Dimensions of Thinking - Robert J. Marzano 1988

Organizing and clarifying research and theory from diverse sources, including philosophy and cognitive psychology, this book provides a framework intended to help educational practitioners (principals, supervisors, curriculum directors, and teachers) plan programs for incorporating the teaching of thinking throughout the regular curriculum. Chapter 1 discusses the need for a framework for teaching thinking and presents a historical perspective on the study of thinking. Chapters 2 through 6 discuss five dimensions of thinking: (1) metacognition; (2) critical and creative thinking; (3) thinking processes--such as concept formation, problem solving, and research; (4) core thinking skills--the "building blocks" of thinking--including focusing, information-gathering, organizing and generating skills; and (5) the relationship of content-area knowledge to thinking. The final chapter presents guidelines for using the framework. (A glossary of key terms and an outline of the book are appended, and thirteen pages of references are attached.) (ARH)

Bartleby, The Scrivener - Herman Melville 2021-01-12

Bartleby is a newly-hired scrivener who initially produces great work but slowly reduces his output, declining assignments and responding with: "I would prefer not to." Despite his poor performance, his boss struggles to reprimand the eccentric character. A Manhattan lawyer decides to hire a third scrivener called *Bartleby* to help manage his growing workload. Yet, the quiet unassuming man soon becomes a source of contention. At first, *Bartleby* is an active member of the team yet one day he refuses to complete an assignment, setting an unusual precedent. He continues to refuse work, which confuses the lawyer and frustrates his peers. *Bartleby's* passive attitude is indicative of a larger issue his boss has yet to uncover. Herman Melville delivers a simple story about a man who follows his own path. He chooses not to engage with work or society as a whole. It's an examination of passive resistance in a modern world fueled by compliance and consumerism. With an eye-catching new cover, and professionally typeset manuscript, this edition of *Bartleby, The Scrivener: A Story of Wall Street* is both modern and readable.

The Alliance - Reid Hoffman
2014-07-08

The New York Times Bestselling guide for managers and executives. Introducing the new, realistic loyalty pact between employer and employee. The employer-employee relationship is broken, and managers face a seemingly impossible dilemma: the old model of guaranteed long-term employment no longer works in a business environment defined by continuous change, but neither does a system in which every employee acts

like a free agent. The solution? Stop thinking of employees as either family or as free agents. Think of them instead as allies. As a manager you want your employees to help transform the company for the future. And your employees want the company to help transform their careers for the long term. But this win-win scenario will happen only if both sides trust each other enough to commit to mutual investment and mutual benefit. Sadly, trust in the business world is hovering at an all-time low. We can rebuild that lost trust with straight talk that recognizes the realities of the modern economy. So, paradoxically, the alliance begins with managers acknowledging that great employees might leave the company, and with employees being honest about their own career aspirations. By putting this new alliance at the heart of your talent management strategy, you'll not only bring back trust, you'll be able to recruit and retain the entrepreneurial individuals you need to adapt to a fast-changing world. These individuals, flexible, creative, and with a bias toward action, thrive when they're on a specific "tour of duty"—when they have a mission that's mutually beneficial to employee and company that can be completed in a realistic period of time. Coauthored by the founder of LinkedIn, this bold but practical guide for managers and executives will give you the tools you need to recruit, manage, and retain the kind of employees who will make your company thrive in today's world of constant innovation and fast-paced change.

An Angel in My Portal - Miguel D'Addario 2017-11-13

This collection is born from a strange event, because it comes after contact with a follower of social networks, who without even knowing me tells me a personal and profound history. A secret and painful story, a story of death and love. I interpreted that encounter as if it were an angel who came to tell me something, to tell me truths, and to leave me a final message. I simply came to a conclusion and said: - Through the pain light or darkness penetrates; she quickly answered something and I never heard from her again. And that's why I decided to call this book: "An angel in my portal." A book that only poses positions against situations in life. Philosophical, existential and even inner search; but reflective finally. *Ziglar on Selling* - Zig Ziglar 2007-05-13

Intensive One-Session Treatment of Specific Phobias - Thompson E. Davis III 2012-05-16

Whether it's dogs, spiders, blood, heights or some other fear, specific phobias are one of the most prevalent mental health problems, affecting as many as one in eight people. In recent years, cognitive-behavioral therapy (CBT) has emerged as particularly effective in treating young people and adults with specific phobias. And of these methods, one-session treatment stands out as a long-lasting, cost-effective intervention of choice. Intensive One-Session Treatment of Specific Phobias not only provides a summary of the evidence base, it also serves

as a practical reference and training guide. This concise volume examines the phenomenology, epidemiology, and etiology of phobias, laying the groundwork for subsequent discussion of assessment strategies, empirically sound one-session treatment methods, and special topics. In addition, expert contributors address challenges common to exposure therapy, offer age-appropriate guidelines for treating young clients, and describe innovative computer-assisted techniques. Organized to be read individually or in sequence, chapters delve into key areas, including: Evidence-based assessment and treatment of specific phobias in children, adolescents, and adults. One-session treatment theory and practice with children, adolescents, and adults. Handling difficult cases of specific phobias in youth. Interventions for specific phobias in special populations. Training and assessing therapists in one-session treatment. Ethical issues in considering exposure. Intensive One-Session Treatment of Specific Phobias is an essential resource for researchers, clinicians, and graduate students in child, school, clinical, and counseling psychology; social work; and general and special education.

Drowning in \$20,000 of credit card debt, shopaholic Karyn Bosnak asked strangers for money online -- and it worked! What would you do if you owed \$20,000? Would you: A) not tell your parents? B) start your own website that asked for money without apology? or C) stop coloring your hair,

getting pedicures, and buying Gucci? If you were Karyn Bosnak, you'd do all three. Karyn started a funny yet honest website, www.savekaryn.com, on which she asked for donations to help her get out of debt. In *Save Karyn: One Shopaholic's Journey to Debt and Back*, Karyn details the bumpy road her financial -- and personal -- life has traveled to get her where she is today: happy, grateful, and completely debt-free.
