Nation Branding - Keith Dinnie
2015-08-27

Nation Branding: Concepts, Issues, Practice was the ground-breaking first textbook to provide an overview of this recently established but fast-growing practice, in which the principles of brand management are applied to countries rather than companies. Many governments have invested in nation branding in order to strengthen their country's influence,

improve its reputation, or boost tourism, trade and investment. This new edition has been comprehensively revised and its influential original framework modified to reflect the very latest changes to this still-developing field. It remains an accessible blend of theory and practice rich with international examples and contributions. Updates to this edition: New international cases of countries as diverse as China, United Arab Emirates,

Ghana, Cuba, India, Great Britain and many more; New contributions from distinguished scholars, diplomats and businesspeople providing a range of case studies, practitioner insights and academic perspectives; New Companion Website to support the book featuring instructor aids such as PowerPoint presentations for each chapter and an instructor manual; This much-anticipated update to an influential book is an essential introduction to nation branding for students and policy makers.

Structural Engineer's Pocket Book British Standards

Edition - Fiona Cobb
2020-12-17

The Structural Engineer's Pocket Book British Standards Edition is the only compilation of all tables, data, facts and formulae needed for scheme design to British Standards by structural engineers in a handy-sized format. Bringing together data from many sources into a compact, affordable pocketbook, it saves valuable time spent tracking down

information needed regularly. This second edition is a companion to the more recent Eurocode third edition. Although small in size, this book contains the facts and figures needed for preliminary design whether in the office or on-site. Based on UK conventions, it is split into 14 sections including geotechnics, structural steel, reinforced concrete, masonry and timber, and includes a section on sustainability covering general concepts, materials, actions and targets for structural engineers.

The Presentation of Self in Everyday Life - Erving Goffman
2022-05-05

Acclaimed on first publication and today considered one of the defining works of the sociology, *The Presentation of the Self in Everyday Life* is Erving Goffman's extraordinary analysis of the structure of our social interactions. Blurring the line between workaday life and theatrical performance, Goffman argues that our behaviour with others is defined by how we wish to be perceived

- resulting in displays bearing a startling similarity to those of an actor on the stage. From the houses and clothes that we use as 'fixed props' to the 'backstage' of the solitude in which our personas are rehearsed and relaxed, Goffman's insight reveals human character to be not fixed or stable, but liquid and consciously maintained.

Capital's Utopia - Anne E. Mosher
2004

In the 1890s the Apollo Iron and Steel Company ended a bitterly contested labor dispute by hiring replacement workers from the surrounding countryside. To avoid future unrest, however, the company

sought to gain tighter control over its workers not only at the factory but also in their homes. Drawing upon a philosophy of reform movements in Europe and the United States, the firm decided that providing workers with good housing and a good urban environment would make them more loyal and productive. In 1895, Apollo Iron and Steel built a new, integrated, non-unionized steelworks and hired the nation's preeminent landscape architectural firm (Olmsted, Olmsted, and Eliot) to design the model industrial town: Vandergrift. In *Capital's Utopia: Vandergrift, Pennsylvania, 1855-1916*, Anne E. Mosher offers the first comprehensive geographical overview of the industrial restructuring of an American steelworks and its workforce in the late nineteenth-century. In addition, by offering a thorough analysis of the Olmsted plan, Mosher integrates historical geography and labor history with landscape architectural history and urban studies. As a result, this book is far more than a

case study. It is a window into an important period of industrial development and its consequences on communities and environments in the world-famous steel country of southwestern Pennsylvania.

[Class Matters](#) - Charles Umney 2018

Social class remains a fundamental presence in British life in the twenty-first century. It is woven into the very fabric of social and political discourse, undiminished by the end of mass industry; unaugmented despite the ascendancy of 'ordinary working people' and other substitute phrases. Absent from this landscape, however, is any compelling Marxist expression or analysis of class. In *Class Matters*, Charles Umney brings Marxist analysis out of the 19th century textiles mill, and into the call centres, office blocks and fast food chains of modern Britain. He shows how core Marxist concepts are vital to understanding increasing pay inequality, decreasing job security, increasing routinisation and managerial

control of the labour process. Providing a critical analysis of competing perspectives, Umney argues that class must be understood as a dynamic and exploitative process integral to capitalism - rather than a descriptive categorisation - in order for us to better understand the gains capital has made at the expense of labour over the last four decades.

Qualitative Research

Practice - Jane Ritchie

2003-02-19

'An excellent introduction to the theoretical, methodological and practical issues of qualitative research... they deal with issues at all stages in a very direct, clear, systematic and practical manner and thus make the processes involved in qualitative research more transparent' - Nyhedsbrev 'This is a "how to" book on qualitative methods written by people who do qualitative research for a living.... It is likely to become the standard manual on all graduate and undergraduate courses on qualitative methods' - Professor

Robert Walker, School of Sociology and Social Policy, University of Nottingham What exactly is qualitative research? What are the processes involved and what can it deliver as a mode of inquiry?

Qualitative research is an exciting blend of scientific investigation and creative discovery. When properly executed, it can bring a unique understanding of people's lives which in turn can be used to deepen our understanding of society. It as a skilled craft used by practitioners and researchers in the 'real world'; this textbook illuminates the possibilities of qualitative research and presents a sequential overview of the process written by those active in the field. Qualitative Research Practice: - Leads the student or researcher through the entire process of qualitative research from beginning to end - moving through design, sampling, data collection, analysis and reporting. - Is written by practising researchers with extensive experience of conducting

qualitative research in the arena of social and public policy - contains numerous case studies. - Contains plenty of pedagogical material including chapter summaries, explanation of key concepts, reflective points for seminar discussion and further reading in each chapter - Is structured and applicable for all courses in qualitative research, irrespective of field. Drawn heavily on courses run by the Qualitative Unit at the National Centre for Social Research, this textbook should be recommended reading for students new to qualitative research across the social sciences.

Flemish Manuscript Painting in Context - Elizabeth Morrison
2007-01-08

A companion to the Getty's prize-winning exhibition catalogue *Illuminating the Renaissance: The Triumph of Flemish Manuscript Painting in Europe*, this volume contains thirteen selected papers presented at two conferences held in conjunction with that exhibition. The first was

organized by the Getty Museum, and the second was held at the Courtauld Institute of Art under the sponsorship of the Courtauld Institute and the Royal Academy of Arts. Added here is an essay by Margaret Scott on the role of dress during the reign of Charles the Bold. Texts include Lorne Campbell's research into Rogier van der Weyden's work as an illuminator, Nancy Turner's investigation of materials and methods of painting in Flemish manuscripts, and trenchant commentary by Jonathan Alexander and James Marrow on the state of current research on Flemish illumination. A recurring theme is the structure of collaboration in manuscript production. The essays also reveal an important new patron of manuscript illumination and address the role of illuminated manuscripts at the Burgundian court. A series of biographies of Burgundian scribes is featured.

Ideal Homes? - Tony Chapman
2002-09-11

Ideal Homes? shows how both

popular images and experiences of home life relate to the ability of society's members to produce and respond to social change. The book provides for the first time an analysis of the space of the home and the experiences of home life by writers from a wide range of disciplines, including sociology, architecture, geography and anthropology. It covers a range of subjects, including gender roles, different generations relationships to home, the changing nature of the family, transition and risk and alternative visions of home.

The Buddha and the Borderline - Kiera Van Gelder
2010-08-01

Kiera Van Gelder's first suicide attempt at the age of twelve marked the onset of her struggles with drug addiction, depression, post-traumatic stress, self-harm, and chaotic romantic relationships-all of which eventually led to doctors' belated diagnosis of borderline personality disorder twenty years later. *The Buddha and the Borderline* is a window into

this mysterious and debilitating condition, an unblinking portrayal of one woman's fight against the emotional devastation of borderline personality disorder. This haunting, intimate memoir chronicles both the devastating period that led to Kiera's eventual diagnosis and her inspirational recovery through therapy, Buddhist spirituality, and a few online dates gone wrong. Kiera's story sheds light on the private struggle to transform suffering into compassion for herself and others, and is essential reading for all seeking to understand what it truly means to recover and reclaim the desire to live.

Managing Human Resources

- Stephen Bach 2013-01-22

This revised edition is a comprehensive, authoritative set of essays. It is more detailed and analytical than the mainstream treatments of HRM. As in previous editions, *Managing Human Resources* analyses HRM, the study of work and employment, using an integrated multi-disciplinary approach. The starting point is

a recognition that HRM practice and firm performance are influenced by a variety of institutional arrangements that extend beyond the firm. The consequences of HRM need to incorporate analysis of employees and other stakeholders as well as the implications for organizational performance.

The Circle - Dave Eggers
2013-10-08

A bestselling dystopian novel that tackles surveillance, privacy and the frightening intrusions of technology in our lives—a “compulsively readable parable for the 21st century” (*Vanity Fair*). When Mae Holland is hired to work for the Circle, the world’s most powerful internet company, she feels she’s been given the opportunity of a lifetime. The Circle, run out of a sprawling California campus, links users’ personal emails, social media, banking, and purchasing with their universal operating system, resulting in one online identity and a new age of civility and transparency. As Mae tours the open-plan office

spaces, the towering glass dining facilities, the cozy dorms for those who spend nights at work, she is thrilled with the company's modernity and activity. There are parties that last through the night, there are famous musicians playing on the lawn, there are athletic activities and clubs and brunches, and even an aquarium of rare fish retrieved from the Marianas Trench by the CEO. Mae can't believe her luck, her great fortune to work for the most influential company in the world—even as life beyond the campus grows distant, even as a strange encounter with a colleague leaves her shaken, even as her role at the Circle becomes increasingly public. What begins as the captivating story of one woman's ambition and idealism soon becomes a heart-racing novel of suspense, raising questions about memory, history, privacy, democracy, and the limits of human knowledge.

Picture-Book Professors -

Melissa Terras 2018-10-31

How is academia portrayed in

children's literature? This Element ambitiously surveys fictional professors in texts marketed towards children, who are overwhelmingly white and male, tending to be elderly scientists. Professors fall into three stereotypes: the vehicle to explain scientific facts, the baffled genius, and the evil madman. By the late twentieth century, the stereotype of the male, mad, muddlehead, called Professor SomethingDumb, is formed in humorous yet pejorative fashion. This Element provides a publishing history of the role of academics in children's literature, questioning the book culture which promotes the enforcement of stereotypes regarding intellectual expertise in children's media. This title is also available, with additional material, as Open Access.

Surveys the rich and diverse landscape of privacy in HCI and CSCW, describing some of the legal foundations and historical aspects of privacy, sketching

out an overview of the body of knowledge with respect to designing, implementing, and evaluating privacy-affecting systems, and charting many directions for future work.

Corporate Lawyers and Corporate Governance - Joan Loughrey 2011-06-02

This assessment of the corporate governance role of corporate lawyers in the UK analyses the extent to which lawyers can and should act as gatekeepers, counsellors and reputational intermediaries. Focusing on external and in-house lawyers' roles in both dispersed share-ownership and owner-managed companies, Joan Loughrey highlights the conflicts of interest that are endemic in corporate representation and examines how lawyers should respond when corporate agents provide instructions contrary to the company client's interests. She also considers the legitimacy of 'creative compliance', the ethical arguments for and against lawyers prioritising the public interest over their clients' interests, and their

exposure to liability if they fail to perform a corporate governance role. Finally, she considers whether the reforms to the legal profession will promote the lawyer's corporate governance role and advances suggestions for reform.

The Future of Work - R. Donkin 2009-11-06

The forces that are shaping the future of employment are examined in this new book. The author presents a cohesive argument for a fundamental change in attitudes to work, both from policymakers and employers if we are to create a healthier society capable of meeting the expectations and concerns of a developing economy.

How to Be Idle - Tom Hodgkinson 2013-07-30
Yearning for a life of leisure? In 24 chapters representing each hour of a typical working day, this book will coax out the loafer in even the most diligent and schedule-obsessed worker. From the founding editor of the celebrated magazine about the freedom and fine art of doing nothing, *The Idler*, comes not

simply a book, but an antidote to our work-obsessed culture. In *How to Be Idle*, Hodgkinson presents his learned yet whimsical argument for a new, universal standard of living: being happy doing nothing. He covers a whole spectrum of issues affecting the modern idler—sleep, work, pleasure, relationships—bemoaning the cultural skepticism of idleness while reflecting on the writing of such famous apologists for it as Oscar Wilde, Robert Louis Stevenson, Dr. Johnson, and Nietzsche—all of whom have admitted to doing their very best work in bed. It's a well-known fact that Europeans spend fewer hours at work a week than Americans. So it's only befitting that one of them—the very clever, extremely engaging, and quite hilarious Tom Hodgkinson—should have the wittiest and most useful insights into the fun and nature of being idle. Following on the quirky, call-to-arms heels of the bestselling *Eat, Shoots and Leaves: The Zero Tolerance Approach to Punctuation* by

Lynne Truss, *How to Be Idle* rallies us to an equally just and no less worthy cause: reclaiming our right to be idle. [Managing Your Academic Career](#) - D Royce Sadler 1999 This text provides advice and information for academics across disciplines, including: how to establish networks; how to assess your prospects for promotion; how to climb out of a teaching rut; how to develop a theme for your journal publication; and how to convert your thesis into a book.

Gender and Careers in the Legal Academy - Ulrike Schultz 2021-02-25

In the past fifteen years there has been a marked increase in the international scholarship relating to women in law. The lives and careers of women in legal practice and the judiciary have been extensively documented and critiqued, but the central conundrum remains: Does the presence of women make a difference? What has been largely overlooked in the literature is the position of women in the legal academy, although

central to the changing culture. To remedy the oversight, an international network of scholars embarked on a comparative study, which resulted in this path-breaking book. The contributors uncover fascinating accounts of the careers of the academic pioneers as well as exploring broader theoretical issues relating to gender and culture. The provocative question as to whether the presence of women makes a difference informs each contribution.

Tetraplegia and Paraplegia -

Ida Bromley 2006-01-01

Extensively illustrated and easy to use, this practical resource offers clear guidelines and step-by-step sequences for moving and working with individuals with differing levels of paralysis. Expanded section on equipment provides details on current and state-of-the-art equipment used in practice.

Possible Selves -

Curtis Dunkel 2006

The concept of possible selves, first brought to life only a short time ago by Hazel Markus and Paula Nurius (1986) has grown into an exciting stream of research. Scholars have

examined possible selves with regard to a host of adolescent outcomes, including academic achievement, school persistence, career expectations, self-esteem, delinquency, identity development and altruistic behaviours. This book represents a sample of the current research being conducted in the area of possible selves. The contributors to the book were chosen to represent a variety of perspectives, and to collectively illustrate some of the different ways that possible selves are being conceptualised, empirically examined and used in interventions.

An Introduction to English Phonology - April McMahon
2020-02-28

This textbook introduces the main units and concepts you require to describe speech sounds accurately. By working through the book and the various exercises included, you will come to understand the need for a dedicated system of description and transcription for speech sounds, and for a degree of phonological

abstraction to support our understanding of the behaviour of sounds in particular languages and varieties. You will learn to carry out elementary, broad phonetic transcription, and be able to establish contrastive vowel and consonant systems for your own varieties and to express simple generalisations reflecting the productive and predictable patterns of English sounds. At the end of the book there is a section guiding you

through some of the exercises and there is also a detailed glossary which will be useful for assignments or revision during exams.
