US Army Physician Assistant Handbook - The Borden Institute, U.S. Army Medical Department 2018-09-10
The Army physician assistant (PA) has an important role throughout Army medicine. This handbook will describe the myriad positions and organizations in which PAs play leadership roles in management and patient care. Chapters also cover PA education, certification, continuing training, and career progression. Topics include the Interservice PA Program, assignments at the White House and the Old Guard (3d US Infantry Regiment), and roles in research and recruiting, as well as the PA's role in emergency medicine, aeromedical evacuation, clinical care, surgery, and occupational health. More titles produced by the US Army, Borden Institute can be found here: <https://bookstore.gpo.gov/agency/borden-institute> Check out our Healthcare Teamwork & Patient Safety resources collection here: <https://bookstore.gpo.gov/catalog/healthcare-teamwork-patient-safety-teamstepps> Best Care Everywhere can be found here: <https://bookstore.gpo.gov/products/best-care-everywhere>

User's Guide - Franz Lanz 2015-09-14

For all users who work with ISPF on z/OS MVS. The readers of this book will learn how to use the ISPF professionally in their daily work in z/OS to quickly reach optimal results: - Detailed description of TSO/ISPF logon processes - Use of ISPF command tables - DSLIST - Optimal use of Data Set Lists - Use of Object / Action Workplace as an optimal work surface - Detailed description on use of the ISPF editor - Utilities for allocated data sets - Secret commands usable in ISPF - Descriptions for using the downloadable SMART ISPF Utilities The author gives many useful hints and tips based on his extensive experience working with ISPF. The applications of all the major ISPF commands are demonstrated by examples from practice. The book can be used as a teaching aid as well as a practical guide for daily work.

Monthly Catalogue, United States Public Documents - 1987-05

Just the Facts - Adam Isacson 1999

Doctrine for Amphibious Operations - United States. Department of the Army 1967

The Command Handbook - Petr Smejkal

The Command Handbook provides practical information, examples and tips to guide first officers on their journey through the command upgrade. The Command Handbook is divided into six chapters. Each chapter features high quality photos and graphics to make your study as enjoyable as possible. The first chapter Progress to Command offers tips, areas to focus on and what to study on each step of the way (from junior first officer to command line check). The second chapter Commander's CRM focuses on different CRM aspects from the position of the team leader. The third chapter Commander's Role focuses on various duties and responsibilities of a commander. The fourth chapter Aircraft Technical Log discusses MEL, CDL, ATL and how to deal with defects. The fifth chapter offers tips on Turnaround Management.

Army Physical Readiness Training Manual - Barry Leonard 2011-05

Guides leaders through a systematic approach to training, consisting of an ordered, comprehensive assemblage of facts, principles and methods for training soldiers and units. Provides a balanced training program that prepares soldiers for successful task performance and provides linkage to other training. Injury control is woven into the training's fabric by recommended exercise intensity, volume, specificity and recovery within its progressive training schedules. Sample schedules provide the commander a doctrinal template that can be applied to the unit's training needs. Append.: Physical Fitness Test; Climbing Bars; Posture and Body Mechanics; Environ. Considerations; Obstacle Negotiations. Numerous photos. This is a print on demand pub.

Publications Combined: Army Combat Fitness Test (ACFT) Training Guide, Handbook, Equipment List, Field Testing Manual & More - 2019-03-05

Over 600 total pages ... CONTENTS: Army Combat Fitness Test Training Guide Version 1.2 FIELD TESTING MANUAL Army Combat Fitness Test Version 1.4 Army Combat Fitness Test CALL NO. 18-37, September 2018 FM 7-22 ARMY PHYSICAL READINESS TRAINING, October 2012 IOC TESTING - ACFT

EQUIPMENT LIST (1 X LANE REQUIREMENT) Version 1.1, 4 September 2018 ACFT Field Test Highlight Poster (Final) OVERVIEW: The Army will replace the Army Physical Fitness Test (APFT) with the Army Combat Fitness Test (ACFT) as the physical fitness test of record beginning in FY21. To accomplish this, the ACFT will be implemented in three phases. Phase 1 (Initial Operating Capability - IOC) includes a limited user Field Test with approximately 60 battalion-sized units from across all components of the Army. While the ACFT is backed by thorough scientific research and has undergone several revisions, there are still details that have not been finalized. The ACFT requires a testing site with a two-mile run course and a flat field space approximately 40 x 40 meters. The field space should be grass (well maintained and cut) or artificial turf that is generally flat and free of debris. While maintaining testing standards and requirements, commanders will make adjustments for local conditions when necessary. The start and finish point for the two-mile run course must be in close proximity to the Leg Tuck station. When test events are conducted indoors, the surface must be artificial turf only. Wood and rubberized surfaces are not authorized as they impact the speed of the Sprint-Drag-Carry. When environmental conditions prohibit outdoor testing, an indoor track may be used for the 2 Mile Run. The Test OIC or NCOIC are responsible to inspect and certify the site and determine the number of testing lanes. There should not be more than 4 Soldiers per testing group for the SPT, HRP, and SDC. The OIC or NCOIC must add additional lanes or move Soldiers to a later testing session to ensure no more than 4 Soldiers per testing group. Concerns related to Soldiers, graders, or commanders will be addressed prior to test day. The number of lanes varies by number of Soldiers testing. A 16-lane ACFT site will have the following: ACFT specific test equipment requirements: 16 hexagon/trap bars (60 pounds), each with a set of locking collars. While all NSN approved hexagon bars must weigh 60 pounds, there is always a small manufacturer's production tolerance. The approved weight tolerance for the hexagon bar is + 2 pounds (58-62 pounds). Weight tolerance for the hexagon bar and therefore the 3 Repetition Maximum Deadlift does not include the collars. On average hexagon bar collars weigh < 2.0 pounds per pair and are considered incidental to the total weight of the MDL weight. Approximately 3,000 lbs. of bumper plates. 16 x 10 lb. medicine ball 16 x nylon sled with pull straps. 32 x 40 lb. kettle bells. Permanent or mobile pull up bars (16 x pull-up bars at approximately 7.5 feet off the ground with step-ups for shorter Soldiers). Common unit equipment for set-up and grading: 16 stop watches. 8 x 25m tape measures. 8 x wooden or PVC marking sticks for the SPT. One stick for every two lanes. 70 x 18" traffic cones. 50 field / dome cones. A soft, flat, dry test area approximately 40m x 40m on grass or artificial turf (half of a soccer or football field). A site that is free of any significant hazards. A preparation area (can be same as briefing area) to conduct Preparation Drill. A generally flat, measured running course with a solid, improved surface that is not more than 3 percent uphill grade and has no overall decline (start and finish must be at the same altitude).

Montgomery - Nigel Hamilton 2011-09

This fascinating study of military leadership follows British general Bernard Law Montgomery's military career from his cadet days and service in World War I to his great victories of World War II, including his defeat of the great German panzer commander, Erwin Rommel, at Alamein. Nigel Hamilton presents a brilliant, arrogant Montgomery, who refused to bow to authority and skated on the edge of dismissal like his American counterpart, George S. Patton. Though very different in their command styles, Montgomery and Patton became the two most successful Allied field generals in World War II. From North Africa through the invasion of Sicily, they routed the Germans in battle, with Patton as a thrusting cavalryman and Montgomery as an infantry commander devoted to applying massive force at a vital point. The author contends that Montgomery's planning and leadership transformed Operation Overlord from a Second Front project doomed to fail into a successful Allied invasion plan. Allied operations after Normandy foundered in bitter arguments and failure, for Montgomery at Arnhem and Patton at Metz. Had Montgomery and Patton been ordered to fight in the same direction after Normandy, argues Professor Hamilton, the Allies might have ended the war in Europe in 1944. As it was, Montgomery and Patton had to save the Allies from sensational defeat in the Battle of the Bulge in what was to be their last battle together. The war ended for Monty on May 4, 1945, when he accepted the surrender of all German forces in the north.

Army Food Program - Department of the Army 2012-07-24

This regulation encompasses garrison, field, and subsistence supply operations. Specifically, this regulation comprises Army Staff and major Army command responsibilities and includes responsibilities for the Installation Management Command and subordinate regions. It also establishes policy for the adoption of an à la carte dining facility and for watercraft to provide subsistence when underway or in dock. Additionally, the regulation identifies DOD 7000.14-R as the source of meal rates for reimbursement purposes; delegates the approval authority for catered meals and host nation meals from Headquarters, Department of the Army to the Army commands; and authorizes the use of the Government purchase card for subsistence purchases when in the best interest of the Government. This regulation allows prime vendors as the source of garrison supply and pricing and provides garrison menu standards in accordance with The Surgeon General's nutrition standards for feeding military personnel. Also, included is guidance for the implementation of the U.S. Department of Agriculture Food Recovery Program.

Commander's Legal Handbook - Judge Advocate General's Legal Center and School (United States. Army) 2012-06-15

This Handbook is designed to assist Army Commanders in taking proper immediate action when faced with a variety of legal issues that might arise during your command. The purpose of your actions should be to preserve the legal situation until you can consult with your servicing Judge Advocate. However, like most aspects of your command responsibilities, you can fail if you just wait for things to come to you. You need to be proactive in preventing problems before they occur. In the legal arena, this means establishing and enforcing high standards, ensuring your Soldiers are fully aware of those standards and properly trained to comply with them. You must also properly train your Soldiers on all Army policies and higher level command standards so that they also understand and comply with them. Soldiers must also be well-versed in the Army Values and be able to apply those values to real-world situations, which will usually keep them well within legal bounds. Topics include: THE TOP TEN SITUATIONS WHERE YOU SHOULD IMMEDIATELY CONSULT YOUR SERVICING JUDGE ADVOCATE MILITARY JUSTICE/CRIMINAL LAW Introduction to Military Criminal Law Misconduct: Options and Duties Of The Commander Unlawful Command Influence R.C.M. 303 Preliminary Inquiry Non-Judicial Punishment, Article 15, UCMJ Article 15 Script Search and Seizure Self-Incrimination, Confessions, and Rights Warning UCMJ Punitive Articles Urinalysis, Drug and Alcohol Policies Fraternalization and Improper Senior-Subordinate Relationships Proper Responses to Reports of Sexual Assault Victim -Witness Issues INVESTIGATIONS Administrative Investigations/References Intro AR 15-6 Investigations Accident Investigations (AR 385-10) Line of Duty Investigations (AR 600-8-4) Fatal Training/Operational Accident Presentations to Next Of Kin (AR 600-34) Financial Liability Investigations (AR 735-5) STANDARDS OF ETHICAL CONDUCT Standards of Conduct Commanders Coins Support to Non-Federal Entities Government Motor Vehicle Transportation Family

The Linux Command Line - William E. Shotts, Jr. 2012

You've experienced the shiny, point-and-click surface of your Linux computer—now dive below and explore
its depths with the power of the command line. The Linux Command Line takes you from your very first
terminal keystrokes to writing full programs in Bash, the most popular Linux shell. Along the way you'll
learn the timeless skills handed down by generations of gray-bearded, mouse-shunning gurus: file
navigation, environment configuration, command chaining, pattern matching with regular expressions, and
more. In addition to that practical knowledge, author William Shotts reveals the philosophy behind these
tools and the rich heritage that your desktop Linux machine has inherited from Unix supercomputers of
yore. As you make your way through the book's short, easily-digestible chapters, you'll learn how to: *

- Create and delete files, directories, and symlinks
- * Administer your system, including networking, package installation, and process management
- * Use standard input and output, redirection, and pipelines
- * Edit files with Vi, the world's most popular text editor
- * Write shell scripts to automate common or boring tasks
- * Slice and dice text files with cut, paste, grep, patch, and sed

Once you overcome your initial "shell shock," you'll find that the command line is a natural and expressive way to communicate with your computer. Just don't be surprised if your mouse starts to gather dust. A featured resource in the Linux Foundation's "Evolution of a SysAdmin"

The Military Commander and the Law - Air Force Judge Advocate General School 2004-06

Today's Air Force commanders face a wide-range of issues, many of which involve complex statutes, laws, regulations, and rules. Our commanders must deal with challenging legal matters ranging from military justice to environmental law to operations law. To assist commanders with these formidable tasks, we've created this helpful volume, *The Military Commander and the Law*. This deskbook contains a series of papers that give commanders a head start on the wide array of issues they will handle. Each article is intended to give a commander the basics in the law on any given subject. The papers are not intended to make the commander a legal expert or to resolve specific questions relating to any unique problem. Lance W. LordLieutenant General, United States Air ForceCommander, Air University
