*Gender, Communication, and the Leadership Gap* - Carolyn M. Cunningham 2017-09-01

*Gender, Communication, and the Leadership Gap* is the sixth volume in the *Women and Leadership: Research, Theory, and Practice* series. This cross-disciplinary series, from the International Leadership Association, enhances leadership knowledge and improves leadership development of women around the world. The purpose of this volume is to highlight connections between the fields of communication and leadership to help address the problem of underrepresentation of women in leadership. Readers will profit from the accessible writing style as they encounter cutting-edge scholarship on gender and leadership. Chapters of note cover microaggressions, authentic leadership,

courageous leadership, inclusive leadership, implicit bias, career barriers and levers, impression management, and the visual rhetoric of famous women leaders. Because women in leadership positions occupy a contested landscape, one goal of this collection is to clarify the contradictory communication dynamics that occur in everyday interactions, in national and international contexts, and when leadership is digital. Another goal is to illuminate the complexities of leadership identity, intersectionality, and perceptions that become obstacles on the path to leadership. The renowned thinkers and scholars in this volume hail from both Leadership and Communication disciplines. The book begins with Sally Helgesen and Brenda J. Allen. Helgesen, co-author of *The Female Vision: Women's Real Power at Work*, discusses the two-fold challenge women face as they struggle to articulate their visions. Her chapter offers six practices women can use to relieve this struggle. Allen, author of the groundbreaking book, *Difference Matters: Communicating Social Identity*, discusses the implications of how inclusive leadership matters to women and what it means to think about women as people who embody both dominant and non-dominant social identity categories. She then offers practical communication strategies and an intersectional ethic to the six signature traits of highly inclusive leaders. Each chapter includes practical solutions from a communication and leadership perspective that all readers can employ to advance the work of equality. Some solutions will be of use in organizational contexts, such as leadership development and training initiatives, or tools to change organizational culture. Some solutions will be of use to individuals, such as how to identify and respond productively to microaggressions or how to be cautious rather than optimistic about practicing authentic leadership. The writing in this volume also reflects a range of styles, from in-depth scholarship that produces new knowledge to shorter forums that feature interesting ideas worth considering.

**Sex Differences and Similarities in Communication** - Daniel J. Canary 2009-03-04  
*Sex Differences and Similarities in Communication* offers a thorough exploration of sex differences in how men and women

communicate, set within the context of sex similarities, offering a balanced examination of the topic. The contents of this distinctive volume frame the conversation regarding the extent to which sex differences are found in social behavior, and emphasize different theoretical perspectives on the topic. Chapter contributors examine how sex differences and similarities can be seen in various verbal and nonverbal communicative behaviors across contexts, and focus on communication behavior in romantic relationships. The work included here represents recent research on the topic across various disciplines, including communication, social psychology, sociology, linguistics, and organizational behavior, by scholars well-known for their work in this area. In this second edition, some chapters present new perspectives on sex/gender and communication; others present substantially revised versions of earlier chapters. All chapters have a stronger theoretical orientation and are based on a wider range of empirical data than those in the first edition. Readers in communication, social psychology, relationships, and related fields will find much of interest in this second edition. The volume will serve as a text for students in advanced coursework as well as a reference for practitioners interested in research-based conclusions regarding sex differences in communicative behavior.

*The Aftermath of Feminism* - Angela McRobbie 2008-11-20

In this trenchant inquiry into the state of feminism, Angela McRobbie breaks open the politics of sexual equality and 'affirmative feminism' and sets down a new theory of gender power. Challenging the most basic assumptions of the 'end' of feminism, this book argues that invidious forms of gender re-stabilisation are being re-established. Consumer and popular culture encroach on the terrain of so-called female freedom, appearing supportive of female success, yet tying women into new post-feminist neurotic dependencies. With a scathing critique of 'women's empowerment', McRobbie has developed a distinctive feminist analysis that she uses to examine socio-cultural phenomena

embedded in contemporary women's lives: from fashion photography and the television 'make-over' genre to eating disorders, body anxiety and 'illegible rage'. A turning point in feminist theory, *The Aftermath of Feminism* will set a new agenda for gender studies and cultural studies.

**Why So Slow?** - Virginia Valian 1999-01-07

Virginia Valian uses concepts and data from psychology, sociology, economics, and biology to explain the disparity in the professional advancement of men and women. Why do so few women occupy positions of power and prestige? Virginia Valian uses concepts and data from psychology, sociology, economics, and biology to explain the disparity in the professional advancement of men and women. According to Valian, men and women alike have implicit hypotheses about gender differences—gender schemas—that create small sex differences in characteristics, behaviors, perceptions, and evaluations of men and women. Those small imbalances accumulate to advantage men and disadvantage women. The most important consequence of gender schemas for professional life is that men tend to be overrated and women underrated. Valian's goal is to make the invisible factors that retard women's progress visible, so that fair treatment of men and women will be possible. The book makes its case with experimental and observational data from laboratory and field studies of children and adults, and with statistical documentation on men and women in the professions. The many anecdotal examples throughout provide a lively counterpoint.

*Rethinking Youth* - Rob White 2020-08-06  
Young people grow up in varied circumstances with different priorities and perspectives. While youth does not exist as a single group we need to understand what is happening in young people's lives. *Rethinking Youth* challenges the conventional wisdoms surrounding the position and opportunities of young people today and provides a systematic overview of the major perspectives in youth studies. The authors demonstrate how the concept of youth involves a tension between the social significance of age, which gives young people a common status, and the significance of social divisions. Drawing upon studies from different societies, they examine debates surrounding youth and economy, youth development, youth subcultures, youth transitions and youth marginalisation. *Rethinking Youth* offers a provocative critique of mainstream conceptions of youth, the programs and strategies designed for 'at risk' young people, and policy development in youth affairs. It calls for greater sensitivity to the complexities of youth, and greater emphasis on democracy and equality in dealing with the problems experienced by young people in a rapidly changing world. Johanna Wyn is Director of the

Youth Research Centre at the University of Melbourne. Rob White lectures in Criminology at the University of Melbourne.

*Things Fall Apart* - Chinua Achebe 2009-06-05  
*THINGS FALL APART* tells two overlapping, intertwining stories, both of which center around Okonkwo, a "strong man" of an Ibo village in Nigeria. The first of these stories traces Okonkwo's fall from grace with the tribal world in which he lives, and in its classical purity of line and economical beauty it provides us with a powerful fable about the immemorial conflict between the individual and society. The second story, which is as modern as the first is ancient, and which elevates the book to a tragic plane, concerns the clash of cultures and the destruction of Okonkwo's world through the arrival of aggressive, proselytizing European missionaries. These twin dramas are perfectly harmonized, and they are modulated by an awareness capable of encompassing at once the life of nature, human history, and the mysterious compulsions of the soul. *THINGS FALL APART* is the most illuminating and permanent monument we have to the modern African experience as seen from within.

*Gendered Lives* - Geoffrey Wood 1996

**Men and Women in Interaction** - Elizabeth Aries 1996-02-29

For many years the dominant focus in gender relations has been the differences between men and women. Authors such as Deborah Tannen (*You Just Don't Understand*) and John Gray (*Men are from Mars, Women are from Venus*) have argued that there are deep-seated and enduring differences between male and female personalities, styles, even languages. Elizabeth Aries sees the issue as more complex and dependent on several variables, among them the person's status, role, goals, conversational partners, and the characteristics of the situational context. Aries discusses why we emphasize the differences between the sexes, the ways in which these are exaggerated, and how we may be perpetuating the very stereotypes we wish to abandon. For psychologists and researchers of gender and communication, this book will illuminate recent studies in gender relations. For general readers it will offer a stimulating counterpoint to prevailing views.

*Difference Matters* - Brenda J. Allen 2010-07-19  
Allen's proven ability and flare for presenting complex and oftentimes sensitive topics in nonthreatening ways carry over in the latest edition of *Difference Matters*. Her down-to-earth analysis of six social identity categories reveals how communication establishes and enacts identity and power dynamics. She provides historical overviews to show how perceptions of gender, race, social class, sexuality, ability, and age have varied throughout time and place. Allen clearly explains pertinent theoretical perspectives and illustrates those and other discussions with real-life experiences (many of which are her own). She also offers practical guidance for how to communicate difference more humanely. While many examples are from organizational contexts, readers from a wide range of backgrounds can relate to them and appreciate their relevance. This eye-opening, vibrant text, suitable for use in a variety of disciplines, motivates readers to think about valuing difference as a positive, enriching feature of society. Interactive elements such as Spotlights on Media, I.D. Checks, Tool Kits, and Reflection Matters questions awaken interest, awareness, and creative insights for change.

**Gender in Communication** - Catherine Helen Palczewski 2017-11-28

*Gender in Communication: A Critical Introduction* embraces the full range of diverse gender identities and expressions to explore how gender influences communication, as well as how communication shapes our concepts of gender for the individual and for society. This comprehensive gender communication book is the first to extensively address the roles of religion, the gendered body, single-sex education, an institutional analysis of gender construction, social construction theory, and more. Throughout the book, you are equipped with critical analysis tools you can use to form your own conclusions about the ever-changing processes of gender in communication. New to the Third Edition: Current examples in the chapter openers illustrate how a critical gendered lens is necessary and useful by discussing recent events, such as Jon Stewart's critique of the outcry over a J. Crew ad, reactions to Serena Williams's body, photos of a young boy who likes to wear dresses, and the

use of Photoshop to create thigh gaps. Updated chapters on voices, work, education, and family reflect major shifts in the state of knowledge. Expanded sections on trans and gender non-conforming identities reflect changes in language. All other chapters have been updated with new examples, new concepts, and new research. More than 500 new sources have been integrated throughout, and new sections on debates over bathroom bills, intensive mothering, humor, swearing, and Title IX have been added. "His" and "her" pronouns have been replaced with "they" in most cases, even if the reference is singular, in an effort to be more inclusive.

**Gendered Lives** - Nadine T. Fernandez  
2022-01-01

A gender studies textbook that takes an anthropological approach. *Gendered Lives* takes a regional approach to examine gender issues from an anthropological perspective with a focus on globalization and intersectionality. Chapters present contributors' ethnographic research, contextualizing their findings within four geographic regions: Latin America, the Caribbean, South Asia, and the Global North. Each regional section begins with an overview of the broader historical, social, and gendered contexts, which situate the regions within larger global linkages. These introductions also feature short project/people profiles that highlight the work of community leaders or non-governmental organizations active in gender-related issues. Each research-based chapter begins with a chapter overview and learning objectives and closes with discussion questions and resources for further exploration. This modular, regional approach allows instructors to select the regions and cases they want to use in their courses. While they can be used separately, the chapters are connected through the book's central themes of globalization and intersectionality. Nadine T. Fernandez is Professor of Anthropology at the State University of New York Empire State College. She is the coeditor (with Christian Groes) of *Intimate Mobilities: Sexual Economies, Marriage and Migration in a Disparate World*. Katie Nelson is Instructor of Anthropology at Inver Hills Community College. She is the coeditor (with Beth Shook, Kelsie Aguilera, and Lara Braff) of *Explorations: An Open Invitation*

to Biological Anthropology.

*Discrimination by Design* - Leslie Weisman 1994  
*Discrimination by Design* is a fascinating account of the complex social processes and power struggles involved in building and controlling space. Leslie Kanés Weisman offers a new framework for understanding the spatial dimensions of gender and race as well as class. She traces the social and architectural histories of the skyscraper, maternity hospital, department store, shopping mall, nuclear family dream house, and public housing high rise. Her vivid prose is based on exhaustive research and documents how each setting, along with public parks and streets, embodies and transmits the privileges and penalties of social caste. In presenting feminist themes from a spatial perspective, Weisman raises many new and important questions. When do women feel unsafe in cities, and why? Why do so many homeless people prefer to sleep on the streets rather than in city-run shelters? Why does the current housing crisis pose a greater threat to women than to men? How would dwellings, communities, and public buildings look if they were designed to foster relationships of equality and environmental wholeness? And how can we begin to imagine such a radically different landscape? In exploring the answers, the author introduces us to the people, policies, architectural innovations, and ideologies working today to shape a future in which all people matter. Richly illustrated with photographs and drawings, *Discrimination by Design* is an invaluable and pioneering contribution to our understanding of the issues of our time--health care for the elderly and people with AIDS, homelessness, racial justice, changing conditions of work and family life, affordable housing, militarism, energy conservation, and the preservation of the environment. This thoroughly readable book provides practical guidance to policymakers, architects, planners, and housing activists. It should be read by all who are interested in understanding how the built environment shapes the experiences of their daily lives and the cultural assumptions in which they are immersed.

Since its first publication in 1998, Mary Talbot's **Language and Gender** has been a leading textbook, popular with students for its accessibility and with teachers for the range and depth it achieves in a single volume. An introductory section provides grounding in early 'classic' studies in the field. In the second section, Talbot examines language used by women and men in a variety of speech situations and genres. The last section considers the construction and performance of gender in discourse, reflecting the interest in mass media and popular culture found in recent research, as well as the preoccupation with social change that is central to Critical Discourse Analysis. Maintaining an emphasis on recent research, Talbot covers a range of approaches at an introductory level, lucidly presenting sometimes difficult and complex issues.
