The Handbook of Structured Life Review - Barbara K. Haight 2007

Structured Life Review is a one-on-one therapeutic technique that guides people in reflecting on their lives from early childhood to the present. It allows individuals to learn from past experiences, settle unresolved issues, and ultimately achieve a state of life acceptance. Participants benefit from increased life satisfaction, reduced depression, and the opportunity for reconciliation, acceptance, and serenity.

Ebersole & Hess' Toward Healthy Aging - Theris A. Touhy 2011

Grounded in the core competencies recommended by the AACN in collaboration with the Hartford Institute for Geriatric Nursing, The 8th edition of this textbook is a comprehensive resource on health promotion and maintenance for older adults and their caregivers. It includes coverage of communication, safety and ethical considerations, new genetic research, key aging issues,

and common and uncommon conditions. Provides the knowledge needed to promote healthy lifestyle choices, properly address end-of-life issues, and provide effective, holistic care for older adults.

Ebersole & Hess' Toward Healthy Aging - E-Book - Theris A. Touhy 2015-08-06

Get all the knowledge you need to provide effective care for adults as they age. Grounded in the core competencies recommended by the AACN in collaboration with the Hartford Institute for Geriatric Nursing, Ebersole & Hess' Toward Healthy Aging, 9th Edition is the only comprehensive text to address all aspects of gerontological nursing care. The new ninth edition has been extensively revised and updated and now includes shorter, more streamlined chapters and pedagogical features to facilitate learning, covering the areas of safety and ethical considerations, genetics, communication with the patient and caregiver, promoting health in persons with conditions commonly occurring in later-life world-wide addressing loss and palliative

care and much more. This new edition considers the experience of aging as a universal experience and the nurse's role in the reduction of health disparities and inequities as a member of the global community. Plus, it contains a variety of new learning features that focus the readers' attention on applying research and thinking critically in providing care to aging adults across the care continuum.

Professional Nursing E-Book - Beth Black 2019-06-26

Discover what it means to be a professional nurse – the history, values and standards, and commitment to life-long learning. *Professional Nursing: Concepts & Challenges*, 9th Edition equips you with current professional nursing practices to positively impact your career. This easy-to-read text helps you gain insight into the current state of the profession and benefit from a thorough examination of standards and scope of practice, with new information on the Affordable Care Act, real-life interview narratives, coverage of social justice in nursing, transition into professional practice, health care delivery systems, future challenges for the nursing profession. and more. Valuable learning aids throughout this text include: case studies, cultural challenges, evidence-based practice, critical thinking, interviews, professional profiles, historical notes, nursing research, and ideas for further exploration. Professional Profiles boxes provide prospective from nurses in the field. Case Study boxes feature scenarios involving relevant issues in patient care. Considering Culture boxes highlight the impact of culture in regards to a nurse's role and responsibilities and the patient's healthcare experience. Evidence-based Practice boxes identify leading findings in nursing topics and trends. Nurses

Doing Research boxes highlight problems identified in patient care and the ongoing efforts to find patient interventions. Interview narratives explore the issues like culture and faith from the perspectives of leaders in those fields. Discussions on the implications of social media on nursing, including ethics and boundaries. Historical Notes highlight little-known stories of heroisms in the nursing profession. Key terms are bolded where defined in the text. A Glossary is included at the end of the text. Learning outcomes are presented at the chapter openings. Concepts and Challenges and Ideas for Further Exploration at the end of the chapters help you to review and test prep. NEW! Updated information on the Affordable Care Act keeps you in the know. NEW! Information on care coordination prepares you to make more informed decisions about patient care. NEW! Information on care transitions so you know what to expect upon entering the workforce. NEW! Increased content on diversity in nursing, ethnocentrism, moral distress and moral courage, communication models (SBAR, CUS and others), and RN to BSN education. NEW! Cognitive rehearsal prepares you for the unlikely threat of lateral violence NEW! Tips on documentation include both electronic and paper types. NEW! Social justice in nursing helps you to learn to advocate for patients who need your help.

Toward Healthy Aging - Priscilla Ebersole 2008

As the most comprehensive resource on health promotion and maintenance for older adults and their families and caregivers, *Toward Healthy Aging*, 7th Edition includes the most current information you need to provide effective holistic care, promote healthy lifestyle choices, and address end-of-life issues. Grounded in the core competencies recommended by the AACN in

collaboration with the Hartford Institute for Geriatric Nursing and using Maslow's hierarchy of needs, this book includes complete coverage of both common and uncommon conditions in the older adult. *Towards Healthy Aging* also highlights key aging issues with sections devoted to basic physiologic needs, safety and security, the need to belong, self-esteem, and self-actualization. A strong focus on health and wellness emphasizes a positive approach to aging. Disease processes are discussed in the context of healthy adaptation, nursing support, and responsibilities. Careful attention to age, cultural, and gender differences are integrated throughout to help you remember these important considerations when caring for older adults. Up-to-date content on AIDS provides important information on addressing this growing concern among older adults. Consistent chapter organization with objectives, case studies, critical thinking questions, research, and study questions make information easy to find and use. Assessment guidelines are incorporated throughout in helpful tables, boxes, and forms for quick access. Case studies at the end of most chapters explore realistic patient care scenarios to help you expand your knowledge and understanding. Resource lists and appendices provide opportunities for further research and study. With over 200 illustrations, the full-color design is engaging and easy to read. *Healthy People 2010* boxes address healthy aging considerations. Evidence-Based Practice boxes help you incorporate the latest research findings into practice and advise you on how to avoid potentially harmful practices. A Nutritional Needs chapter includes the most current nutritional guidelines for older adults to help you better address patients' nutritional needs. Includes the latest scales and guidelines for assessing

the gerontologic patient in the Health Assessment in Gerontological Nursing chapter. Expanded coverage of end-of-life issues helps you meet the needs of older adults and their families and caregivers during this difficult transition. Economics of aging discussions help you better understand the financial challenges your patients may face. The latest pharmacologic and nonpharmacologic pain management information helps you reduce pain and discomfort for your patients and helps you provide more effective care.

Fundamentals of Nursing - Patricia Ann Potter 2008-12-01
Learn fundamental nursing principles, concepts, and skills with ease! *Fundamentals of Nursing, 8th Edition* includes accurate, cutting-edge content, active learning strategies, and the latest evidence-based research to help you excel in your classes and prepare for success in today's competitive nursing field. An expert author team led by Patricia Potter and Anne Griffin Perry provides a trusted, comprehensive resource, thoroughly reviewed by nursing experts and peers to ensure the most accurate content. With practical, fully integrated study support, this edition makes it easier than ever to build the understanding and clinical reasoning essential to providing excellent patient care.

Ebersole and Hess' Gerontological Nursing and Healthy Aging - Theris A. Touhy 2009-04-01

Expanded content about Long-Term and Transitional Care added to chapter six. NEW! Expanded Safety coverage spans two separate chapters. NEW! Expanded Nutrition and Hydration content divided into two separate chapters. *Transitions Theory* - Afaf I. Meleis, PhD, DrPS (hon), FAAN 2010-02-17

"It is very exciting to see all of these studies compiled in one book. It can be read sequentially or

just for certain transitions. It also can be used as a template for compilation of other concepts central to nursing and can serve as a resource for further studies in transitions. It is an excellent addition to the nursing literature." Score: 95, 4 Stars. --Doody's "Understanding and recognizing transitions are at the heart of health care reform and this current edition, with its numerous clinical examples and descriptions of nursing interventions, provides important lessons that can and should be incorporated into health policy. It is a brilliant book and an important contribution to nursing theory." Kathleen Dracup, RN, DNSc Dean and Professor, School of Nursing University of California San Francisco Afaf Meleis, the dean of the University of Pennsylvania School of Nursing, presents for the first time in a single volume her original "transitions theory" that integrates middle-range theory to assist nurses in facilitating positive transitions for patients, families, and communities. Nurses are consistently relied on to coach and support patients going through major life transitions, such as illness, recovery, pregnancy, old age, and many more. A collection of over 50 articles published from 1975 through 2007 and five newly commissioned articles, Transitions Theory covers developmental, situational, health and illness, organizational, and therapeutic transitions. Each section includes an introduction written by Dr. Meleis in which she offers her historical and practical perspective on transitions. Many of the articles consider the transitional experiences of ethnically diverse patients, women, the elderly, and other minority populations. Key Topics Discussed: Situational transitions, including discharge and relocation transitions (hospital to home, stroke

recovery) and immigration transitions (psychological adaptation and impact of migration on family health) Educational transitions, including professional transitions (from RN to BSN and student to professional) Health and illness transitions, including self-care post heart failure, living with chronic illness, living with early dementia, and accepting palliative care Organization transitions, including role transitions from acute care to collaborative practice, and hospital to community practice Nursing therapeutics models of transition, including role supplementation models and debriefing models

Healthy Ageing - Hazel Heath 1999

This book is a UK adaptation of a Mosby US text, Ebersole & Hess: Toward Health and Aging: Human Needs and Nursing Response. It outlines the theoretical foundations which underpin caring for elderly people, before moving on to consider the specific physiological and psychological problems that the elderly face and that those caring for them have to deal with. The latest research, theory and discussions of current practice are integrated throughout the book. The book acknowledges the diversity of older peoples' lives and the environment they inhabit in the UK. It also adopts a theoretical framework "Maslow's Hierarchy of Needs". This states that each individual has an innate hierarchy of needs that motivates all human behavior. These human needs have different priorities. When people achieve fulfillment of elementary needs, they strive to meet those on the next level until the highest order of needs is reached. Maslow's model is widely known and has been found particularly helpful in facilitating a holistic view of older people. * Adopts Maslow's Hierarchy of Needs model, helpful in facilitating a holistic view of

older people. * Provides bridge between theoretical foundations of care and actual care provision. * Incorporates 115 illustrations which enhance the text and clarify concepts. * Provide Case Studies for real-life learning. * Includes Chapter Introductions and Chapter Summaries which point out main concepts and provide a useful revision tool. * Features Further Reading lists with the most current book and journal articles for additional information. Not available in the U.S

Geriatric Nursing and Healthy Aging - Priscilla Ebersole 2001

Each unit builds the fundamental concepts required to effectively treat older adults and teaches how to help them to reach their highest level of wellness regardless of their physical disorder.

Toward Healthy Aging - Priscilla Ebersole 1998

TOWARD HEALTHY AGING is based on Maslow's conceptual framework of human needs from the basic to the transcendental. With a focus on wellness and healthy aging, this fifth edition emphasizes the individuality of the aged and the humanistic and spiritual potential for further development in late life. Disease processes are discussed in the context of healthy adaptation, nursing support and responsibilities. The text is organized from the basic to the complex in terms of understanding the aged and their needs. Extensive current references, nursing care plans, case studies, student activities, research questions, resources, and appendixes are included in each chapter. * Focuses on health and wellness to establish a positive perspective to aging. * Discusses disease processes in the context of healthy adaptation, nursing support and responsibilities to help the reader gain an

understanding of their client's experience. * Integrates considerations for age, cultural, and gender differences throughout to help the nurse understand these important aspects of caring for older adults. * Provides a consistent chapter organization including objectives, nursing care plans, research questions, and study questions/activities to make information easy to find and use. * Includes case studies at end of every chapter to expand student knowledge and understanding. * Features a separate chapter on laboratory values including comparisons and implications for the aged. * Integrates federal guidelines for Healthy People 2000 that reflect current practice about healthy aging considerations. * Includes appendixes and resource lists to assist the student in further exploration of material.

Healthy Places, Healthy People, 3rd Edition - Lisa E. Skemp, PhD, RN 2016-05-31

At the clinic, in the classroom, and across the globe, nurses are at the forefront of leading change and promoting social justice in healthcare. But this doesn't just happen. To provide the best possible patient care and effectively improve a community's future health, nurses need practical advice, realistic strategies, and the core public health leadership competencies[md]community relationship-building, inquiry, assessment, analysis, planning, action, evaluation, and persuasion --that transcend categorical public health concerns. Healthy Places, Healthy People (3rd ed.) provides everything that current and future nurses need to prepare, gather, organize, and analyze basic community information to create a public health strategy. A well-crafted strategy enables public health workers to effectively mobilize citizen action, working

with groups and individuals to build capacity for health equity and, ultimately, a healthier future.

Critical Thinking in Nursing - Saundra K. Lipe 2004

This text introduces nursing students to the cognitive skills, or thought processes, required of professional nurses. Using a practical approach and a nursing process framework throughout, the book provides a bridge between the theory and the application of these skills.

Cognitive skills are presented in a competency-based, clinically oriented format, with emphasis on teaching critical thinking. Chapters end with a workbook section, to provide students with real-world applications of what they have learned. Case studies and checklists throughout aid the student in applying content. The book is written at an accessible reading level.

Ebersole and Hess' Gerontological Nursing & Healthy

Aging - E-Book - Theris A. Touhy 2021-04-07

Gain the nursing skills you need to provide wellness-based care for older adults! Ebersole and Hess' Gerontological Nursing & Healthy Aging, 6th Edition uses a holistic approach to describe compassionate care along a continuum of wellness. Designed to promote healthy aging regardless of the patient's situation or disorder, this text provides best-practice guidelines in covering physical, psychosocial, spiritual, and cognitive health. New to this edition are Next Generation NCLEX®-style case studies, updates on measuring clinical judgment, expanded coverage of core competencies, and more.

Written by gerontological nursing experts Theris Touhy and Kathleen Jett, this concise text provides a solid foundation in every aspect of healthy aging. Focus on health and wellness provides the evidence-based information and strategies needed to promote healthy aging. Key concepts, learning activities, and discussion

questions in every chapter emphasize the information needed to enhance care. Recommended competencies from the AACN and the Hartford Institute for Geriatric Nursing are integrated throughout. Discussion of disease processes is placed in the context of healthy adaptation, nursing support, and responsibilities. Easy-to-use information on nursing techniques and communication appears with the associated disorders, symptoms, and situations. Tips for Best Practice and Resources for Best Practice boxes provide insight into proven methods of nursing care. Discussions of nursing and interprofessional actions help students learn to enhance wellness, maintain optimal function, and prevent unnecessary disability. Coverage of age, cultural, racial, and gender differences highlights these important considerations in caring for older adults. NEW! Updates reflect the NCSBN Clinical Judgment Model. NEW! Next Generation NCLEX® (NGN)-style case studies provide optimal preparation for the Next Generation NCLEX Examination. NEW! Specialized information addresses the unique needs of older adults such as atypical disease presentation, geriatric syndromes, neurocognitive disorders, quality of life with chronic illness, legal and ethical issues, and mental health challenges such as depression and substance abuse. NEW! Coverage of competencies of expanding nursing roles in the care of older adults addresses the continuum of care. NEW! Gerontological expertise is incorporated into nursing actions and complements other nursing texts (including med-surg, community health, mental health, and assessment books) used in programs without a freestanding gerontological nursing course. NEW! Expanded content includes information on COPD guidelines, medication use and misuse, Alzheimer's

Disease, wound care guidelines, diagnosis and treatment of sleep-disordered breathing, joint replacement, caregiver strain, hospice and transitional care, and more.

Learning objectives found at the beginning of every chapter help you to identify the primary take away messages they should learn from the chapter. Promoting Healthy Aging: Implications for Gerontological Nursing sections provide best practice guidelines for management and promotion of wellness for older adults with chronic illness and those at the end of life. Key concepts are bulleted at the end of every chapter to provide a quick review of the most important concepts found in the chapter. Nursing Studies provide practice examples designed to assist you in assessment, planning, interventions, and outcomes to promote healthy aging Critical Thinking Questions and Activities assist you in developing critical thinking skills related to chapter and nursing study content and include

suggestions for in-classroom activities to enhance learning. Content consistent with the core competencies for geriatric nursing incorporates the Recommended Baccalaureate Competencies and Curricular Guidelines for the Nursing Care of Older Adults, the Geriatric Nursing Education State of the Science Papers, and the Hartford Institute for Geriatric Nursing Best Practices in Nursing Care to Older Adults. The latest information on biological theories of aging and evolving genomic research covers current findings on these timely issues. Research Highlights Boxes highlight important research studies in the field of gerontology Research Questions found at the end of chapters gives you a chance to do further research outside of your book study to give you a better grasp of the field as a whole. Safety Alert Boxes emphasize important safety tips to consider while working in a clinical setting. Resources for Best Practice boxes contain suggestions for further information on various chapter topics and tools for practice. Tips for Best Practice boxes feature summarized lists of evidence-based nursing interventions for practice. Healthy People boxes reference the goals cited in Healthy People 2020. NEW! Additional coverage of frailty in older adults helps you to understand the precautions you need to take when working with this population. NEW! Increased information on Health Literacy assists you in learning the right terms to promote healthy aging. NEW! Added information on herbs/supplements includes essential oils and green tea. Ebersole & Hess' Toward Healthy Aging - Theris A. Touhy 2015-10-01

Research Methods - Wendy L. Hurley 2011

"This research methods textbook distinguishes itself

from other textbooks by providing a unique framework and perspective for users/students to establish the relevancy of research in their clinical practice. Many, if not most, students in professional preparation allied health care programs view the research methods/statistics course requirement of the curriculum as an obstacle to be overcome, or at best, as a necessary evil. Most research methods textbooks promote these notions because of the way they are presented. Of course, most times they are written by researchers or statisticians and are absolutely correct in presenting the theoretical underpinnings and mechanistic applications of the scientific method. They correctly present explanations as to why one type of methodology requires a certain type of statistical analysis based on the characteristics of the study population, the type of data collected, or the underlying assumptions pertinent to a specific statistical model. So, while technically beyond reproach, their failure is in establishing how and why research activity and understanding is integral to a professional practice"--Provided by publisher.

Foundations of Maternal-Newborn and Women's Health

Nursing - Sharon Smith Murray, MSN, RN, C 2013-09-23
With easy-to-read coverage of nursing care for women and newborns, Foundations of Maternal-Newborn & Women's Health Nursing, 6th Edition shows how to provide safe, competent care in the clinical setting. Evidence-based guidelines and step-by-step instructions for assessments and interventions help you quickly master key skills and techniques. Also emphasized is the importance of understanding family, communication, culture, client teaching, and clinical decision making. Written by specialists in maternity nursing, Sharon Smith Murray and Emily Slone McKinney, this text reflects the latest

QSEN competencies, and the accompanying Evolve website includes review questions to prepare you for the NCLEX® exam! Nursing Care Plans help you apply the nursing process to clinical situations. Procedure boxes provide clear instructions for performing common maternity skills, with rationales for each step. UNIQUE! Therapeutic Communications boxes present realistic nurse-patient dialogues, identifying communication techniques and showing to respond when encountering communication blocks. Communication Cues offer tips for interpreting patients' and families' verbal and nonverbal communication. Critical Thinking exercises focus on clinical situations designed to test your skills in prioritizing and critical thinking. Updated drug guides list important indications, adverse reactions, and nursing considerations for the most commonly used medications. Check Your Reading helps you assess your mastery of key content. Critical to Remember boxes highlight and summarize need-to-know information. Want to Know boxes provide guidelines for successful client education. Glossary provides definitions of all key terms. NEW! Safety Alerts help you develop competencies related to QSEN and safe nursing practice. NEW! Unfolding case studies help you apply what you've learned to practice. UPDATED Evidence-Based Practice boxes highlight the latest research and the most current QSEN (Quality and Safety Education for Nurses) practice guidelines for quality care. UPDATED content includes the late preterm infant, fetal heart rate pattern identification, obesity in the pregnant woman, and the QSEN competencies.

Ebersole and Hess' Gerontological Nursing & Healthy Aging - Theris A. Touhy, DNP, CNS, DPNAP 2013-03-11

Evidence-informed Approaches for Managing Dementia Transitions - Linda Garcia 2020-02-02

Evidence-Informed Approaches for Managing Dementia Transitions provides evidence-informed approaches and future directions for supporting a higher quality of life for people living with dementia. Through a person-centered lens, this book equips care providers to better help people living with dementia align their expectations and hopes with the trajectories they can expect in their journey. It highlights the various transitions that those with dementia will experience and describes best practices for optimal adjustment to each. Topics covered include problem identification, driving cessation, loss of financial autonomy, acute hospital admission, moving to assisted living residences and long term care homes, and palliative and end of life care. This is a must have reference for researchers, clinicians, and mental health professionals (psychologists, counsellors, social workers, mental health nurses) as well as policy makers and other health and social care providers working with individuals with dementia. Emphasizes empowerment and quality of life for all those living with dementia Explores strategies for managing the ups and downs of the dementia journey from diagnosis to end of life Recommendations are couched in evidence and extensive experience of the authors

Gerontological Nursing: Competencies for Care - Kristen L. Mauk 2010-10-25

Important Notice: The digital edition of this book is missing some of the images or content found in the physical edition. Gerontological Nursing: Competencies for Care, Second Edition is a comprehensive and student-accessible text that offers a holistic and interdisciplinary approach to caring for the elderly. The

framework for the text is built around the Core Competencies set forth by the American Association of Colleges of Nursing (AACN) and the John A. Hartford Foundation Institute for Geriatric Nursing. Building upon their knowledge in prior medical surgical courses, this text gives students the skills and theory needed to provide outstanding care for the growing elderly population. It is the first of its kind to have more than 40 contributing authors from many different disciplines. Some of the key features include chapter outlines, learning objectives, discussion questions, personal reflection boxes, and case studies.

Gerontologic Nursing - Annette Giesler Lueckenotte 2000
GERONTOLOGIC NURSING provides comprehensive coverage of health promotion, gerontologic concepts and issues, and medical-surgical problems associated with the older adult. Divided into seven parts, each chapter follows a consistent organization including learning objectives, emergency boxes, client and family teaching boxes, research boxes, key points, special insights, and new health promotion and nutrition boxes. The second edition also includes a new chapter on health promotion, expanded chapters on nutrition and functional assessment, and a dedicated MERLIN which provides the student and instructor with additional up-to-date tools and resources to enhance and expand their content knowledge. Highlights fundamental aging theories to provide a basis for biological and psychosocial aspects of quality nursing care. Provides complete and comprehensive coverage of assessment recapping normal, deviations from normal and abnormal findings. Uses a 5-step nursing process format to provide the consistent framework for presentation of nursing care. Features care plans with clinical situations for those disorders

most prevalent in the elderly. Includes a separate chapter on cultural influences and integrates cultural awareness boxes throughout to focus on specific customs related to how a nurse might care for the aging client. Includes separate chapters focusing on acute, home and long term care to provide a complete discussion of care in each of these settings. Provides detailed coverage of pain, infection, cancer, chronic illness, loss, death and dying, and substance abuse to explain potentially complex aspects of aging and the related care. Provides a consistent chapter pedagogy including learning objectives, summary, key points, and critical thinking exercises. Includes Client/Family teaching boxes that emphasize key aspects of practice and teaching for self-care. Highlights Home Care Tips Boxes to promote practical, effective care for the home-bound older client. Integrates Insight boxes that provide realistic vignettes on caring for the elderly and helpful hints from today's practicing gerontological nurses. Provides Emergency Treatment boxes that alert the student to danger signs and list immediate interventions. Includes research boxes with abstracts of current research and implications for practice. Provides a nuts-and-bolts guide to blood-product administration for adult and pediatric patients. Outlines and explains transfusion reactions. Describes the effect of different types of fluids used in resuscitation. Includes formulas used in fluid administration. Provides the most up-to-date information about oxygen delivery devices. Presents information on how to help a Spanish-speaking child identify his/her level of pain. Includes the pediatric coma scale. Features the pediatric trauma score which is used to help evaluate the severity of injury. Provides information about domestic violence in the Mental Health

Conditions chapter. Includes a section on the role of the Sexual Assault Nurse Examiner (SANE) and the latest findings on sexual assault. Presents additional information on mammalian bites and anaphylactic shock. Highlights major points of care for quick reference with bold or italicized text. Presents pediatric and adult content separately in the reference section of the book for fast and easy access. Includes stroke and hypothermia algorithms. Covers the latest information on conscious sedation according to JCAHO standards, including a table on deep sedation. Features several new and updated tables which include the following information: conversion of Centigrade and Fahrenheit, updated normal lab values, updated medication tables, etc. (Includes a FREE MERLIN website at: www.harcourthealth.com/MERLIN/Lueckenotte/)

Geriatric Nursing - Priscilla Ebersole, RN, PhD, FAAN
2006-02-01

Designated a Doody's Core Title! Named an Outstanding Academic Title for 2006 by CHOICE "Those who are interested in the care of older individuals will find this book thoughtful, exciting, and useful...Highly recommended." --CHOICE Learn the history of the development of geriatric nursing as a specialty, as well as the current state of geriatric nursing, from the stories of pioneers in this field. Through the history of those who laid the foundations for the profession to the geriatric nurse leaders who continue the specialty today, see first-hand how geriatric nursing began, evolved, and continues to flourish. Covering the scope of the specialty: How to become a geriatric nurse Geriatric nursing organizations and publications Standards of practice Certification and licensure Future directions This text provides both inspirational stories

of nursing and practical information on how you can find resources, develop ideas, and access research in order to become a successful geriatric nurse.

Bettyville - George Hodgman 2015-03-10

NEW YORK TIMES BESTSELLER FINALIST FOR THE NATIONAL BOOK CRITICS CIRCLE AWARD "A beautifully crafted memoir, rich with humor and wisdom." –Will Schwalbe, author of *The End of Your Life Book Club* "The idea of a cultured gay man leaving New York City to care for his aging mother in Paris, Missouri, is already funny, and George Hodgman reaps that humor with great charm. But then he plunges deep, examining the warm yet fraught relationship between mother and son with profound insight and understanding." –Alison Bechdel, author of *Fun Home* When George Hodgman leaves Manhattan for his hometown of Paris, Missouri, he finds himself—an unlikely caretaker and near-lethal cook—in a head-on collision with his aging mother, Betty, a woman of wit and will. Will George lure her into assisted living? When hell freezes over. He can't bring himself to force her from the home both treasure—the place where his father's voice lingers, the scene of shared jokes, skirmishes, and, behind the dusty antiques, a rarely acknowledged conflict: Betty, who speaks her mind but cannot quite reveal her heart, has never really accepted the fact that her son is gay. As these two unforgettable characters try to bring their different worlds together, Hodgman reveals the challenges of Betty's life and his own struggle for self-respect, moving readers from their small town—crumbling but still colorful—to the star-studded corridors of *Vanity Fair*. Evocative of *The End of Your Life Book Club* and *The Tender Bar*, Hodgman's New York Times bestselling debut is both an indelible portrait of a family and an exquisitely told tale of a

prodigal son's return.

Ebersole and Hess' Gerontological Nursing and Healthy Aging in Canada - Binder Ready - Veronique Boscart 2022-05

Ebersole and Hess' Gerontological Nursing and Healthy Aging, Canadian Edition - E-Book - Theris A. Touhy 2014-04-22

Canadian demographics and statistics Canadian practice guidelines Canadian law Roles of Canadian health care providers CNA code of ethics Canadian drug names Canadian lab values Canadian research findings Canadian assessment tools Canadian screening guidelines

Ebersole and Hess' Toward Healthy Aging - THERIS A.. JETT TOUHY (KATHLEEN F.) 2019-11-12

Ensure you thoroughly understand the intricate details of providing effective care for adults as they age. *Ebersole & Hess'' Toward Healthy Aging, 10th Edition* is the only comprehensive gerontological nursing text that effectively communicates how to provide holistic care, promote healthy lives, and address end-of-life issues and concerns. Grounded in the core competencies

recommended by the AACN in collaboration with the Hartford Institute for Geriatric Nursing, the tenth edition has been extensively revised and updated with shorter, more streamlined chapters and pedagogical features to facilitate learning. It covers the areas of safety and ethical considerations, genetics, communication with the patient and caregiver, promoting health in persons with conditions commonly occurring in later-life world-wide addressing loss and palliative care and much more. Special sections provide an honest look at the universal experience of aging and the nurse's role in the reduction of health disparities and inequities as a member of the global community. Plus, it contains a variety of new learning features that focus on applying research and thinking critically in when providing care to aging adults across the care continuum. UPDATED COPD guidelines ensure you understand the latest information used by clinicians. UPDATED Theories of Aging chapter discusses the latest covers current findings on this timely issue. UPDATED Information on medication use and misuse instructs you in what to look for when working with prescription medications. UPDATED chapters incorporate the latest information on timely topics such as Palliative Care and Sleep. UPDATED Wound care guidelines reflect nationally recognized standards. UPDATED Information on LGBT family relationships and sexuality in older adults. A Student Speaks and An Elder Speaks sections at the beginning of every chapter provide honest and candid thoughts from students and elders. Learning objectives found at the beginning of every chapter help you to identify the primary take away messages they should learn from the chapter. Promoting Healthy Aging: Implications for Gerontological Nursing sections provide best practice

guidelines for management and promotion of wellness for older adults with chronic illness and those at the end of life. Key concepts are bulleted at the end of every chapter to provide a quick review of the most important concepts found in the chapter. Nursing Studies provide practice examples designed to assist you in assessment, planning, interventions, and outcomes to promote healthy aging Critical Thinking Questions and Activities assist you in developing critical thinking skills related to chapter and nursing study content and include suggestions for in-classroom activities to enhance learning. Content consistent with the core competencies for geriatric nursing incorporates the Recommended Baccalaureate Competencies and Curricular Guidelines for the Nursing Care of Older Adults, the Geriatric Nursing Education State of the Science Papers, and the Hartford Institute for Geriatric Nursing Best Practices in Nursing Care to Older Adults. The latest information on biological theories of aging and evolving genomic research covers current findings on these timely issues. Research Highlights Boxes highlight important research studies in the field of gerontology Research Questions found at the end of chapters gives you a chance to do further research outside of your book study to give you a better grasp of the field as a whole. Safety Alert Boxes emphasize important safety tips to consider while working in a clinical setting. Resources for Best Practice boxes contain suggestions for further information on various chapter topics and tools for practice. Tips for Best Practice boxes feature summarized lists of evidence-based nursing interventions for practice. Healthy People boxes reference the goals cited in Healthy People 2020. NEW! Additional coverage of frailty in older adults helps you to understand the

precautions you need to take when working with this population. NEW! Increased information on Health Literacy assists you in learning the right terms to promote healthy aging. NEW! Added information on herbs/supplements includes essential oils and green tea.

Gerontological Nursing - Patricia A. Tabloski 2014
GERONTOLOGICAL NURSING, 3/e is a comprehensive, research-based, and up-to-date guide to nursing care for older adults in all settings. It brings together essential information about normal and pathological changes associated with aging; healthy aging; common diseases of aging; and key psychosocial, cultural, and public health issues. Reflecting today's emphasis on evidence-based practice and appropriate delivery of scarce healthcare resources, this text presents new best practices and QSEN standards throughout, promoting more effective assessment, diagnosis, planning, and outcome evaluation. The text's multidisciplinary approaches help nurses "add life to years," not just extend life. Its coverage of acute and chronic diseases includes nursing implications, atypical presentation, functional implications, pharmacology, evaluation, etiology, risk factors, and complications; the text also includes a full chapter on multisystem diseases. This book supports safe, effective, and appropriate practice in the home, hospitals, long-term care, and hospice settings.

Ebersole and Hess' Gerontological Nursing and Healthy Aging - Theris Touhy 2017-03-07

Palliative Care Nursing - Marianne Matzo, PhD, APRN-CNP, FPCN, FAAN 2018-06-28
"This 5th edition is an important achievement; it is a symbol of commitment to the field of palliative nursing, where we have been and where we are going." - Betty

Rolling Ferrell, PhD, MA, FAAN, FPCN, CHPN From the Foreword The aging population has only grown since the first edition of this comprehensive and seminal publication nearly 20 years ago. Based on the need to humanize rather than medicalize the illness experience for patients, this text delves into palliative care beyond the specific diseases affecting the patient. Instead, content focuses on the whole person and family. Palliative patients struggle with chronic, debilitating, and painful conditions, and grapple with the fact that life as they knew it has already passed away. Families and friends reciprocally suffer, not knowing how to help and therefore become the secondary victims of the disease. This is not the challenge of a lone nurse, or a single physician, therapist, or social worker. Rather, palliative and hospice care requires the expertise and unique roles of an interprofessional team to help the patient and family strengthen their resilience, continue to find meaning and purpose in life, and cure what can be cured. Palliative Care Nursing, Fifth Edition, delivers advanced empirical, aesthetic, ethical and personal knowledge. This new edition brings an increased focus on outcomes, benchmarking progress, and goals of care. It expounds upon the importance of the cross-disciplinary collaboration introduced in the previous edition. Every chapter in Sections I, II, and III includes content written by a non-nursing member of the interprofessional team. Based on best-evidence and clinical practice guidelines, this text presents comprehensive, targeted interventions responsive to the needs of palliative and hospice patients and family. Each chapter contains compassionate, timely, appropriate, and cost-effective care for diverse populations across the illness trajectory. Key Features

The expanded new edition offers current, comprehensive, one-stop source of highly-relevant clinical information on palliative care Life-span approach: age-appropriate nursing considerations (e.g. geriatric, pediatric and family) Includes disease-specific and symptom-specific nursing management chapters Promotes a holistic and interdisciplinary approach to palliative care Offers important legal, ethical and cultural considerations related to death and dying Case Studies with Case Study Conclusion in each clinical chapter New to The Fifth Edition: An expanded chapter on Palliative Care incorporates most up to date scope and standards, information on Basic and Advanced HPNA certification, self-reflection and self-care for nurses. A chapter on Interprofessional Collaboration Instructor Resources: Power points and Test bank

Communication in Nursing - E-Book - Julia Balzer Riley
2014-03-12

Go beyond theory and start to master the essential communication skills and techniques you'll need throughout all areas of nursing practice. *Communication in Nursing, 7th Edition* uses a personal and empathetic approach, along with unique artistic features, to help you develop a deeper understanding of the importance of communication. Comprehensive, step-by-step guidelines teach you how to establish patient relationships, and new QSEN-specific exercises help you learn to connect more effectively with patients, co-workers, and managers for better clinical outcomes. Real-life clinical scenarios, chapter exercises, and a new writing tutorial also offer endless opportunities to hone your skills. Moments of Connection boxes highlight the outcomes and benefits of successful communication. Wit & Wisdom boxes provide a humorous, personal approach to communication

theory and application. Reflections On... boxes give you a specific task to help you integrate chapter material into the broader scope of nursing practice. Exercises throughout the book help you master chapter techniques and strengthen your communication skills. QSEN-specific exercises developed by a leading expert highlight how safety and improved care can result from better communication. UNIQUE! Online writing tutorial on Evolve helps you review and improve your technical writing skills. Case studies on Evolve give you practice using proper communication skills in a variety of real-life case scenarios. The latest information on compassion fatigue, language use, client preconceived ideas about health care, transcultural issues, technology, and the demands of electronic medical record systems provide you with the most up-to-date and relevant information needed to excel in today's nursing field.

Gerontological Nursing - Charlotte Eliopoulos 2018

"Focusing on the content that students need to know for effective practice, this text offers engaging, evidence-based coverage of the aging process, factors contributing to healthy aging, and unique aspects of disease presentation and management in older adults. Updated to help students meet the challenges of this increasingly diverse population, the ninth edition retains its acclaimed holistic approach through insightful coverage of the psychological, legal, ethical, and spiritual elements of patient care."--Page 4 de la couverture.

Ebersole and Hess' Gerontological Nursing & Healthy Aging - Binder Ready - Theris A. Touhy 2021-06

Binder-Ready Edition: This loose-leaf copy of the full text is a convenient, accessible, and customizable alternative to the bound book. With this binder-ready

edition, students can personalize the text to match their unique needs! Gain the nursing skills you need to provide wellness-based care for older adults! Ebersole and Hess' Gerontological Nursing & Healthy Aging, 6th Edition uses a holistic approach to describe compassionate care along a continuum of wellness. Designed to promote healthy aging regardless of the patient's situation or disorder, this text provides best-practice guidelines in covering physical, psychosocial, spiritual, and cognitive health. New to this edition are Next Generation NCLEX®-style case studies, updates on measuring clinical judgment, expanded coverage of core competencies, and more. Written by gerontological nursing experts Theris Touhy and Kathleen Jett, this concise text provides a solid foundation in every aspect of healthy aging. Focus on health and wellness provides the evidence-based information and strategies needed to promote healthy aging. Key concepts, learning activities, and discussion questions in every chapter emphasize the information needed to enhance care. Recommended competencies from the AACN and the Hartford Institute for Geriatric Nursing are integrated throughout. Discussion of disease processes is placed in the context of healthy adaptation, nursing support, and responsibilities. Easy-to-use information on nursing techniques and communication appears with the associated disorders, symptoms, and situations. Tips for Best Practice and

Resources for Best Practice boxes provide insight into proven methods of nursing care. Discussions of nursing and interprofessional actions help students learn to enhance wellness, maintain optimal function, and prevent unnecessary disability. Coverage of age, cultural, racial, and gender differences highlights these important considerations in caring for older adults. NEW! Updates reflect the NCSBN Clinical Judgment Model. NEW! Next Generation NCLEX® (NGN)-style case studies provide optimal preparation for the Next Generation NCLEX Examination. NEW! Specialized information addresses the unique needs of older adults such as atypical disease presentation, geriatric syndromes, neurocognitive disorders, quality of life with chronic illness, legal and ethical issues, and mental health challenges such as depression and substance abuse. NEW! Coverage of competencies of expanding nursing roles in the care of older adults addresses the continuum of care. NEW! Gerontological expertise is incorporated into nursing actions and complements other nursing texts (including med-surg, community health, mental health, and assessment books) used in programs without a freestanding gerontological nursing course. NEW! Expanded content includes information on COPD guidelines, medication use and misuse, Alzheimer's Disease, wound care guidelines, diagnosis and treatment of sleep-disordered breathing, joint replacement, caregiver strain, hospice and transitional care, and more.
