Nothing Personal - Nancy Jo Sales 2021-05-18

A raw and funny memoir about sex, dating, and relationships in the digital age, intertwined with a brilliant investigation into the challenges to love and intimacy wrought by dating apps, by firebrand New York Times–bestselling author Nancy Jo Sales At forty-nine, famed Vanity Fair writer Nancy Jo Sales was nursing a broken heart and wondering, “How did I wind up alone?” On the advice of a young friend, she downloaded Tinder, then a brand-new dating app. What followed was a raucous ride through the world of online dating. Sales, an award-winning journalist and single mom, became a leading critic of the online dating industry, reporting and writing articles and making her directorial debut with the HBO documentary *Swiped: Hooking Up in the Digital Age*. Meanwhile, she was dating a series of younger men, eventually falling in love with a man less than half her age. *Nothing Personal* is Sales’s memoir of coming-of-middle-age in the midst of a new dating revolution. She is unsparingly honest about her own experience of addiction to dating apps and hilarious in her musings about dick pics, sexting, dating FOMO, and more. Does Big Dating really want us to find love, she asks, or just keep on using its apps? Fiercely feminist, *Nothing Personal* investigates how Big Dating has overwhelmed the landscape of dating, cynically profiting off its users’ deepest needs and desires. Looking back through the history of modern courtship and her own relationships, Sales examines how sexism has always been a factor for women in dating, and asks what the future of courtship will bring, if left to the designs of Silicon Valley’s tech giants—especially in a time of social distancing and a global pandemic, when the rules of romance are once again changing.

**Headaches in Women** - Mark Green 2019-10-01

Women suffer from headaches far more than men. According to the World Health Organization, migraine is one of the most disabling medical conditions. The understanding of the pathophysiology of migraine has changed dramatically over the past decade, leading to more rational and targeted treatments. Since most migraineurs are young women, use of contraception, management of headaches with menstruation, pregnancy, lactation, and menopause are important issues addressed in this text. Headaches are often inherited, and, as such, the book also discusses genetic issues, particularly relevant in this era of customized medicine. The hormonal management of transgenders is important as many will experience severe headaches during their transitions. Comorbidities, including psychiatric syndromes and strokes, are also presented in detail. This text will be of interest to all practitioners who manage women with headaches.
