Language Hacking French - Benny Lewis

2017-03-28

It's true that some people spend years studying French before they finally get around to speaking the language. But here's a better idea. Skip the years of study and jump right to the speaking part. Sound crazy? No, it's language hacking. Unlike most traditional language courses that try to teach you the rules of French, #LanguageHacking shows you how to learn and speak French through proven memory techniques, unconventional shortcuts and conversation strategies perfected by one of the world's greatest language learners, Benny Lewis, aka the Irish Polyglot. Using the language hacks -shortcuts that make learning simple - that Benny mastered while learning his 11 languages and his 'speak from the start' method, you will crack the language code and exponentially increase your language abilities so that you can get fluent faster.

It's not magic. It's not a language gene. It's not something only "other people" can do. It's about being smart with how you learn, learning what's indispensable, skipping what's not, and using what you've learned to have real conversations in French from day one. The Method #LanguageHacking takes a modern approach to language learning, blending the power of online social collaboration with traditional methods. It focuses on the conversations that learners need to master right away, rather than presenting language in order of difficulty like most courses. This means that you can have conversations immediately, not after years of study. Each of the 10 units culminates with a speaking 'mission' that prepares you to use the language you've learned to talk about yourself. Through the language hacker online learner community, you can

share your personalized speaking 'missions' with other learners - getting and giving feedback and extending your learning beyond the pages of the book . You don't need to go abroad to learn a language any more.

Stuff Parisians Like -

Olivier Magny 2011-07-05
In the tradition of the New York Times bestseller *Stuff White People Like*, a tongue-in-cheek homage to Parisians. To be mistaken for a Parisian, readers must buy the newspaper *Le Monde*, fold it, and walk. Then sit at a café and make phone calls. Be sure to order San Pellegrino, not any other kind of fizzy water. They shouldn't be surprised when a waiter brings out two spoons after they order *le moelleux au chocolat*- it is understood that the dessert is too sinfully delicious not to share. Go to *l'île Saint-Louis*-all Parisians are irredeemably in love with that island. Feel free to boldly cross the street whenever the impulse strikes-pedestrian

crosswalks are too dangerous. If they take a cruise on the Seine, they will want to stand outside, preferably with their collar popped up. If they want to decorate, may we suggest the photographs of Robert Doisneau? To truly be cool in Paris, own an iPhone, wear Converse sneakers, and order sushi. And as they stroll through the Luxembourg Gardens, remember-they can't go wrong wearing black.

French is considered as one of the languages that is widely learned all over the world. There is a high likelihood that you are already familiar with some French phrases and words. Because of the French invasion in England during the eleventh century,

the French language has given significant contributions to the English vocabulary. This means that even if you are not actively learning French but is adept in English, you are already using a lot of French words without you knowing. Because of hundreds of years of interaction with the British and because of common ancient forefathers, French has offered English-speakers a fairly easy path to conversing using a different language. French and English share several similarities in sentence construction. You may even realize that a lot of French and English words have similar sounds. The limited French sounds may still be familiar to you because of movies and TV shows. Some of these unique French sounds include the silent "h" and the gruff "r" sound; but this does not completely mean that everything you watch and hear on TV is totally accurate. Still, being

able to adopt the French accent you have acquired from watching movies can help you a lot while learning the language. Even if French is remotely related to the English language, it is more generally compared to other Romance languages such as Spanish and Italian. All these three languages were created from the Latin language used by the Romans during their invasions in 1 B.C.; but despite their common origin, the evolution of the French language is different from the evolution of Italian and Spanish (which still share a lot of similarities even up to today). Currently, there are around thirty countries who name French as one of their official languages. In Canada, French is commonly used in the Quebec region only. While in Belgium, French is used in the Southern area only. The spread of the French language can be partly explained by the

colonization of several nations in the Pacific, Africa and the Caribbean by France. On top of that, the French language was actually used as the official language for international diplomacy until the initial years of the twentieth century when the English

language took over. Here Is A Preview Of What Is Inside... The French Language Pronunciation Tools for Building Phrases Basic Vocabulary Words and Phrases Socializing in French Much, much more! Purchase your copy today!
