Blueprint 1 - David Pearce 2013-10-31

This report has been prepared by the London Environmental Economics Centre (LEEC). LEEC is a joint venture, established in 1988, by the International Institute for Environment and Development (IIED) and the department of Economics of University College London (UCL). Popularly known as The Pearce Report, this book is a report prepared for the Department of the Environment. It demonstrates the ways in which elements in our environment at present under threat from many forms of pollution can be

costed. The book goes on to show ways in which governments are able, as a consequence of this analysis, to construct systems of taxation which would both reduce pollution by making it too costly and generate revenue for cleaning up much of the damage. The book ends with a series of skeleton programmes for progress.

Modi's India - Christophe Jaffrelot 2021-08-03
A riveting account of how a popularly elected leader has steered the world's largest democracy toward authoritarianism and intolerance Over the past two decades, thanks to Narendra Modi, Hindu nationalism has been coupled with a form of national-populism that has ensured its success at the polls, first in Gujarat and then in India at large. Modi managed to seduce a substantial number of citizens by promising them development and polarizing the electorate along ethno-religious

lines. Both facets of this national-populism found expression in a highly personalized political style as Modi related directly to the voters through all kinds of channels of communication in order to saturate the public space. Drawing on original interviews conducted across India, Christophe Jaffrelot shows how Modi's government has moved India toward a new form of democracy, an ethnic democracy that equates the majoritarian community with the nation and relegates Muslims and Christians to second-class citizens who are harassed by vigilante groups. He discusses how the promotion of Hindu nationalism has resulted in attacks against secularists, intellectuals, universities, and NGOs. Jaffrelot explains how the political system of India has acquired authoritarian features for other reasons, too. Eager to govern not only in New Delhi, but also in the states, the government has centralized power at the expense of federalism and undermined institutions that were part of the checks and balances, including India's Supreme Court. Modi's India is a sobering account of how a once-vibrant democracy can go wrong when a government backed by popular consent suppresses dissent while growing increasingly intolerant of ethnic and religious minorities.

Write Your Way In - Rachel Toor 2017-08-03
For all the anxiety that surrounds the college admissions process, one part of the application lies completely within a student's control: the essay. In this book, Rachel Toor--writing instructor and coach at all levels from high school to senior faculty, and former admissions officer at Duke University--shows that the key to writing a successful application essay is learning to present an honest portrait of yourself. This may sound simple but it means unlearning many of the principles taught in high school writing courses, avoiding the traps of mimicking sample essays and writing what you think admissions officers want to hear, and above all being willing to reveal your flaws as well as your strengths on the page. It also means mastering key mechanical issues that can undermine even the most thoughtful pieces of student writing. Toor offers her advice in a lively, humorous, and

engaging tone, with stories of real students and their writing struggles and successes scattered throughout.

Community Engagement in Higher Education - W. James Jacob 2015-06-17

There seems to be renewed interest in having universities and other higher education institutions engage with their communities at the local, national, and international levels. But what is community engagement? Even if this interest is genuine and widespread, there are many different concepts of community service, outreach, and engagement. The wide range of activity encompassed by community engagement suggests that a precise definition of the "community mission" is difficult and organizing and coordinating such activities is a complex task. This edited volume includes 18 chapters that explore conceptual understandings of community engagement and higher education reforms and initiatives intended to foster it. Contributors provide empirical research findings, including several case study examples that respond to the following higher education community engagement issues. What is "the community" and what does it need and expect from higher education institutions? Is community engagement a mission of all types of higher education institutions or should it be the mission of specific institutions such as regional or metropolitan universities, technical universities, community colleges, or indigenous institutions while other institutions such as major research universities should concentrate on national and global research agendas and on educating internationally-competent researchers and professionals? How can a university be global and at the same time locally relevant? Is it, or should it be, left to the institutions to determine the scope and mode of their community engagement, or is a state mandate preferable and feasible? If community engagement or "community service" are mandatory, what are the consequences of not complying with the mandate? How effective are policy mandates and university engagement for regional and local economic development? What are the principal features and relationships of regionally-engaged universities? Is community engagement to be left to faculty members and students who are particularly socially engaged

and locally embedded or is it, or should it be, made mandatory for both faculty and students? How can community engagement be (better) integrated with the (other) two traditional missions of the university—research and teaching? Cleaning Human Waste - Shikha Silliman Bhattacharjee 2014

"This 96-page report documents the coercive nature of manual scavenging. Across India, castes that work as "manual scavengers" collect human excrement on a daily basis, and carry it away in cane baskets for disposal. Women from this caste usually clean dry toilets in homes, while men do the more physically demanding cleaning of sewers and septic tanks. The report describes the barriers people face in leaving manual scavenging, including threats of violence and eviction from local residents but also threats, harassment, and unlawful withholding of wages by local officials."--Publisher's website.

Swachh Bharat - Mridula Sinha, Dr. R.K. Sinha 2021-01-19

In an Indian household; the cleaning up of the house is the first step towards the celebration of an approaching festival. Not only it is hygienic but the symbolic significance of the festival is enhanced many times by this act of cleaning. It symbolizes purity of mind and clarity of thoughts before one goes to pray and celebrate an event of importance. These acts lead us to the attainment of the ultimate elation; where the body is in the pink of health and the mind is in the depths of joy. Such insight and farsightedness in thought and actions have been the hallmark of the Indian history. These actions are nothing but the manifestations of our rich

cultural heritage. A festival is a symbol of a prosperous society and a rich culture; it signifies growth and development. Therefore; any development; any growth is no less than a festival and the primary step to a celebration; which starts with cleanliness. For India; 'Swachh Bharat Abhiyan' is nothing but the first step towards celebrating development and prosperity. Certainly this book will facilitate the fulfillment of Swachh Bharat Abhiyan.

I Want a Dog - Darcy Pattison 2014-12-30

Hurrah for Essays! All writing lessons should be this much fun. When cousins Dennis and Mellie decide to get a dog, they consider carefully what breed would be best for each family. For example, Dennis wants a big dog, but Mellie wants tiny. He has no other pets, but she has other pets that a dog must get along with. They consider different dog personalities, family situations, and personal preferences. Dennis writes an opinion essay for his teacher, Mrs. Shirky. But will his essay convince his parents to get the dog of his dreams? This story takes a popular subject-kids getting a pet-and adds dogs of all sizes and shapes: all writing lessons should be this much fun. In the end, it's cousins and the dogs that keep a reader turning the page. What kind of dog will Dennis choose? Will Mellie want the same kind of dog? PRAISE FROM DOG EXPERTS "Darcy Pattison does a remarkable job on several fronts with her wonderful new book *I Want A Dog: My Opinion Essay*. She introduces the value of the written text at an early age to children. This cannot be emphasized enough in our early classrooms. With this comes an important lesson regarding the responsibility of owning and caring for a dog. As President of the Labrador Retriever Club representing the breed with the largest number of dogs I know how imperative responsible dog ownership is and Darcy does a wonderful job instilling this at an early age. This is a remarkable children's book that has a lesson." -Fred Kampo, President of the Labrador Retriever Club This story hits many notes: A family story about cousins, Dennis and Mellie Information on dog breeds Responsible dog ownership Mentor-text for teaching writing Model opinion essay for elementary students Models the writing process, especially the importance of pre-writing or planning before you write Completes the writing process by showing

I am Lakshmi Prasad, native of Bitihar. I am doing PhD on a very important subject "Mating habits of gay chimpanzees in West Africa" at PANU University, the best University in India and possibly the best University in the world. My idols are "Faizal Guru", "Janab Kasab Sahib", "Focus Carat", "Baba Badkar", "Zakir Nalayak", "Gharkha Dutt", "Dr. Kana Ayyub" and all PhD students who had committed suicide since they failed to solve their PhD problems. I personally feel that, all deprived Indians should automatically be awarded a PhD degree coupled with a free pension of 1 lakh rupees/month to be delivered in cash via post at door step. Till then we are going to fight for azaadi from India. Imagine a day, when no PhD student would have to commit suicide, imagine a day, when no lower caste will be humiliated by upper caste, s/he can use his/her doctorate degree and force others to call him/her Dr. X, Dr. Y ,etc.

Unseen - 2014-02-15

In many parts of the country, the inhuman practice of manual scavenging continues to thrive in spite of a law banning it. Moreover, the people forced to carry out this degrading work remain invisible to the rest of us, pushed to the margins of society without any recourse to help or hope. Now, for the first time, award-winning journalist Bhasha Singh turns the spotlight on this ignored community. In *Unseen*, based on over a decade of research, she unveils the horrific plight of manual scavengers across eleven states in the country while also recording their ongoing struggle for self-empowerment. Previously published in Hindi to both critical and commercial success, this is an explosive work of reportage on a burning issue.

Where India Goes - Diane Coffey 2017-07-10

More than half the people who defecate in the open live in India. Around the world, people live healthier lives than in centuries past, in part because latrines keep faecal germs away from growing babies. India is an exception. Most Indians do not use toilets or latrines, and so

infants in India are more likely to die than in neighbouring poorer countries. Children in India are more likely to be stunted than children in sub-Saharan Africa. *Where India Goes* demonstrates that open defecation in India is not the result of poverty but a direct consequence of the caste system, untouchability and ritual purity. Coffey and Spears tell an unsanitized story of an unsanitary subject, with characters spanning the worlds of mothers and babies living in villages to local government implementers, senior government policymakers and international development professionals. They write of increased funding and ever more unused latrines. *Where India Goes* is an important and timely book that calls for the annihilation of caste and attendant prejudices, and a fundamental shift in policy perspectives to effect a crucial, much overdue change.

No One Will Let Her Live - Claire Snell-Rood
2015-06-23

The inequalities that structure relationships in Delhi's urban slums have left the health of women living there chronically vulnerable. Yet for women living in slums, there is no other option than to depend on someone. Based on fourteen months of intensive fieldwork with ten families in a Delhi slum, *No One Will Let Her Live* argues that women rely on moral strategies to confront the poverty and unstable relationships that threaten their well-being. Claire Snell-Rood breaks new ground by delineating the complex ways in which women set boundaries, maintain their independence, and develop a nuanced sense of selfhood that draws on endurance, asceticism, mobility, and citizenship.

Communication for Development and Social Change - Jan Servaes 2008-12-08

This volume is first and foremost about people and the processes needed to facilitate sharing of knowledge in order to effect positive developmental change. It is contextual and

based on dialogue necessary to promote stakeholder's participation, which is essential for the understanding of their perceptions, perspectives, values, attitudes and practices, so that these can be incorporated into the design and implementation of development initiatives. This volume follows the two-way horizontal model and increasingly makes use of many-to-many forms of communications to facilitate the understanding of people's perceptions, priorities and knowledge with its use of a number of tools, techniques, media and methods. It aims to give voice to those most affected by the development issue(s) at stake, allowing them to participate directly in defining and implementing solutions and identifying development directions. Based on the assumption that authentic participation directly addresses power and its distribution in society, which often decreases the advantage of certain elite groups, the authors argue that structural and sustainable change necessitates the redistribution of power. This collection offers perceptive insights and vivid examples to prove that the field of communication for development and social change is indeed vibrant.

Sustainable Sanitation for All - Petra Bongartz 2016

Great strides have been made in improving sanitation in many developing countries. Yet, 2.4 billion people worldwide still lack access to adequate sanitation facilities and the poorest and most vulnerable members of society are often not reached and their specific needs are not met. Moreover, sustainability is currently one of the key challenges in CLTS and wider WASH practice, subsuming issues such as behaviour change, equity and inclusion, physical sustainability and sanitation marketing, monitoring and verification, engagement of governments, NGOs and donors, particularly after open defecation free (ODF) status is reached, and more. Achievement of ODF status is now recognised as only the first stage in a long process of change and sanitation improvement, with new challenges emerging every step of the way, such as how to stimulate progress up the sanitation ladder, how to ensure the poorest and marginalised are reached, or how to maintain and embed behaviour change. There have been several useful studies on sustainability that have highlighted some of these different aspects as well as the complexities involved. This book develops these key themes by exploring current experience, practices, challenges, innovations and insights, as well as identifying a future research agenda and gaps in current knowledge. Describing the landscape of sustainability of CLTS and sanitation with reference to the Sustainable Development Goals (SDGs) and through examples from Africa and Asia, the book captures a range of experiences and innovations from a broad range of institutions and actors within the WASH sector, and attempts to make recommendations and practical suggestions for policy and practice for practitioners, funders, policy-makers and governments.

The Swachh Bharat Revolution - Parameswaran Iyer 2019-09-28

On 15 August 2014, in his maiden Independence Day address to the country, Narendra Modi became the first Prime Minister of India to take on the national shame of open defecation. Launched a few weeks later, on Gandhi Jayanti, the Swachh Bharat Mission has come a long way over the past five years. India is now close to

declaring itself an Open Defecation Free nation on 2 October 2019, the 150th birth anniversary of the Father of the Nation. The Swachh Bharat Revolution looks at all that went into making this remarkable transformation happen, and how a nation of over a billion people led the largest people's movement in the world to make the impossible possible. This is a compendium of essays -- with names such as Arun Jaitley, Amitabh Kant, Ratan Tata, Sadhguru, Amitabh Bachchan, Akshay Kumar, Tavleen Singh, Bill Gates and many more, along with a message from Prime Minister Modi himself -- that celebrates a historic national achievement.

Rich Dad, Poor Dad - Robert T. Kiyosaki
2016-04-27

Although we have been successful in our careers, they have not turned out quite as we expected. We both have changed positions several times-for all the right reasons-but there are no pension plans vesting on our behalf. Our retirement funds are growing only through our individual contributions. Michael and I have a wonderful marriage with three great children. As I write this, two are in college and one is just beginning high school. We have spent a fortune making sure our children have received the best education available. One day in 1996, one of my children came home disillusioned with school. He was bored and tired of studying. "Why should I put time into studying subjects I will never use in real life?" he protested. Without thinking, I responded, "Because if you don't get good grades, you won't get into college." "Regardless of whether I go to college," he replied, "I'm going to be rich."

Ladies and Gents - Olga Gershenson 2009-07-15
Public toilets provide a unique opportunity for

interrogating how conventional assumptions about the body, sexuality, privacy, and technology are formed in public spaces and inscribed through design across cultures. This collection of original essays from international scholars is the first to explore the cultural meanings, histories, and ideologies of public toilets as gendered spaces. *Ladies and Gents* consists of two sets of essays. The first, "Potty Politics: Toilets, Gender and Identity," establishes the importance of accessible, secure public toilets to the creation of inclusive cities, work, and learning environments. The second set of essays, "Toilet Art: Design and Cultural Representations," discusses public toilets as spaces of representation and representational spaces, with reference to architectural design, humor, film, theater, art, and popular culture. Compelling visual materials and original artwork are included throughout, depicting subjects as varied as female urinals, art installations sited in public restrooms, and the toilet in contemporary art. Taken together, these seventeen essays demonstrate that public toilets are often sites where gendered bodies compete for resources and recognition—and the stakes are high. Contributors include: Nathan Abrams, Jami L. Anderson, Johan Andersson, Kathryn H. Anthony, Kathy Battista, Andrew Brown-May, Ben Campkin, Meghan Dufresne, Peg Fraser, Deborah Gans, Clara Greed, Robin Lydenberg, Claudia Mitchell, Alison Moore, Frances Pheasant-Kelly, Bushra Rehman, Alex Schweder, Naomi Stead, and the editors.
