennedy, Director and Portfolio Manager, MacDougall, MacDougall & MacTier Inc. "Climate change is the greatest environmental challenge of our generation. Its impact on the energy sector has implications for productivity and competitiveness. At the same time, environmental risk has emerged as a major challenge for corporations in the age of full disclosure. Carbon Finance explains how these disparate forces have spawned a range of financial products

designed to help manage the inherent risk. It is necessary reading for corporate executives facing challenges that are unique in their business experience." -Skip Willis, Managing Director Canadian Operations, ICF International "In this timely publication, Labatt and White succeed in communicating the workings of carbon markets, providing simple examples and invaluable context to the new and changing mechanisms that underpin our transformation to a carbon-constrained world. Carbon Finance will be the definitive guide to this field for years to come." -Susan McGeachie, Director, Innovest Strategic Value Advisors, Graduate Faculty Member, University of Toronto; and Jane Ambachtsheer, Principal, Mercer Investment Consulting, Graduate Faculty Member, University of Toronto

**Fife and Tayside** - 2008-02-15

This fully revised pocket-sized street atlas of Fife and Tayside gives comprehensive and detailed coverage of the region. The route planner shows all the A and B roads, and can be used when driving to get close to the destination before turning to the relevant large-scale street map. The street maps show every named road, street and lane very clearly, with major roads picked out in colour. The maps are at a scale of 1 1/3 inches to 1 mile, with larger scale maps at a scale of 2 2/3 inches to 1 mile in the south and for the following towns: Arbroath, Auchterarder, Brechin, Carnoustie, Crieff, Cupar, Dunblane, Dundee, Forfar, Glenrothes, Kinross, Kirriemuir, Leven, Montrose, Perth, Rattray and St Andrews. Dundee city centre is shown at 5 1/3 inches to 1 mile. Other information on the maps includes postcode boundaries, car parks, railway and bus stations, post offices, schools, colleges, hospitals, police and fire stations, places of worship, leisure centres, footpaths and bridleways, camping and caravan sites, golf courses, and many other places of interest. New to this edition are fixed single and multiple speed-camera locations, with corresponding speed limits. The

comprehensive index lists street names and postcodes, plus schools, hospitals, railway stations, shopping centres and other such features picked out in red, with other places of interest shown in blue.

Jim Clark - Eric Dymock 2017-04-01  
Out of print for twenty years, a new edition of Jim Clark 'Tribute to a Champion' by Eric Dymock will be published in the spring. Lightly edited and completely redesigned in colour throughout, this eagerly sought classic of motor racing celebrates the life and achievements of Jim Clark (1936-1968), World Champion 1963 and 1965. In the new book, Eric Dymock details his place in motor racing history and total command of Formula 1, portraying him as an individual, nail-biting and insecure, yet the greatest driver in any sort of motor sport. From a Scottish farming family Clark rewrote the annals of American racing at Indianapolis, coming second at his first attempt in 1963, winning in 1965. He seemed a match for any odds during eight dangerous years at the top of motor racing, yet died in an unlikely accident at a minor event at Hockenheim on April 7th 1968. Genius at the wheel was not enough. Rivals' subsequent safety campaigns saved countless lives on and off the track. Eric Dymock observed Clark from before he ever sat in a racing car, covering his professional career as member of The Motor magazine staff from 1962, and then as specialist motor racing correspondent from 1966. This book has photographs of Jim Clark's birthplace, home, memorabilia and archive material from the Jim Clark Room at Duns. The measured analysis throws light on the tense mood of Formula 1 in the hazardous 1960s when Clark narrowly missed four consecutive world titles. Misfortune in the closing laps of the final race of the season twice denied him a unique quartet. Some of his other records remain secure however.

Clark's eight "grand slams" (pole position, leading every lap, fastest lap and winning a Grand Prix - his closest rivals Alberto Ascari and Michael Schumacher managed only five) is unlikely to be matched. The new edition will go on sale in the spring at regular bookshop prices for a new generation of Formula 1 fans, as the 50th anniversary of Clark's accident approaches.

**Sustainable Energy--without the Hot Air** - David J. C. MacKay 2009  
Provides an overview of the sustainable energy crisis that is threatening the world's natural resources, explaining how energy consumption is estimated and how those numbers have been skewed by various factors and discussing alternate forms of energy that can and should be used.
