## *Crossing the Empty Quarter*

- Mark Evans 2016-12

In 1930..."Arabia's Empty Quarter constituted the broadest expanse of unexplored territory outside the Antarctic continent..." The Explorers' Club Arabia's vast Rub Al Khali desert is one of the world's most extreme and inhospitable environments, and in 1930 the race was on to become the first European to cross

what is the biggest sand desert on earth The potential hardship was not to deter Bertram Thomas, the intrepid British explorer who set out to travel from south to north in the winter of 1930-31, guided by Omani Sheikh Saleh Bin Kalut al Rashidi al Kathiri. Challenged by the unknown, they walked for nearly 1,000 kilometres from Salalah on the coast of

Oman, through the Kingdom of Saudi Arabia, to Doha, the capital of Qatar; it was to be the first recorded crossing, dashing the hopes of Ibn Philby. Now, some 85 years later, another team of Omanis has taken on the challenge - leading British explorer Mark Evans across the same stretch of desert. Crossing the Empty Quarter is a large format celebration of the journey in all its aspects. Combining extensive photography - both archive and contemporary - with an authoritative yet highly readable text, this book will be a unique exploration of the region as it was more than eighty years ago, and as it stands today.

*Desert Crossing* - Elise Broach 2006-05-02  
There are some kinds of trouble you never see coming, like those thunderstorms that start from nothing at all. One minute the sky is bright blue and distant. Then, all of a sudden, it's dark and thick with clouds, pressing down right on top of you. The leaves turn silvery and twist in the wind, the air starts to hum, and the rain comes, so heavy and fast you can't even see. You almost never make it to the house on time. A dead body on the road—who is responsible and how will it affect the lives of three teens? For fourteen-year-old Lucy Martinez, the moment when everything changes comes one night during a long car trip with her older brother and his friend Kit. They are on their way to visit Lucy's father for spring

break, but never make it. While driving across northern New Mexico through a blinding rainstorm, their car hits something—an animal, they think. But when they backtrack, they find a dead body on the side of the road. With amazing insight and compelling prose, Elise Broach charts a suspenseful journey full of danger, loss, and painful self-discovery. What will happen to the lives of three teenagers who can suddenly no longer pretend innocence?

**Conquering the Desert of Death** - Charles Blackmore 2008-02-15

The ferocious Taklamakan desert in Central Asia, one of the largest sandy deserts in the world and the

harshest on earth, is known by the Chinese as the "desert of death" or the "place of no return." Its unknown depths are said to be haunted by demons and spirits and legend has it that ancient cities filled with treasure lie lost and buried beneath its dunes. The only certainty is that no human being in history had ever crossed it from end to end. But, after five years of planning, in 1993, Charles Blackmore together with a team of British, Chinese and Uyghurs and a caravan of thirty camels, set out to accomplish the seemingly impossible: they would cross the Taklamakan, west to east, directly through its unmapped, untrodden centre. Conquering the Desert of Death is at once a deeply personal journey and the story of an adventure that will go down in history as one of the great achievements of exploration.

Arabia Felix - Bertram Thomas 2021-03-23

It is often assumed Wilfred Thesiger was the first non-Arab to cross the Rub Al Khali desert, despite doing so over a decade after Thomas and relying on the very Bedouin who Thomas used to guide him for the crossing. This edition has been completely retyped, images from the original books were scanned to improve print quality, and place-specific modern photographs included for

context. Punctuation and spellings, though occasionally at odds with current usage and often inconsistent within the book have generally been kept as in the Bertram Thomas text. The expedition described in Arabia Felix is the culmination of several years of anticipation, and planning from 1926 by Bertram Thomas to achieve the first crossing by a non-Arab of the Rub Al Khali, the Empty Quarter desert. It might not be far-fetched in thinking that his taking employment in Oman was to be the means to that end.

**Dead in Their Tracks** -

John Annerino 2021-01-12  
Alarmed by breaking news reports of thirteen men, women, and children who died of thirst on American soil—and twenty-two other human beings saved by Border Patrol rescue teams—John Annerino left the cool pines of his mountain retreat and journeyed into one of the most inhospitable places on

earth, the heart of the 4,100-square-mile “empty quarter” that straddles the desolate corner of southwest Arizona and northwest Sonora, Mexico. During the Sonoran Desert’s glorious and brutal summer season Annerino, a photojournalist, author, and explorer, watched four border crossers step off a bus and nonchalantly head into the American no-man’s land. On assignment for Newsweek, Annerino did more than just watch on that blistering August day. He joined them on their ultramarathon, life-or-death quest to find work to feed their families, amid temperatures so hot your parched throat burns from breathing and drinking water is the ultimate treasure. As their water dwindled and the heat punished them, Annerino and the desperate men continued marching fifty miles in twenty-four hours and managed to survive their harrowing journey

across the deadliest migrant trail in North America, El Camino del Diablo, “The Road of the Devil.” Driven by the mounting death toll, John returned again and again to the sun-scorched desoblado (uninhabited lands)—where hidden bighorn sheep water tanks glowed like diamonds—to document the lives, struggles, and heartbreaking remains of those who continue to disappear and perish in a region that’s claimed the lives of more than 9,700 men, women, and children. Following the historic paths of indigenous Hia Ced O’odham (People of the Sand), Spanish missionary explorer Padre Eusebio Francisco Kino, and California-bound Forty-Niners, Annerino’s journeys on foot, crisscrossed the alluring yet treacherous desert trails of the El Camino del Diablo, Hohokam shell trail, and O’odham salt trails where hundreds of gambusinos

(Mexican miners) and Euro-American pioneers succumbed during the 1850s. As the migrants kept coming, the deaths kept mounting, and Annerino kept returning. He crossed celebrated Sonoran Desert sanctuaries—Organ Pipe Cactus National Monument, a UNESCO Biosphere Reserve, Cabeza Prieta National Wildlife Refuge, Barry M. Goldwater Range, sacred ancestral lands of the Tohono O’odham—that had become lost horizons, killing grounds, graveyards, and deadly smuggling corridors that also claimed the lives of National Park rangers and Border Patrol agents. John Annerino’s mission was to save someone, anyone, everyone—when he could find them. *Dead in Their Tracks* is the saga of a merciless despoblado in the Great Southwest, of desperate yet hopeful migrants and refugees who keep staggering north. It is the story of ranchers, locals,

and Border Patrol trackers who’ve saved countless lives, and heavily armed smugglers who haunt an inhospitable, if beautiful, wilderness that remains off the radar for journalists and news organizations that dare not set foot in the American desert waiting to welcome them on its terms. [Crossing the Deserts of Life](#) - J. M. Wright 2009-12-29 I meditated on how I could establish a relationship with God. I’ve come to believe that it was necessary for me to encounter my past so that I would eventually seek Him. In my life experiences I’ve always found myself wandering and alone, with no one to give me guidance or encouragement. It seemed like I was bewildered and lost as I trudged through my life. My desert-like crossings were emotionally and mentally exhausting, but turn out to be a learning experience. I learned to journal some episodes of my past and this book is the reward of doing

that. I'm sometimes able to see the error of my ways and now am capable to pray for change, and not make the same mistakes again. I've come to a place in my life where I can see my emotional and spiritual growth from my book. I saw, how, at the time I was self-absorbed and I did not trust anyone, not even God. I'm able to reflect back on the struggles and confusion of my adolescent, not knowing what direction to take, never making rational decisions. Some of my experiences led me deep into the deserts and made me consider turning my life over to God. Never did I realize that these difficulties would catapult me to a spiritual dimension that revealed God's love for me. God still continues to develop and mature my relationship with Him. I concluded that as long as I stayed self-reliant and self-centered, I would be distant from God, then my relationship with others

will remain empty and desolate like a desert.

Because of His unconditional love for me, He has led me to a place of rest and restoration, away from the confusion in my desert, an oasis in the Desert.

Desert Between the Mountains - Michael S.

Durham 2014-01-28

On July 24, 1847, a band of Mormon pioneers descended into the Salt Lake Valley. Having crossed the Great Plains and hauled their wagons over the Rocky Mountains, they believed that their long search for a permanent home had finally come to an end. The valley was an arid and inhospitable place, but to them it was Zion. They settled on the edge of an immense, uncharted, and self-contained region covering over 220,000 square miles, or one-fifteenth of the area of the United States. The early-nineteenth-century explorer John Charles Fremont had

just aptly named this region the Great Basin because its lakes and rivers have no outlet to the sea: its waters course down the mountains and disappear into the desert. Here, in a land that few others wanted, the Mormons hoped to live and worship in peace. Within ten years of their arrival, the Mormons had established nineteen communities, extending all the way to San Diego, California--a remarkable feat of colonization and one of the great successes of the westward movement. *Desert Between the Mountains* is by no means, however, a story of splendid and stoic isolation. Beginning with an explanation of the Great Basin's unique and enigmatic topography, Michael S. Durham delineates the region as a crucible for a complex and exciting narrative history. Tales of nomadic Indian tribes, Spanish ecclesiastics, intrepid furtrappers, and

adventurous early explorers are brilliantly and thoroughly chronicled. Moreover, Durham depicts the Mormon way of life under the constant strain from its interaction with miners, soldiers, mountain men, the Pony Express, railroad builders, federal officials, and an assortment of other so-called Gentiles. Durham vigorously explores the dynamics of this important chapter of American history, capturing its epic sweep, its near biblical mayhem, and its unforgettable characters in an illuminating and provocative account. *Desert Between the Mountains* concludes with the joining of the transcontinental railroad at Promontory, Utah, in 1869, an event that marked the end of the pioneer era. This is a dramatic, multifaceted, and definitive study of the Great Basin, demonstrating, for the first time, that it is a region unified in its history as well as its geography--

that today includes all of Nevada, most of Utah, and parts of five other surrounding states.

*The Land of Open Graves* - Jason De Leon 2015-10-23

In his gripping and provocative debut, anthropologist Jason De León sheds light on one of the most pressing political issues of our time—the human consequences of US immigration policy. The Land of Open Graves reveals the suffering and deaths that occur daily in the Sonoran Desert of Arizona as thousands of undocumented migrants attempt to cross the border from Mexico into the United States. Drawing on the four

major fields of anthropology, De León uses an innovative combination of ethnography, archaeology, linguistics, and forensic science to produce a scathing critique of “Prevention through Deterrence,” the federal border enforcement policy that encourages migrants to cross in areas characterized by extreme environmental conditions and high risk of death. For two decades, this policy has failed to deter border crossers while successfully turning the rugged terrain of southern Arizona into a killing field. In harrowing detail, De León chronicles the journeys of people who have made dozens of attempts to cross the border and uncovers the stories of the objects and bodies left behind in the desert. The Land of Open Graves will spark debate and controversy.

Crossing Waters - Marisel

C. Moreno 2022-07-26

Debates over the undocumented migration of Latin Americans invariably focus on the southern US border, but most migrants never cross that arbitrary line. Instead, many travel, via water, among the Caribbean islands. The first study to examine literary and artistic representations of undocumented migration within the Hispanophone

Caribbean, *Crossing Waters* relates a journey that remains silenced and largely unknown. Analyzing works by novelists, short-story writers, poets, and visual artists replete with references to drowning and echoes of the Middle Passage, Marisel Moreno shines a spotlight on the plight that these migrants face. In some cases, Puerto Rico takes on a new role as a stepping-stone to the continental United States and the society migrants will join there. Meanwhile the land border between Haiti and the Dominican Republic, the only terrestrial border in the Hispanophone Caribbean, emerges as a complex space within this cartography of borders. And while the Border Patrol occupies US headlines, the Coast Guard occupies the nightmares of refugees. An untold story

filled with beauty, possibility, and sorrow, *Crossing Waters* encourages us to rethink the geography and experience of undocumented migration and the role that the Caribbean archipelago plays as a border zone.
