Mutiny at the Margins: New Perspectives on the Indian Uprising of 1857 - Crispin Bates 2017-01-02

The Mutiny at the Margins series takes a fresh look at the revolt of 1857 from original and unusual perspectives, focusing in particular on neglected socially marginal groups and geographic areas which have hitherto tended to be unrepresented in studies of this cataclysmic event in British imperial and Indian historiography. Documents of the Indian Uprising (Volume 7) is a source book that provides samples from rare documents unearthed in the course of extensive research conducted during the Mutiny at the Margins project. Both a research tool and a teaching resource, it employs images and texts to offer a unique range of primary sources relating to the 1857 uprising, its aftermath and legacies. Emphasising subaltern and marginal perspectives, it is designed to complement the previous six volumes of the series.

Humour in the Arts - Vivienne Westbrook

2018-07-27

This collection demonstrates the usefulness of approaching texts—verbal, visual and aural—through a framework of humour. Contributors offer in-depth discussions of humour in the West within a wider cultural historical context to achieve a coherent, chronological sense of how humour proceeds from antiquity to modernity. Reading humorously reveals the complexity of certain aspects of texts that other reading approaches have so far failed to reveal. Humour in the Arts explores humour as a source of cultural formation that engages with ethical, political, and religious controversies whilst acquainting readers with a wide range of humorous structures and strategies used across Western cultures.

The winnowing oar - New Perspectives in Homeric Studies - Christos Tsagalis 2017-10-10

In the wake of recent advances in the treatment of longstanding problems pertaining to the interpretation of Homeric poetry, this volume brings together cutting-edge research from a cohort of acclaimed scholars on Homer and the Homeric Hymns. The variety of topics covered spans the entire field of Homeric philology: the methods and solutions provided for a new edition of the Odyssey, the puzzle of the relation between the festival of the Panathenaea and the Homeric text, the disclosure of the meaning of notorious cruces pertaining to arcane formulas, the two emblematic heroes of the Iliad and the Odyssey, Achilles and Odysseus, Homeric poetics, the range and use of repetition in a traditional medium, the composition of the Homeric epics, the Apologoi and 'Cyclic' Narrative, as well as the Homeric Hymns to Hermes and Aphrodite.

New Perspectives on Regulation - David Moss 2009

As an experiment in reconnecting academia to the broader democracy, this work is designed to invigorate public policy debate by rededicating academic work to the pursuit of solutions to society's great problems.

Rome: An Empire of Many Nations - Jonathan J. Price 2021-08-31

The center of gravity in Roman studies has shifted far from the upper echelons of government and administration in Rome or the Emperor's court to the provinces and the individual. The multi-disciplinary studies presented in this volume reflect the turn in Roman history to the identities of ethnic groups and even single individuals who lived in Rome's vast multinational empire. The purpose is less to discover another element in the Roman Empire's "success" in governance than to illuminate the variety of individual experience in its own terms. The chapters here, reflecting a wide spectrum of professional expertise, range across the many cultures, languages, religions and literatures of the Roman Empire, with a special focus on the Jews as a test-case for the larger issues.

New Perspectives in Global Public

Archaeology - Katsuyuki Okamura 2011-09-03

Since its very beginning, archaeology has in many senses always related to a much wider constituency than just archaeologists. This relationship between archaeology and the public has often been overlooked and constantly changes. Public archaeology, as a field of research and practice, has been developing since the 1970s in English-speaking countries, particularly in the United States, Britain, and Australia, and is today beginning to spread to

other parts of the world. Global expansion of public archaeology comes with the recognition of the need for a careful understanding of local contexts, particularly the culture and socio-political climate. This volume critically examines the current theories and practices of public archaeology through relevant case studies from different regions throughout the world, including: Japan, China, South Korea, New Caledonia, South Africa, Senegal, Jordan, Italy, Peru, Canada, the United Kingdom, the United States, and Australia. These case studies are examined from a wide variety of theoretical contexts, to provide a thorough and comprehensive guide to the state of public archaeology today, as well as implications for its future. As the theory and practice of public archaeology continues to change and grow, archaeology's relationship with the broader community needs to be critically and openly examined. The contributions in this wide-ranging work are a key source of information for anyone practicing or studying archaeology in a public context.

Best Practices and New Perspectives in Service Science and Management - Ordóñez de Pablos, Patricia 2013-04-30

King John - Deborah T. Curren-Aquino 1989
Illuminating Shakespeare's complex experimentation with the dramatic genre of history, these twelve essays bring such time-honored critical methods as source study and concentration on genre, imagery and language, theme, and character together with more current techniques based on historiography, the new historicism, feminism, pragmatics, performance history, and perspectivism.

New Perspectives on Kristallnacht - Steven J. Ross 2019-12-15

On November 9 and 10, 1938, Nazi leadership unleashed an unprecedented orchestrated wave of violence against Jews in Germany, Austria, and the Sudetenland, supposedly in response to the assassination of a Nazi diplomat by a young Polish Jew, but in reality to force the remaining Jews out of the country. During the pogrom, Stormtroopers, Hitler Youth, and ordinary Germans murdered more than a hundred Jews (many more committed suicide) and ransacked and destroyed thousands of Jewish institutions, synagogues, shops, and homes. Thirty thousand

Jews were arrested and sent to Nazi concentration camps. Volume 17 of the Casden Annual Review includes a series of articles presented at an international conference titled "New Perspectives on Kristallnacht: After 80 Years, the Nazi Pogrom in Global Comparison." Assessing events 80 years after the violent anti-Jewish pogrom of 1938, contributors to this volume offer new cutting-edge scholarship on the event and its repercussions. Contributors include scholars from the United States, Germany, Israel, and the United Kingdom who represent a wide variety of disciplines, including history, political science, and Jewish and media studies. Their essays discuss reactions to the pogrom by victims and witnesses inside Nazi Germany as well as by foreign journalists, diplomats, Jewish organizations, and Jewish print media. Several contributors to the volume analyze postwar narratives of and global comparisons to Kristallnacht, with the aim of situating this anti-Jewish pogrom in its historical context, as well as its place in world history.

Agricultural development: New perspectives in a changing world - Otsuka, Kejiro, ed. 2021-01-14

Agricultural Development: New Perspectives in a Changing World is the first comprehensive exploration of key emerging issues facing developing-country agriculture today, from rapid urbanization to rural transformation to climate change. In this four-part volume, top experts offer the latest research in the field of agricultural development. Using new lenses to examine today's biggest challenges, contributors address topics such as nutrition and health, gender and household decision-making, agrifood value chains, natural resource management, and political economy. The book also covers most developing regions, providing a critical global perspective at a time when many pressing challenges extend beyond national borders. Tying all this together, *Agricultural Development* explores policy options and strategies for developing sustainable agriculture and reducing food insecurity and malnutrition. The changing global landscape combined with new and better data, technologies, and understanding means that agriculture can and must contribute to a wider range of development outcomes than ever before, including reducing poverty, ensuring adequate nutrition, creating strong food value

chains, improving environmental sustainability, and promoting gender equity and equality.

Agricultural Development: New Perspectives in a Changing World, with its unprecedented breadth and scope, will be an indispensable resource for the next generation of policymakers, researchers, and students dedicated to improving agriculture for global wellbeing.

New Perspectives on Chinese Syntax - Waltraud Paul 2014-12-12

Mandarin Chinese has become indispensable for crosslinguistic comparison and syntactic theorizing. It is nevertheless still difficult to obtain comprehensive answers to research questions, because Chinese is often presented as an "exotic" language defying the analytical tools standardly used for other languages. This book sets out to demystify Chinese. It places controversial issues in the context of current syntactic theories and offers precise analyses based on a large array of representative data. Although the focus is on Modern Mandarin, earlier stages of Chinese are occasionally referred to in order to highlight striking continuities in its history. VO order is one such constant factor, thus invalidating the idea that Chinese went through a major word order change from OV to VO and back to OV. Another claim often made for Chinese as an isolating language, viz. the existence of an impoverished

inventory of parts of speech, is likewise refuted. Other long debated issues addressed here include the relevance of the dichotomy topic vs subject prominence and the role of Chinese as a recurring exception to crosscategorical harmonies posited in typological studies.

New Perspectives on Lexical Borrowing - Eline Zenner 2013-11-27

This volume aims to broaden the focus of existing loanword research, which has mainly been conducted from a systemic and structuralist perspective. The eight studies in this volume introduce onomasiological, phraseological, and methodological innovations to the study of lexical borrowing. These new perspectives significantly enhance our understanding of lexical borrowing and provide new insights into contact-induced variation and change.

Reconceptualising Agency and Childhood - Florian Esser 2016-02-22

By regarding children as actors and conducting empirical research on children's agency, Childhood Studies have gained significant influence on a wide range of different academic disciplines. This has made agency one of the key concepts of Childhood Studies, with articles on the subject featured in handbooks and encyclopaedias. Reconceptualising Agency and

Childhood is the first collection devoted to the central concept of agency in Childhood Studies. With contributions from experts in the field, the chapters cover theoretical, practical, historical, transnational and institutional dimensions of agency, rekindling discussion and introducing fundamental and contemporary sociological perspectives to the field of research. Particular attention is paid to connecting agency in the social sciences with Childhood Studies, considering both the theoretical foundations and the practice of research into agency. Empirical case studies are also explored, which focus upon child protection, schools and childcare at a variety of institutions worldwide. This book is an essential reference for students and scholars of Childhood Studies, and is also relevant to Sociology, Social Work, Education, Early Childhood Education and Care (ECEC) and Geography. Chapter 6 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution-Non Commercial-No Derivatives 3.0 license.

Race, Work, and Leadership - Laura Morgan Roberts 2019-08-13

Rethinking How to Build Inclusive Organizations
Race, Work, and Leadership is a rare and important compilation of essays that examines how race matters in people's experience of work and leadership. What does it mean to be black in corporate America today? How are racial dynamics in organizations changing? How do we build inclusive organizations? Inspired by and developed in conjunction with the research and programming for Harvard Business School's commemoration of the fiftieth anniversary of the founding of the HBS African American Student Union, this groundbreaking book shines new light on these and other timely questions and illuminates the present-day dynamics of race in

the workplace. Contributions from top scholars, researchers, and practitioners in leadership, organizational behavior, psychology, sociology, and education test the relevance of long-held assumptions and reconsider the research approaches and interventions needed to understand and advance African Americans in work settings and leadership roles. At a time when--following a peak in 2002--there are fewer African American men and women in corporate leadership roles, *Race, Work, and Leadership* will stimulate new scholarship and dialogue on the organizational and leadership challenges of African Americans and become the indispensable reference for anyone committed to understanding, studying, and acting on the challenges facing leaders who are building inclusive organizations.

New Perspectives on Mixed Languages -

Maria Mazzoli 2021-06-08

A growing number of language varieties with diverse backgrounds and structural typologies have been identified as mixed. However, the debate on the status of many varieties and even on the existence of the category of "mixed languages" continues still today. This volume examines the current state of the theoretical and empirical debate on mixed languages and presents new advances from a diverse set of mixed language varieties. These cover well-known mixed languages, such as Media Lengua, Michif, Gurindji Kriol, and Kallawaya, and varieties whose classification is still debated, such as Reo Rapa, Kumzari, Jopará, and Wutun. The contributions deal with different aspects of mixed languages, including descriptive approaches to their current status and origins, theoretical discussions on the language contact processes in them, and analysis of different types of language mixing practices. This book contributes to the current debate on the existence of the mixed language category, shedding more light onto this fascinating group of languages and the contact processes that shape them.

New Perspectives on Malthus - Robert J.

Mayhew 2016-06-20

Thomas Robert Malthus (1766–1834) was a pioneer in demography, economics and social science more generally whose ideas prompted a new 'Malthusian' way of thinking about

population and the poor. On the occasion of the two hundred and fiftieth anniversary of his birth, *New Perspectives on Malthus* offers an up-to-date collection of interdisciplinary essays from leading Malthus experts who reassess his work. Part one looks at Malthus's achievements in historical context, addressing not only perennial questions such as his attitude to the Poor Laws, but also new topics including his response to environmental themes and his use of information about the New World. Part two then looks at the complex reception of his ideas by writers, scientists, politicians and philanthropists from the period of his own lifetime to the present day, from Charles Darwin and H. G. Wells to David Attenborough, Al Gore and Amartya Sen.

Digital citizenship education - Divina Frau-Meigs 2017-10-17

Supporting children and young people to participate safely, effectively, critically and responsibly in a world filled with social media and digital technologies is a priority for educators the world over. Most young people in Europe today were born and have grown up in the digital era. Education authorities have the duty to ensure that these digital citizens are fully aware of the norms of appropriate behaviour when using constantly evolving technology and participating in digital life. Despite worldwide efforts to address such issues, there is a clear need for education authorities to take the lead on digital citizenship education and integrate it into school curricula. In 2016, the Education Department of the Council of Europe began work to develop new policy orientations and strategies to help educators face these new challenges and to empower young people by helping them to acquire the competences they need to participate actively and responsibly in digital society. This volume, the first in a Digital Citizenship Education series, reviews the existing academic and policy literature on digital citizenship education, highlighting definitions, actors and stakeholders, competence frameworks, practices, emerging trends and challenges. The inclusion of a wide selection of sources is intended to ensure sufficient coverage of what is an emergent topic that has yet to gain a strong foothold in either education or academic literature, but has received wider policy attention.

Neighbourhood Effects Research: New Perspectives - Maarten van Ham 2011-11-22
Over the last 25 years a vast body of literature has been published on neighbourhood effects: the idea that living in more deprived

neighbourhoods has a negative effect on residents' life chances over and above the effect of their individual characteristics. The volume of work not only reflects academic and policy interest in this topic, but also the fact that we are still no closer to answering the question of how important neighbourhood effects actually are. There is little doubt that these effects exist, but we do not know enough about the causal mechanisms which produce them, their relative importance in shaping individual's life chances, the circumstances or conditions under which they are most important, or the most effective policy responses. Collectively, the chapters in this book offer new perspectives on these questions, and refocus the academic debate on neighbourhood effects literature with insights from a wide range of disciplines and countries.

New Perspectives on Translanguaging and Education - BethAnne Paulsrud 2017-05-16

This edited collection explores the immense potential of translanguaging in educational settings and highlights teachers and students negotiating language ideologies in their everyday communicative practices. It makes a significant contribution to scholarship on translanguaging and considers the need for pedagogy to reflect and embrace diversity. The chapters provide rich empirical research and document translanguaging in varied educational contexts, with studies from pre-school to adult education in different, mainly European, countries, where English is not the dominant language. Together they expand our understanding of translanguaging and how it can be applied to a variety of settings. This book will be of interest to students and researchers, especially in education, language education and applied linguistics, as well as to professionals and policymakers.
