The Comprehension Toolkit - Stephanie Harvey 2005
Grades 3-6 "Active literacy is the

means to deeper understanding and diverse, flexible thinking, and is the hallmark of our approach to teaching and learning. Reading, writing, talking, listening, and

investigating are the cornerstones of active literacy. The Toolkit captures the language of thinking we use to explicitly teach kids to comprehend the wide variety of informational text they encounter. Through the Toolkit lessons, we demonstrate how the kids adopt and adapt our teaching language as their learning language." - Stephanie Harvey and Anne Goudvis

In The Comprehension Toolkit, Stephanie Harvey and Anne Goudvis have created an intensive curricular resource designed to help students understand, respond to, and learn from nonfiction text. By actively engaging students in reading, talking, and writing about information and ideas, The Comprehension Toolkit provides a foundation for developing independent readers and learners across the curriculum and throughout the school year. Framed around the Gradual Release of Responsibility approach, The Comprehension Toolkit provides

scaffolded comprehension strategy instruction. First through modeling and guided practice, then releasing responsibility to students through collaborative practice, independent practice, and application, the Toolkit's lessons teach students to use comprehension strategies flexibly in a variety of texts, topics, and subject areas. Professional Support A series of resources introduce, support, and extend the Toolkit's core lessons. The Teacher's Guide outlines the thinking behind the Toolkit and describes its components, instructional design, and assessment options. The Resources for The Comprehension Toolkit CD-ROM provides an array of print and video resources including a photographic overview of an Active Literacy Classroom, downloadable research articles, templates, assessment masters, and full-colour lesson text. Extend and Investigate helps you extend the Toolkit's comprehension strategies

across the curriculum and throughout the year. It provides strategies for content area reading and research, textbook reading, test reading, and a variety of practical bibliographies. 6 Strategy Clusters The 26 strategy lessons in The Comprehension Toolkit are organized into six Strategy Cluster books. Informational Text A series of short, engaging, real-world informational texts provide an effective context for using and practising the Toolkit's comprehension strategies. The Source Book of Short Text provides two kinds of nonfiction text: Lesson Text, 24 articles from children's magazines; and Nonfiction Short Text, 43 short informational articles specially written for the Toolkit. Comprehension Toolkits - Stephanie Harvey 2011

"This staff development resource helps coaches and administrators maximize teacher effectiveness through collaborative and collegial staff development." Stephanie Harvey, Anne Goudvis, and Angela Butler Schroden Teachers matter. Effective comprehension instruction is more than a handful of reading strategies. As critical as these strategies are, Stephanie Harvey and Anne Goudvis have long held that it is the teacher who makes the difference. Staff Development with The Comprehension Toolkits builds on this understanding in a unique collaboration with Angela Butler Schroden, the district reading specialist who helped implement The Comprehension Toolkit series across Hillsborough County, Florida, one of the largest school districts in the United States. Designed for literacy coaches, reading specialists, and administrators, this multimedia

resource offers an insider's view of how Angela and others in her district supported teachers as they launched comprehension instruction and sustained active literacy practices. Framed around five coaching structures—workshops, study groups, demonstration teaching, co-teaching, and one-to-one coaching—each of the seven core chapters describes how to plan staff development around the foundational ideas and practices that shape Toolkit instruction. The accompanying CD-ROM provides all the tools you'll need to implement effective coaching sessions, including three customizable PowerPoint presentations. While providing a collaborative forum to explore the "whats and whys" of The Comprehension Toolkit, the professional development practices in this resource serve as analytical tools and frameworks for enhancing teaching craft. Teaching Children's Literature -

Christine H. Leland 2017-11-03

Inviting multiple ways of critically engaging with literature, this text offers a fresh perspective on how to integrate children's literature into and across the curriculum in effective, purposeful ways.

Structured around three "mantras" that build on each other—Enjoy; Dig deeply; Take action—the book is rich with real examples of teachers implementing critical pedagogy. The materials and practical strategies focus on issues that impact

children's lives, building from students' personal experiences and cultural knowledge to using language to question the everyday world, analyze popular culture and media, understand how power relationships are socially constructed, and consider actions that can be taken to promote social justice. Written for teachers and teacher educators, each chapter opens with three elements that are closely linked: classroom vignettes showcasing the use of literature and inviting conversation; three key principles elaborating the main theme of the chapter and connecting theory with practice; and related research on the topics and their importance for curriculum. Other chapter features include key issues in implementation, suggestions for working with linguistically and culturally diverse students, alternative approaches to assessment, and suggestions for further reading. A companion website to enrich and

extend the text includes an annotated bibliography of literature selections, suggested text sets, resources by chapter, and ideas for professional development. Changes in the Second Edition: Voices from the Field vignettes include examples from inspiring educators who use trade books to promote critical thinking and diversity Updated chapters include information on new technology and electronic resources New references in the principles sections and new resources for further study New children's books added throughout the chapters as well as to the companion website
