## **Business, Entrepreneurship and Innovation Toward Poverty Reduction** - Steven Si

2021-07-27

Ways in which poverty can be reduced in both countries and regions through business, entrepreneurship and government has been a hot issue for researchers and policymakers in recent years. Governments can play an important role in helping the poor people by non-profit organizations and others that help to seed business among the poor. Businesses increasingly also see the large number of people in severe poverty not only as an issue for social concern, but also as a potentially large untapped market of consumers for goods and services. Some scholars have called for poverty reduction through entrepreneurship owing to the fact that it can be an efficient path to also change the poor's attitudes and behaviours from a passive mode, to a more active mode towards poverty reduction economically and socially. In addition, the sharing economy brings opportunities where

everyone is a micro-entrepreneur. There is a recognition that these types of entrepreneurship above could offer the greatest single potential means to move individuals out of poverty in the nations and regions in the next 5-10 years. This book provides new and valuable analyses of poverty and business, entrepreneurship and innovation in current nations and regions including developing and developed countries. As business, entrepreneurship and innovation can help to generate greater business activity in settings of severe poverty, they will help to solve poverty, as individuals in severe poverty are able to both generate greater incomes and accumulate greater assets as they participate with large firms in those activities. The chapters in this book were originally published as a special issue of the Entrepreneurship & Regional Development.

**Adaptive Innovation: An Entrepreneur's Guide To Technology Innovation** - Charles

Cooney 2022-11-02

This book provides a framework for translating ideas from the academic laboratory to commercial ventures. The book is designed for academic researchers (advanced PhD students, post-doctoral fellows, university faculty and staff) who believe their research ideas could be the basis for a commercial venture. The book contains a complete program to create their entrepreneurial ecosystem by enabling scientist entrepreneurs to drive their discoveries to commercial impact. The authors from MIT and SMART have been working with academic researchers in Singapore for over ten years to help them de-risk an idea for an early-stage technology-based venture to prepare them to raise capital and initiate a NewCo. We developed a set of best practices during this work by teaching over 300 scientists, researchers, and postdocs in our Bootcamp for academic researchers and providing them with the tools to be scientist entrepreneurs. These teams have

gone on to start over 44 companies. Through our real-time experience in working with academic researchers, supplemented with our personal experience in technology start-ups, we developed the Adaptive Innovation™ Framework. It is a must-read for any researcher, scientist, or engineer in the deep-tech area who wants to drive their discovery to commercial success and achieve societal impact.

Design-Centered Entrepreneurship - Min Basadur 2016-06-17

Supported by extensive research and field-testing, Design-Centered Entrepreneurship presents a concise, problem-solving approach to developing a unique business concept. **The Alliance** - Reid Hoffman 2014-07-08

The New York Times Bestselling guide for managers and executives. Introducing the new, realistic loyalty pact between employer and employee. The employer-employee relationship is broken, and managers face a seemingly impossible dilemma: the old model of guaranteed long-term employment no longer works in a business environment defined by continuous change, but neither does a system in which every employee acts like a free agent. The solution? Stop thinking of employees as either family or as free agents. Think of them instead as allies. As a manager you want your employees

to help transform the company for the future. And your employees want the company to help transform their careers for the long term. But this win-win scenario will happen only if both sides trust each other enough to commit to mutual investment and mutual benefit. Sadly, trust in the business world is hovering at an all-time low. We can rebuild that lost trust with straight talk that recognizes the realities of the modern economy. So, paradoxically, the alliance begins with managers acknowledging that great employees might leave the company, and with employees being honest about their own career aspirations. By putting this new alliance at the heart of your talent management strategy, you'll not only bring back trust, you'll be able to recruit and retain the entrepreneurial individuals you need to adapt to a fast-changing world. These individuals, flexible, creative, and with a bias toward action, thrive when they're on a specific "tour of duty"—when they have a mission that's mutually beneficial to employee

and company that can be completed in a realistic period of time. Coauthored by the founder of LinkedIn, this bold but practical guide for managers and executives will give you the tools you need to recruit, manage, and retain the kind of employees who will make your company thrive in today's world of constant innovation and fast-paced change.

**From Industrial Organization to Entrepreneurship** - Erik E. Lehmann  
2019-10-04

This book celebrates the contributions of David B. Audretsch, Distinguished Professor at the School of Public and Environment Affairs (SPEA) at Indiana University (USA), co-founder and co-editor of *Small Business Economics*, and former Director of the Entrepreneurship, Growth and Public Policy Group at the erstwhile Max Planck Institute of Economics (Jena, Germany). For his pioneering work, which explores the links between entrepreneurship, government policy, innovation, economic development, and global

competitiveness, he has received the 2001 Global Award for Entrepreneurship Research from the Swedish Foundation for Small Business Research and the 2011 Schumpeter Prize from the University of Wuppertal (Germany). This volume features original contributions from over 50 leading scholars to map, analyze and evaluate the impact of Audretsch's research on a broad spectrum of research fields, ranging from economics to entrepreneurship and geography. The development and evolution of key ideas which have significantly shaped theory and future research across these fields are also explored.

*In Search of Business Models in Social Entrepreneurship* - Samapti Guha 2021-05-28

This book discusses different innovative business models adopted by social enterprises to bring about social change in terms of creating capabilities among the marginalised section of people. These models also bring the sustainability of the enterprises to serve the

people continuously. Establishing a theoretical base for further research in the area of business models in social entrepreneurship, the book consists of research work from various disciplines from scholars with experience and insights on social entrepreneurship, and who discuss one or more aspect(s) of business model, presenting their work with sound research methodologies. The book takes a broader view of the concept - a) social entrepreneurs are driven by social value and justice, b) social entrepreneur may or may not have a market orientation, c) social entrepreneurs solve variety of social problems such as poverty, health, illiteracy, environmental degradation using the principles of business and with the help of social innovation, and d) social enterprise focus on bringing social change by creating social impact. Chapters of this book are divided into three core themes. The first one - Concepts, Patterns and Values - includes contributions related to sustainable development, business model and

vale creation in the context of social entrepreneurship, innovation and cross-cultural influence on business models aspects. The chapter of second theme - Enablers and Influencers - discuss role of corporate in promoting social entrepreneurship as a social responsibility, social entrepreneurship and value creation, BoP market, supply chain, structural and infrastructural choices, family as a stakeholder of indigenous enterprise, and women entrepreneurship. The third and final theme - Innovation - addresses social, open innovation and business model innovations, IPR, firm performance, collaboration and alliance, software and biotechnology industries, decision logic behind social enterprise creation, and strategy and strategic philanthropy concepts. Containing contributions from academia, industry professionals, investors, policy-makers, and other professionals, all from multiple disciplines, the book would interest the same vast audience.

*Brazilian Entrepreneurship* - João Leitão

2022-08-26

Brazil is a large country in terms of geographic land mass and population size. It's position in Latin America means that it contributes to much of the economic development within this area. Despite the importance of Brazil in the global economy, not much research has been highlighted about entrepreneurship in the country. This book aims to change this by focusing on Brazil in terms of entrepreneurial endeavours and pursuits. This includes focusing on the rural and urban areas in terms of entrepreneurial practices. Each chapter in the book will focus on a different aspect of entrepreneurship in Brazil including how culture, ethnicity and wealth influence entrepreneurship. Thereby taking a holistic perspective in terms of including both financial and non-financial forms of entrepreneurship. Interesting topics such as sustainable and environmental forms of entrepreneurship will be

examined from a Brazilian perspective together with technological forms of entrepreneurship evident in the growth of smart cities within the region. This book will be amongst the first to holistically examine the contemporary hardships and successes of entrepreneurship in Brazil.

With insights from academic administrators and experts from around the world, this book is poised to be the official 'how to guide' for success in the management of educational institutions. Volume 2 focuses on the organizing and controlling management functions of universities.

Portfolio Entrepreneurship in Slovakia - Empirical Analysis of Small and Medium Sized Enterprises - Branislav Zurik 2014-04-24

Business in the beginning of the 21-st century faces very turbulent times as the developments on the debt-crises have threatened the European market. These turbulent times are characterized by doubts on financial markets, the rising of state taxes and inflation, which turns also in difficulties for small and medium sized enterprises. Especially the group of small and medium sized enterprises, which cannot benefit from economies of scale and scope and other

advantages, are threatened the most. It requires special alertness in spotting ideas and to combine resources to overcome this entrepreneurial disaster crossing Europe. Especially for small export-oriented countries like Slovakia, which depends on foreign trade, must handle this situations very patient and carefully in order to protect their own small and medium sized enterprises and thus its employment rate. [...] Accordingly this thesis represents a complex view about portfolio entrepreneurs with special focus on a region of the Slovak Republic, which is the country of analysis. It delivers new insights about the personality and abilities, capabilities, skills and traits of portfolio entrepreneurs. Thus delivers a special significance for the development of portfolio entrepreneurship, which is derived from the entrepreneurship research. Furthermore this diploma thesis represents a kind of forerunner in this research area for the Slovak Republic as no comparable research done

on this theme could be researched during the conducting of the analysis. The reader will have the chance to find out valuable information about the state of the art literature contributed by other authors in the theoretical part of this thesis. This literature research has been developed from English speaking literature and is notified at the end of the diploma thesis, what makes it affordable for subsequent studies.

Subsequently, the results of this study, which has been built on the grounds of extensive literature review, will be presented

**Digital Goddess** - Victoria R. Montgomery Brown 2020-10-06

With women leading only twenty-four Fortune 500 companies, female founders receiving only 2.2 percent of US venture capital, and the continued presence of sexual harassment and double standards, the gender gap continues to hinder the advancement of women in the professional world. In Digital Goddess, Montgomery-Brown—founder of Big Think, a collection of experts across all fields and disciplines that are either at the top of their field or disrupting it, shares her story in an entertaining and educational light. Told from the unique, female entrepreneurial perspective that unpacks all the hurdles other female founders may face in their own journey to the top, Montgomery-Brown shares the real-world

lessons she's learned along the way, such as: Never lie to your investors, even when you just got arrested. Raising money is a poker game—learn how to play. The power and money still lie with men. Pretending it's not that way, or being angry about it, won't lead to success. Your relationship with your co-founder is like a second marriage, so forget about keeping the personal out of the workplace. The more authentic you are, and the more fun you have, the better your experience will be. This book is about dealing with the way things are, even when you don't like it, and being yourself, even when it seems like a drawback. It's about sucking it up, making the hard choices, and dealing with the consequences. It's about being honest no matter what is going down. Victoria's been called "the anti-Elizabeth Holmes," for a good reason—unlike the ill-fated Theranos CEO, she's transparent with her investors even when she fears they will walk away. Digital Goddess is a story for entrepreneurial women at any stage

of life who want to know what it actually takes to build a business in a world that's not always fair, predictable, or politically correct

All In Startup - Diana Kander 2014-06-30

If Owen Chase can't find a way to turn his company around in the next nine days, he'll be forced to shut it down and lay off all of his employees. He has incurred substantial debt and his marriage is on shaky ground. Through pure happenstance, Owen finds himself pondering this problem while advancing steadily as a contestant at the World Series of Poker. His Las

Vegas path quickly introduces him to Samantha, a beautiful and mysterious mentor with a revolutionary approach to entrepreneurship. Sam is a fountain of knowledge that may save his company, but her sexual advances might prove too much for Owen's struggling marriage. All In Startup is more than just a novel about eschewing temptation and fighting to save a company. It is a lifeline for entrepreneurs who are thinking about launching a new idea or for those who have already started but can't seem to generate the traction they were expecting. Entrepreneurs who achieve success in the new economy do so using a new "scientific method" of innovation. All In Startup demonstrates why four counterintuitive principles separate successful entrepreneurs from the wanna-preneurs who bounce from idea to idea, unable to generate real revenue. You will likely get only one opportunity in your life to go "all in" on an idea: to quit your job, talk your spouse into letting you drain the savings

account, and follow your dream. All InStartup will prepare you for that "all in" moment and makesure that you push your chips into the middle only when the oddsare in your favor. This book holds the keys to significantlyde-risking your idea so that your success appears almostlucky. Join Owen and Sam for this one-of-a-kind journey that will set youon the right path for when it's your turn to put everything on theline.

**Immigrant Entrepreneurship** - Beata Glinka  
2020-06-07

Immigration is currently one of the most vivid challenges the European Union faces. Ways of introducing new migrants to society and economy pose significant challenges, thus some guidelines for the policy design towards migrations are in need. This book points out patterns of approaches leading to entrepreneurial activities, implemented by the immigrants from the Far East: China, Vietnam, South Korea, India, and Philippines. At these stage comparisons with other countries are both possible and necessary, as many countries all over the world face challenges connected with defining migration policies. From the studies included in the book, readers will gain first-hand knowledge about immigrant entrepreneurship in Poland against the Western European or USA background of similar processes described by researchers in other countries. The areas covered in the studies include the main reasons

for starting new ventures and the sources of opportunities, processes of defining customers and factors influencing the choice between an ethnic and local business, immigrants' approaches to building market position, defining success and development, as well as the issues of cultural, institutional, legal and economic differences. The studies show that significant differences in entrepreneurial activities appear between the first and second generations of immigrants. They also depict how entrepreneurial activities help in assimilation processes, as well as in building ties between the immigrants and host societies. Moreover, the study will deepen the understanding of entrepreneurial activities of immigrants in countries that are traditionally considered to be less attractive targets for migration. Thus, the processes of migration will be not only better understood and described but will also allow to provide some guidelines both for policymakers and future researchers

**Entrepreneur's Field Guide, The: The 3 Day Startup Method** - Andrew Zimbroff 2021-09-27

This book introduces the skills and mindset that are introduced during 3 Day Startup educational programs. It covers a wide range of topics encountered by early-stage entrepreneurs, including customer validation, iterative product development, developing preliminary business frameworks, start-up communications and networking, and balancing starting a business with other commitments. The content is actionable, concise, and easy to understand, focusing on pragmatic, applicable skills over dense academic theory and case studies. The information in this volume is easily accessible by entrepreneurs from all walks of life. 3 Day Startup is an international non-profit organization that delivers entrepreneurship education in diverse settings around the world. It was founded in 2008 by graduate students at the University of Texas at Austin that wanted better resources for entrepreneurship education

than was available at the time. To do this, it pioneered an intensive, extracurricular experiential curriculum that could be applied in highly diverse educational settings. Since its beginnings as a small group of graduate students at UT Austin, it has exploded into the global non-profit it is today. To date, 3 Day Startup has delivered almost 500 educational programs at over 175 different educational institutions in 35 countries worldwide.

*Refugee Entrepreneurship* - Sibylle Heilbrunn 2018-09-12

Through a global series of case studies, this pioneering book delves into refugee entrepreneurship - a major economic, political and social issue emerging as a top priority. Stories from Australia, Germany, Pakistan and many other countries, highlight the obstacles facing refugees as they try to integrate and set up businesses in their new countries. Engaging contributions set the stage for a cross-analysis of the particularities and limitations faced by

refugee entrepreneurs, culminating in an extended discussion about the future implications of refugee entrepreneurship for theory, policy and practice. This interdisciplinary book explores the motivations and drivers of

refugee entrepreneurship, making it an insightful read not only for those engaged in entrepreneurship, but also for those interested in migration studies from a variety of academic disciplines.
