The Third Industrial Revolution - Jeremy Rifkin 2011-10-04

The Industrial Revolution, powered by oil and other fossil fuels, is spiraling into a dangerous endgame. The price of gas and food are climbing, unemployment remains high, the housing market has tanked, consumer and government debt is soaring, and the recovery is slowing. Facing the prospect of a second collapse of the global economy, humanity is desperate for a sustainable economic game plan to take us into the future. Here, Jeremy Rifkin explores how Internet technology and renewable energy are merging to create a powerful "Third Industrial Revolution." He asks us to imagine hundreds of millions of people producing their own green energy in their homes, offices, and factories, and sharing it with each other in an "energy internet," just like we now create and share information online. Rifkin describes how the five-pillars of the Third Industrial Revolution will create thousands of businesses, millions of jobs, and usher in a fundamental reordering of human relationships, from hierarchical to lateral power, that will impact the way we conduct commerce, govern society, educate our children, and engage in civic life. Rifkin's vision is already gaining traction in the international community. The European Union Parliament has issued a formal declaration calling for its implementation, and other nations in Asia, Africa, and the Americas, are quickly preparing their own initiatives for transitioning into the new economic paradigm. The Third Industrial Revolution is an insider's account of the next great economic era, including a look into the personalities and players – heads of state, global CEOs, social entrepreneurs, and NGOs – who are pioneering its implementation around the world.

The Fall of the University of Cape Town - David Benatar 2021-11-09

Destructive forces have been eroding the University of Cape Town, Africa's leading university. This book tells the sad, true tale of what has been transpiring. It is a saga of lunacy, criminality, pandering, and identity politics. The mad and the bad - the deranged, deluded, the depraved - have been granted endless latitude in bullying and abusing others. The decline began in 2015 with the Rhodes Must Fall protest that resulted in the offending statue's removal within a month, and which spawned similar protests abroad. Emboldened by their local success, the protestors issued new and ever-increasing demands later that year and then again in 2016 and 2017. Their methods also became criminal - including intimidation, assault, and arson. The university leadership capitulated to this behaviour, and this fostered a broader and now pervasive toxic environment within the institution. These developments offer important lessons for universities around the world that are yielding to the forces of a faux "progressivism".

People of the Eland - Patricia Vinnicombe 2009

First published in 1976, *People of the Eland* was the first major step away from the outsiders view upon San rock art that had dominated studies of rock art for nearly a century. The book provides an account of the rock art of the Drakensberg Range and historical information on the mountain San themselves. The book aims to gain an insiders view of the rock art using San understandings of the world. While following this approach, it quickly became clear to Patricia Vinnicombe that the art was very far from simple depictions of daily life as had once seemed likely, but instead reflected the most deeply held San beliefs and symbols. This approach and this understanding has now become the standard for all those working with San rock art. Whilst this early knowledge of San art has been built upon considerably since 1976, *People of the Eland* remains a cornerstone of our current understanding. Reprinted here in full color, with the original artwork and photographs, *People of the Eland* remains a seminal work, the impact of which cannot be underestimated.

Mindf**k - Fanie Viljoen 2010-05-26

Set in South Africa, MindF**k is a powerful, disturbing, and at times frightening story. Chris Burns, and his friends - Kerbs and Sky Eyes - take to the road, heading for the MindF**k rock festival. Along the way they pick up the gorgeous Partygirl. Burns and Partygirl connect immediately. But on the first night, while the rockmusic blasts from the stage, something unexpected happens - Burns's world gets turned on its head as one of the boys emerges from the tent with blood on his hands. MindF**k is a real page-turner. The gripping, character-focused, first-person narrative delves right to the heart of a life on-the-edge and virtually out of control. Gritty, hard-hitting, and often shocking, it is packed with drama, emotion, suspense and intrigue from one page to the next. And there is a serious sting in the tail. MindF**k is part of the Cutting Edge series: fast-paced, quick reads for teens and young adults looking for fiction which chimes with their perspective on life. Mindf**k is a title in the highly contemporary Cutting Edge fiction series for young adults. The series features fast-paced quick reads. Each book focuses on difficult topics and situations that many teenagers will have experienced first-hand or through friends. Cutting Edge is ideal for readers aged 14+ with a reading age of 12+.

Academic Literacy Development - Laura-Mihaela Muresan 2021-03-11

This edited book brings together an international cast of contributors to examine how academic literacy is learned and mastered in different tertiary education settings around the world. Bringing to the fore the value of qualitative enquiry through ethnographic methods, the authors illustrate in-depth descriptions of genre knowledge and academic literacy development in first and second language writing. All of the data presented in the chapters are original, as well as innovative in the field in terms of content and scope, and thought-provoking regarding theoretical, methodological and educational approaches. The contributions are also representative of both novice and advanced academic writing experiences, providing further insights into different stages of academic literacy development throughout the career-span of a researcher. Set against the backdrop of internationalisation trends in Higher Education and the pressure on multilingual academics to publish their research outcomes in English, this volume

will be of use to academics and practitioners interested in the fields of Languages for Academic Purposes, Applied Linguistics, Literacy Skills, Genre Analysis and Acquisition and Language Education.

Leonardo Pisano (Fibonacci) - L. E. Sigler 2014-06-28

The Book of Squares by Fibonacci is a gem in the mathematical literature and one of the most important mathematical treatises written in the Middle Ages. It is a collection of theorems on indeterminate analysis and equations of second degree which yield, among other results, a solution to a problem proposed by Master John of Palermo to Leonardo at the Court of Frederick II. The book was dedicated and presented to the Emperor at Pisa in 1225. Dating back to the 13th century the book exhibits the early and continued fascination of men with our number system and the relationship among numbers with special properties such as prime numbers, squares, and odd numbers. The faithful translation into modern English and the commentary by the translator make this book accessible to professional mathematicians and amateurs who have always been intrigued by the lure of our number system.

Al die meisies hou van Divan Louw - Tania Brink 2012-06-18

Om Divan Louw aantreklik te noem, is soos om te se Mount Everest is hoog of Antarktika is koud - dis waar, maar dit vertel nie naastenby die hele storie nie. Dit se byvoorbeeld niks van sy vierkantige ken wat hom soos 'n model in 'n parfuumadvertensie laat lyk nie. Dit se ook niks oor die kleur van sy oë nie - geheimgroen, seepsteengroen, stoutgroen. En dit se geheel en al niks van sy blonde hare wat parmantig orent staan en sy bruingebrande maagspiere nie ... Ek ken sy tipe: Sulke ouens dink gewoonlik hulle is die beste ding sedert die iPhone uitgevind is - en meeste van die tyd het hulle die IK en persoonlikheid van 'n brood. Beslis nie my koppie rooibos nie. Maar dalk kan ek hom gebruik om 'n paar probleme op te los ...
