Phasers on Stun! - Ryan Britt 2022-05-31

Written with inside access, comprehensive research, and a down-to-earth perspective, *Phasers on Stun!* chronicles the entire history of Star Trek, revealing that its enduring place in pop culture is all thanks to innovative pivots and radical change. For over five decades, the heart of Star Trek's pro-science, anti-racist, and inclusive messaging has been its willingness to take big risks. Across thirteen feature films, and twelve TV series—including five shows currently airing or in production—the brilliance of Star Trek is in its endless ability to be rethought, rebooted, and remade. Author and Star Trek expert Ryan Britt charts an approachable and entertaining course through Star Trek history; from its groundbreaking origins amid the tumultuous 1960s, to its influence on diversifying the space program, to its contemporary history-making turns with LGBTQ+ representation, this book illuminates not just the behind-the-scenes stories that shaped the franchise but the larger meaning of the Final Frontier. Featuring over 100 exclusive interviews with actors and writers across all the generations, including Walter Koenig, LeVar Burton, Dorothy Fontana, Brent Spiner, Ronald D. Moore, Jeri Ryan, and many more, Britt gets the inside story on all things Trek, like Spock's evolution from red devil to the personification of logical empathy, the near failure to launch of *The Next Generation* in 1987, and how Trekkie outrage has threatened to destroy the franchise more than once. The book also dives deep with creators like Michael Chabon (co-creator of *Star Trek: Picard*)

and Nicholas Meyer (director, *The Wrath of Khan*). These interviews extend to the bleeding edge of contemporary Star Trek, from *Discovery* to *Picard* to *Lower Decks*, and even the upcoming highly anticipated 2022 series, *Strange New Worlds*. For fans who know every detail of each Enterprise bridge, to a reader who has never seen a single minute of any Star Trek, this book aims to entertain, inform, and energize. Through humor, insight, archival research, and unique access, this journey through the Star Trek universe isn't just about its past but a definitive look at its future.

What is Criminology? - Mary Bosworth 2012-05-31

Criminology is a booming discipline, yet one which can appear divided and fractious. In this rich and diverse collection of 34 essays, some of the world's leading criminologists respond to a series of questions designed to investigate the state, impact and future challenges of the discipline: What is criminology for? What is the impact of criminology? How should criminology be done? What are the key issues and debates in criminology today? What challenges does the discipline of criminology face? How has criminology as a discipline changed over the last few decades? The resulting essays identify a series of intellectual, methodological and ideological borders. Borders, in criminology as elsewhere, are policed, yet they are also frequently transgressed; criminologists can and do move across them to plunder, admire, or learn from other regions. While some boundaries may be more difficult or dangerous to cross than others it is rare to find an entirely secluded locale or community. In traversing ideological, political, geographical and disciplinary borders, criminologists

bring training, tools and concepts, as well as key texts to share with foreigners. From such exchanges, over time, borders may break down, shift, or spring up, enriching those who take the journey and those who are visited. It is, in other words, in criminology's capacity for and commitment to reflexivity, on which the strength of the field depends.

Imagine designing the best company on earth to work for . . . What would that company be like? How would you build and sustain it? As a leader, you need to know. In the past, businesses made people conform to the organization's needs. But the old paradigm has shifted. Now leaders must transform their organizations so that they attract the right people, keep

them, and inspire them to do their best work. How do you create a culture people want to belong to? In this powerful and necessary follow-up to the classic *Why Should Anyone Be Led by You?*, leadership and organizational sages Rob Goffee and Gareth Jones identify and illuminate the six key organizational attributes to do just that. In separate chapters, they delve deeply into each one: 1. Let people be themselves 2. Practice radical honesty 3. Magnify people's strengths 4. Stand for authenticity (more than shareholder value) 5. Make work meaningful 6. Make simple rules. With vivid stories and examples from global companies, the authors illustrate the kind of strong, attractive workplace culture that leads to sustained high performance. They also provide ways of assessing how your company is doing and describe the tensions and trade-offs that leaders must manage as they transform their organizations. *Why Should Anyone Work Here?* is the question all contemporary organizational leaders must constantly ask themselves if they want to survive and thrive in the new world. This book will help them answer that question.

London's New Scene - Lisa Tickner 2020-07-07

A groundbreaking and extensively researched account of the 1960s London art scene In the 1960s, London became a vibrant hub of artistic production. Postwar reconstruction, jet air travel, television arts programs, new color supplements, a generation of young artists, dealers, and curators, the influx of international film companies, the projection of “creative Britain” as a national brand—all nurtured and promoted the emergence of London as “a new capital of art.” Extensively illustrated and researched, this book offers an unprecedented, rich account of the social field that constituted the lively London scene of the 1960s. In clear, fluent prose, Tickner presents an innovative sequence of critical case studies, each of which explores a particular institution or event in the cultural life of London between 1962 and 1968. The result is a kaleidoscopic view of an exuberant decade in the history of British art.

By approaching disagreements in a more loving way and seeing the grace and good in those who hold differing viewpoints, you'll gain a deeper understanding of others, yourself, and God—from the bestselling author of *Finding God's Life for My Will*. “Written with just the right amount of humor, reflection, and heart, *Grace in the Gray* shows us how to focus on the people we may disagree with more than focusing on the issue at hand.”—Mac Powell, Grammy Award-winning singer and songwriter In a culture where constant offense and polarization dominate so many interactions, here is good news about a more productive way to disagree: God desires for us to become better at loving others . . . not better at debating. *Grace in the Gray* helps us see the grace and good that’s often

hidden by our own limited perspectives and assumptions. Through a collection of personal stories and biblical insights, Mike Donehey reveals a four-stage process to help you 1. subjectify those you’ve objectified 2. empathize with those you’ve vilified 3. humanize those you’ve deified 4. see why your posture is as essential as your position In relationships, professional settings, and social situations, discover how to focus on the person standing before you more than the argument set against you. Doing so gives you the rare ability to face any conflict with better questions, kindness, and the calming posture of curiosity. It all begins by learning to listen and lead with the most transformative substance the universe has ever known . . . God’s love.

Yours Truly - Margarita Mayo 2018-02-22

At the heart of contemporary corporate leadership lies a crisis of confidence. Since the financial crash of 2008, distrust of employers among the workforce has dramatically increased due to a lack of authentic leadership. But how can leaders become and remain authentic? *Yours Truly* draws on a host of inspirational examples from executives of multinational corporations to political leaders and sports leaders, as well as more than two decades of research, in order to examine and explain the missing link in research into authentic leadership: how leaders strive for success, excellence and constant renewal, whilst remaining true to themselves. Margarita Mayo introduces the three characteristics – Heart, Habits and Harmony – that differentiate authentic from non-authentic leaders. Presented within a practical framework, the book provides a measurable guide to developing your own authentic power: Contagious passion that wins the hearts of others; Setting new habits of learning to

empower others; and Enhancing harmony by building authentic contexts. Ideal for managers, senior executives and aspiring leaders, Yours Truly captures the value of authentic leadership in transforming organizations. The book strips away the seemingly magical, innate charismatic qualities of leaders in order to showcase a less mysterious and more practical process that can be followed by anyone.

Between Enterprise and Ethics - John Hendry 2004-03-04

We live in a 'bimoral' society, in which people govern their lives by two contrasting sets of principles. On the one hand there are the principles associated with traditional morality. Although these allow a modicum of self-interest, their emphasis is on our duties and obligations to others: to treat people honestly and with respect, to treat them fairly and without prejudice, to help and care for them when needed, and ultimately, to put their needs above our own. On the other hand there are the principles associated with the entrepreneurial self-interest. These also impose

obligations, but of a much more limited kind. Their emphasis is competitive rather than cooperative: to advance our own interests rather than to meet the needs of others. Both sets of principles have always been present in society but in recent years traditional moral authorities have lost much of their force and the morality of self-interest has acquired a much greater social legitimacy, over a much wider field of behaviour, than ever before. The result of this is that in many situations it is no longer at all apparent which set of principles should take precedence. In this book John Hendry traces the cultural and historical origins of the 'bimoral' society and explores the challenges it poses for the world of business and management. The developments that have led to the 'bimoral' society have also led to new, more flexible forms of organizing, which have released people's entrepreneurial energies and significantly enhanced the creative capacities of business. Working within these organizations, however, is fraught with moral tensions as obligations and self-interest conflict and managers are pulled in all sorts of different directions. Managing them successfully poses major new challenges of leadership, and 'moral' management, as the technical problem-solving that previously characterised managerial work is increasingly accomplished by technology and market mechanisms. The key role of management becomes the political and moral one of determining purposes and priorities, reconciling divergent interests, and nurturing trust in interpersonal relationships. Exploring these tensions and challenges, Hendry identifies new issues for contemporary management and puts recognized issues into context. He also explores the challenges posed for a post-traditional society as it seeks to regulate and govern an increasingly powerful and global business sector.
