Infrastructures for Peace in Sub-Saharan Africa - Mediel Hove 2019-06-14

Cultures of violence are characteristic of many countries in sub-Saharan Africa and attempts to move towards cultures of peace have often proved difficult and ineffectual. And yet, the wide variations in levels of violence within and between countries show that it is not inevitable; rather, it is the result of choices made at individual, community and societal levels. This book examines the potential of peace infrastructures as vehicles to strengthen and spread progress towards cultures of peace. Peace infrastructures vary hugely in sophistication and level. The examples examined in this book range from tiny structures which help resolve conflicts between individuals and within community organisations, peace committees which serve local communities, peace education and peace club programmes in schools, mediation mechanisms to prevent election violence and to ministries of peace to coordinate government and non-government efforts in peacemaking and peacebuilding. The overall finding is that the development of peace infrastructures at all levels has great potential to build cultures of peace. 1. It is the only book available which documents the experience and potential of nonviolence in post-independence sub-Saharan Africa. 2. It makes a persuasive case for the development of various peace infrastructures in order to make peace sustainable. 3. It explains how strategic planning can be utilised, both to bring about change and to institutionalise it.

Violence, Peace and Everyday Modes of Justice and Healing in

Post-Colonial Africa - Ngonidzashe Marongwe 2019-02-06

Violence in its various proportions, genres and manifestations has had an enduring historical legacy the world over. However, works speaking to approaches aimed at mitigating violence characteristic of Africa are very limited. As some scholars have noted, Africans have experienced cycles of violence since the pre-colonial epoch, such that overt violence has become banalised on the African continent. This has had the effect of generating complex results, legacies and perennial emotional wounds that call for healing, reconciliation, justice and positive peace. Yet, in the absence of systematic and critical approaches to the study of violence on the continent, discourses on violence would hardly challenge the global matrices of violence that threaten peace and development in Africa. This volume is a contribution in the direction of such urgently needed systematic and critical approaches. It interrogates, from different angles and with inspiration from a multidisciplinary perspective, the contentious production and resilience of violence in Africa. It calls for a paradigm shift – an alternative approach that forges and merges African customary dispute resolution and Western systems of dispute resolution – towards a framework of positive peace, holistic restoration, sustainable development and equity. The book is a welcome contribution to students and practitioners in security studies, African studies, development studies, global studies, policy studies, and political science.

Family Demography and Post-2015 Development Agenda in Africa

- Clifford O. Odimegwu 2019-08-27

This book is a comprehensive analysis of the structure, determinants and consequences of changes in sub-Saharan African families, thereby representing an Afrocentric description of the emerging trends. It documents various themes in the sub-disciplines of family demography. The first section of the book focuses on philosophical understanding of African family, its theoretical perspectives, and comparative analysis of family in the 20th and 21st centuries. The second section covers family formation, union dissolution, emerging trend in single parenthood, and adolescents in the family. The following section describes types, determinants and consequences of African family changes: health, childbearing, youth development, teen pregnancy and family violence and the last chapter provides systematic evidence on existing laws and policies governing African family structure and dynamics. As such it illustrates the importance of family demography in African demographic discourse and will be an interesting read to scholars and students in the field of demography, social workers, policy makers, departments of Social Development in countries in Africa and relevant international agencies and all those interested in understanding the African family trajectory.

Effectiveness of the Domestic Violence Act 2006 (chapter 5:16) - Shillah Rugonye 2013

This book sensitizes the reader on issues of domestic violence among married women. The study revealed that, while the government enacted the Domestic Violence Act 2006 (chapter 5:16) nothing much is being done in addressing the issues of domestic violence on married women. This is reflected by failure by most of the married women to interpret, appreciate and understand the implications of the Domestic Violence Act. Also the results showed, married women didn't bother reporting when abused because culturally issues of marriage are treated as confidential and have own channels of reporting such that women are reluctant to report issues of domestic violence. Therefore, the Domestic Violence Act is taken as not an important tool. The study recommends that more awareness campaigns should be done in the community. Again, the Domestic Violence Act should be presented in all languages including vernacular for easy interpretation, understanding and implementation of the Act. There is also need to concentrate on systemic and person centered approaches for the policy makers to come up with in-depth comparative analysis of the approaches.

Re-imagining Indigenous Knowledge and Practices in 21st Century Africa - Tenson Muyambo 2022-02-14

This book is on the re-imagination of Indigenous Knowledge Systems (IKS) and practices in 21st century Africa. Framed from an anti-colonial perspective, the book critically interrogates epistemological erasures and injustices meted against African IKS and practices. It magnifies the different contexts where African IKS were and continue to be used effectively for collective and personal benefit. Beyond the legitimate frustration and disheartenment expressed by the contributors to this volume over the systematic colonial efforts to render inferior and delegitimate African systems of knowing and knowledge production, the book makes an important contribution to the quest to correct misconceptions and misrepresentations by Eurocentric thinkers and practitioners about African indigenous knowledges. The book makes an informed claim that the future and vibrancy of African indigenous

knowledge and practices lie in how well scholars of knowledge studies and decoloniality in and on Africa are able to join hands in articulating, debating and fronting their vitality and relevance in varied real-life situations. More importantly, the book provides a re-invigorated overview and nuanced analyses of the important role and continued relevance of African IKS and practices in the understanding, interpreting and tackling of the social unfoldings of everyday life and dynamism. Without romanticising African IKS and practices, the book provides added insights and pointers on policy and trends. It is an important addition to critical debates on knowledge studies across fields.

Law, Religion and the Family in Africa - Dr M Christian Green 2021-12-31

The family is a crucial site for the interaction of law and religion the world over, including Africa. In many African societies, the family is governed by a range of sources of law, including civil, constitutional, customary and religious law. International law and human rights principles have been domesticated into African legal systems, particularly to protect the rights of women and children. Religious rites and rituals govern sexuality, marriage, divorce, child-rearing, inheritance, intergenerational relations and more in Christianity, Islam and indigenous African custom. This book examines the African family with attention to tradition and change, comparative law, the relation of parents and children to the state, indigenous religion and customary law, child marriage and child labour and migration, diaspora and displacement.

Violence Against Women and Criminal Justice in Africa: Volume I - Emma Charlene Lubaale 2021-11-27

This book examines violence against women in Africa and criminal justice from the perspective of African scholars, practitioners and experts. As a global and long-standing issue, violence against women is gaining public visibility across the African continent with some states announcing a national crisis warranting immediate redress. At the global level, the elimination of all forms of violence against all women and girls forms a key part of United Nations Sustainable Development Goal 5: Gender Equality. Split across two volumes, these books present a comprehensive analysis of the latest research and theories, principles and practices of criminal justice systems, criminal justice accountability mechanisms, and the key challenges women face in their quest for justice on the African continent. Volume I focusses on legislation and its impact, the limitations of criminal justice responses, and the cultural and social norms regarding access to justice. Volume II examines sexual violence and vulnerable women's access to justice in Africa. They adopt a comparative approach that highlight gaps and good practices to provide a rich source of authoritative information for promoting an intra-African dialogue and cross-fertilization of ideas across the different criminal justice traditions in Africa. Both volumes seek to advance discussions on eliminating violence against women in Africa and speak to those interested in criminal justice, violence, gender studies and African legal studies.

Beyond the Enclave - Timothy Kondo 2011

Beyond the Enclave sets out to unravel the contradiction of a country, Zimbabwe, where a rich, diverse resource base co-exists with endemic poverty. One reason lies in the colonial economy, which was predicated on an ideology of white supremacy, creating an enclave formal economy employing one-fifth of the labour force. Yet over three decades after independence, the non-formal segment has become even more entrenched. This book assesses Zimbabwe's economy through three main phases: 1980- 0 when a strong social policy framework proved difficult to sustain due to erratic growth, and 1991- 6, when "structural adjustment" demanded a market-driven approach to development. The third phase is characterized by crisis-management leading to policy inconsistencies and reversals. Not surprisingly, such incoherence saw the economy descend into hyperinflation and paralysis in 2007- 8, leading to the signing of the Global Political Agreement in September 2008. In the absence of formal dollarization, economic recovery after the adoption of the multi-currency regime has remained fragile, leaving an estimated 70 per cent of the population outside the banking system. This has further entrenched uneven (enclave) growth as the economy remains locked in a low-income poverty trap. There is a need to facilitate transition towards formality to promote decent jobs. Furthermore, a strategic, developmental role for the state in the economy is now widely recognized as vital for development. Beyond the Enclave argues for a new approach to development in Zimbabwe based on pro-poor and inclusive strategies, which will contribute to the well-being of all of its citizens and wise stewardship of its resources. It offers suggestions on policy formulation, implementation, monitoring and evaluation in all sectors, designed to

promote inclusive growth and humane development.

[The Cultural and Artistic Legacy of Oliver Mtukudzi](#) - Munyaradzi Nyakudya 2022-10-12

This book delves into a critical and comprehensive analysis of Mtukudzi's legacy, as an outstanding musician who anchored his music on cultural identity specifically through the artistic manipulation of language. As a cultural worker, his remit extended beyond performance. This raised his stature to the levels of such African music icons as Fela Kuti of Nigeria, Salif Keita of Mali and Miriam Makeba/Hugh Masekela of South Africa, all towering giants in African musical performance. This volume examines how Mtukudzi artistically manipulated language to convey a timeless message of cultural identity, fighting for the respect of rights for women, children and all. It unpacks how Mtukudzi subtly uses language to put across political views that speak truth to power, harnessing Zimbabwean language to articulate and promote the nation's cultural heritage and to advocate for societal development and the promotion of rights of vulnerable groups. The chapters in this volume are a mix of interdisciplinary Zimbabwean scholars of linguistics, performance studies, religion, history, communication and media studies, unravelling Mtukudzi as a fighter for human rights and justice who subtly critiqued political systems and practices. It concludes that Mtukudzi strove to be a cultural worker who used the power of language through music to contribute towards the rehabilitation of a battered African identity.

Sexual Justice - Alexandra Brodsky 2021-08-24

A pathbreaking work for the next stage of the #MeToo movement, showing how we can address sexual harms with fairness to both victims and the accused, and exposing the sexism that shapes today's contentious debates about due process Over the past few years, a remarkable number of sexual harassment victims have come forward with their stories, demanding consequences for their assailants and broad societal change. Each prominent allegation, however, has also set off a wave of questions – some posed in good faith, some distinctly not – about the rights of the accused. The national conversation has grown polarized, inflamed by a public narrative that wrongly presents feminism and fair process as warring interests. Sexual Justice is an intervention, pointing the way to common ground. Drawing on core principles of civil rights law, and the personal experiences of victims and the accused, Alexandra Brodsky details how schools, workplaces, and other institutions can – indeed, must – address sexual harms in ways fair to all. She shows why these allegations cannot be left to police and prosecutors alone, and outlines the key principles of fair proceedings outside the courts. Brodsky explains how contemporary debates continue the long, sexist history of "rape exceptionalism," in which sexual allegations are treated as uniquely suspect. And she calls on readers to resist the anti-feminist backlash that hijacks the rhetoric of due process to protect male impunity. Vivid and eye-opening, at once intellectually rigorous and profoundly empathetic, Sexual Justice clears up common misunderstandings about sexual harassment, traces the forgotten histories that underlie our current predicament, and illuminates the way to a more just world.

Shona Women in Zimbabwe—A Purchased People? - John Chitakure 2016-09-29

The position and treatment of women in every religion, culture, and society have been subjects of concern for a long time. In every society, women fight for their emancipation from exploitive and oppressive patriarchal structures. The most contentious issues include domestic violence, gender discrimination and inequality in the areas of employment, leadership, and marriage. Domestic violence tops the list and is the worst enemy of any progressive and democratic society. It dehumanizes, disfigures, and demeans its victims and survivors. *Shona Women in Zimbabwe--a Purchased People?* explores the causes of domestic violence--the cultural practice of bridewealth, in particular--and assesses the extent to which it contributes to the proliferation of domestic violence among the Shona people of Zimbabwe. It then explores the Christian traditions, particularly, the Roman Catholic Church, in search of resources that can be used to emancipate Shona women from patriarchal subjugation. Finally, the book offers a pastoral response that is informed by the experiences of the Shona women, their cultural resources, and the Roman Catholic religious tradition.

Justice Not Silence - Ezra Chitando 2013-09-01

The editors of this volume highlight the fact that although the Church often stands up for other public issues such as human rights, democratic political rights, economic justice, etc., sexual and gender-based violence do not receive the attention they deserve. There are no theological or cultural arguments that can justify such a position. Sexual and gender-based violence are a scourge that defies our Christian understanding of human dignity ? and challenges the Church in all its formations to respond. ÿAlthough most of the case studies are from Zimbabwe, they challenge us regardless of which country we are living in ? or the tradition of our specific denomination.ÿ In the context of Southern Africa, where the HIV and AIDS burden is among the highest in the world, sexual and gender-based violence are a major contributor to the spread of the disease. This will only change if the Church challenges this practice as part of its educational and public work ? in theological institutions, in congregations, but also in its pastoral work within families.ÿ

Disability and Sexuality in Zimbabwe - Christine Peta 2017-10-25

Disabled women represent one of the most marginalised minority groups in the world, hence they are largely silent while their sexuality is ignored, suppressed, forbidden and buried underneath the carpet. Until recently, most of the Global Northern published literature on the subject of the sexuality of disabled women has predominantly been constructed from hearsay and second-hand narratives in studies which draw from the perspectives of parents, service providers and advocates, without much consultation of the relevant women. By facilitating the voice of disabled women in Zimbabwe and illuminating their experiences of sexuality, this book hopes to shift the experiences of sexuality of disabled women from the periphery of society to the fore. *Disability and Sexuality in Zimbabwe* presents original research on an issue that is thus far not found in local research data. Whilst addressing the paucity of literature on the subject, the book informs policy and practice and enhances the existing body of knowledge by making recommendations towards the development of a disability and sexuality framework that is rooted in the African context. This book is of interest to students and scholars of African studies, disability studies, sociology, psychology, social work, nursing, education studies, geography, women's and gender studies and interdisciplinary studies. Additional audiences include a wide range of health, social care, and educational professionals and practitioners, as well donors, disabled people's organisations, charities, government departments, NGOs,
