East and South - Lucy Gasser 2021-07-16

What is "Europe" in academic discourse? While Europe tends to be used as shorthand, often interchangeable with the "West", neither the "West" nor "Europe" are homogeneous spaces. Though postcolonial studies have long been debunking Eurocentrism in its multiple guises, there is still work to do in fully comprehending how its imaginations and discursive legacies conceive the figure of Europe, as not all who live on European soil are understood as equally "European". This volume explores this immediate need to rethink the axis of postcolonial cultural productions, to disarticulate Eurocentrism, to recognise Europe as a more diverse, plural and fluid space, to draw forward cultural exchanges and dialogues within the Global South. Through analyses of literary texts from East-Central Europe and beyond, this volume sheds light on alternative literary cartographies – the multiplicity of Europes and being European which exist both as they are viewed from the different geographies of the global South, and within the continent itself. Covering a wide spatial and temporal terrain in postcolonial and European cultural productions, this volume will be of great interest to scholars and researchers of literature and literary criticism, cultural studies, post-colonial studies, global South studies and European studies.

Hiroshima - John Hersey 2020-06-23

Hiroshima is the story of six people—a clerk, a widowed seamstress, a physician, a Methodist minister, a young surgeon, and a German Catholic priest—who lived through the greatest single manmade disaster in history. In vivid and indelible prose, Pulitzer Prize-winner John Hersey traces the stories of these half-dozen individuals from 8:15 a.m. on August 6, 1945, when Hiroshima was destroyed by the first atomic bomb ever dropped on a city, through the hours and days that followed. Almost four decades after the original publication of this celebrated book, Hersey went back to Hiroshima in search of the people whose stories he had told, and his account of what he discovered is now the eloquent and moving final

chapter of Hiroshima.

The Sexual History of the Global South - Saskia Wieringa 2013-04-11

The Sexual History of the Global South explores the gap between sexuality studies and post-colonial cultural critique. Featuring twelve case studies, based on original historical and ethnographic research from countries in Africa, Asia, and Latin America, the book examines the sexual investments underlying the colonial project and the construction of modern nation-states. Covering issues of heteronormativity, post-colonial amnesia regarding non-normative sexualities,

women's sexual agency, the policing of the boundaries between the public and the private realm, sexual citizenship, the connections between LGBTQ activism and processes of state formation, and the emergence of sexuality studies in the global South, this collection is of great geographical, historical, and topical significance.

Encountering The Adivasi Question - P. Bandhu 2019-08-01

The main problem facing most Adivasi groups in the country is displacement and loss of their own original habitats and livelihood through 'development' projects like dams, tourism and wildlife sanctuaries. By generally categorising them as girijan (mountain dwellers), vanavasis (forest dwellers), or tribal (with its connotations of primitive and backward), or even the popular jangli (wild), in official parlance and in the mass media, they are robbed of their identity, dignity and rights as among the first peoples of this subcontinent, who earlier enjoyed economic and political freedom and autonomy in the form of self-rule. All over India the process of uprooting indigenous people from their rich culture is on – the disruption of a way of life, fundamental to which is the belief that it is not the earth which belongs to man, but man who belongs to the earth.

Time for Socialism - Thomas Piketty 2021-10-26

A chronicle of recent events that have shaken the world, from the author of *Capital in the Twenty-First Century* "What makes this manifesto noteworthy is that it comes from . . . an economist who gained his reputation as a researcher with vaguely left-of-center sensibilities but was far from a radical. Yet the times are such . . . that even honest moderates are driven to radical remedies."—Robert Kuttner, *New York Times* As a correspondent for the French newspaper *Le Monde*, world-renowned economist Thomas Piketty has documented the rise and fall of Trump, the drama of Brexit, Emmanuel Macron's ascendance to the French presidency, the unfolding of a global pandemic, and much else besides, always from the perspective of his fight for a more equitable world. This collection brings together those articles and is prefaced by an extended introductory essay, in which Piketty argues that the time has come to support an inclusive and expansive conception of socialism as a counterweight against the hypercapitalism that defines our current

economic ideology. These essays offer a first draft of history from one of the world's leading economists and public figures, detailing the struggle against inequalities and tax evasion, in favor of a federalist Europe and a globalization more respectful of work and the environment.

Ready To Fire - Nambi Narayanan 2018-04-10

A top scientist is falsely accused of selling space technology secrets. A police inspector's misadventure with a Maldivian woman results in a fabricated espionage case. A faction within a political party capitalises on the case to bring down a government. An intelligence agency obligingly plays into the hands of vested interests to slow down India's space programme. And a complex investigation finally proves the allegations untrue. In this riveting book, Isro scientist S Nambi Narayanan - who was falsely accused of espionage in ISRO spy case of the 1990s - and senior journalist Arun Ram meticulously unpick the ISRO spy case, revisit old material and discover new details to expose the international plot that delayed India's development of a cryogenic engine by at least a decade. It took four years for the CBI to exonerate Nambi, but his fight for justice to ensure action against the officers who faked the case and tortured him in custody continues. This book is as much a history of the early days of India's ambitious space programme as it is a record of one of the most sensational cases that enthralled the nation long before the era of online updates and 24-hour news cycles.
