Radical Coherency - David Antin  
2012-03-15

"We got to talking"—so David Antin begins the introduction to *Radical Coherency*, embarking on the pursuit that has marked much of his breathless, brilliantly conversational work. For the past forty years, whether spoken under the guise of performance artist or poet, cultural explorer or literary critic, Antin's innovative observations have helped us to better understand everything from Pop to Postmodernism. Intimately wedded to the worlds of conceptual art and poetics, *Radical Coherency* collects Antin's influential critical essays and spontaneous, performed lectures (or "talk pieces") for the very first time, capturing one of the most distinctive perspectives in contemporary literature. The essays presented here range from the first serious assessment of Andy Warhol published in a major art journal, as well as Antin's provocative take on Clement Greenberg's theory of Modernism, to frontline interventions in present debates on poetics and fugitive pieces from the '60s and '70s that still sparkle today—and represent a gold mine for art historians of the period. From John

Cage to Allan Kaprow, Mark Rothko to Ludwig Wittgenstein, Antin takes the reader on an idiosyncratic, personal journey through twentieth-century culture with his trademark antiformalist panache—one that will be welcomed by any fan of this consummate trailblazer.

**To Live Deliberately** - Henry David Thoreau 2019-09-17

Henry David Thoreau dropped the gauntlet with *Walden* in 1854, and it is more relevant than ever. *To Live Deliberately* is our visual reimagining of Thoreau's most well-known essay, *Where I Lived and What I Lived For*. Accompanied by 30 illustrations, the essay challenges the trappings of modern living and embraces an ascetic rejection of the material and the trivial in exchange for a reconnection with nature as a path toward self-discovery. We judiciously edited Thoreau's essay to avoid any unnecessarily confusing news references, and were amazed to discover that not only does this manifesto otherwise hold up, but it also feels surprisingly modern and more relevant than ever. Thoreau's rejection of news as largely gossip, and the obsession with travel and railroads as idle self-indulgence, bear a sobering resemblance to our modern preoccupation with social media and internet surfing. In both instances, the impulse to seek distraction is the same. The Obvious State Classics Collection is an evolving series of visually reimagined beloved works that speaks to contemporary readers. The pocket-sized, collectable editions feature the selected works of celebrated authors such as T. S. Eliot, Edgar Allan Poe, Walt Whitman, Sara Teasdale and Henry David Thoreau.

**Soap** - Francis Ponge 1998

In this work, begun during the German occupation, the eminent French poet and philosopher began to turn away from the small, perfect poem toward a much more open form, a kind of prose poem that recounted its own process of coming into being along with the final result.

**Reading And Rhyme** - Parragon Book Service Limited 2004-11

*Crimes of Peace* - Maurizio Albahari 2015-08-12

Among the world's hotly contested, obsessively controlled, and often dangerous borders, none is deadlier than the Mediterranean Sea. Since 2000, at least 25,000 people have lost their lives attempting to reach Italy and the rest of Europe, most by drowning in the Mediterranean. Every day, unauthorized migrants and refugees bound for Europe put their lives in the hands of maritime smugglers, while fishermen, diplomats, priests, bureaucrats, armed forces sailors, and hesitant bystanders waver between indifference and intervention—with harrowing results. In *Crimes of Peace*, Maurizio Albahari investigates why the Mediterranean Sea is the world's deadliest border, and what alternatives could improve this state of affairs. He also examines the dismal conditions of migrants in transit and the institutional framework in which they move or are physically confined. Drawing on his intimate knowledge of places, people, and European politics, Albahari supplements fieldwork in coastal southern Italy and neighboring Mediterranean locales with a meticulous documentary investigation, transforming abstract statistics into names and narratives that place the responsibility for the Mediterranean migration crisis in the very heart of liberal democracy. Global fault lines are scrutinized: between Europe, Africa, and the Middle East; military and humanitarian governance; detention and hospitality; transnational crime and statecraft; the universal law of the sea and the thresholds of a globalized yet parochial world. *Crimes of Peace* illuminates crucial questions of sovereignty and rights: for migrants trying to enter Europe along the Mediterranean shore, the answers are a matter of life or death.

**An Introduction to General Relativity and Cosmology** - Jerzy Plebanski  
2006-08-14

General relativity is a cornerstone of modern physics, and is of major importance in its applications to cosmology. Plebanski and Krasinski are experts in the field and in this book they provide a thorough introduction to general relativity, guiding the reader through complete derivations of the most important results. Providing coverage from a unique viewpoint, geometrical, physical and astrophysical properties of inhomogeneous cosmological models are all systematically and clearly presented, allowing the reader to follow and verify all derivations. For advanced undergraduates and graduates in physics and astronomy, this textbook will enable students to develop expertise in the mathematical

techniques necessary to study general relativity.

**The Opoanax** - Monique Wittig 1966  
This feminist novel "is an examination of childhood experiences viewed through the consciousness of a rebellious young girl in a convent school. Its unorthodox, minimally punctuated, and nonchronological narrative established Wittig's course as a writer... The novel... is a brilliant account of the making of a feminine subject, from childhood to adolescence." --www.britannica.com.

**Critical Thinking and Education** - John E. McPeck 2016-09-13

The skills of 'critical thinking' occupy a contentious place in debates on education. It is of course widely recognised that education must consist of more than an unreasoning accumulation of facts and skills, and that modern society demands a highly-developed critical awareness to cope with its ever-increasing complexities. Yet the very term 'critical thinking' threatens to become a vague and unexamined slogan, displayed more in party tricks than in useful knowledge. In this book, first published in 1981, Professor McPeck offers a critique of the major ideas and important work in the field, including those of Ennis and de Bono, while at the same time presenting his own rigorous ideas on the proper place in critical thinking in the philosophy of education. The book aims to establish a sound basis

on which the role of critical thinking in schools can be evaluated and the author makes a strong case for the contribution it can make to resolving current dilemmas of the curriculum.

Ideas - Edmund Husserl 1962

Under the title "A Pure or Transcendental Phenomenology", the work here presented seeks to found a new science—though, indeed, the whole course of philosophical development since Descartes has been preparing the way for it—a science covering a new field of experience, exclusively its own, that of "Transcendental Subjectivity". Thus Transcendental Subjectivity does not signify the outcome of any speculative synthesis,

but with its transcendental experiences, capacities, doings, is an absolutely independent realm of direct experience, although for reasons of an essential kind it has so far remained inaccessible. Transcendental experience in its theoretical and, at first, descriptive bearing, becomes available only through a radical alteration of that same dispensation under which an experience of the natural world runs its course, a readjustment of viewpoint which, as the method of approach to the sphere of transcendental phenomenology, is called "phenomenological reduction".

**Merleau-Ponty** - Taylor Carman  
2008-07-25

Maurice Merleau-Ponty (1908-61) was one of the most important philosophers of the twentieth century. His theories of perception and the role of the body have had an enormous impact on the humanities and social sciences, yet the full scope of his contribution not only to phenomenology but philosophy generally is only now being fully recognized. In this lucid and comprehensive introduction, Taylor Carman explains and assesses the full range of Merleau-Ponty's philosophy. Beginning with an overview of Merleau-Ponty's life and work, subsequent chapters cover fundamental aspects of Merleau-Ponty's thought, including his philosophy of perception and intentionality; the role of the body in perception; freedom and our relation to others; history and culture; and art, particularly the paintings of Cezanne. A final chapter considers Merleau-Ponty's importance today, examining his philosophy in light of recent developments in philosophy of mind and cognitive science. This second edition makes use of the new translation of Merleau-Ponty's *Phenomenology of Perception*, his most important work, highlighting its critique of "objective thought" and the account of constrained freedom that Merleau-Ponty advanced as a foil to Sartre's notion of radical choice. Including annotated further reading and a glossary of key terms, *Merleau-Ponty, Second Edition* is essential reading for students of phenomenology, existentialism and twentieth-century philosophy. It is also ideal for anyone in the humanities and social sciences seeking an introduction to Merleau-

Ponty's work.

*Pentagram Marks* - Pentagram Partners  
2010-05-05

The four hundred marks reproduced in this book represent the diverse array of identity work produced by Pentagram's partners, past and present, since the company was founded in 1972. Over the past four decades, Pentagram has designed marks for large corporations and small businesses, government agencies and non-profit institutions, clubs and societies, and even individuals, all of whom were seeking a representative symbol to appear on letterhead and books, buildings and websites, and everywhere else imaginable. Previously only distributed in a limited edition, this invaluable book is now made available in a paperback version and will provide inspiration for all graphic designers working on identity projects.

*Look-Alikes Jr.* - Joan Steiner  
2003-10-17

Welcome to Look-Alike Land, where the more you look, the more you see! Like its predecessor, *Look-Alikes Jr.* features 3-D picture puzzles, but this time invites even the youngest child to join in the fun by featuring simpler, easier-to-find look-alikes in childlike settings. There are 11 scenes - house, parlor, kitchen, bedroom, school bus, classroom, construction site, movie lobby, train, farm, and rocket - each with 50+ objects to identify (700+ in total). Look for a cement mixer made out of a mustard bottle, kitchen cabinets made out of cakes of soap, and a bed built with crayons and pasta! Fun for all ages. This best-selling book is back with a brand new series design and a striking new cover.

I Have a Dog - Charlotte Lance  
2014-05-01

I have a dog. An inconvenient dog. When I wake up, my dog is inconvenient. When I'm getting dressed, my dog is inconvenient. And when I'm making tunnels, my dog is SUPER inconvenient. But sometimes, an inconvenient dog can be big and warm and cuddly. Sometimes, an inconvenient dog can be the most comforting friend in the whole wide world.

**Cultural Literacy** - E.D. Hirsch, Jr.  
1988-04-12

A must-read for parents and teachers, this major bestseller reveals how cultural literacy is the hidden key to effective education and presents 5000 facts that every literate American should know. In this forceful manifesto Professor E. D. Hirsch, Jr., argues that children in the United States are being deprived of the basic knowledge that would enable them to function in contemporary society. They lack cultural literacy: a grasp of background information that writers and speakers assume their audience already has. Even if a student has a basic competence in the English language, he or she has little chance of entering the American mainstream without knowing what a silicon chip is, or when the Civil War was fought. An important work that has engendered a nationwide debate on our educational standards, *Cultural Literacy* is a required reading for anyone concerned with our future as a

literate nation.

**What Every Mother Should Know** -

Margaret Sanger 2018-04-02

What Every Mother Should Know is the popular handbook by Margaret Sanger. Margaret Higgins Sanger was an American birth control activist, sex educator, writer, and nurse. Sanger popularized the term "birth control", opened the first birth control clinic in the United States, and established organizations that evolved into the Planned Parenthood Federation of America.
