Black Aliveness, or A Poetics of Being - Kevin Quashie 2021-02-05

In *Black Aliveness, or A Poetics of Being*, Kevin Quashie imagines a Black world in which one encounters Black being as it is rather than only as it exists in the shadow of anti-Black violence. As such, he makes a case for Black aliveness even in the face of the persistence of death in Black life and Black study. Centrally, Quashie theorizes aliveness through the aesthetics of poetry, reading poetic inhabitation in Black feminist literary texts by Lucille Clifton, Audre Lorde, June Jordan, Toni Morrison, and Evie Shockley, among others, showing how their philosophical and creative thinking constitutes worldmaking. This worldmaking conceptualizes Blackness as capacious, relational beyond the normative terms of recognition—Blackness as a condition of oneness. Reading for poetic aliveness, then, becomes a means of exploring Black being rather than nonbeing and animates the ethical question “how to be.” In this way, Quashie offers a Black feminist philosophy of being, which is nothing less than a philosophy of the becoming of the Black world.

Teaching Early Modern English Literature from the Archives - Heidi Brayman Hackel 2015-03-01

The availability of digital editions of early modern works brings a wealth of exciting archival and primary source materials into the classroom. But electronic archives can be overwhelming and hard to use, for teachers and students alike, and digitization can distort or omit information about texts. *Teaching Early Modern English Literature from the Archives* places traditional and electronic archives in conversation, outlines practical methods for incorporating them into the undergraduate and graduate curriculum, and addresses

the theoretical issues involved in studying them. The volume discusses a range of physical and virtual archives from 1473 to 1700 that are useful in the teaching of early modern literature--both major sources and rich collections that are less known (including affordable or free options for those with limited institutional resources). Although the volume focuses on English literature and culture, essays discuss a wide range of comparative approaches involving Latin, French, Spanish, German, and early American texts and explain how to incorporate visual materials, ballads, domestic treatises, atlases, music, and historical documents into the teaching of literature.

The Euro as Legal Tender - Robert Freitag 2020-04-20
Twenty years following the introduction of the euro as single European currency, it remains unclear whether Article 128 of the TFEU enshrines an autonomous concept of legal tender with regard to the euro or whether the provision merely refers to pre-existing concepts of legal tender in the national laws of member states. This

work collects all contributions to the 2018 conference "The Euro as Legal Tender" held in Frankfurt-am-Main.

The Oxford Handbook of Edgar Allen Poe - J. Gerald Kennedy 2019-01-08
No American author of the early 19th century enjoys a larger international audience than Edgar Allan Poe. Widely translated, read, and studied, he occupies an iconic place in global culture. Such acclaim would have

gratified Poe, who deliberately wrote for "the world at large" and mocked the provincialism of strictly nationalistic themes. Partly for this reason, early literary historians cast Poe as an outsider, regarding his dark fantasies as extraneous to American life and experience. Only in the 20th century did Poe finally gain a prominent place in the national canon. Changing critical approaches have deepened our understanding of Poe's complexity and revealed an author who defies easy classification. New models of interpretation have excited fresh debates about his essential genius, his subversive imagination, his cultural insight, and his ultimate impact, urging an expansive reconsideration of his literary achievement. Edited by leading experts J. Gerald Kennedy and Scott Peeples, this volume presents a sweeping reexamination of Poe's work. Forty-five distinguished scholars address Poe's troubled life and checkered career as a "magazinish," his poetry and prose, and his reviews, essays, opinions, and marginalia. The chapters provide fresh insights into Poe's lasting impact on subsequent literature, music, art, comics, and film and illuminate his radical conception of the universe, science, and the human mind. Wide-ranging and thought-provoking, this Handbook reveals a thoroughly modern Poe, whose timeless fables of peril and loss will continue to attract new generations of readers and scholars.

Thomas Salmon: Writings on Music - Benjamin Wardhaugh
2017-07-05

This is the second volume in a two-part set on the writings of Thomas Salmon. Salmon (1647-1706) is remembered today for the fury with which Matthew Locke greeted his first foray into musical writing, the *Essay to the Advancement of Musick* (1672), and the near-

farcical level to which the subsequent pamphlet dispute quickly descended. Salmon proposed a radical reform of musical notation, involving a new set of clefs which he claimed, and Locke denied, would make learning and performing music much easier (these writings are the subject of Volume I). Later in his life Salmon devoted his attention to an exploration of the possible reform of musical pitch. He made or renewed contact with instrument-makers and performers in London, with the mathematician John Wallis, with Isaac Newton and with the Royal Society of London through its Secretary Hans Sloane. A series of manuscript treatises and a published *Proposal to Perform Musick, in Perfect and Mathematical Proportions* (1688) paved the way for an appearance by Salmon at the Royal Society in 1705, when he provided a demonstration performance by professional musicians using instruments specially modified to his designs. This created an explicit overlap between the spaces of musical performance and of experimental performance, as well as raising questions about the meaning and the source of musical knowledge similar to those raised in his work on notation. Benjamin Wardhaugh presents the first published scholarly edition of Salmon's writings on pitch, previously only available mostly in manuscript.

TARGET SNAP 2021 (Past Papers 2005 - 2020) + 5 Mock Tests 13th Edition - Disha Experts 2020-07-01

Tolkien in the New Century - John Wm. Houghton
2014-06-24

Widely considered one of the leading experts on the works of J.R.R. Tolkien, Thomas Alan Shippey has informed and enlightened a generation of Tolkien scholars and fans. In this collection, friends and

colleagues honor Shippey with 15 essays that reflect their mentor's research interests, methods of literary criticism and attention to Tolkien's shorter works. In a wide-ranging consideration of Tolkien's oeuvre, the contributors explore the influence of 19th and 20th century book illustrations on Tolkien's work; utopia and fantasy in Tolkien's Middle-earth; the Silmarils, the Arkenstone, and the One Ring as thematic vehicles; the pattern of decline in Middle-earth as reflected in the diminishing power of language; Tolkien's interest in medieval genres; the heroism of secondary characters; and numerous other topics. Also included are brief memoirs by Shippey's colleagues and friends in academia and fandom and a bibliography of Shippey's work.

Keys for Writers - Ann Raimés 2013-01-29

Strengths of KEYS FOR WRITERS include concise but complete explanations, ease of use (with ten color-coded tabs that clearly signal the book's content), strong ESL coverage, and outstanding student writing samples. New co-author Susan Miller-Cochran brings to this edition a framework for critical thinking that offers students a method for understanding and approaching rhetorical situations. Additionally, new exercises at the end of most parts let students check their understanding. In the documentation sections, Source Shots provide visual examples of how to document sources from print to Internet sources and from encyclopedia articles to MP3 selections. A new focus on writing in the disciplines helps students carry the framework for critical thinking into a variety of academic contexts, while new guidelines for thinking critically about sources helps students apply the framework to source evaluation. A new design provides stronger visual presentation of concepts to help students learn to think critically about their

writing and use of sources. Each student text is packaged with a free Cengage Essential Reference Card to the MLA HANDBOOK, Eighth Edition. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

College Essay Essentials - Ethan Sawyer 2016-07-01

Writing an amazing college admission essay is easier than you think! So you're a high school senior given the task of writing a 650-word personal statement for your college application. Do you tell the story of your life, or a story from your life? Do you choose a single moment? If so, which one? The options seem endless. Lucky for you, they're not. College counselor Ethan Sawyer (aka The College Essay Guy) will show you that there are only four (really, four!) types of college admission essays. And all you have to do to figure out which type is best for you is answer two simple questions: 1. Have you experienced significant challenges in your life? 2. Do you know what you want to be or do in the future? With these questions providing the building blocks for your essay, Sawyer guides you through the rest of the process, from choosing a structure to revising your essay, and answers the big questions that have probably been keeping you up at night: How do I brag in a way that doesn't sound like bragging? and How do I make my essay, like, deep? Packed with tips, tricks, exercises, and sample essays from real students who got into their dream schools, *College Essay Essentials* is the only college essay guide to make this complicated process logical, simple, and (dare we say it?) a little bit fun.

Practical Aesthetics - Bernd Herzogenrath 2020-10-15

This collection brings together artists and

theoreticians to provide the first anthology of a new field: Practical Aesthetics. A work of art already contains its own criticism, a knowledge of its own which need not be conceptual or propositional. Yet today, there are many approaches to different forms of art that work on the brink between science and art, 'sensible cognition' and proposition, aesthetic knowledge and rational knowledge, while thinking with art (or the artistic material) rather than about it. This volume presents ways of thinking with different forms of art (film, sound, dance, literature, etc), as well as new forms of aesthetic research and presentation such as Media Philosophy, the audiovisual essay, fictocriticism, the audio paper, and Artistic Research. It reveals how writing about art can become 'artistic' or 'poetic' in its own right: not only writing about artistic effects, but producing them in the first place. This takes art not as an object of (external) analysis, but as a subject with a knowledge in its own right, creating a co-composing 'conceptual interference pattern' between theory and practice. A 'practical aesthetics' thus understood, can be described as thinking with art, in order to find new ways to create worlds and thus to make the world perceivable in different ways.

Quarterly Essay 13 Sending Them Home - Robert Manne
2003-12-01

In the first Quarterly Essay of 2004, Robert Manne tells the stories of individual asylum seekers and finds in their experience the seeds of a devastating critique. Balancing sorrow and pity with a controlled anger, Manne develops a sustained argument about what could, and should, be done for the nine thousand refugees who remain in limbo on temporary protection visas. *Sending Them Home* also contains a groundbreaking account of conditions in the offshore processing camps on Nauru, whose operations have until now been shrouded in secrecy, and a damning forensic investigation of the recent efforts to return - frequently against their will - many of those who sought our protection and whose countries remain in turmoil. Combining ethical reflection and acute political analysis, this essay initiates a new phase in the refugee debate. "No one ought to pretend that the unanticipated arrival of the Iraqis, Afghans and Iranians did not pose real ... problems for Australia. However these problems arose not because these people were not genuine refugees. They arose, rather, precisely because the overwhelming majority of them were." -Robert Manne, *Sending Them Home*
