Command Philosophy My
philosophy is
basic...provide the
highest quality service
possible to every person
you encounter. We are an
institution of higher
learning; we need to be
the best with everything
we do. We are preparing
the next generation of
heroes for the greatest

fighting force on the
planet - the 8404
Hospital Corpsman
assigned to the United
States Marine Corps.
They operate at the tip-
of-the spear providing
combat medicine to our
operational forces; they
are critical to the
success of the Navy &
Marine Corps Medicine
Team. What each one of
us does on a daily basis
matters, regardless of
our job. We all
contribute to the
mission. No one job is
more important than the
other. If just one link
(team member) in this
chain fails to perform a
portion of the mission
to standard, we all
fail. You have the
ability to make a
positive difference in
peoples' lives every
day. Every member of
this team should ask
themselves, "Am I living
by our core values and
making decisions that
are consistent with

these values when I interact with students, staff and the American public." Key points: - Know your chain of command and how to use it. You have not exhausted your chain of command at FMTB-West until the issue reaches me. - If you are lacking something to perform your mission, bring it to the attention of leadership so we can promptly address it. - Any safety issue should immediately be brought to leadership. - Continually strive to improve processes; ask for help before it's too late (in all aspects of your life and career). - If you see a problem, fix it or bring it to the attention of someone who can. Don't ignore it. - Supporting each other is just as important as supporting the mission. - Continue the relentless pursuit of customer

satisfaction; feedback is a valuable tool in life and career. - Basic military courtesy should be a part of everyday life. - Always strive to do the right thing, even when no one is looking or when tempted to take the "easy" wrong. As a leader, I believe all members of the team are important. Our civilian shipmates are essential to the success of our mission. As a military leader, I believe, as the Sailor creed says, "I proudly serve my country's Navy combat team with Honor, Courage and Commitment. I am committed to excellence and the fair treatment of all". I cannot over emphasize the importance of leadership from E-1 to O-6, everyone has a part; I expect officers to lead from the front by setting the example. Be sure that regularly scheduled performance counseling sessions are

conducted for military and civilian employees. Cover the good which should be sustained as well as the areas which need improvement. Although I like to be informed, I believe in allowing leaders to lead, managers to manage. A big part of my job is to provide you the support systems necessary for you to accomplish your mission. Tell me what you need and don't worry how it will be resourced. Let me worry about that.
