Edges of Empire - Jocelyn Hackforth-Jones 2008-04-15

Edges of Empire is a timely reassessment of the history and legacy of Orientalist art and visual culture through its focus on the intersection between modernization, modernism and Orientalism. Covers indigenous art and agency, contemporary practices of collection and display, and a survey of key Orientalist tropes. Contains original essays on new perspectives for scholars and students of art history, architecture, museum studies and cultural and postcolonial studies. Highlights contested identities and new definitions of self through topics such as 19th century monuments to Empire, cultural cross-dressing, performance and display at the international exhibitions, and contemporary museological practice.

Exploring Criminal Justice - Robert M. Regoli 2007-12-28

Hailed as the most engaging and accessible introductory text available, Exploring Criminal Justice provides a clear, complete, and credible introduction to the U.S. criminal justice system. Using an easy-to-follow, attention-grabbing writing style, this text explains the overarching processes and purposes of the criminal justice system. The functions of each component—police, courts, corrections—and the relationships between them are described in detail while rich and captivating pedagogy encourages students to think about how each component affects their daily lives. This thoroughly up-to-date text provides contemporary data, case studies, and references for all topics. Exploring Criminal Justice devotes an entire chapter to the emerging crimes of terrorism and cybercrime and the role these controversial topics play in the modern criminal justice system. Special attention is also given to juvenile offenders and issues relating to women and minorities. In addition, this text provides thorough integration of criminological theory and policy as it presents both historical context and current features of the U.S. criminal justice system.

Narrative and Media - Rosemary Huisman 2006-01-26

Narrative and Media, first published in 2006, applies narrative theory to media texts, including film, television, radio, advertising, and print journalism. Drawing on research in structuralist and post-structuralist theory, as well as functional grammar and image analysis, the book explains the narrative techniques which shape media texts and offers interpretive tools for analysing meaning and ideology. Each section looks at particular media forms and shows how elements such as chronology, character, and focalization are realized in specific texts. As the boundaries between entertainment and information in the mass media continue to dissolve, understanding the ways in which modes of story-telling are seamlessly transferred from one medium to another, and the ideological implications of these strategies, is an essential aspect of media studies.

Tamed by Her - Ankita Andezhath 2021-04-07

"I never believed in love. I am happy the way my life is right now." Jake Ryan did not look for love nor did he need love in his life until he met Rose. Rose Thompson, an independent woman who had been burned by love once but still wishes to be in love. What will happen when two polar opposites meet? The only way to know what will happen in future is to let it unfold.

Wildest Hearts - Jayne Ann Krentz 2004-02-01

Annie Lyncroft knew her scheme was outrageous. She'd come to the elegant penthouse to meet Oliver Rain, the richest and possibly the most dangerous man in the Pacific Northwest. Annie needed this sensual, secretive corporate maverick for what she was about to propose. Marriage! With her brother Danny missing after a mysterious plane crash, Annie is struggling to protect his hot electronics company from the sharks who think he's not coming back. But fanciful, ethical Annie -- who usually runs a bizarre bric-a-brac shop knows Danny's alive, and she's determined to keep his company safe by putting his biggest investor at the helm. When Oliver actually says yes to the marriage of convenience, Annie dreamily envisions a few platonic weeks of helping him become a sensitive New Age guy. Oliver has a different plan; his cold, gorgeous eyes have been watching Annie, and he sees his chance to seduce the beautiful schemer. Love is the wild card destined to teach these two strong-willed opposites a lesson: icy control might run the business world, but all hell is about to break loose in the passionate territory of the heart.

High Line Nudes - 2016-05-10

From the foreword: "One of the High Line's powers is its ability to evoke time, to remind us of the changes we've experienced during our own lives, to bring forth echoes of the past, and to make us guess what life might be like years from now. I love the photos on these pages, because they have that power, too." --Joshua David, Co-Founder of the Friends of the High Line. Ten Avenues Press, in association with Friends of the High Line, announce the publication of High Line Nudes. In 2006, photographer Kevin McDermott took three of his friends up on the abandoned railroad tracks that would become New York City's High Line park to shoot a series of nudes. As McDermott states in his introduction, "at the time I took these photos, what I sought from its beauty was its sense of isolation, being alone, surrounded by nature in the middle of this metropolis." A decade later, this location is now one of the most visited tourist destinations in NYC and one of the largest real estate developments in the world. High Line Nudes captures a seemingly impossible, but beautiful moment in the history of the West Side Rail Yards, Chelsea and an ever changing New York City. The cloth hardcover book is beautifully printed in color and rich black and white duotone images.

Cross Breed - Lora Leigh 2019-03-26

Fans of #1 New York Times bestselling author Lora Leigh's scorching Breed series first met Cassie as a little girl in Elizabeth's Wolf. Now Cassie has finally come into her own as a young woman, and she's about to discover the one she is destined for—but it is unclear whether her fate is to be mated for life, or marked for

death... The Breeds are humans altered before conception with the DNA of the predators of Earth. But although they all carry the genetic material of beasts within them, Cassandra Sinclair stands apart. A unique mix of wolf, coyote and human, she is revered by many—but preyed upon by others. She is fiercely protected by her community...but no one manages to stop her when she slips away one day to offer her body in exchange for her sister's safety. The man she succumbs to surprises her by unleashing her inner animal in ways she never dreamed possible—and provokes her deep, furious rage. To Cassie's shock, he is the mate she has long awaited. She may never be able to forgive his deception. Still, as dangerous enemies track her, and as the threat of all-out war between Breeds and the humans who despise them hovers in the air, they must join forces and hold fast to each other. But the passionate union between them holds a potential that could change the world—and some will do anything to stop it...

Airplane Aerodynamics - Daniel Otto Dommasch 1957

The Original Dream - Nukila Amal 2017-01-01

For Maya, history is like a dream, and her dreams are like a history of her life and how it relates to others. Effortlessly defying and calling into question time and space, Maya inhabits fantastical realities filled with shamans, romantic longing, a daughter's struggles, and a flying dragon. Lyrically flowing between Maya's multiple realities, *The Original Dream* is the story of a young independent Indonesian woman trying to break free from cultural and social conventions while also searching for her place among family and friends. With guidance from her parents, coworkers, and sister, along with a newborn filled with the wisdom of elders, Maya navigates her perceptions, looking for answers to unknown questions. Whether soaring through the nighttime sky, caring for her nephew, or tending to guests at the hotel where she works, she tries to delineate the difference between dreams and reality and if such a difference even matters. "

Alphabeatz - Woshe 2019-08-20

Graffiti writing was born in the streets of Philadelphia in the late 1960s. But it was in New York in the early 1970s that it became a full-fledged urban art, gradually taking over the landscape of the city, from its walls to its subway cars. This is a writing manual, a detailed examination of how graffiti writers have developed the twenty-six letters of the alphabet. It includes the contribution of ten of the international scene's most talented creators answer Woshe's questions about matters that include their practice, their relationship with

letters and their backgrounds. It includes a map of New York with the sites where the most important graffiti are located.

Stuck in Paris - Nikki Khanna 2020-09

Riley Blakely and the remainder of Grandview High's french class is heading out on a school trip to Paris. The three weeks in Paris are supposed to be an 'educational opportunity' for this lot. But of course, these hormonal teenagers just cannot abide by the rules. The one rule set by their lovely Mr. Walker: You cannot room with somebody of the opposite gender. So what does this french class do? Room with the opposite gender, with a funny way of picking roommates. Chit picking. Because hormonal teenagers can just never get enough. Insert Asher West. Her not so secret annoying hater. It's a hate-hate relationship. He's the guy who picked Riley's name. He's the most popular guy in the freaking school and Riley? Not so much. Put the two together and you'll get a whole lot of arguments and awkward moments. They're roommates and they're stuck in Paris, the city of love and the city of lights

Plain Roots - Becki Willis 2018-11

Taryn Clark thought she'd outgrown the need to find her birth mother. She thought that a successful career and a comfortable life in the city were enough to be happy. Did she really need to know about the woman who had given her away? Adopted at birth, her first few years were happy. It hadn't mattered that she didn't know her heritage; she had parents who loved her and wanted her. But divorce, and then death, ripped their tiny family apart, and at the tender age of six, she entered the foster care system. Over the next dozen years, she shuffled from home to home. Finding her roots seemed an impossible dream. But dreams are resilient. An unexpected discovery awakens old yearnings of belonging to a family, of being part of something bigger than herself. Finding the brief, ambiguous note from her birth mother is enough to unfurl the ribbons of hope still binding her heart. Her quest takes her to Lancaster County, Pennsylvania and the heart of the Plain community. Aided by her unique eye color, a healthy dose of luck, and the private investigator she hires, Taryn finds her birth family easily enough, but finding the truth is another matter. In all her musings, she never imagined a scenario where her mother might be Amish. She never imagined that the fabric of her life might be a patchwork of faith and fear, stitched together with a dark family secret. Taryn is determined to trace her roots, even if it means digging in the mud to do so. Now she's caught in the quicksand of a shocking discovery and the consequences of choices made, almost forty years ago. She'll risk everything to uncover the truth and to claim the family--and the roots--she so desperately craves.

ACCT6007 - Eric Clubb 2013

Geoscience Education - Clara Vasconcelos 2016-11-14

This book presents research in Geoscience Education focusing on indoor and outdoor environments in which teaching geoscience gains particular relevance, significance and contextualization. The research areas that are presented throughout the thirteen chapters cover a wide variety of subjects ranging from educational resources and fieldwork to science models. Chapters discuss specific geoscience topics such as earthquakes, rocks, fossils and minerals. Other chapters present a more interdisciplinary approach addressing topics that aren't usually examined, such as geomedicine and geoethics, with a specific focus on sustainable development and their alignment with the school curricula. Throughout the book readers can find research-based arguments illustrated with practical examples, which will help them to innovate in their curriculum development area, classroom practices and pre and in-service teachers' education. The book challenges readers to improve Geoscience Education by changing the ways of teaching, by enabling students to exploit their natural curiosity, and by spurring a learning process that should not be confined to the classroom but rather maintained throughout life.

A Study of Sediment - Walenty Jarocki 1963

Hydrothermal Iron Oxide, Copper-gold & Related Deposits - T. Michael Porter 2002

The Greatest Game - Greg Rajaram 2021-04-15

Ever since humans became self-aware, we have struggled to find the meaning of life. The price we paid for becoming intelligent was to become painfully ignorant of the difference between good and evil. Adi, a 10-year-old boy, works together with two old philosophers as they try to unravel the prophecy of a promised King. With insatiable curiosity, Adi must work with the wise men as they rationalize with each other on why and how humans became intelligent. Together they attempt to answer some of the most profound questions related to existence. Does evolution end with human beings or is there an 'Overman' who can reach evolution's pinnacle? Will this Overman be able to define values for humankind? Centuries later a young boy promises his mother that he will always uphold the love that she has taught him. It is a promise that drowns him in the nectar of the gods. Krish grows up to be an engineer and joins a team of scientists as they try to create artificial consciousness in a machine. Krish soon realizes that he has a bigger fight on his hands. A fight to preserve love in a desolate world. His quest for true love ultimately leads him down a path where he comes face to face with a fearsome snake delivering a kiss of death. Humans have come a long way by questioning the nature of objects around us and pushing the limits of our intelligence, but it's now time that we ask the greatest question yet: when does intelligence transcend to become consciousness?

Horticultural Biotechnology - Horticultural Biotechnology Symposium 1990-05-29

It is now understood that biotechnology may hold the key to feeding the world through genetically engineered improvement of major agricultural crops. This work provides benchmarks of the current state of scientific development of horticultural biotechnology and also the increasing pace at which new applications from this field are being put to the test for commercial potential. The success of molecular genetic manipulation and tissue culture work in certain model systems such as the tomato and some ornamental flowers establishes a useful starting point for discussing the fundamental and applied aspects of plant biotechnology. Among the case studies presented are: gene transfer and isolation; genome structure; flower

development; biotic stress; abiotic stress; and commercial applications.

Photography Changes Everything - Marvin Heiferman 2012

Photography Changes Everything drawn from the online Smithsonian Photography Initiative offers a provocative rethinking of photography's impact on our culture and our lives. It is a reader-friendly exploration of the many ways photographs package information and values, demand and hold attention, and shape our knowledge of and experience in the world. At this transitional moment in visual culture, Photography Changes Everything provides a unique opportunity to better understand the history, practice, and power of photography. The publication harnesses the extraordinary visual assets of the Smithsonian Institutions museums, science centers, and archives to trigger an unprecedented and interdisciplinary dialogue about how photography does more than record the world how it shapes and changes every aspect of our experience of and in the world. The book features over three hundred images and nearly one hundred engaging short texts commissioned from experts, writers, inventors, public figures, and everyday folk Hugh Hefner, John Baldessari, John Waters, Robert Adams, Sandra Phillips, and others. Each story responds to images selected by project contributors. Together they engage readers in a timely exploration of the extent to which our lives have been transformed through our interactions with photographic imagery.
