Governance for Sustainable Development -

Rosalie Callway 2013-06-17
As the process of globalization continues and power imbalances between decision-making institutions become increasingly apparent, the need for a critical assessment

of the way in which we manage our interaction with the natural environment becomes ever more urgent. Good governance was identified at the World Summit on Sustainable Development as a critical factor for ensuring successful sustainable development. This book builds on the briefing papers that were presented at the Summit, taking further the discussions of the WEHAB agenda (Water, Energy, Health, Agriculture and food, and Biodiversity - the five international priority sectors highlighted by UN Secretary General Kofi Annan). This is a unique offering on the role and reform of global institutions and processes, raising issues that have previously been neglected in international discussions.

Governance on the Ground - Patricia Louise

McCarney 2003-09-15

Governance on the Ground describes people at a local level working through municipal institutions to take more responsibility for their own lives and environment. This study reports what social scientists in eight local networks found when they chose their own subjects for a worldwide comparative study of institutional reform at the local level. Governance on the Ground is the culminating product of the Global Urban Research Initiative, a major 10-year research effort that created a worldwide network of some 400 social scientists. The topics these scholars cover include fiscal innovation, infrastructure projects, social development, housing, harbor development, and political party participation. Material comes from Chile, Colombia, Mexico, Brazil, Sudan, Zimbabwe, South Africa, Lebanon, Israel, Egypt, Bangladesh, India, Vietnam, Indonesia, Thailand, and the Philippines. All

chapters present governance at a local level in a period characterized by decentralization and democratization, when many governments were improving local accountability and transparency and people were actively participating in public forums, especially through institutions of civil society. Many chapters show the close connection between social science and actual policy formation and implementation in the developing world.

Nehanda - Yvonne Vera 2018

In the late nineteenth century white settlers and administrators arrive to occupy the African country of Zimbabwe (Rhodesia). Nehanda, a village girl, is recognized through omens and portents as a saviour. Told in lucid, poetic prose, this is a gripping story about the first meeting of a people with their colonizer.

TRENDS IN LINGUISTICS is a series of books that open new perspectives in our understanding of language. The series publishes state-of-the-art work on core areas of linguistics across theoretical frameworks as well as studies that provide new insights by building bridges to neighbouring fields such as neuroscience and cognitive science. TRENDS IN LINGUISTICS considers itself a forum for cutting-edge research based on solid empirical data on language in its various manifestations, including sign languages. It regards linguistic variation in its synchronic and diachronic dimensions as well as in its social contexts as important sources of insight for a better understanding of the design of linguistic systems and the ecology and evolution of language. TRENDS IN LINGUISTICS publishes monographs and

outstanding dissertations as well as edited volumes, which provide the opportunity to address controversial topics from different empirical and theoretical viewpoints. High quality standards are ensured through anonymous reviewing.

Text Variability Measures in Corpus Design for Setswana Lexicography - Thapelo J.

Otlogetswe 2011-01-18

This book is about the design of a Setswana corpus for lexicography. While various corpora have been compiled and a variety of corpora-based research has been attempted in African languages, no effort has been made towards corpus design. Additionally, although extensive analysis of the Setswana language has been done by missionaries, grammarians and linguists since the 1800s, none of this research is in corpus design. Most research has been largely on the grammatical study of the language. The recent corpora research in African languages in general has been on the use of corpora for the compilation of dictionaries and little of it is in corpus

design. Pioneers of this kind of corpora research in African languages are Prinsloo and De Schryver (1999), De Schryver and Prinsloo (2000 and 2001) and Gouws and Prinsloo (2005). Because of a lack of research in corpora design particularly in African languages, this book attempts to fill that gap, especially for Setswana. It is hoped that the finding of this study will inspire similar designs in other languages comparable to Setswana. We explore corpus design by focusing on measuring a variety of text types for lexical richness at comparable token points. The study explores the question of whether a corpus compiled for lexicography must comprise a variety of texts drawn from different text types or whether the quality of retrieved information for lexicographic purposes from a corpus comprising diverse text varieties could be equally extracted from a corpus with a single text type. This study therefore

determines whether linguistic variability is crucial in corpus design for lexicography.

Core Curriculum for Lactation Consultant Practice - Rebecca Mannel 2008

Core Curriculum for Lactation Consultant Practice, Second Edition allows aspiring and established lactation consultants to assess their knowledge, experience, and expertise in developing an effective study plan for certification. The Second Edition of this text, contributed to by Rebecca Mannel, Patricia J. Martins, and Marsha Walker, has been updated and is the perfect resource to study for the certification exam. This updated resource takes you through the areas that appear in the lactation consultant certification exam administered by the International Board of Lactation Consultant Examiners (ILCA). The comprehensive coverage will allow you to develop an effective plan to optimize your study time. The curriculum also serves as a convenient,

evidence-based source for daily reference. Specifically the Second Edition: * Follows the IBLCE exam blueprint, reviewing all topics and areas covered on the lactation consultant certification exam. * Provides a "road map" that allows you to pinpoint areas of particular interest or identified need. * Presents a useful reference for staff development, new staff orientation, and curriculum development. * Presents extensive references to direct you to further study. * Provides extensive references to direct you to further study. * Presents the core knowledge needed to practice as an IBCLC.

Proverbs are Never Out of Season - Wolfgang Mieder 2012

This book takes an engaging look at the significance of traditional proverbs and their variation in the modern world. From sales pitch to propagandistic tool, Wolfgang Mieder looks at how we adapt proverbs to rapidly changing social attitudes - the original wording of proverbs changes to fit modern advertising slogans or political rhetoric, misogynist sayings become

feminist slogans, and late medieval woodcuts illustrating proverbs find their modern equivalents in political cartoons and comic strips. The book is richly illustrated and contains name, subject, and proverb indexes.
