This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Discover where the real success in business can be found. What makes some businesses more successful than others? The answer: people. Organizations with motivated, talented employees that offer outstanding customer service are more likely to pull ahead of the competition. Performance Management is the first text to emphasize this key competitive

advantage, showing readers that success in today's globalized business world can be found, not in technology and products, but in an organization's people. The third edition includes updated and current information, and features over forty new cases.

Good to Great - Jim Collins 2011-07-19

The Challenge Built to Last, the defining
management study of the nineties, showed how
great companies triumph over time and how long-
term sustained performance can be engineered
into the DNA of an enterprise from the
very beginning. But what about the company that
is not born with great DNA? How can good

companies, mediocre companies, even bad
companies achieve enduring greatness? The
Study For years, this question preyed on the mind
of Jim Collins. Are there companies that defy
gravity and convert long-term mediocrity or worse
into long-term superiority? And if so, what are the
universal distinguishing characteristics that cause
a company to go from good to great? The
Standards Using tough benchmarks, Collins and
his research team identified a set of elite
companies that made the leap to great results
and sustained those results for at least fifteen
years. How great? After the leap, the good-to-

great companies generated cumulative stock returns that beat the general stock market by an average of seven times in fifteen years, better than twice the results delivered by a composite index of the world's greatest companies, including Coca-Cola, Intel, General Electric, and Merck.

The Comparisons The research team contrasted the good-to-great companies with a carefully selected set of comparison companies that failed to make the leap from good to great. What was different? Why did one set of companies become truly great performers while the other set remained only good? Over five years, the team

analyzed the histories of all twenty-eight companies in the study. After sifting through mountains of data and thousands of pages of interviews, Collins and his crew discovered the key determinants of greatness -- why some companies make the leap and others don't.

The Findings The findings of the Good to Great study will surprise many readers and shed light on virtually every area of management strategy and practice. The findings include: **Level 5 Leaders:** The research team was shocked to discover the type of leadership required to achieve greatness.

The Hedgehog Concept (Simplicity within the

Three Circles): To go from good to great requires transcending the curse of competence. A Culture of Discipline: When you combine a culture of discipline with an ethic of entrepreneurship, you get the magical alchemy of great results.

Technology Accelerators: Good-to-great companies think differently about the role of technology. The Flywheel and the Doom Loop: Those who launch radical change programs and wrenching restructurings will almost certainly fail to make the leap. “Some of the key concepts discerned in the study,” comments Jim Collins, “fly in the face of our modern business culture

and will, quite frankly, upset some people.”

Perhaps, but who can afford to ignore these findings?

Excellence in Business - Courtland L. Bovée
2007

KEY BENEFIT: With its real-life examples and cases, and its lively, conversational writing style, Bovee/Thill/Mescon brings concepts to life and prepares students for obtaining and pursuing satisfying business careers. KEY TOPICS: Bovee/Thill/Mescon weaves a four-part pedagogical tool through out each chapter. It starts with Orient, which outlines what is going to be covered in the chapter and then connects

these topics with a "role-model" business professional. Next is Explore, which looks at the skills that their "role-model" used in order to be successful. Third is Confirm, which revisits what they have learned in the chapter. And, finally, Apply allows students to use the skills they have learned in the chapter. MARKET: For introductory level business students.

Excellence in Business Communication - John V. Thill 2002-07

This book offers users the tools they need to succeed in today's workplace by developing their essential communication skills. Three easy-to-follow steps (planning, writing, and completing business messages) offer learners a practical

strategy for writing and delivering business messages. Abundant sample documents demonstrate how to apply the principles being discussed. This is the only book that offers business communication experience in every chapter through real-world on-the-job simulations featuring actual companies and real-world business documents. These simulations provide a unique opportunity to apply concepts to real events and to sharpen business communication problem-solving skills. A five-part organization covers the foundations of business communication; the three-step writing process;

letters, memos, e-mail, and other brief messages; reports and oral presentations; and employment messages. For business professionals--at any level--seeking to improve their oral and written communication skills.

Dynamic Business Law: The Essentials - Lucien Dhooge 2012-01-05

Dynamic Business Law: The Essentials is appropriate for the one-semester Business Law course. It contains the basics of business law but does not get bogged down in the kind of details

that are more appropriate in an upper-level law class. The text provides an examination of the basic questions, concepts, and legal rules of business law. Emphasis on the BUSINESS in business law. Dynamic Business Law: The Essentials emphasizes the tie of legal issues back to the core business curriculum. This will help both students and faculty. Faculty need to know how this is integrated as they are constantly ‘defending’ the inclusion of this course in the business curriculum. And students need to understand how the concepts tie to their future business careers. Emphasis on TEACHING.

Many professors teaching this course are attorneys first and academics second. They do not have a lot of time to prepare or think about how to apply this information effectively for their business students. Dynamic Business Law: The Essentials contains a helpful instructor's manual, particularly for the many adjuncts teaching this course. Emphasis on CRITICAL THINKING. Neil Browne, one of the co-authors of this text, has written a successful text on critical thinking. His framework is included in Dynamic Business Law: The Essentials as well – to help students learn how to frame and reframe a question/issue.

Critical thinking questions are also included at the end of each case, to tie in this component even further.
