Deleuze and Film Music - Gregg Redner 2011

The analysis of film music is emerging as one of the fastest-growing areas of interest in film studies. Yet scholarship in this up-and-coming field has been beset by the lack of a common language and methodology between film and music theory. Drawing on the philosophy of Gilles Deleuze, film studies scholar Gregg Redner provides a much-needed analysis of the problem which then forms the basis of his exploration of the function of the film score and its relation to film's other elements. Not just a groundbreaking examination of persistent difficulties in this new area of study, *Deleuze and Film Music* also offers a solution--a methodological

bridge--that will take film music analysis to a new level.

And The Bands Played On... - Howie
Thompson 2013-02-26

As defined by Wikipedia, beach music—also known as Carolina beach music and, to a lesser extent, beach pop—is a regional genre that developed from various musical styles of the forties, fifties, and sixties. These styles ranged from big-band swing instrumentals to the more raucous sounds of blues/ jump blues, jazz, doo-wop, boogie, rhythm and blues, reggae, rockabilly, and old-time rock and roll. Beach music is closely associated with the style of the swing dance known as the shag or the Carolina shag, which is also the official state dance of both North Carolina and South Carolina. Recordings with a 4/4 blues shuffle rhythmic structure and moderate-to-fast tempo are the most popular music for the shag, and the vast majority of the music in this genre fit that description.

The Films of Alan Parker, 1976-2003 - David F. Gonthier, Jr. 2015-08-20
The offbeat musicals *Fame* (1980), *Pink Floyd--The Wall* (1982), *The Commitments* (1991) and *Evita* (1996)... The stylized biopics *Midnight Express* (1978), *Mississippi Burning* (1988), *The Road to Wellville* (1994) and *Angela's Ashes* (1999)... The visceral social dramas *Shoot the Moon* (1982), *Birdy* (1984), *Come See the Paradise* (1990) and *The Life of David Gale* (2003)... The one-of-a-kind genre films *Bugsy Malone* (1979) and *Angel Heart* (1987)... These are the films of British director, writer, producer and cartoonist Sir Alan Parker. Among many awards and a knighthood, Parker is the founding director of the Director's Guild of Great Britain, and in 2013 won the honorary British Academy of Film and Television Arts Fellowship Award. Parker is known for his humility as a director and has never considered himself an auteur:

"I have total admiration for film crews. They are the true heroes of the filmmaking process, not directors." He has worked alongside producer Alan Marshall, cinematographer Michael Seresin and the late film editor, Gerry Hambling. This book is the first study of his complete body of feature films (1976-2003).

Scoring the Screen - Andy Hill
2017-07-01

(Music Pro Guides). Today, musical composition for films is more popular than ever. In professional and academic spheres, media music study and practice are growing; undergraduate and postgraduate programs in media scoring are offered by dozens of major colleges and universities. And increasingly, pop and contemporary classical composers are expanding their reach into cinema and other forms of screen entertainment. Yet a search on Amazon reveals at least 50 titles under the category of film music, and, remarkably, only a meager few actually allow readers to see the music itself, while none of them examine landmark scores like *Vertigo*, *To Kill a Mockingbird*, *Patton*, *The Untouchables*, or *The Matrix* in the detail provided by *Scoring the Screen: The Secret Language of Film Music*. This is the first book since Roy M. Prendergast's 1977 benchmark, *Film Music: A Neglected Art*, to treat music for motion pictures as a compositional style worthy of serious study. Through extensive and unprecedented analyses of the original concert scores, it is the first to offer both aspiring composers and music educators with a view from the inside of the actual process of scoring-to-picture. The core thesis of *Scoring the Screen* is that music for motion pictures is indeed a language, developed by the masters of the craft out of a

dramatic and commercial necessity to communicate ideas and emotions instantaneously to an audience. Like all languages, it exists primarily to convey meaning. To quote renowned orchestrator Conrad Pope (who has worked with John Williams, Howard Shore, and Alexandre Desplat, among others): "If you have any interest in what music 'means' in film, get this book. Andy Hill is among the handful of penetrating minds and ears engaged in film music today."

The Ashgate Research Companion to Minimalist and Postminimalist Music - Keith Potter 2016-03-23

In recent years the music of minimalist composers such as La Monte Young, Terry Riley, Steve Reich and Philip Glass has, increasingly, become the subject of important musicological reflection, research and debate. Scholars have also been turning their attention to the work of lesser-known contemporaries such as Phill Niblock and Eliane Radigue, or to second and third generation minimalists such as John Adams, Louis Andriessen, Michael Nyman and William Duckworth, whose range of styles may undermine any sense of shared aesthetic approach but whose output is still to a large extent informed by the innovative work of their minimalist predecessors. Attempts have also been made by a number of academics to contextualise the work of composers who have moved in parallel with these developments while remaining resolutely outside its immediate environment, including such diverse figures as Karel Goeyvaerts, Robert Ashley, Arvo Pärt and Brian Eno. Theory has reflected practice in many respects, with the multimedia works of Reich and Glass encouraging interdisciplinary approaches, associations and interconnections. Minimalism's role in culture and society has also become the subject of recent interest

and debate, complementing existing scholarship, which addressed the subject from the perspective of historiography, analysis, aesthetics and philosophy. The Ashgate Research Companion to Minimalist and Postminimalist Music provides an authoritative overview of established research in this area, while also offering new and innovative approaches to the subject.

Music in the Western - Kathryn Kalinak 2012-05-22

Music in the Western: Notes from the Frontier presents essays from both film studies scholars and

musicologists on core issues in western film scores: their history, their generic conventions, their operation as part of a narrative system, their functioning within individual filmic texts and their ideological import, especially in terms of the western's construction of gender, sexuality, race and ethnicity. The Hollywood western is marked as uniquely American by its geographic setting, prototypical male protagonist and core American values. Music in the Western examines these conventions and the scores that have shaped them. But the western also had a resounding international impact, from Europe to Asia, and this volume distinguishes itself by its careful consideration of music in non-Hollywood westerns, such as *Ravenous* and *The Good, the Bad, and the Ugly* and in the "easterns" which influenced them, such as *Yojimbo*. Other films discussed include *Wagon Master*, *High Noon*, *Calamity Jane*, *The Big Country*, *The Unforgiven*, *Dead Man*, *Wild Bill*, *There Will Be Blood* and *No Country for Old Men*. Hammer Film Scores and the Musical Avant-Garde - David Huckvale

2014-01-10

Music in film is often dismissed as having little cultural significance. While Hammer Film Productions is famous for such classic films as *Dracula* and *The Curse of Frankenstein*, few observers have noted the innovative music that Hammer distinctively incorporated into its horror films. This book tells how Hammer commissioned composers at the cutting edge of European musical modernism to write their movie scores, introducing the avant-garde into popular culture via the enormously successful venue of horror film. Each chapter addresses a specific category of the avant-garde musical movement. According to these categories, chapters elaborate upon the visionary composers who made the horror film soundtrack a melting pot of opposing musical cultures.

The Music of Charlie Chaplin - Jim

Lochner 2018-09-20

Charlie Chaplin the actor is universally synonymous with his beloved Tramp character. Chaplin the director is considered one of the

great auteurs and innovators of cinema history. Less well known is Chaplin the composer, whose instrumental theme for *Modern Times* (1936) later became the popular standard "Smile," a Billboard hit for Nat "King" Cole in 1954. Chaplin was prolific yet could not read or write music. It took a rotating cast of talented musicians to translate his unorthodox humming, off-key singing, and amateur piano and violin playing into the singular orchestral vision he heard in his head. Drawing on numerous transcriptions from 60 years of original scores, this comprehensive study reveals the untold story of Chaplin the composer and the string of famous (and not-so-famous) musicians he employed, giving fresh insight into his films and shedding new light on the man behind the icon.
