Every Love Story Is a Ghost Story -
D. T. Max 2012-08-30
The acclaimed New York Times-bestselling biography and "emotionally detailed portrait of the artist as a young man" (Michiko Kakutani, *The New York Times*) In the first biography of the iconic David Foster Wallace, D.T. Max paints the portrait of a man, self-conscious, obsessive and struggling to find meaning. If Wallace was right when he declared he was "frightfully and thoroughly conventional," it is only because over the course of his short life and stunning career, he wrestled intimately and relentlessly with the fundamental anxiety of being human. In his characteristic lucid and quick-witted style, Max untangles Wallace's anxious sense of self, his volatile and sometimes abusive connection with women, and above all, his fraught relationship with fiction as he emerges with his masterpiece *Infinite Jest*. Written with the cooperation of Wallace's family and friends and with access to hundreds of unpublished letters, manuscripts and journals, this captivating biography unveils the life of the profoundly complicated man who gave voice to what we thought we could not say.

Hauntology - Merlin Coverley
2020-10-22

Ghosts and specters, the eerie and the occult. Why is contemporary culture so preoccupied by the supernatural, so captivated by the revenants of an earlier age, so haunted? The concept of Hauntology

has evolved since first emerging in the 1990s, and has now entered the cultural mainstream as a shorthand for our new-found obsession with the recent past. But where does this term come from and what exactly does it mean? This book seeks to answer these questions by examining the history of our fascination with the uncanny from the golden age of the Victorian ghost story to the present day. From Dickens to Derrida, MR James to Mark Fisher; from the rise of Spiritualism to the folk horror revival, Hauntology traces our continuing engagement with these esoteric ideas. Moving between the literary and the theoretical, the visual and the political, Hauntology explores our nostalgia for the cultural artifacts of a past from which we seem unable to break free.

River of Time - Naomi Judd 2016-12-06
Naomi Judd's life as a country music superstar has been nonstop success. But offstage, she has battled incredible adversity. Struggling through a childhood of harsh family secrets, the death of a young sibling, and absent emotional support, Naomi found herself reluctantly married and an expectant mother at age seventeen. Four years later, she was a single mom of two, who survived being beaten and raped, and was abandoned without any financial support and nowhere to turn in Hollywood, CA. Naomi has always been a survivor: She put herself through nursing school to support her young daughters, then took a courageous chance by moving to Nashville to pursue their fantastic dream of careers in country music. Her leap of faith paid off, and Naomi and her daughter Wynonna became The Judds, soon ranking with country music's biggest stars, selling more than 20 million records and winning six Grammys. At the height of the singing duo's popularity, Naomi was given three years to live after being diagnosed with the previously incurable Hepatitis C. Miraculously, she overcame that too and was pronounced completely cured five years later. But Naomi was still to face her most desperate fight yet. After finishing a tour with Wynonna

in 2011, she began a three-year battle with Severe Treatment Resistant Depression and anxiety. She suffered through frustrating and dangerous roller-coaster effects with antidepressants and other drugs, often terrifying therapies and, at her absolute lowest points, thoughts of suicide. But Naomi persevered once again. RIVER OF TIME is her poignant message of hope to anyone whose life has been scarred by trauma.

Undoing Depression - Richard O'Connor
2021-09-28

The bestselling approachable guide that has inspired thousands of readers to manage or overcome depression - fully revised and updated for life in the 21st century. Depression rates around the world have skyrocketed in the 20-plus years since Richard O'Connor first published his classic book on living with and overcoming depression. Nearly 40 million American adults suffer from the condition, which affects nearly every aspect of life, from relationships, to job performance, physical health, productivity, and, of course, overall happiness. And in an increasingly stressful and overwhelming world, it's more important than ever to understand the causes and effects of depression, and what we can do to overcome it. In this fully revised and updated edition - which includes updated information on the power of mindfulness, the relationship between depression and other diseases, the risks and side effects of medication, depression's effect on thinking, and the benefits of exercise - Dr. O'Connor explains that, like heart disease and other physical conditions, depression is fueled by complex and interrelated factors: genetic, biochemical, environmental. But Dr. O'Connor focuses on an additional factor that is often overlooked: our own habits. Unwittingly we get good at depression. We learn how to hide it, and how to work around it. We may even achieve great things, but with constant struggle rather than satisfaction. Relying on these methods to make it through each day, we deprive ourselves of true

recovery, of deep joy and healthy emotion. *Undoing Depression* teaches us how to replace depressive patterns with a new and more effective set of skills. We already know how to "do" depression—and we can learn how to undo it. With a truly holistic approach that synthesizes the best of the many schools of thought about this painful disease, and a critical eye toward medications, O'Connor offers new hope—and new life—for sufferers of depression.

Motherthing - Ainslie Hogarth
2022-09-27

A darkly funny take on mothers and daughters, about a woman who must take drastic measures to save her husband and herself from the vengeful ghost of her mother-in-law "Ainslie Hogarth's new novel is a stunner. Like Mona Awad's *Bunny* or Otessa Moshfegh's *Eileen*, *Motherthing* is a fabulous, frightening story built from fine, fine prose."—Laird Hunt, author of *Zorrie* When Ralph and Abby Lamb move in with Ralph's mother, Laura, Abby hopes it's just what she and her mother-in-law need to finally connect. After a traumatic childhood, Abby is desperate for a mother figure, especially now that she and Ralph are trying to become parents themselves. Abby just has so much love to give—to Ralph, to Laura, and to Mrs. Bondy, her favorite resident at the long-term care home where she works. But Laura isn't interested in bonding with her daughter-in-law. She's venomous and cruel, especially to Abby, and life with her is hellish. When Laura takes her own life, her ghost haunts Abby and Ralph in very different ways: Ralph is plunged into depression, and Abby is terrorized by a force intent on destroying everything she loves. To make matters worse, Mrs. Bondy's daughter is threatening to move Mrs. Bondy from the home, leaving Abby totally alone. With everything on the line, Abby comes up with a chilling plan that will allow her to keep Mrs. Bondy, rescue Ralph from his tortured mind, and break Laura's hold on the family for good. All it requires is a little ingenuity, a lot of determination, and a unique recipe for chicken à la king.. A VINTAGE

Hontology - Mark Payne 2018-05-25
Jacques Derrida's *Specters of Marx* has had an enormous influence on recent thought about the fate of human capabilities in late

capitalism, especially in Europe. *Hontology* explores a road not taken in *Specters of Marx* - the idea that shame is the route by which we access the capabilities for living that are abrogated in modernity. More particularly still, the book considers the loss of the New World as an horizon in which these abrogated capabilities were still in play, and the inhabitants of the New World as presenting forms of life before which Europeans felt shame in comparison with their own. Finally, the book discusses what might take the place of the New World now that its productive horizon of shame has receded from view.

The Memeing of Mark Fisher - Mike
Watson 2021-09-24

The Frankfurt School meets Fisher in this critique of capitalism incorporating memes, mental illness and psychedelia into a proposed counterculture. Spring 2020 to 2021 was the year that did not take place. We witnessed a depression, not economically speaking, but in the psychological sense: A clinical depression of and by society itself. This depression was brought about not just by Covid isolation, but by the digital economy, fueled by social media and the meme. In the aftermath, this book revisits the main Frankfurt School theorists, Adorno, Horkheimer, Benjamin and Marcuse, who worked in the shadow of World War Two, during the rise of the culture industry. In examining their thoughts and drawing parallels with Fisher's *Capitalist Realism*, *The Memeing of Mark Fisher* aims to render the Frankfurt School as an incisive theoretical toolbox for the post-Covid digital age. Taking in the phenomena of QAnon, twitch streaming, and memes it argues that the dichotomy between culture and political praxis is a false one. Finally, as more people have access to the means for theoretical and cultural broadcasting, it is urged that the online left uses that access to build a real life cultural and political movement.

The Noonday Demon - Andrew Solomon
2014-09-16

The author offers a look at depression, drawing on his own battle

Against Depression - Peter D. Kramer
2006-07-25

In his landmark bestseller *Listening to Prozac*, Peter Kramer revolutionized the way we think about antidepressants and the culture in which they are so widely used. Now Kramer offers a frank and unflinching look at the condition those medications treat: depression. Definitively refuting our notions of "heroic melancholy," he walks readers through groundbreaking new research—studies that confirm depression's status as a devastating disease and suggest pathways toward resilience. Thought-provoking and enlightening, *Against Depression* provides a bold revision of our understanding of mood disorder and promises hope to the millions who suffer from it.

A Great and Terrible World - Antonio Gramsci 2014

This edition of letters by Antonio Gramsci vividly evokes the 'great and terrible world' in which he lived.

Postcapitalist Desire - Mark Fisher
2020-09-22

A collection of transcripts from Mark Fisher's final series of lectures at Goldsmiths, University of London, in late 2016. Edited with an introduction by Matt Colquhoun, this collection of lecture notes and transcriptions reveals acclaimed writer and blogger Mark Fisher in his element -- the classroom -- outlining a project that Fisher's death left so bittersweetly unfinished. Beginning with that most fundamental of questions -- "Do we really want what we say we want?" -- Fisher explores the relationship between desire and capitalism, and wonders what new forms of desire we might still excavate from the past, present, and future. From the emergence and failure of the counterculture in the 1970s to the continued development of his left-accelerationist line of thinking, this volume charts a tragically interrupted course for thinking about the raising of a new

kind of consciousness, and the cultural and political implications of doing so. For Fisher, this process of consciousness raising was always, fundamentally, psychedelic -- just not in the way that we might think...

The Ghost in the House - Tracy Thompson 2009-10-13

An award-winning reporter for the *Washington Post*, Tracy Thompson was thirty-four when she was hospitalized and put on suicide watch during a major depressive episode. This event, the culmination of more than twenty years of silent suffering, became the point of departure for an in-depth, groundbreaking book on depression and her struggle with the disease. The *Beast* shattered stereotypes and inspired countless readers to confront their own battles with mental illness. Having written that book, and having found the security of a happy marriage, Thompson assumed that she had learned to manage her illness. But when she took on one of the most emotionally demanding jobs of all—being a mother—depression returned with fresh vengeance. Very quickly Thompson realized that virtually everything she had learned up to then about dealing with depression was now either inadequate or useless. In fact, maternal depression was a different beast altogether. She tackled her problem head-on, meticulously investigating the latest scientific research and collecting the stories of nearly 400 mothers with depression. What she found was startling: a problem more widespread than she or any other mother struggling alone with this affliction could have imagined. Women make up nearly 12 million of the 19 million Americans affected by depression every year, experiencing episodes at nearly twice the rate that men do. Women suffer most frequently between the ages of twenty-five and forty-four—not coincidentally, the primary childbearing years. *The Ghost in the House*, the result of Thompson's extensive studies, is the first book to address maternal depression as a lifelong illness that can have profound ramifications for mother and child. A striking blend of memoir and

journalism, here is an invaluable resource for the millions of women who are white-knuckling their way through what should be the most satisfying years of their lives. Thompson offers her readers a concise summary of the cutting-edge research in this field, deftly written prose, and, above all, hope.

No Longer Human - 1958

A young man describes his torment as he struggles to reconcile the diverse influences of Western culture and the traditions of his own Japanese heritage.

Ghosts of My Life - Mark Fisher

2014-05-30

This collection of writings by Mark Fisher, author of the acclaimed *Capitalist Realism*, argues that we are haunted by futures that failed to happen. Fisher searches for the traces of these lost futures in the work of David Peace, John Le Carré, Christopher Nolan, Joy Division, *Burial* and many others.

Specters of Marx - Jacques Derrida

2012-10-12

Prodigiously influential, Jacques Derrida gave rise to a comprehensive rethinking of the basic concepts and categories of Western philosophy in the latter part of the twentieth century, with writings central to our understanding of language, meaning, identity, ethics and values. In 1993, a conference was organized around the question, 'Whither Marxism?', and Derrida was invited to open the proceedings. His plenary address, 'Specters of Marx', delivered in two parts, forms the basis of this book. Hotly debated when it was first published, a rapidly changing world and world politics have scarcely dented the relevance of this book.

Why I Jumped - Tina Zahn 2008-03-01

On July 19, 2004, an amazing story, accompanied by incredible police camera video footage, broke across network and cable news programs. After a high-speed chase to the top of Leo Frigo Memorial Bridge in Green Bay, Wisconsin, a young woman stopped, stepped out of her car, walked to the edge of the bridge--and jumped. State trooper Les Boldt raced over, thrust out his hand, and in a miracle of timing and determination,

snagged the woman's wrist as she started the plunge. Other officers ran to his aid, and they pulled the woman to safety while the on-dash police cam captured the action. That woman on the edge was Tina Zahn, and in *Why I Jumped* she tells her story. In this gripping book, now available in paperback, Zahn gives readers a look at what led to such severe depression that suicide seemed the only answer. Readers won't be able to put down this powerful true story of crippling depression, dramatic rescue, and a return to hope.

Babbling Corpse - Grafton Tanner

2016-06-24

In the age of global capitalism, vaporwave celebrates and undermines the electronic ghosts haunting the nostalgia industry. Ours is a time of ghosts in machines, killing meaning and exposing the gaps inherent in the electronic media that pervade our lives. Vaporwave is an infant musical micro-genre that foregrounds the horror of electronic media's ability to appear - as media theorist Jeffrey Sconce terms it - "haunted."

Experimental musicians such as INTERNET CLUB and MACINTOSH PLUS manipulate Muzak and commercial music to undermine the commodification of nostalgia in the age of global capitalism while accentuating the uncanny properties of electronic music production. *Babbling Corpse* reveals vaporwave's many intersections with politics, media theory, and our present fascination with uncanny, co(s)mic horror. The book is aimed at those interested in global capitalism's effect on art, musical raids on mainstream "indie" and popular music, and anyone intrigued by the changing relationship between art and commerce.

The Ghosts We Keep - Mason Deaver

2021-06-01

Everything happens for a reason. At least that's what everyone keeps telling Liam Cooper after his older brother Ethan is killed suddenly in a hit-and-run. Feeling more alone and isolated than ever, Liam has to not only learn to face the world without one of the people he loved the most, but also face the fading

relationships of his two best friends in the process. Soon, Liam finds himself spending time with Ethan's best friend, Marcus, who might just be the only person that seems to know exactly what they're going through—for better and for worse. *The Ghosts We Keep* is an achingly honest portrayal of grief. But it is also about why we live. Why we have to keep moving on, and why we should. *Walking with Ghosts* - Gabriel Byrne 2021-01-12

A highly anticipated memoir by Gabriel Byrne, the award-winning star of over 80 films, *Walking with Ghosts* is an exquisite portrait of an Irish childhood and a remarkable journey to Hollywood and Broadway success. "Make no mistake about it: *Walking with Ghosts* is a masterpiece. A book that will wring out our tired hearts. It is by turns poetic, moving, and very funny. You will find it on the shelf alongside other great Irish memoirs including those by Frank McCourt, Nuala O'Faolain and Edna O'Brien." —Colum McCann As a young boy growing up in the outskirts of Dublin, Gabriel Byrne sought refuge in a world of imagination among the fields and hills near his home, at the edge of a rapidly encroaching city. Born to working class parents and the eldest of six children, he harbored a childhood desire to become a priest. When he was eleven years old, Byrne found himself crossing the Irish Sea to join a seminary in England. Four years later, Byrne had been expelled and he quickly returned to his native city. There he took odd jobs as a messenger boy and a factory laborer to get by. In his spare time, he visited the cinema where he could be alone and yet part of a crowd. It was here that he could begin to imagine a life beyond the grey world of 60s Ireland. He reveled in the theatre and poetry of Dublin's streets, populated by characters as eccentric and remarkable as any in fiction, those who spin a yarn with acuity and wit. It was a friend who suggested Byrne join an amateur drama group, a decision that would change his life forever and launch him on an extraordinary forty-year career in film and theatre. Moving between

sensual recollection of childhood in a now almost vanished Ireland and reflections on stardom in Hollywood and Broadway, Byrne also courageously recounts his battle with addiction and the ambivalence of fame. *Walking with Ghosts* is by turns hilarious and heartbreaking as well as a lyrical homage to the people and landscapes that ultimately shape our destinies. **The Death of the Family** - David Graham Cooper 1971-01-01

Dust in the Blood - Jessica Coblentz 2022-01-15

Dust in the Blood considers the harrowing realities of life with depression from a Christian theological perspective. In conversation with popular Christian theologies of depression that justify why this suffering exists and prescribe how people ought to relate to it, Coblentz offers another Christian approach to this condition: she reflects on depression as a wilderness experience. Weaving first-person narratives of depression, contemporary theologies of suffering, and ancient biblical tales of the wilderness, especially the story of Hagar, Coblentz argues for and contributes to an expansion of Christian ideas about what depression is, how God relates to it, and how Christians should understand and respond to depression in turn.

Nineteen Seventy-seven - David Peace 2010-03-16

David Peace's acclaimed *Red Riding Quartet* continues with this exhilarating follow-up to *Nineteen Seventy-Four*. It's summer in Leeds and the city is anxiously awaiting the Jubilee of Queen Elizabeth's reign. Detective Bob Fraser and Jack Whitehead, a reporter at the *Post*, however, have other things on their minds—mainly the fact that someone is murdering prostitutes. The killer is quickly dubbed the "Yorkshire Ripper" and each man, on their own, works tirelessly to catch him. But their investigations turn grisly as they each engage in affairs with the prostitutes they are supposedly protecting. As the summer progresses, the killings accelerate and it seems as if Fraser and Whitehead are the

only men who suspect or care that there may be more than one killer at large.

Lost Futures - Lisa Tuttle 2013-04-04
Shortlisted for the Arthur C. Clarke Award and the James Tiptree Jr. Award, this literary science-fiction novel by award-winning author Lisa Tuttle is 'a brilliant exploration of the relationship between quantum mechanics, human choice and alternate worlds' The Oxford Times Sometimes, those roads not taken can come back and haunt you. Clare's unhappy life hasn't gone the way she expected. At the age of thirty-three she's still an accountant, still unmarried and ridden with guilt over the tragic death of her brother. Her obsession with roads not taken drives her into a nervous breakdown, until she comes to realise that she can leave her unsatisfactory "real life" behind and enter alternate realities where things worked out better. But when she explores these other existences, she discovers they are far from the perfect lives she was imagining, and wherever she turns, another Clare usurps her own existence, until she is forced into the ultimate confrontation with madness - and truth . . .

Flatline Constructs - Mark Fisher 2018-02
Donna Haraway's celebrated observation that "our machines are disturbingly lively, while we ourselves are frighteningly inert" has given this issue a certain currency in contemporary cyber-theory. But what is interesting about Haraway's remark - its challenge to the oppositional thinking that sets up free will against determinism, vitalism against mechanism - has seldom been processed by a mode of theorizing which has tended to reproduce exactly the same oppositions. These theoretical failings, it will be argued here, arise from a resistance to pursuing cybernetics to its limits (a failure evinced as much by cyberneticists as by cultural theorists, it must be added). Unraveling the implications of cybernetics, it will be claimed, takes us out to the Gothic flatline. The Gothic flatline designates a zone

of radical immanence. And to theorize this flatline demands a new approach, one committed to the theorization of immanence. This thesis calls that approach Gothic Materialism.

The Weird and the Eerie - Mark Fisher 2017-01-31

A noted British cultural critic takes on some of the strangest works of art from the 20th century and dissects our fascination with the unsettling in popular music, film, and writing. What exactly are the Weird and the Eerie? Two closely related but distinct modes, and each possesses its own distinct properties. Both have often been associated with Horror, but this genre alone does not fully encapsulate the pull of the outside and the unknown. In several essays, Mark Fisher argues that a proper understanding of the human condition requires examination of transitory concepts such as the Weird and the Eerie. Featuring discussion of the works of: H. P. Lovecraft, H. G. Wells, M.R. James, Christopher Priest, Joan Lindsay, Nigel Kneale, Daphne Du Maurier, Alan Garner and Margaret Atwood, and films by Stanley Kubrick, Jonathan Glazer and Christopher Nolan.

The Yellow Wallpaper - Charlotte Perkins Gilman 2018-02-03
This short story is regarded as an important early work of American feminist literature, due to its illustration of the attitudes towards mental and physical health of women in the 19th century. Narrated in the first person, the story is a collection of journal entries written by a woman whose physician husband (John) has rented an old mansion for the summer. Forgoing other rooms in the house, the couple moves into the upstairs nursery. As a form of treatment, the unnamed woman is forbidden from working, and is encouraged to eat well and get plenty of air, so she can recuperate from what he calls a "temporary nervous depression - a slight hysterical tendency", a diagnosis common to women during that period.

Capitalist Realism - Mark Fisher 2009-11-27
After 1989, capitalism has successfully presented itself as the

only realistic political-economic system - a situation that the bank crisis of 2008, far from ending, actually compounded. The book analyses the development and principal features of this capitalist realism as a lived ideological framework. Using examples from politics, films, fiction, work and education, it argues that capitalist realism colours all areas of contemporary experience. But it will also show that, because of a number of inconsistencies and glitches internal to the capitalist reality program capitalism in fact is anything but realistic.

Manufacturing Depression - Gary Greenberg 2010-02-02

Am I depressed or just unhappy? In the last two decades, antidepressants have become staples of our medicine cabinets—doctors now write 120 million prescriptions annually, at a cost of more than 10 billion dollars. At the same time, depression rates have skyrocketed; twenty percent of Americans are now expected to suffer from it during their lives. Doctors, and drug companies, claim that this convergence is a public health triumph: the recognition and treatment of an under-diagnosed illness. Gary Greenberg, a practicing therapist and longtime depressive, raises a more disturbing possibility: that the disease has been manufactured to suit (and sell) the cure. Greenberg draws on sources ranging from the Bible to current medical journals to show how the idea that unhappiness is an illness has been packaged and sold by brilliant scientists and shrewd marketing experts—and why it has been so successful. Part memoir, part intellectual history, part exposé—including a vivid chronicle of his participation in a clinical antidepressant trial—Manufacturing Depression is an incisive look at an epidemic that has changed the way we have come to think of ourselves.

The Girl from Human Street - Roger Cohen 2015-01-13

An intimate and profoundly moving Jewish family history—a story of displacement, prejudice, hope, despair, and love. In this luminous

memoir, award-winning New York Times columnist Roger Cohen turns a compassionate yet discerning eye on the legacy of his own forebears. As he follows them across continents and decades, mapping individual lives that diverge and intertwine, vital patterns of struggle and resilience, valued heritage and evolving loyalties (religious, ethnic, national), converge into a resonant portrait of cultural identity in the modern age. Beginning in the nineteenth century and continuing through to the present day, Cohen tracks his family's story of repeated upheaval, from Lithuania to South Africa, and then to England, the United States, and Israel. It is a tale of otherness marked by overt and latent anti-Semitism, but also otherness as a sense of inheritance. We see Cohen's family members grow roots in each adopted homeland even as they struggle to overcome the loss of what is left behind and to adapt—to the racism his parents witness in apartheid-era South Africa, to the familiar ostracism an uncle from Johannesburg faces after fighting against Hitler across Europe, to the ambivalence an Israeli cousin experiences when tasked with policing the occupied West Bank. At the heart of The Girl from Human Street is the powerful and touching relationship between Cohen and his mother, that "girl." Tortured by the upheavals in her life yet stoic in her struggle, she embodies her son's complex inheritance. Graceful, honest, and sweeping, Cohen's remarkable chronicle of the quest for belonging across generations contributes an important chapter to the ongoing narrative of Jewish life. *Self-portrait with Ghosts* - Kelly Dwyer 1999

In a follow-up to "The Tracks of Angels", Dwyer tells the story of the life and death of a man who grows tired of living, and whose suicide profoundly affects, and changes, the family he leaves behind.

Ghosts of the Tsunami - Richard Lloyd Parry 2017-10-24

Named one of the best books of 2017 by The Guardian, NPR, GQ, The Economist, Bookforum, Amazon, and Lit

Hub The definitive account of what happened, why, and above all how it felt, when catastrophe hit Japan—by the Japan correspondent of The Times (London) and author of *People Who Eat Darkness* On March 11, 2011, a powerful earthquake sent a 120-foot-high tsunami smashing into the coast of northeast Japan. By the time the sea retreated, more than eighteen thousand people had been crushed, burned to death, or drowned. It was Japan's greatest single loss of life since the atomic bombing of Nagasaki. It set off a national crisis and the meltdown of a nuclear power plant. And even after the immediate emergency had abated, the trauma of the disaster continued to express itself in bizarre and mysterious ways. Richard Lloyd Parry, an award-winning foreign correspondent, lived through the earthquake in Tokyo and spent six years reporting from the disaster zone. There he encountered stories of ghosts and hauntings, and met a priest who exorcised the spirits of the dead. And he found himself drawn back again and again to a village that had suffered the greatest loss of all, a community tormented by unbearable mysteries of its own. What really happened to the local children as they waited in the schoolyard in the moments before the tsunami? Why did their teachers not evacuate them to safety? And why was the unbearable truth being so stubbornly covered up? *Ghosts of the Tsunami* is a soon-to-be classic intimate account of an epic tragedy, told through the accounts of those who lived through it. It tells the story of how a nation faced a catastrophe, and the struggle to find consolation in the ruins.

Post-Punk Then and Now - Sue Clayton
2016-09-13

What were the conditions of possibility for art and music-making before the era of neoliberal capitalism? What role did punk play in turning artists to experiment with popular music in the late 1970s and early 1980s? And why does the art and music of these times seem so newly pertinent to our political present, despite the seeming remoteness of its historical moment? Focusing upon the production of post-punk art, film, music, and publishing, this book offers new perspectives on an overlooked period of cultural activity, and probes the lessons that might be learnt from history for artists and musicians working under 21st century conditions of austerity. Contemporary reflections by those who shaped avant-garde and contestatory culture in the UK, US, Brazil and Poland in the 1970s and 1980s. Alongside these are contributions by contemporary artists, curators and scholars that provide critical perspectives on post-punk then, and its generative relation to the aesthetics and politics of cultural production today.

Unholy Ghost - Nell Casey 2002-01-08
Unholy Ghost is a unique collection of essays about depression that, in

the spirit of William Styron's *Darkness Visible*, finds vivid expression for an elusive illness suffered by more than one in five Americans today. Unlike any other memoir of depression, however, *Unholy Ghost* includes many voices and depicts the most complete portrait of the illness. Lauren Slater eloquently describes her own perilous experience as a pregnant woman on antidepressant medication. Susanna Kaysen, writing for the first time about depression since *Girl, Interrupted*, criticizes herself and others for making too much of the illness. Larry McMurtry recounts the despair that descended after his quadruple bypass surgery. Meri Danquah describes the challenges of racism and depression. Ann Beattie sees melancholy as a consequence of her writing life. And Donald Hall lovingly remembers the "moody seesaw" of his relationship with his wife, Jane Kenyon. The collection also includes an illuminating series of companion pieces. Russell Banks's and Chase Twichell's essays represent husband-and-wife perspectives on depression; Rose Styron's contribution about her husband's struggle with melancholy is paired with an excerpt from William Styron's *Darkness Visible*; and the book's editor, Nell Casey, juxtaposes her own essay about seeing her sister through her depression with Maud Casey's account of this experience. These companion pieces portray the complicated bond -- a constant grasp for mutual understanding forged by depressives and their family members. With an introduction by Kay Redfield Jamison, *Unholy Ghost* allows the bewildering experience of depression to be adequately and beautifully rendered. The twenty-two stories that make up this book will offer solace and enlightenment to all readers.

This Close to Happy - Daphne Merkin
2017-02-07

A New York Times Book Review Favorite Read of 2016 "Despair is always described as dull," writes Daphne Merkin, "when the truth is that despair has a light all its own, a lunar glow, the color of mottled silver." *This Close to Happy*—Merkin's rare, vividly personal account of

what it feels like to suffer from clinical depression—captures this strange light. Daphne Merkin has been hospitalized three times: first, in grade school, for childhood depression; years later, after her daughter was born, for severe postpartum depression; and later still, after her mother died, for obsessive suicidal thinking. Recounting this series of hospitalizations, as well as her visits to myriad therapists and psychopharmacologists, Merkin fearlessly offers what the child psychiatrist Harold Koplewicz calls "the inside view of navigating a chronic psychiatric illness to a realistic outcome." The arc of Merkin's affliction is lifelong, beginning in a childhood largely bereft of love and stretching into the present, where Merkin lives a high-functioning life and her depression is manageable, if not "cured." "The opposite of depression," she writes with characteristic insight, "is not a state of unimaginable happiness . . . but a state of relative all-rightness." In this dark yet vital memoir, Merkin describes not only the harrowing sorrow that she has known all her life, but also her early, redemptive love of reading and gradual emergence as a writer. Written with an acute understanding of the ways in which her condition has evolved as well as affected those around her, *This Close to Happy* is an utterly candid coming-to-terms with an illness that many share but few talk about, one that remains shrouded in stigma. In the words of the distinguished psychologist Carol Gilligan, "It brings a stunningly perceptive voice into the forefront of the conversation about depression, one that is both reassuring and revelatory."
