Dyslexia and Depression - Neil Alexander-Passe 2012-07-01

This book is the culmination of fifteen years of the authors research into dyslexia. As a dyslexic himself, the author grew up with many difficulties in dealing with both family and school life. As an adult he wanted to understand more about dyslexia, how it affects individuals and be better prepared if dyslexia affected his own children. So he began an academic study of the emotional effects, rather than educational interventions, based on the collection of the neurological deficit symptoms defined as dyslexia. The book begins by reviewing the cause and effects of depression, starting from anxiety and leading through defensive mechanisms to depression. Parallels were made to other learning disability groups who also suffer from depression, suggesting that groups that experience exclusion from mainstream society are at higher risk of depression. The book also investigates dyslexia, by reviewing past empirical research into its symptoms and diagnosis, into how it affects individuals at school, at home and lastly in the workplace. Such a review was felt to be needed to enlighten the reader to the historical aspect of dyslexia, which many believe to be medical in cause, but educational in treatment. Whilst dyslexia may have been recognised by many medical minds for over a century, it has only been fully recognised by educationalists for less than a decade, thus the study of secondary manifestations due to a lack of recognition by teachers is the basis for this book. A review is also given of several of the authors own published works, of which two form pilot studies for this book. The main study of N=29 adult dyslexics used both qualitative (Interpretative Phenomenological Analysis-IPA) and quantitative methodologies. IPA was found to be beneficial in understanding the life experiences and secondary manifestations in participants. The majority of participants were only diagnosed as dyslexic after leaving school and this the author finds typical of the many dyslexics he has encountered. Whilst the study set out to investigate depression as a sub-factor, it turned out to be the main focus of the study, as the majority of those who took part were depressed at some points in their child and/or adult lives. Gender also turned out to be an important variable in understanding how male and female dyslexics cope with the educational experiences they encountered. In the discussion chapter, three hypothetical models of how dyslexics cope are suggested based on parenting type and style, through an investigation of cause and effect, leading to proposed interventions to tackle helplessness developing from mainstream education. This book is a suitable reference book for a range of individuals, beginning with researchers in the field; to educationalists looking to understand the secondary and long-term effects of the condition; to parents of dyslexics looking to understand their children; and finally to dyslexics themselves, who

are looking to understand their condition better. It is hoped that dyslexics who read this book will realise that their feelings of being an outsider are typical of those living with a hidden disability or disorder that touches every part of their lives. This book has been an emotional journey for both the author and those who took part in the study. Many participants noted that they knew very few, if any, dyslexics and their interview was the first time they had taken time to understand and discuss their dyslexia and how the effects of their childhood and school experiences had manifested themselves into lifelong secondary psychological and emotional affects.

Get Better Faster - Paul Bambrick-Santoyo 2016-07-25

Effective and practical coaching strategies for new educators plus valuable online coaching tools Many teachers are only observed one or two times per year on average—and, even among those who are observed, scarcely any are given feedback as to how they could improve. The bottom line is clear: teachers do not need to be evaluated so much as they need to be developed and coached. In *Get Better Faster: A 90-Day Plan for Coaching New Teachers*, Paul Bambrick-Santoyo shares instructive tools of how school leaders can effectively guide new teachers to success. Over the course of the book, he breaks down the most critical actions leaders and teachers must take to achieve exemplary results. Designed for coaches as well as beginning teachers, *Get Better Faster* is an integral coaching tool for any school leader eager to help their teachers succeed. *Get Better Faster* focuses on what's practical and actionable which makes the book's approach to coaching so effective. By practicing the concrete actions and micro-skills listed in *Get Better Faster*, teachers will markedly improve their ability to lead a class, producing a steady chain reaction of future teaching success. Though focused heavily on the first 90 days of teacher development, it's possible to implement this work at any time. Junior and experienced teachers alike can benefit from the guidance of *Get Better Faster* while at the same time closing existing instructional gaps. Featuring valuable and practical online training tools available at <http://www.wiley.com/go/getbetterfaster>, *Get Better Faster* provides agendas, presentation slides, a coach's guide, handouts, planning templates, and 35 video clips of real teachers at work to help other educators apply the lessons learned in their own classrooms. *Get Better Faster* will teach you: The core principles of coaching: Go Granular; Plan, Practice, Follow Up, Repeat; Make Feedback More Frequent Top action steps to launch a teacher's development in an easy-to-read scope and sequence guide It also walks you through the four phases of skill building: Phase 1 (Pre-Teaching): Dress Rehearsal Phase 2: Instant Immersion Phase 3: Getting into Gear Phase 4: The Power of Discourse Perfect for new educators and those who supervise them, *Get Better Faster* will also earn a place in the libraries of veteran teachers and school administrators seeking a one-stop coaching resource.

Leverage Leadership - Paul Bambrick-Santoyo 2012-06-06

Paul Bambrick-Santoyo (Managing Director of Uncommon Schools) shows leaders how they can raise their schools to greatness by following a core set of principles. These seven principles, or "levers," allow for consistent, transformational, and replicable growth. With intentional focus on these areas, leaders will leverage much more learning from the same amount of time investment. Fundamentally, each of these seven levers answers

the core questions of school leadership: What should an effective leader do, and how and when should they do it. Aimed at all levels of school leadership, the book is for any principal, superintendent, or educator who wants to be a transformational leader. The book includes 30 video clips of top-tier leaders in action. These videos bring great schools to you, and support a deeper understanding of both the components of success and how it looks as a whole. There are also many helpful rubrics, extensive professional development tools, calendars, and templates. Explores the core principles of effective leadership Author's charter school, North Star Academy in Newark, New Jersey, received the highest possible award given by the U.S. Department of Education; the National Blue Ribbon Print version includes an instructive DVD with 30 video clips to show how it looks in real life. E-book customers: please note that details on how to access the content from the DVD may be found in the e-book Table of Contents. Please see the section: "How to Access DVD Contents" Bambrick-Santoyo has trained more than 1,800 school leaders nationwide in his work at Uncommon Schools and is a recognized expert on transforming schools to achieve extraordinary results.

Consumer Behaviour in Action - Peter Ling 2015

Consumer Behaviour in Action introduces marketing students to the fundamental concepts of consumer behaviour in a contemporary context. The text provides a distinctly balanced approach as it balances theory with practical applications and research methods for understanding consumers.

Practical examples and case studies provide global, regional and local industry examples. Research and insights from fields such as psychology, sociology and complex systems are included. Extended cases studies covering topics such as Nike, Cricket Australia, Target, and McDonalds in overseas markets, draw together each part of the book to bring together the themes discussed and encourage students to encourage a deeper understanding of the material. The accompanying enriched eBook and supplementary digital resources provides superior ready-to-use support for both students and lecturers.

Teacher Leadership for School-Wide English Learning (SWEL) - MICHELLE. STOLPESTAD BENEGAS (AMY.) 2020-03-15

The Teacher Leader Guide for School-Wide English Learning provides a roadmap for capitalizing on the often untapped language expertise of ESL teachers. By providing teacher leaders with the tools needed to develop customized professional development and engage in non-evaluative peer instructional coaching, the School-Wide English Learning (SWEL) coaching model supports English learners' academic success throughout the school day, not just when there is a language specialist in the room.

The Defining Decade - Meg Jay 2012-04-17

New York Times bestselling psychologist Dr. Meg Jay uses real stories from real lives to provide smart, compassionate, and constructive advice about the crucial (and difficult) years we cannot afford to miss. Our "thirty-is-the-new-twenty" culture tells us the twentysomething years don't matter. Some say they are a second adolescence. Others call them an emerging adulthood. Dr. Meg Jay, a clinical psychologist, argues that twentysomethings have been caught in a swirl of hype and misinformation, much of which has trivialized what is actually the most defining decade of adulthood. Drawing from almost two decades of work with hundreds of clients and students, *The Defining Decade* weaves the latest science of the twentysomething years with the behind-closed-doors stories from twentysomethings, themselves. The result is a provocative read that provides the tools necessary to make the most of your twenties, and shows us how work, relationships, personality, social networks, identity, and even the brain can change more during this decade than at any other time in adulthood—if we use the time wisely. *The Defining Decade* is a smart, compassionate and constructive book about the years we cannot afford to miss.

Building Better Schools with Evidence-based Policy - Kelly-Ann Allen 2021-04-29

Building Better Schools with Evidence-based Policy: Adaptable Policy for Teachers and School Leaders provides an extensive set of free-to-use policies for building better schools. The policies included in this book cover a broad range of popular topics for schools that are not readily accessible, and each policy is built on theory, driven by research, and created by experts. Each policy is based on substantial evidence, and this is ensured through the inclusion of contributors who are active and highly reputable in their respective field. Most schools are obliged to write and maintain policy, and not all school leaders have the required skills, time, or expertise to do this effectively. *Building Better Schools with Evidence-based Policy: Adaptable Policy for Teachers and School Leaders* is a time-saving resource for schools. It aims to address the reported research-to-practice gap in education by delivering accessible evidence-based practice in a ready-to-use adaptable format. All policies within this book are designed to be adapted and tailored to the unique diversity and needs of each school as reflected by the context and the people that make up the school community. This book is relevant to every person who works in a school – worldwide. Users of this book can rest assured that each policy has been carefully formulated from the current understandings of best practice. This is a practical innovation and an example of how schools can use research evidence in their day-to-day practices. "The Open Access version of this book, available at www.taylorfrancis.com, has been made available under a Creative Commons Attribution-Non-Commercial-No Derivatives 4.0 license."

High Performance Learning - Deborah Eyre 2016-01-08
Schools that want to be world class are now paying attention to the findings from neuroscience and psychology that tell us we can build better brains. They are changing their mindset, expecting success for far more students and no longer being constrained by ideas of genetic potential. High Performance Learning provides readers with a ground-breaking and approachable model for achieving high levels of academic performance for all students and schools. It takes what is known about how people reach advanced cognitive performance and translates it into a practical and user-friendly framework, which can be used with all students to systematically build the cognitive thinking skills and learner behaviours that will deliver success in school, in the workplace and in later life. Flexible and adaptable, High Performance Learning can be used in any context, with any curriculum and at any age. It does not require separate lessons but rather becomes the underpinning pedagogy of the school. Drawing on the author's 40 years of research into how the most able students think and learn, this book provides a framework that has been extensively trialled in schools in eleven countries. . Themes include: Creating world class schools The High Performance Learning environment The High Performance Learning framework Advanced Cognitive

Performance characteristics (ACPs) Values, Attitudes and Attributes (VAAs) Creating and leading a High Performance Learning school The role of parents, universities and employers. This invaluable resource will help schools make the move from good to world class and will be essential reading for school leaders, teachers and those with an interest in outstanding academic performance.

Women in Teacher Training Colleges, 1900-1960 - Elizabeth Edwards 2004-01-14

Women in Teacher Training Colleges, 1900-1960 is an intricate and fascinating investigation of the lives and experiences of women in these important educational institutions of the early twentieth century. The book provides an overview of the historical context of the development of the colleges, using detailed case studies of three colleges: Homerton, Avery Hill and Bishop Otter. Drawing on a wealth of archival material, primary and secondary sources, and on the oral testimonies of former pupils and staff, the book examines the following key themes: *the changing social class of women students *the colleges culture of femininity drawn from the family organization and social practices of the middle-class home *the conflicting public and private roles of the woman principal *the role of the college staff and the residential context of college life *women's sexuality *the last days of the womens colleges. *Women in Teacher Training Colleges, 1900-1960* is an essential contribution to women's history and gives a unique insight into this neglected aspect of women's experiences in the twentieth century.

Mental Capital and Wellbeing - Cary L. Cooper 2009-08-18

This major new reference presents The Foresight MentalCapital and Wellbeing Project (a UK Government project in theGovernment Office for Science). It offers a comprehensiveexploration of how mental capital and wellbeing operate over thelifespan; how experiences in the family, in school, at work andfollowing retirement augment or reduce mental capital andwellbeing, and the impact that this has for the individual and forthe welfare and economic progress of the nation. Mental Capital and Wellbeingcomprises a series ofscientific reviews written by leading international scientists andsocial scientists in the field. The reviews undertake systematicanalyses of the evidence base surrounding five key themes, on whichthey propose future policies will have to be based. Aninternationally renowned team of Editors introduce each theme anddraw together conclusions in terms of both policy andpractice. Section 1 (Mental Capital and Wellbeing Through Life)-- Mental capital refers to the totality of anindividual's cognitive and emotional resources, includingtheir cognitive capability, flexibility and efficiency of learning,emotional intelligence and resilience in the face of stress. Theextent of an individual's resources reflects his or her basicendowment (e.g. genes and early biological programming), motivationand experiences (e.g. education) which take place throughout thelife course. This section presents the very latest on the scienceof mental capital throughout life. Section 2 (Learning Through Life) provides a coherentoverview of a fast-moving and complex field of policy and practice.Educational attainment has a considerable impact on physical andmental wellbeing, both directly and indirectly, by enabling peoplebetter to achieve their goals. The

ability to continue learning throughout the lifespan is critical to a successful and rewarding life in contemporary societies. Section 3 (Mental Health and Ill-Health) draws together the most recent evidence about positive mental health as well as a range of mental disorders to consider their importance to the population and economy in terms of prevalence and disability and the wider burden on society. Section 4 (Wellbeing and Work) - It is estimated that 13 million working days are lost through stress each year, costing the economy over £3.7 billion per annum. This theme explores those drivers that influence the nature and structure of work and the impact this has on employee wellbeing. Section 5 (Learning Difficulties) - This theme provides a cutting-edge picture of how recent insights from genetics, cognitive and neuroscience improve our understanding of learning difficulties such as dyslexia, dyscalculia and attention-deficit-hyperactivity disorder. Reviews focus on how current research can contribute to early diagnosis and improved intervention.

The Successful Dyslexic - Neil Alexander-Passe 2017-10-10

This innovative book looks at the keys for success in dyslexic adults, comparing both those who are successful and less successful, enabling parents and teachers to use these keys to best support young dyslexics. These keys look at home life, school, career choices, working relationships, coping strategies, traits, unique selling points, and what is considered success for somebody with dyslexia. The Successful Dyslexic questions if school-based trauma can be used positively, as both successful and unsuccessful dyslexic adults share the same traumatic school experiences. It is how these adult dyslexics have used this trauma, positively or negatively that has set them on the path for success, or to struggle as adults searching for a worthwhile career. The theories of 'disability paradox' and 'post-traumatic growth' are used to understand why despite having a disability, many dyslexics can be, and are, highly successful. This book details an interview study of 27 successful and 10 less successful dyslexics, with 2 expert interviews, and supported by two large online studies. In total this book includes the contribution of 191 adult dyslexics. Each in-depth interview has sought to understand the individual's journey from childhood to adulthood, and their quotes are used to enlighten the reader to each of their individual experiences. Armed with these insights, it is hoped that parents and teachers of young dyslexics can set them on the path to unlock their own future success.
