United States Army Order of Battle 1919-1941. Volume III. the Services: Air Service, Engineer, and Special Troops Organization - Steven E. Clay 2011-08

United States History - Anna H. Perrault 2003
This important work has been completely revised and expanded with the addition of online databases, web sites and CD-ROM titles. It identifies and describes hundreds of reference books that pertain to American history. Entries offer full descriptive, and in some cases, evaluative annotations. Arranged topically, the guide begins with an introduction and a chapter on sources of general importance. Subsequent chapters cover U.S. history in terms of politics and government; diplomatic history and foreign affairs; military history; social, cultural, and intellectual history; regional history; and economic history. Introductory scope notes provide valuable expository information and suggested search strategies in such areas as automation, government documents, and genealogy. Entries include works published through 2002.

Aviation Insignia of the United States of America - Stan Baumwald 2013-05-21

Aviation Insignia of the United States of America is a comprehensive guide to insignia of badges and wings of aircrews of the American aviation. The guide has wings from over 900 airlines, fixed operators, and other agencies. Over 3500 wings in color are shown representing almost every airline in the US. A brief overview of various government agencies and US Military wings is also provided. Badges for aviation started in 1913 when the US Army issued the first badge to its pilots. Only about 3 dozen were made as they believed that would be enough forever. WWI found nations committing large air armies and the pilots coming home continued to fly and soon airlines came into being. The fledglings got a big push by from the Post Office to provide faster mail delivery and the US Air Mail wing was that worn by many commercial pilots. Airlines have come and gone, merged and thousands of flights happen every day. All the pilots and crews proudly wear their wings, so it fitting to provide a reference of most of them. Making this the most complete book ever issued on this type of insignia and the only reference of it kind for the collector or those interested in aviation.

U.S. Army Patches, Flashes, and Ovals - Barry Jason Stein 2007

World War II in Europe - David T. Zabecki 2015-05-01
First Published in 1999. Routledge is an imprint of Taylor & Francis, an informa company.

Uniforms, Arms, and Equipment: Headgear, clothing, and footwear - Douglas C. McChristian 2007

Building on the success of his best-selling *The U.S. Army in the West, 1870-1880: Uniforms, Arms, and Equipment*, Douglas C. McChristian here presents a two-volume comprehensive account of the evolution of military arms and equipment during the years 1880-1892. The volumes are set against the backdrop of the final

decade of the Indian campaigns—a key period of transition in United States military history. In Volume 1, McChristian shows how the Quartermaster Department modified the design and manufacturing of uniforms and other clothing to meet the developing needs of troops in the American West. Drawing on extensive research in public and private collections throughout the United States and lavishly illustrated with more than four hundred color and black-and-white illustrations, these volumes will serve as invaluable references for collectors, curators, and students of militaria and of the frontier era.

An Illustrated Encyclopedia - Digby Smith 2006

This book brings a highly eventful period of European history to life, chronicling the battles, campaigns and skirmishes of the conflict and the political triumphs and declines of the combatant forces. The book's main focus, however, is the soldiers who fought these battles, and the uniforms that they wore. It was in this age of war that military uniforms flourished, with an astonishing array of flamboyance, style and intricate detail. This comprehensive volume presents not only a unique visual directory of Napoleonic uniforms, but an enlightening and evocative portrait of the political, military and social context of the soldiers who fought at the time.

Encyclopedia of United States Army Insignia and Uniforms - William K. Emerson 1996

army branches - infantry, artillery, cavalry, and engineers - as well as the service and support branches comprising doctors and nurses, chaplains, musicians, quartermasters, military police, and the many others who have made up the U.S. Army. Insignia worn by all soldiers, such as eagles, devices with the letters US, and other letters and numbers, are also described and illustrated. Historians, military collectors, military reenactors, antique dealers and collectors,

An Illustrated Encyclopedia of Military Uniforms of the 19th Century - Kevin F. Kiley 2010

The Crimean War is sometimes considered to be the first modern conflict and introduced technical changes which affected the future course of warfare.

The Illustrated Encyclopedia of Military Insignia of the 20th Century - Guido Rosignoli 1986

U.S. Army Patches - Barry Jason Stein 1997

"U.S. Army Patches brings together in one colorful source more than eighteen hundred cloth insignia worn by U.S. soldiers from World War I to the present. Barry Jason Stein has gathered officially approved patches from both active and inactive units, as well as patches approved for local wear and many unauthorized patches, all of which offer unique insights into the U.S. military. Drawing on extensive research of government documents, Stein offers a brief profile of each army unit and a commentary on the significance of its heraldic terms. He includes anecdotal information that makes the volume as entertaining as it is resourceful. In his inventory of the patches, Stein lists items of special interest, including the period and the battle campaigns in which they were worn and the meaning of their motifs. In addition Stein provides an index of all previous designations by which the units have been known"--Dust jacket.

Aviation Insignia of the United States of America: an Encyclopedia of Wings And - Stan Baumwald 2017-10-23

Aviation Insignia of the United States of America is a comprehensive guide to insignia of badges and wings of aircrews of the American aviation. The Encyclopedia of North American Indian Wars, 1607-1890 - Spencer Tucker 2011-09-30

This encyclopedia provides a broad, in-depth, and multidisciplinary look at the causes and effects of warfare between whites and Native Americans, encompassing nearly three centuries of history.

The Papers of Will Rogers: The final years, August 1928-August 1935 - Will Rogers 2006-10-31

This fifth and final volume of The Papers of Will Rogers traces the career of Oklahoma's beloved entertainer during his most popular years and extends beyond his death in 1935. By 1928, the Oklahoma humorist and commentator had reached national prominence through his newspaper columns, silent films, sound recordings, books, philanthropic endeavors, and lecture tours. His fame, fortune, and influence, however, had yet to crest. This volume showcases a wide variety of documents, including correspondence with some of the most significant figures of the day, revealing Rogers's rise to fame as the nation's leading social and political commentator and as a hugely popular star of radio, stage, and film. Rogers's multifaceted career ended abruptly when he and the famous aviator Wylie Post died in an airplane crash in northernmost Alaska. This documentary history of his final years includes transcripts of radio broadcasts, contracts, and business documents, as well as nearly two hundred telegrams and letters to family, friends, and notable public figures--the majority of which have never before been published. It also covers the aftermath of his fatal airplane accident: the certificate of death, a first-person account of his funeral, settlement of his estate, efforts to pay tribute to his memory, and unauthorized attempts to capitalize on his fame.

An Illustrated Encyclopedia of the Uniforms of the Roman World - Kevin F. Kiley 2012

This book details the uniforms of the Roman army and its enemies, from the first decades of tribal warfare in Italy, through the republican and imperial periods, up to the end of the eastern Roman Empire.

Aviation Insignia of the United States of America - Stan Baumwald 2015-04-22

Aviation Insignia of the United States of America is a comprehensive guide to insignia of badges and wings of aircrews of the American aviation. The guide has wings from over 1000 airlines, fixed operators, and other agencies. Over 3700 wings in color are shown representing almost every airline in the US. A brief overview of various government agencies and US Military wings is also provided. Badges for aviation started in 1913 when the US Army issued the first badge to it pilots. Only about 3 dozen were made as they believed that would be enough forever. WWI found nations committing large air armies and the pilots coming home continued to fly and soon airlines came into being. The fledglings got a big push by from the Post Office to provide faster mail delivery and the US Air Mail wing

was that worn by many commercial pilots. Airlines have come and gone, merged and thousands of flights happen every day. All the pilots and crews proudly wear their wings, so it fitting to provide a reference of most of them. Making this the most complete book ever issued on this type of insignia and the only reference of it kind for the collector or those interested in aviation.

American Military History, Volume II - 2010

From the Publisher: This latest edition of an official U.S. Government military history classic provides an authoritative historical survey of the organization and accomplishments of the United States Army. This scholarly yet readable book is designed to inculcate an awareness of our nation's military past and to demonstrate that the study of military history is an essential ingredient in leadership development. It is also an essential addition to any personal military history library.

Philippine-American Military History, 1902-1942 -

Richard B. Meixsel 2002-12-16

Military obligations rested lightly upon the Filipino people for much of the period that America occupied the Philippines, but Filipinos could enlist in the United States Army and Navy, attend the service academies at West Point and Annapolis, or join military organizations restricted to duty in the islands such as the Philippine Scouts, Philippine Constabulary, Philippine National Guard, and the navy's insular force. In the 1930s, the Philippine government established its own armed forces. Throughout much of this time, the U.S. army also kept a substantial portion of its troop strength in the Philippines. This annotated bibliography of nearly 700 titles highlights the extent and variety of the Philippine-American military experience from the conquest of the islands by the United States in 1902 to the defeat of Philippine and American forces by the Japanese in 1942. The bibliography includes memoirs and biographies of Filipino and American officers and enlisted men (from MacArthur to Ferdinand Marcos), unit histories, army post and navy base histories, medals and insignia books, and the most extensive list of prisoner-of-war memoirs yet published. Annotations address controversies such as the widely disparate estimates of American deaths on the Bataan Death March and include previously unpublished information, such as casualty figures for American and Philippine forces in 1941-1942.

Military Uniforms Visual Encyclopedia - Sarah Uttridge 2011

"More than 650 colour illustrations"--Cover.

Bibliography of Military History - 1975

Subject Encyclopedias: User guide, review citations - Allan Mirwis 1999

This useful two-volume set will provide buyers of subject encyclopedias with a substantial amount of valuable information they can use in making their purchasing decisions. It will also provide all types of librarians and their patrons with a quick, one-stop method for locating the appropriate subject encyclopedias for their needs and for locating articles in the 100 encyclopedias. Librarians who specialize in bibliographic instruction will also find it to be a useful tool for teaching students how to locate needed information.

U.S. Army Heraldic Crests - Barry Jason Stein 1993

A comprehensive guide to the authorized unit insignia from the American Revolution through the Persian Gulf War.

International Encyclopedia of Military History - James C. Bradford 2004-12

With its impressive breadth of coverage – both geographically and chronologically – the International Encyclopedia of Military History is the most up-to-date

and inclusive A-Z resource on military history. From uniforms and military insignia worn by combatants to the brilliant military leaders and tacticians who commanded them, the campaigns and wars to the weapons and equipment used in them, this international and multi-cultural two-volume set is an accessible resource combining the latest scholarship in the field with a world perspective on military history.

Lewis & Clark, Tailor Made, Trail Worn - Robert John Moore 2003

When the Lewis and Clark Expedition crossed a continent in 1803 to 1806, they started out in U.S. Army uniforms, which gradually had to be replaced with simple leather garments. For parts of those uniforms, only a single drawing, pattern, or example survives. Historian Moore and artist Haynes have researched archives and museums to locate and verify what the men wore, and Haynes has painted and sketched the clothing in scenes of the trip. Also included are Indian styles the men adopted, and the wardrobes of the Creole interpreters and the French boatmen. Weapons and accessories round out this complete record of what the expedition wore or carried--and why. A great reference for artists, living history performers, museums, and military historians.

The Inspectors General of the United States Army, 1777-1903 - David A. Clary 1987

Army History - 2012

An Illustrated Encyclopedia of Uniforms of World War II

- Jonathan North 2015-07

This is an expert guide to the uniforms of Britain, America, Germany, USSR and Japan, together with other Axis and Allied forces. It is an incredible directory of the military personnel of the period, with 600 images, including photographs and illustrations of uniforms, kit, weaponry and equipment. It analyses the context of the conflict, and the ideology and politics that motivated the various national forces, as well as the experience of the soldiers who fought on the front lines. World War II was a huge conflict, fought on different fronts, covering diverse terrain and involving the fighting men of dozens of nations. At the outbreak of war in 1945 military uniforms had changed little from those worn by the soldiers of World War I, but as the conflict progressed changes were made to adapt to fighting and living conditions. This book covers in detail what the soldiers who fought in the war wore, from British infantrymen in Normandy to Japanese troops in Burma, and from Finnish ski divisions to female Chinese partisans. Lavishly illustrated, with intricate insignia detail, this book offers a definitive visual study of a pivotal period of history.

United States Army Order of Battle 1919-1941. Volume I. the Arms: Major Commands, and Infantry Organizations - Steven E. Clay 2011-08

Philippine-American Military History, 1902-1942 -

Richard B. Meixsel 2002-12-16

Military obligations rested lightly upon the Filipino people for much of the period that America occupied the Philippines, but Filipinos could enlist in the United States Army and Navy, attend the service academies at West Point and Annapolis, or join military organizations restricted to duty in the islands such as the Philippine Scouts, Philippine Constabulary, Philippine National Guard, and the navy's insular force. In the 1930s, the Philippine government established its own armed forces. Throughout much of this time, the U.S. army also kept a substantial portion of its troop strength in the Philippines. This annotated bibliography of nearly 700 titles highlights the extent and variety of the Philippine-American military experience from the conquest of the islands by the United States in 1902 to the defeat of Philippine and American forces by the

Japanese in 1942. Annotations address controversies such as the widely disparate estimates of American deaths on the Bataan Death March and include previously unpublished information, such as casualty figures for American and Philippine forces in 1941–1942.

United States Army Cap Insignia 1902-1975 - Michael F. Tucker 2021-03-10

United States Army Cap Insignia 1902-1975 By: Michael F. Tucker America was entering a new century. Fresh from defeating Spain in the Spanish-American War, the young country was assuming its new position in the old world order. Filled with confidence and economic strength, the United States looked towards the future with the many opportunities and changes presented to it and its people. These changes also applied to the United States Army and its uniforms, in particular, the uniform cap and its insignia. Presented here are those changes in US Army cap insignia during the twentieth century. Shown in photographs and words drawn from US Government and US Army archives, with dimensions and close-up images of insignia, a thorough history can now be revealed!

The Encyclopedia of the Wars of the Early American Republic, 1783–1812: A Political, Social, and Military History [3 volumes] - Spencer C. Tucker 2014-06-11

Relatively little attention has been paid to American military history between 1783 and 1812—arguably the most formative years of the United States. This encyclopedia fills the void in existing literature and provides greater understanding of how the nation evolved during this era. • Offers comprehensive, accessible, in-depth

information and analyses in a format that lends itself to quick and easy use for readers from the high school level to senior scholars researching the field •

Provides in-depth coverage of the Tripolitan War, key weapons, major battles, and Native Americans and Native American tribes

United States Army Order of Battle 1919-1941. Volume II. the Arms: Cavalry, Field Artillery, and Coast Artillery - Steven E. Clay 2011-08

Marksmanship in the U.S. Army - William K. Emerson 2004

Featuring hundreds of black-and-white illustrations of marksmanship medals, prizes, and badges, plus a special full-color section, this encyclopedia of U.S. Army shooting awards and training program rewards is a must-have for military historians and collectors. In *Marksmanship in the U.S. Army*, William K. Emerson details weapons training from the 1850s to the present, gathering this information for the first time in a single volume. Emerson highlights the philosophies behind army marksmanship and documents the awards, prizes, and badges bestowed upon the War Department's most elite shooters, artillerymen, and swordsmen. Proficiency training discussed in this book includes the use of sabers, cannons, sea mines, bayonets, tank weapons, aerial gunnery, bombs, and other weapons. Emerson integrates discussion of the criteria, people, and rationale behind each award into this historical account. Emerson's emphasis on national rifle and pistol matches, the history of selected army and NRA trophies, and significant players in the army's weapons training development enhances the comprehensive appeal of the latest contribution to military history by this experienced author.

GRADE INSIGNIA OF THE UNITED STATES AUXILIARY SERVICES -
