## **The Law of God** - Rémi

Brague 2020-10-23

The law of God: these words conjure an image of Moses breaking the tablets at Mount Sinai, but the history of the alliance between law and divinity is so much longer, and its scope so much broader, than a single Judeo-Christian scene can possibly suggest. In his stunningly ambitious new history, Rémi Brague goes back three thousand years to trace

this idea of divine law in the West from prehistoric religions to modern times—giving new depth to today’s discussions about the role of God in worldly affairs. Brague masterfully describes the differing conceptions of divine law in Judaic, Islamic, and Christian traditions and illuminates these ideas with a wide range of philosophical, political, and religious sources. In conclusion, he addresses the

recent break in the alliance between law and divinity—when modern societies, far from connecting the two, started to think of law simply as the rule human community gives itself. Exploring what this disconnection means for the contemporary world, Brague—powerfully expanding on the project he began with *The Wisdom of the World*—re-engages readers in a millennia-long intellectual tradition, ultimately arriving at a better comprehension of our own modernity. “Brague’s sense of intellectual adventure is what makes his work genuinely exciting to read. *The Law of God* offers a challenge that anyone concerned with today’s religious struggles ought to take up.”—Adam Kirsch, *New York Sun* “Scholars and students of contemporary world events, to the extent that these may be viewed as a clash of rival fundamentalisms, will have much to gain from Brague’s study. Ideally, in that case, the book seems to be both an obvious primer and

launching pad for further scholarship.”—*Times Higher Education Supplement*  
*Islamic Studies Today: Essays in Honor of Andrew Rippin* - Majid Daneshgar 2016-12-20  
*Islamic Studies Today: Essays in Honor of Andrew Rippin* presents re-readings of and innovative approaches to parts of the qur’anic text itself as well as medieval and modern qur’anic exegesis, its essays based on and inspired by the wide range of research areas and methodologies in which Rippin has been a leading figure.

*Islam on the Margins* commemorates the contributions Michael Bonner made to Near Eastern Studies. Its collection of contributions from students and colleagues recalls the breadth of Michael Bonner’s erudition and impact on the field.

*Humanism in the Renaissance of Islam* - Joel L. Kraemer 1992  
Under the enlightened rule of the Buyid dynasty (945-1055 A.D.) the Islamic world

witnessed an unequalled cultural renaissance. This book is an investigation into the nature of the environment in which the cultural transformation took place and into the cultural elite who were its bearers. After an extensive introductory section setting the stage, the book deals with the main schools and circles and with the outstanding individual representatives of this renaissance. The main expression of this renaissance was a philosophical humanism that embraced the scientific and philosophical heritage of Classical Antiquity as a cultural and educational ideal. Along with this philosophical humanism, a literary humanism was cultivated by litterateurs, poets, and government secretaries. This renaissance was marked by a powerful assertion of individualism in the domains of literary creativity and political action. It thrived in a remarkably cosmopolitan atmosphere - Baghdad, the center of the 'Abbasid empire and of Buyid rule.

**Christ in Islam and Christianity** - Neal Robinson  
1991-01-01

Christ in Islam and Christianity is an analysis of the different Christian approaches to Jesus in the Qur'an and in the classical Muslim commentaries. The author presents controversial suggestions about the relevance of the Qur'anic representation of Jesus and Mary to Muhammad and his menage. Included are extensive translations of extracts from classical Muslim commentaries including Sunni, Mu'tazilite, Shia, and Sufi. Much of the Muslim material which the author translates has not previously been translated into English.

*Islam and Its Past* - Michael Cook 2017

This collection brings together scholars from various disciplines and fields to consider Islamic revelation, with particular focus on the Qur'an. It provides a wide-ranging survey of the development and current state of Qur'anic studies in the Western academy, and shows how interest in the field has recently grown, how the ways in which it is cultivated have changed, how it has ramified, and how difficult it now is for any one scholar to keep abreast of it.

**Encyclopaedia of Islam** - Ian Richard Netton 2013-12-19

The Encyclopedia of Islamic Civilization and Religion provides scholarly coverage of the religion, culture and history of the Islamic world, at a time when that world is undergoing considerable

change and is a focus of international study and debate. The non-Muslim world's perceptions of Islam have often tended to be dominated by unrepresentative radical extremist movements and media interpretations of events involving such movements, to the extent that many people are unaware of the depth and variety of Islamic thought. At the same time, many who have had a formal training in Islamic studies have tended to concentrate on the traditional, to the exclusion of the contemporary. The Encyclopedia of Islamic Civilization and Religion covers the full range of Islamic thought, in historical depth, but it also provides substantial coverage of contemporary trends across the Muslim world. With well over a thousand entries on Islamic theology, history, arts, science, law and institutions, and coverage of Islam in individual countries and cities around the world, the Encyclopedia of Islamic Civilization and Religion provides an extremely

rich resource for students and researchers in religious studies and Middle Eastern studies. Entries are cross-referenced and bibliographies are provided. There is a full index. Routledge published *The Qur'an: An Encyclopedia* in 2005, an excellent companion to the *Encyclopedia of Islamic Civilization and Religion*. *The Qur'an and Late Antiquity* - Angelika Neuwirth 2019-02-19 In this book, Angelika Neuwirth provides a new approach to understanding the founding text of Islam. Typical exegesis of the Qur'an treats the text teleologically, as a fait accompli finished text, or as a replica or summary of the Bible in Arabic. Instead Neuwirth approaches the Qur'an as the product of a specific community in the Late Antique Arabian peninsula, one which was exposed to the wider worlds of the Byzantine and Sasanian empires, and to the rich intellectual traditions of rabbinic Judaism, early Christianity, and Gnosticism. A central goal of the book is to eliminate the notion of the

Qur'an as being a-historical. She argues that it is, in fact, highly aware of its place in late antiquity and is capable of yielding valuable historical information. By emphasizing the liturgical function of the Qur'an, Neuwirth allows readers to see the text as an evolving oral tradition within the community before it became collected and codified as a book. This analysis sheds much needed light on the development of the Qur'an's historical, theological, and political outlook. The book's final chapters analyze the relationship of the Qur'an to the Bible, to Arabic poetic traditions, and, more generally, to late antique culture and rhetorical forms. By providing a new introduction to the Qur'an, one that uniquely challenges current ideas about its emergence and development, *The Qur'an and Late Antiquity* bridges the gap between Eastern and Western approaches to this sacred text. **The Emergence of Islam in Late Antiquity** - Aziz Al-Azmeh 2017-02-23

A comprehensive and innovative reconstruction of the emergence of early Muslim religion and polity in their historical, religious and ethnological contexts. Intended principally for scholars of late antiquity, Islamic studies and the history of religions, the book opens up many novel directions for future research.

McAuliffe 2010-09-14

This volume is the first trilateral exploration of medieval scriptural interpretation. The vast literature written during the medieval period is one of both great diversity and numerous cross-cultural similarities. These essays explore this rich heritage of biblical and qur'anic interpretation.

**A Challenge to Islam for Reformation** - Günter Lüling  
2003

As a Protestant theologian and disciple of renowned critics of

Christianity, Albert Schweitzer and Martin Werner, the Author wanted since long to contribute to the breakthrough of their resolute nontrinitarian position which has throughout the twentieth century by all and every Western Christian university theology been silenced by pretending tacitly and tenaciously the non-existence of their strong argument.

Mimetic Theory and Islam -  
Michael Kirwan 2019-05-07

This volume explores the 'Mimetic Theory' of the cultural theorist René Girard and its applicability to Islamic thought and tradition. Authors critically examine Girard's assertion about the connection between group formation, religion, and 'scapegoating' violence. These insights, Girard maintained, have their source in biblical revelation. Are there parallels in other faith traditions, especially Islam? To this end, Muslim scholars and scholars of Mimetic Theory have examined the hypothesis of an 'Abrahamic Revolution.' This is the claim that Judaism,

Christianity, and Islam each share in a spiritual and ethical historical 'breakthrough:' a move away from scapegoating violence, and towards a sense of justice for the innocent victim.

*The Qur'an with Cross-References* - Mun'im Sirry  
2022-10-29

The Qur'an with Cross-References provides for nearly every verse in the Qur'an a selection of other verses which shed light upon, clarify, or explain the verse you are reading. The Qur'an in its printed edition has not yet been cross-referenced, despite the fact that Qur'an commentators realized quite early on the central importance of tafsīr al-Qur'ān bi'l-Qur'ān (interpreting the Qur'an through the Qur'an itself). Even some modern Muslim exegetes claim to follow this method. However, the cross-references they provided are very limited. Perhaps, the most extensive treatment and pioneered work on tafsīr al-Qur'ān bi'l-Qur'ān is that composed by Rudi Paret entitled *Der Koran: Kommentar*

und Konkordanz. Paret's work is certainly very rich, which includes - in addition to possible cross-references - interpretations of and alternate renderings for a given verse or passage. Furthermore, as the term "Konkordanz" may indicate, his *Der Koran* provides all identical or similar phraseology and usage in different places of the Qur'an, a model that will not be followed in this Qur'an cross-references project. Instead, *The Qur'an with Cross-References* is based on connection between words, phrases, themes, concepts, events, and characters. One word may occur several times in the Qur'an, but the cross references will be made only where there is connection in meaning between two or more verses or passages. In preparing this cross-references project, several models and methods used for the cross-references of the Bible are consulted. As is well-known, Bible cross-references have been a long-established tradition, while the Qur'an, at

least in its printed edition, has not been cross-referenced. The Qur'an with Cross-References is the first of its kind. The field has needed something like this, because in the existing Qur'an there is nothing to indicate that certain passages can shed light upon, clarify, or explain other passages.

**The Qur'an: Text and Commentary, Volume 1 -**

Angelika Neuwirth 2022-10-18

The first volume of a world-renowned scholar's long-awaited Qur'an commentary, now available in English Angelika Neuwirth's six-volume commentary, published originally in Germany, offers a historical and philological analysis of the form, structure, and semantic message of each of the 114 Qur'anic suras. It brings together the fruits of the past hundred years of modern scholarship and provides access to the aesthetic, theological, linguistic, and semantic background required to appreciate the unique novelty, force, and historical position of the Qur'an.

Contextualizing the Qur'anic

message in the broader world of late antiquity, it bridges the gaps between the inner-Islamic scholarly world and the academy. Skillfully translated by Samuel Wilder, this first volume focuses on the Meccan suras, the earliest and often the most aesthetically striking and compelling part of the corpus of Qur'anic proclamations.

*Conversion in Late Antiquity: Christianity, Islam, and Beyond*

- Arietta Papaconstantinou

2016-03-03

The papers in this volume were presented at a Mellon-Sawyer Seminar held at the University of Oxford in 2009-2010, which sought to investigate side by side the two important movements of conversion that frame late antiquity: to Christianity at its start, and to Islam at the other end.

Challenging the opposition

between the two stereotypes of

Islamic conversion as an intrinsically violent process, and Christian conversion as a fundamentally spiritual one, the papers seek to isolate the behaviours and circumstances that made conversion both such a common and such a contested phenomenon. The spread of Buddhism in Asia in broadly the same period serves as an external comparator that was not caught in the net of the Abrahamic religions. The volume is organised around several themes, reflecting the concerns of the initial project with the articulation between norm and practice, the role of authorities and institutions, and the social and individual fluidity on the ground. Debates, discussions, and the expression of norms and principles about conversion are not rare in societies experiencing religious change, and the first section of the book examines some of the main issues brought up by surviving sources. This is followed by three sections examining different aspects of how those principles were - or were not -

put into practice: how conversion was handled by the state, how it was continuously redefined by individual ambivalence and cultural fluidity, and how it was enshrined through different forms of institutionalization. Finally, a topographical coda examines the effects of religious change on the iconic holy city of Jerusalem.

Divine Word and Prophetic

Word in Early Islam - William Albert Graham 1977

The series Religion and Society (RS) contributes to the exploration of religions as social systems- both in Western and non-Western societies; in particular, it examines religions in their differentiation from, and intersection with, other cultural systems, such as art, economy, law and politics. Due attention is given to paradigmatic case or comparative studies that exhibit a clear theoretical orientation with the empirical and historical data of religion and such aspects of religion as ritual, the religious imagination, constructions of tradition, iconography, or media. In addition, the formation of religious communities, their construction of identity, and their relation to society and the wider public are key issues of this series.

Historical Dictionary of Islam -

Ludwig W. Adamec 2016-12-14

Muslims believe that the Koran is God's message in Arabic,

revealed through the medium

of the Prophet Muhammad for the guidance of the Arabs and

subsequently for all humanity.

There is both unity and variety

in the Islamic world. Muslims

are not a homogeneous people

who can be explained solely by

their normative texts: the

Koran and the Sunnah.

Muslims differ vastly in their

interpretation of Islam:

modernists want to reinterpret

Islam to adapt to the

requirements of modern times

while traditionalists tend to

look to the classical and

medieval periods of Islam as

their model of the Islamic

state. This third edition of

Historical Dictionary of Islam

contains a chronology, an

introduction, appendixes, and

an extensive bibliography. The

dictionary section has over 700

cross-referenced entries on

major sects, schools of

theology, and jurisprudence, as

God, Muhammad and the

Unbelievers - David Marshall

2014-04-08

This study of the Qur'an arises

from an interest in a pressing

contemporary issue, the

relationship between Muslims

and non-Muslims ('the Ummah

and the Other'). This text

explores how the Qur'an

comments on this relationship

as it changed in the course of

Muhammad's ministry.

Particular attention is paid to

the portrayal in the Meccan

'punishment-narratives' of a

fascinating and complex

triangular relationship between

God, the powerless and

persecuted believing

community with Muhammad at

its centre, and the unbelieving

Meccans who rejected

Muhammad's preaching. The

text raising questions about the

possible contemporary

relevance of this analysis,

focusing firstly on discussions

about the appropriate models for Islamic society today, and secondly on dialogue between Christians and Muslims. This book presents a detailed and illuminating analysis of many important Qur'anic themes and passages, and offers a coherent and original account of significant developments within the thought of the Qur'an as a whole.

### **Missionarischer Islam auf YouTube** - Selam Bruk

2015-06-17

Missionarische Muslime haben durch YouTube-Videos im Internet bereits viele Jugendliche für den salafistischen Islam gewonnen. Was kennzeichnet das

salafistische Glaubenssystem und wie können Christen dem missionarischen Islam im Internet begegnen? Um diese Frage zu beantworten, werden Erfolgsfaktoren verschiedener Prediger auf YouTube untersucht und häufig genannte Argumente muslimischer Prediger hinterfragt. Besondere Aufmerksamkeit gilt dabei den Videos des Konvertiten Pierre Vogel, dessen Behauptungen - z.B. dass Mohammed bereits in der Bibel erwähnt sei oder dass Jesus nur ein Prophet gewesen sei - in diesem Buch exegetisch widerlegt werden. Die Resultate dieses Buches helfen Christen, die Hintergründe der Argumentationsweise missionarischer Muslime zu verstehen, um ihnen angemessen begegnen zu können.
