The Complete Book of the World Rally Championship - Henry Hope-Frost 2004

For 30 years some of the most talented and bravest drivers have battled across the continents of the world to claim what is arguably motorsport's toughest prize: the World Rally Championship. Now a multi-million dollar, global technology battle and terrestrial television phenomenon played out over the frozen wastes of Finland, the dusty plains of Australia and the sun-kissed mountain roads of Corsica, the WRC has reached its 30th birthday. This book celebrates that important milestone and paints an exhaustively detailed picture of the people and personalities who have shaped this great sport. The Complete Book of the World Rally Champions provides a biographical account of the 65 men who have won at least one World Championship Rally since 1973. The biographies are compiled by the sport's leading writers and historians and complemented by stunning photography. The book includes a detailed and accurate statistical career record of each driver, plus highlights of all the significant cars.

The Discipline of Market Leaders - Michael Treacy 2007-03-20

Why is it that Casio can sell a calculator more cheaply than Kellogg's can sell a box of corn flakes? Why can FedEx "absolutely, positively" deliver your package overnight but airlines have trouble keeping track of

your bags? What does your company do better than anyone else? What unique value do you provide to your customers? How will you increase that value next year? As customers' demands for the highest quality products, best services, and lowest prices increase daily, the rules for market leadership are changing. Once powerful companies that haven't gotten the message are faltering, while others, new and old, are thriving. In disarmingly simple and provocative terms, Treacy and Wiersema show what it takes to become a leader in your market, and stay there, in an ever more sophisticated and demanding world.

Ladivine - Marie NDiaye 2016-03-17

Longlisted for the Man Booker International Prize 2016
Clarisse Rivière's life is shaped by a refusal to admit to her husband Richard and to her daughter Ladivine that her mother is a poor black housekeeper. Instead, weighed down by guilt, she pretends to be an orphan, visiting her mother in secret and telling no-one of her real identity as Malinka, daughter of Ladivine Sylla. In time, her lies turn against her. Richard leaves Clarisse, frustrated by the unbridgeable, indecipherable gulf between them. Clarisse is devastated, but finds solace in a new man, Freddy Moliger, who is let into the secret about her mother, and is even introduced to her. But Ladivine, her daughter, who is now married herself,

cannot shake a bad feeling about her mother's new lover, convinced that he can bring only chaos and pain into her life. When she is proved right, in the most tragic circumstances, the only comfort the family can turn to requires a leap of faith beyond any they could have imagined. Centred around three generations of women, whose seemingly cursed lineage is defined by the weight of origins, the pain of alienation and the legacy of shame, *Ladivine* is a beguiling story of secrets, lies, guilt and forgiveness by one of Europe's most unique literary voices. Translated from the French by Jordan Stump

Prophet of Innovation - Thomas K. McCraw 2009

Pan Am, Gimbel's, Pullman, Douglas Aircraft, Digital Equipment Corporation, British Leyland—all once as strong as dinosaurs, all now just as extinct. Destruction of businesses, fortunes, products, and careers is the price of progress toward a better material life. No one understood this bedrock economic principle better than Joseph A. Schumpeter. "Creative destruction," he said, is the driving force of capitalism. Described by John Kenneth Galbraith as "the most sophisticated conservative" of the twentieth century, Schumpeter made his mark as the prophet of incessant change. His vision was stark: Nearly all businesses fail, victims of innovation by their competitors. Businesspeople ignore this lesson at their peril—to survive, they must be entrepreneurial and think strategically. Yet in Schumpeter's view, the general prosperity produced by the "capitalist engine" far outweighs the wreckage it leaves behind. During a tumultuous life spanning two world wars, the Great Depression, and the early Cold War, Schumpeter reinvented himself many times. From boy wonder in turn-

of-the-century Vienna to captivating Harvard professor, he was stalked by tragedy and haunted by the specter of his rival, John Maynard Keynes. By 1983—the centennial of the birth of both men—Forbes christened Schumpeter, not Keynes, the best navigator through the turbulent seas of globalization. Time has proved that assessment accurate. Prophet of Innovation is also the private story of a man rescued repeatedly by women who loved him and put his well-being above their own. Without them, he would likely have perished, so fierce were the conflicts between his reason and his emotions. Drawing on all of Schumpeter's writings, including many intimate diaries and letters never before used, this biography paints the full portrait of a magnetic figure who aspired to become the world's greatest economist, lover, and horseman—and admitted to failure only with the horses.
