I Am Malala - Malala Yousafzai 2013-10-08

A MEMOIR BY THE YOUNGEST RECIPIENT OF THE NOBEL PEACE PRIZE As seen on Netflix with David Letterman "I come

from a country that was created at midnight. When I almost died it was just after midday." When the Taliban took control of the Swat Valley in Pakistan, one girl spoke out. Malala Yousafzai refused to be silenced and fought for her right to an education. On Tuesday, October 9, 2012, when she was fifteen, she almost paid the ultimate price. She was shot in the head at point-blank range while riding the bus home from school, and few expected her to survive. Instead, Malala's miraculous recovery has taken her on an extraordinary journey from a remote valley in northern Pakistan to the halls of the United Nations in New York. At sixteen, she became a global symbol of peaceful protest and the youngest nominee ever for the Nobel Peace Prize. I AM MALALA is the remarkable tale of a family uprooted by global terrorism, of the fight for girls' education, of a father who, himself a school owner, championed and encouraged his daughter to write and attend school, and of brave parents who have a fierce love for their daughter in a society that prizes sons. I AM MALALA will make you believe in the power of one person's voice to

inspire change in the world.

Hurricane Season - Fernanda Melchor 2020-10-06

Shortlisted for the 2020 International Booker Prize Now in paperback, Fernanda Melchor's Hurricane Season is "a bilious, profane, blood-spattered tempest of rage" (The Wall Street Journal), that casts "a powerful spell" (NPR): "a narrative that not only decries an atrocity but embodies the beauty and vitality it perverts" (The New York Times) The Witch is dead. And the discovery of her corpse has the whole village investigating the murder. As the novel unfolds in a dazzling linguistic torrent, with each unreliable narrator lingering on new details, new acts of depravity or brutality, Melchor extracts some tiny shred of humanity from these characters—innies whom most people would write off as irredeemable—forming a lasting portrait of a damned Mexican village. Like Roberto Bolano's 2666 or Faulkner's novels, Hurricane Season takes place in a world saturated with mythology and violence—real violence, the kind that seeps into the soil, poisoning everything around: it's a world that becomes more and more terrifying the deeper you explore it.

Soccer in Sun and Shadow - Eduardo Galeano 2022-10-18

One of the greatest, magical, and most lyrical accounts of the beautiful game In this witty and rebellious history of world soccer, award-winning writer Eduardo

Galeano searches for the styles of play, players, and goals that express the unique personality of certain times and places. In Soccer in Sun and Shadow, Galeano takes us to ancient China, where engravings from the Ming period show a ball that could have been designed by Adidas to Victorian England, where gentlemen codified the rules that we still play by today and to Latin America, where the "crazy English" spread the game only to find it creolized by the locals. All the greats—Pelé, Di Stéfano, Cruyff, Eusébio, Puskás, Gullit, Baggio, Beckenbauer— have joyous cameos in this book. yet soccer, Galeano cautions, "is a pleasure that hurts." Thus there is also heartbreak and madness. Galeano tells of the suicide of Uruguayan player Abdón Porte, who shot himself in the center circle of the Nacional's stadium; of the Argentine manager who wouldn't let his team eat chicken because it would bring bad luck; and of scandal-riven Diego Maradona whose real crime, Galeano suggests, was always "the sin of being the best." Soccer is a game that bureaucrats try to dull and the powerful try to manipulate, but it retains its magic because it remains a bewitching game—"a feast for the eyes ... and a joy for the body that plays it"—exquisitely rendered in the magical stories of Soccer in Sun and Shadow.

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes

in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. A World for Julius - Alfredo Bryce Echenique 2004

Julius was born in a mansion on Salaverry Avenue, directly across from the old San Felipe Hippodrome. Life-size Disney characters and cowboy movie heroes romp across the walls of his nursery. Out in the carriage house, his great-grandfather's ornate, moldering carriage takes him on imaginary adventures. But Julius's father is dead, and his beautiful young mother passes

through her children's lives like an ephemeral shooting star. Despite the soft shelter of family and money, hard realities overshadow Julius's expanding world, just as the rugged Andes loom over his home in Lima. This lyrical, richly textured novel, first published in 1970 as *Un mundo para Julius*, opens new territory in Latin American literature with its focus on the social elite of Peru. In this postmodern novel Bryce Echenique incisively charts the decline of an influential, centuries-old aristocratic family faced with the invasion of foreign capital in the 1950s. Winner of the Outstanding Translation Award of the American Literary Translators Association and the Columbia University Translation Center Award.

Sapiens - Yuval Noah Harari 2015-02-10

New York Times Bestseller A Summer Reading Pick for President Barack Obama, Bill Gates, and Mark Zuckerberg From a renowned historian comes a groundbreaking narrative of humanity's creation and evolution—a #1 international bestseller—that explores the ways in which biology and history have defined us and enhanced our understanding of what it means to be “human.” One hundred thousand years ago, at least six different species of humans inhabited Earth. Yet today there is only one—homo sapiens. What happened to the others? And what may happen to us? Most books about the history of humanity pursue either a historical or a biological approach, but Dr. Yuval Noah Harari breaks the mold with this highly original book that begins about 70,000 years ago with the appearance of modern cognition. From examining the role evolving humans have played in the global ecosystem to charting the rise of empires, Sapiens integrates history and science to reconsider accepted narratives, connect past developments with contemporary concerns, and examine specific events within the context of larger ideas. Dr. Harari also compels us to look ahead, because over the last few decades humans have begun to bend laws of natural selection that have governed life for the past four billion years. We are acquiring the ability to design not only the world around us, but also ourselves. Where is this leading us, and what do we want to become? Featuring 27 photographs, 6 maps, and 25

illustrations/diagrams, this provocative and insightful work is sure to spark debate and is essential reading for aficionados of Jared Diamond, James Gleick, Matt Ridley, Robert Wright, and Sharon Moalem.

Fight Club: A Novel - Chuck Palahniuk 2005-10-17

The first rule about fight club is you don't talk about fight club. Chuck Palahniuk showed himself to be his generation's most visionary satirist in this, his first book. Fight Club's estranged narrator leaves his lackluster job when he comes under the thrall of Tyler Durden, an enigmatic young man who holds secret after-hours boxing matches in the basements of bars. There, two men fight "as long as they have to." This is a gloriously original work that exposes the darkness at the core of our modern world.

A Orillas del Nilo - Edda Bresciani 2001

Para comprender la peculiaridad del sistema social del antiguo Egipto debemos remitirnos al concepto de fondo en el que se basa: el de un equilibrio primordial y global, predeterminado desde el principio de los tiempos en un B+programaB; providencial que concernia a todo el mundo entonces conocido. Dentro de ese orden cosmico programado se inscribia el ambiente geofisico de Egipto B -- la tierra, el Nilo, la vegetacion, los animales y el hombre, es decir, la cima de la creacionB --, pero tambien la organizacion de las ciudades y las aldeas, e incluso las estructuras sociales, con las diversas funciones diferenciadas por roles y jerarquias, desde el monarca hasta el subdito mas insignificante, aunque

todas ellas igualmente necesarias. La impresion de inmovilidad que el mundo de la antiguedad egipcia haya podido sugerir deriva esencialmente del caracter perdurable de la monarquia faraonica y de las convenciones del lenguaje artistico. Pero la sociedad que las expreso no es inmovil, y para comprobarlo basta con observar las actitudes y los valores elaborados en el curso de los siglos por aquel mundo, en absoluto B+primitivoB;, a pesar de haberse formado en tiempos tan remotos. En este sentido, respecto de otras sociedades antiguas, tanto del Oriente Proximo como de Occidente, Egipto es, sin duda, el pais que ofrece las mayores posibilidades de reconstruccion respecto a casi todos los aspectos de su vida social. Y eso es precisamente lo que intenta hacer este libro.
