Economics for Business and Management - Alan Griffiths 2008

"The 2nd edition of *Economics for Business and Management* focuses on real-life business situations in both functional and strategic areas of business and management. It applies key concepts in economics and business to a wide variety of situations helping you to answer questions such as: Why is offshoring now a major concern for South Korea? What are the key characteristics for successful entry to new international markets? How can 'sustainability' affect decision making within businesses? This is the ideal textbook for students following courses in introductory economics with a business and management focus. Its detailed consideration of wider dimensions of the business environment, such as political, legal, ethical, sociocultural, technological and environmental issues, make it more suitable for more general courses on the business environment with an economic underpinning."--Cover.
