No Good Deed - John Niven 2018-06-14
Now available for preorder- KILL 'EM ALL, the stunning sequel to KILL YOUR FRIENDS The viciously funny novel by John Niven, bestselling author of Kill Your Friends and Straight White Male. What do you do when a homeless man knows your name? How about when he turns out to be a friend you haven't seen in twenty years? Do you treat him to a hot meal and see him on his way? Give him a wad of middle-class guilt money? Or take him in and get him back on his feet? For Alan, there's no question - only natural that he'd want to see his old mate Craig off the streets, even if only for a few nights, and into some clean clothes. But what if the successful life you've made for yourself - good job, happy marriage, lovely kids, grand Victorian house (you did well out of the property boom, thank you very much) - is one

that that your old pal would quite like to have too? Even if it means taking it from you? Following the divergent lives of two childhood friends, No Good Deed is a funny and painful examination of friendship, the strange currents of ambition, loathing, pity and affection that flow between people over the decades, and of men getting older as they fail and succeed.

Upon that Mountain - Eric Shipton
2015-08-25

Upon that Mountain is the first autobiography of the mountaineer and

explorer Eric Shipton. In it, he describes all his pre-war climbing, including his Everest bids of the 1930s, and his second Karakoram survey in 1939, when he returned to Snow Lake to complete the mapping of the ranges flanking the Hispar and Choktoi glacier systems around the Ogre. Crossing great swathes of the Himalaya, the book, like so many of Shipton's works, is both entertaining and an important addition to the mountain literature genre. It captures an important period in mountaineering history - that just before the Second World War - and ends on an elegiac note as Shipton describes his last evening at the starkly-beautiful snow lake, before he returns to a 'civilisation' about to embark on a cataclysmic war.

The Challenge of Antarctica - Eleanor Honnywill 1984

Winter is Coming - Carolyne Larrington 2017-09-07

Game of Thrones is a phenomenon. As Carolyne Larrington reveals in this essential companion to George R R Martin's fantasy novels and the HBO mega-hit series based on them the show is the epitome of water-cooler TV. It is the subject of intense debate in national newspapers; by PhD students asking why Westeros has yet to see an industrial revolution, or whether astronomy explains the continent's climatic problems and unpredictable solstices ('winter is

coming'); and by bloggers and cultural commentators contesting the series' startling portrayals of power, sex and gender. Yet no book has divulged how George R R Martin constructed his remarkable universe out of the Middle Ages. Discussing novels and TV series alike, Larrington explores among other topics: sigils, giants, dragons and direwolves in medieval texts; ravens, old gods and the Weirwood in Norse myth; and a gothic, exotic orient in the eastern continent, Essos. From the White Walkers to the Red Woman, from Casterly Rock to the Shivering Sea, this is an indispensable guide to the twenty-first century's most important fantasy creation.

The Politics of Nation-Building -

Harris Mylonas 2013-02-18

What drives a state's choice to assimilate, accommodate or exclude ethnic groups within its territory? In this innovative work on the international politics of nation-building, Harris Mylonas argues that a state's nation-building policies toward non-core groups - individuals perceived as an ethnic group by the ruling elite of a state - are influenced by both its foreign policy goals and its relations with the external patrons of these groups. Through a detailed study of the Balkans, Mylonas shows that how a state treats a non-core group within its own borders is determined largely by whether the state's foreign policy is revisionist or cleaves to the international status quo, and whether it is allied or in rivalry with that group's external patrons. Mylonas

injects international politics into the study of nation-building, building a bridge between international relations and the comparative politics of ethnicity and nationalism.
