Killing Marketing: How Innovative Businesses Are Turning Marketing Cost Into Profit - Joe Pulizzi 2017-09-08

Killing your current marketing structure may be the only way to save it! Two of the world’s top marketing experts reveal the next level of breakthrough success—transforming your marketing strategy into a standalone profit center. What if everything we currently know about marketing is what is holding us back? Over the last two decades, we’ve watched the entire world change the way it buys and stays loyal to brands. But, marketing departments are

still operating in the same, campaign-centric, product-led operation that they have been following for 75 years. The most innovative companies around the world have achieved remarkable marketing results by fundamentally changing their approach. By creating value for customers through the use of owned media and the savvy use of content, these businesses have dramatically increased customer loyalty and revenue. Some of them have even taken it to the next step and developed a marketing function that actually pays for itself. Killing Marketing explores how these companies are ending the marketing as we know it—in favor of this new, exciting model. Killing Marketing provides the insight, approaches, and examples you need to understand these disruptive forces in ways that turn your marketing from cost center to revenue creator. This book builds the case for, literally,

transforming the purpose of marketing within your organization. Joe Pulizzi and Robert Rose of the Content Marketing Institute show how leading companies are able sell the very content that propels their marketing strategy. You'll learn how to: * Transform all or part of your marketing operation into a media company * Integrate this new operation into traditional marketing efforts * Develop best practices for attracting and retaining audiences * Build a strategy for competing against traditional media companies * Create a paid/earned media strategy fueled by an owned media strategy Red Bull, Johnson & Johnson, Disney and Arrow Electronics have succeeded in what ten years ago would have been deemed impossible. They continue to market their products as they always have, and, through their content-driven and audience-building initiatives, they drive

value outside the day-to-day products they sell—and monetize it directly. Killing Marketing rewrites the rules of marketing—enabling you to make the kind of transition that turns average companies into industry legends.

The Content Formula - Liz Bedor 2015-11-26

The Content Formula answers the biggest question currently on marketer's minds: what is the ROI of content marketing? Talk Triggers - Jay Baer 2018-10-02

Talk Triggers is the definitive, practical guide on how to use bold operational differentiators to create customer conversations,

written by best-selling authors and marketing experts Jay Baer and Daniel Lemin. Word of mouth is directly responsible for 19% of all purchases, and influences as much as 90%. Every human on earth relies on word of mouth to make buying decisions. Yet even today, fewer than 1% of companies have an actual strategy for generating these crucial customer conversations. Talk Triggers provides that strategy in a compelling, relevant, timely book that can be put into practice immediately, by any business. The key to activating customer chatter is the realization that same is lame. Nobody says "let me tell you about this perfectly adequate experience I had last night." The strategic, operational differentiator is what gives customers something to tell a story about. Companies (including the 30+ profiled in Talk Triggers) must dare to be different and exceed expectations

in one or more palpable ways. That's when word of mouth becomes involuntary: the customers of these businesses simply **MUST** tell someone else. Talk Triggers contains: • Proprietary research into why and how customers talk • More than 30 detailed case studies of extraordinary results from Doubletree Hotels by Hilton and their warm cookie upon arrival, The Cheesecake Factory and their giant menu, Five Guys Burgers and their extra fries in the bag, Penn & Teller and their nightly meet and greet sessions, and a host of delightful small businesses • The 4-5-6 learning system (the 4 requirements for a differentiator to be a talk trigger; the 5 types of talk triggers; and the 6-step process for creating talk triggers) • Surprises in the text that are (of course) word of mouth propellants Consumers are wired to discuss what is different, and ignore what is average. Talk Triggers not only dares the

reader to differentiate, it includes the precise formula for doing it. Combining compelling stories, inspirational examples, and practical how-to, *Talk Triggers* is the first indispensable book about word of mouth. It's a book that will create conversation about the power of conversation.

[Content Inc.: How Entrepreneurs Use Content to Build Massive Audiences and Create Radically Successful Businesses](#) - Joe Pulizzi 2015-09-04

The NEW Rulebook for Entrepreneurial Success What's the surest way to startup failure? Follow old, outdated rules. In Content Inc., one of today's most sought-after content-marketing strategists reveals a new model for entrepreneurial success.

Simply put, it's about developing valuable content, building an audience around that content, and then creating a product for that audience. Notice a shift? Author Joe Pulizzi flips the traditional

entrepreneurial approach of first creating a product and then trying to find customers. It's a brilliant reverse-engineering of a model that rarely succeeds. The radical six-step business-building process revealed in this book is smart, simple, practical, and cost-effective. And best of all, it works. It's a strategy Pulizzi used to build his own successful company, Content Marketing Institute, which has landed on Inc. magazine's list of fastest growing private companies for three years straight. It's also a strategy countless other entrepreneurs use to build their own multi-million dollar companies. Build an audience and you'll be able to sell pretty much anything you want. Today's markets are more dynamic and customers are more fickle than ever before. Why would you put all your eggs in one basket before securing a loyal customer base? Content Inc. shows you how to get customers first and develop

products later. It's the best way to build a solid, long-lasting business positioned for today's content-driven world. This is the simple but profoundly successful entrepreneurial approach of one of today's most creative business minds. A pioneer of content marketing, Pulizzi has cracked the code when it comes to the power of content in a world where marketers still hold fast to traditional models that no longer work. In *Content Inc.*, he breaks down the business-startup process into six steps, making it simple for you to visualize, launch, and monetize your own business. These steps are:

- **The "Sweet Spot":** Identify the intersection of your unique competency and your personal passion
- **Content Tilting:** Determine how you can "tilt" your sweet spot to find a place where little or no competition exists
- **Building the Base:** Establish your number-one channel for disseminating content (blog, podcast, YouTube, etc.)

- **Harvesting Audience:** Use social-media and SEO to convert one-time visitors into long-term subscribers
- **Diversification:** Grow your business by expanding into multiple delivery channels
- **Monetization:** Now that your expertise is established, you can begin charging money for your products or services

This model has worked wonders for Pulizzi and countless other examples detailed in the book. Connect these six pieces like a puzzle, and before you know it, you'll be running your own profitable, scalable business. Pulizzi walks you step by step through the process, based on his own success (and failures) and real-world multi-million dollar examples from multiple industries and countries. Whether you're seeking to start a brand-new business or drive innovation in an existing one, *Content Inc.* provides everything you need to reverse-engineer the traditional entrepreneurial

model for better, more sustainable success. Joe Pulizzi is an entrepreneur, professional speaker, and podcaster. He is the founder of several startups, including the Content Marketing Institute (CMI), recognized as the fastest growing business media company by Inc. magazine in 2014. CMI produces Content Marketing World, the world's largest content marketing event, and publishes the leading content marketing magazine, Chief Content Officer. Pulizzi's book *Epic Content Marketing* was named one of Fortune magazine's Five Must Read Business Books of the Year.

Losing the Signal - Jacquie McNish 2015-05-26

In 2009, BlackBerry controlled half of the smartphone market. Today that number is one percent. What went so wrong? *Losing the Signal* is a riveting story of a company that toppled global giants before succumbing to the ruthlessly competitive

forces of Silicon Valley. This is not a conventional tale of modern business failure by fraud and greed. The rise and fall of BlackBerry reveals the dangerous speed at which innovators race along the information superhighway. With unprecedented access to key players, senior executives, directors and competitors, *Losing the Signal* unveils the remarkable rise of a company that started above a bagel store in Ontario. At the heart of the story is an unlikely partnership between a visionary engineer, Mike Lazaridis, and an abrasive Harvard Business school grad, Jim Balsillie. Together, they engineered a pioneering pocket email device that became the tool of choice for presidents and CEOs. The partnership enjoyed only a brief moment on top of the world, however. At the very moment BlackBerry was ranked the world's fastest growing company internal feuds and

chaotic growth crippled the company as it faced its gravest test: Apple and Google's entry in to mobile phones. Expertly told by acclaimed journalists, Jacquie McNish and Sean Silcoff, this is an entertaining, whirlwind narrative that goes behind the scenes to reveal one of the most compelling business stories of the new century.

Managing Content Marketing: The Real-World Guide for Creating Passionate Subscribers to

Your Brand - Robert Rose

2011-08-01

Perhaps no function in the business organization has been as

fundamentally revolutionized as marketing. The social and mobile Web has completely changed the speed, efficiency, and ease with which consumers can engage with each other and has had a tremendous impact on brands. This new engagement of the consumer with keen awareness of their relationships and emerging social networks now correlates to every single aspect of our business. So, yes, marketing has changed. The question is what are we going to do about it?Content and Subscription: The New Marketing OpportunityAs growth of the social and mobile Web changes the methods of communication, the old lines of hierarchical relationships between business and consumer blur substantially. As consumers publish and share their opinions (both good and bad) with increasing ease, they can become more persuasive than even the company's voice itself. Every one

of these groups becomes a powerful ally or enemy depending on what we do. All of them will be constantly in flux developing levels of trust and requiring varying levels of transparency to filter content and determine buying decisions. They will expand and collapse with great velocity, and it will all happen with or without our participation. Content marketing has been around for hundreds of years. But the application of a specific strategic process around content marketing is still new. The amount of budget that is allotted for new content creation is going to become a significant part of your "new media" budget. And subject matter experts in the organization are going to have new responsibilities. It's a transformative new process and it won't happen overnight. But it can, and should, happen. Get Content Get Customers showed us the light but there's been no book to show us the way. There

is an ancient Chinese proverb that says a "crisis" is simply an "opportunity riding the dangerous wind." As marketers we now have the opportunity to develop new processes with our marketing strategy, power them with content, and ultimately keep that wind at our back. Successful programs will focus on creating a thoughtful strategy and process to foster this content marketing. This book is a detailed "how-to" to build that successful content marketing process.

Content - The Atomic Particle of Marketing - Rebecca Lieb

2017-06-03

Content, in all its forms, is the single most critical element of any marketing campaign. Finding a successful equilibrium between content marketing and content strategy is difficult, but essential. Written by a recognised industry thought-leader, Content - The Atomic Particle of Marketing explores how content functions in the broader framework of all marketing, as well as organizational concerns and IT decision making. It demonstrates the value content brings not only to "owned" media initiatives, such as a company website or blog, but also the essential role content plays in all other marketing initiatives, from social media to advertising to offline channels. It will enable readers to make the organizational, staffing, tools and process decisions necessary to get content up and running across divisions and organizational silos. Deeply researched and insightful, Content - The Atomic Particle of

Marketing is, quite simply, the definitive research-based guide to content marketing.

Brand, Meet Story - Heather Pemberton Levy 2016-10-04

Think of the last great article you read or the last great speech you heard. Chances are, if you remember one key message, you also remember one compelling story. That's because the best content starts with a story. When it comes to marketing, the best business content starts with a story the audience cares about, not the brand's message about what it wants to sell them. In **Brand, Meet Story**, Heather Pemberton Levy describes the Story Comes First method, a practical approach that combines techniques from journalism and fiction writing to help brands tell stories that put the readers' interests first. Whereas most brand marketers create content to sell their product, service or technology, the Story Comes First method turns this approach on its head to create content with

the "human moments" that truly engage an audience. Filled with examples from Levy's experience creating content marketing programs, trade books, and hundreds of articles for a variety of B2B and B2C brands, the book shows readers a step-by-step approach to create content designed to deliver business results. Brand, Meet Story explains the key ways to uncover what your audience cares about and how to turn brand messaging into stories that matter. Levy inspires readers to develop a compelling voice that will carry the brand tone and values across all channels, and helps them turn their ideas into engaging, story-driven content their audiences will read, love, and share.

Instead, it's for everyone in the organization who needs better context and direction for how to drive demand, revenue, and

relationships with content. Truly effective companies (and marketers) create content experiences, drawing the customer into an immersive infinite scroll that mirrors the consumer experience of Netflix, Spotify, and other billion-dollar brands. Randy Frisch will push you to rethink how you approach content for complex buyer journeys. The current mindset is all about volume-the more content created, the better. But the reality is that almost 70 percent of content created within an organization is never used, and there's little point investing in content marketing if you're not leveraging the assets you create. In this book, Frisch unpacks the Content Experience Framework, arming your organization to deliver personalized experiences that leverage your content to engage your audiences at scale-as well as identify and ramp up the key players in your organization who

need to own this process.

The Road to Recognition - Seth Price 2017

But now there's a remarkably useful roadmap featuring: An A to Z guide packed with actionable advice for developing your personal brand and accelerating your professional success. 26 practical lessons to help you whether you're an entrepreneur, business leader, aspiring professional, creative, marketer or second careerist Insights from professionals who are reaping the rewards of recognition [Epic Content Marketing: How to Tell a Different Story, Break Through the Clutter, and Win More Customers by Marketing Less](#) - Joe Pulizzi 2013-09-24 He proves it in these pages." (Jay Baer, New York Times

bestselling author of *Youtility: Why Smart Marketing is About Help Not Hype*). "The future of successful brand building, an **Traction** - Gabriel Weinberg 2015-10-06

Most startups don't fail because they can't build a product. Most startups fail because they can't get traction. Startup advice tends to be a lot of platitudes repackaged with new buzzwords, but *Traction* is something else entirely. As Gabriel Weinberg and Justin Mares learned from their own experiences, building a successful company is hard. For every startup that grows to the point where it can go public or be profitably acquired, hundreds of others sputter and die. Smart entrepreneurs know that the key to success isn't the originality of your offering, the brilliance of your team, or how much money you raise. It's how consistently you can grow and acquire new customers (or, for a free service,

users). That's called traction, and it makes everything else easier—fund-raising, hiring, press, partnerships, acquisitions. Talk is cheap, but traction is hard evidence that you're on the right path. *Traction* will teach you the nineteen channels you can use to build a customer base, and how to pick the right ones for your business. It draws on inter-views with more than forty successful founders, including Jimmy Wales (Wikipedia), Alexis Ohanian (reddit), Paul English (Kayak), and Dharmesh Shah (HubSpot). You'll learn, for example, how to:

- Find and use offline ads and other channels your competitors probably aren't using
- Get targeted media coverage that will help you reach more customers
- Boost the effectiveness of your email marketing campaigns by automating staggered sets of prompts and updates
- Improve your search engine rankings and advertising through online tools

and research Weinberg and Mares know that there's no one-size-fits-all solution; every startup faces unique challenges and will benefit from a blend of these nineteen traction channels. They offer a three-step framework (called Bullseye) to figure out which ones will work best for your business. But no matter how you apply them, the lessons and examples in Traction will help you create and sustain the growth your business desperately needs.

Everybody Writes - Ann Handley 2014-09-15

Finally a go-to guide to creating and publishing the kind of content that will make your business thrive. **Everybody Writes** is a go-to guide to attracting and retaining customers through stellar online communication, because in our content-driven world, every one of us is, in fact, a writer. If you have a web site, you are a publisher. If you are on social

media, you are in marketing. And that means that we are all relying on our words to carry our marketing messages. We are all writers. Yeah, but who cares about writing anymore? In a time-challenged world dominated by short and snappy, by click-bait headlines and Twitter streams and Instagram feeds and gifs and video and Snapchat and YOLO and LOL and #tbt. . . does the idea of focusing on writing seem pedantic and ordinary? Actually, writing matters more now, not less. Our online words are our currency; they tell our customers who we are. Our writing can make us look smart or it can make us look stupid. It can make us seem fun, or warm, or competent, or trustworthy. But it can also make us seem humdrum or discombobulated or flat-out boring. That means you've got to choose words well, and write with economy and the style and honest empathy for your

customers. And it means you put a new value on an often-overlooked skill in content marketing: How to write, and how to tell a true story really, really well. That's true whether you're writing a listicle or the words on a Slideshare deck or the words you're reading right here, right now... And so being able to communicate well in writing isn't just nice; it's necessity. And it's also the oft-overlooked cornerstone of nearly all our content marketing. In *Everybody Writes*, top marketing veteran Ann Handley gives expert guidance and insight into the process and strategy of content creation, production and publishing, with actionable how-to advice designed to get results. These lessons and rules apply across all of your online assets — like web pages, home page, landing pages, blogs, email, marketing offers, and on Facebook, Twitter, LinkedIn, and other social media.

Ann deconstructs the strategy and delivers a practical approach to create ridiculously compelling and competent content. It's designed to be the go-to guide for anyone creating or publishing any kind of online content — whether you're a big brand or you're small and solo. Sections include: How to write better. (Or, for "adult-onset writers": How to hate writing less.) Easy grammar and usage rules tailored for business in a fun, memorable way. (Enough to keep you looking sharp, but not too much to overwhelm you.) Giving your audience the gift of your true story, told well. Empathy and humanity and inspiration are key here, so the book covers that, too. Best practices for creating credible, trustworthy content steeped in some time-honored rules of solid journalism. Because publishing content and talking directly to your customers is, at its heart, a privilege. *"Things Marketers Write"*: The

fundamentals of 17 specific kinds of content that marketers are often tasked with crafting.

Content Tools: The sharpest tools you need to get the job done.

Traditional marketing techniques are no longer enough.

Everybody Writes is a field guide for the smartest businesses who know that great content is the key to thriving in this digital world.
