Homeschooling, Simplified - Bonnie Landry 2013-12
Learning a new skill is complex. Presentation should be simple. Dictation is the simplest and most efficient tool available for teaching all aspects of language to

children. This booklet, "Homeschooling, simplified: Dictation" is the first in a series of little books designed to simplify your homeschooling journey. Through dictation, children learn penmanship, reading, spelling, grammar, critical thinking and so much more in one short (5-15 minutes) daily lesson. Dictation even sets the tone for the day in a delightful moment shared with mom or dad. It's a beautiful thing. "You have encouraged me to educate the whole child and to just love on each of them. To cherish my time with them. To have joy in each moment." "Thank you, Bonnie, for revolutionizing the way that I home educate." "I find the dictation method amazing... this method practices all the most important principles of learning and assessment research to date. It's brilliant!"

Grammar Dictation - Resource Books for Teachers - Ruth Wajnryb 2013-07-15

Grammar Dictation offers an innovative approach to the study of grammar in the language classroom - the 'grammar dictation' or 'dictogloss' procedure. A text is dictated at normal speed, after which students try and reconstruct their own version of the original text. The correction process then enables students to understand their errors and the language options available to them.

Teaching English in Africa - Anderson, Jason 2016-04-30
Teaching English in Africa is a practical guide written for primary and secondary school teachers working all over the continent. This book relates the practice of English language teaching directly to the African context. As well as covering the underlying theory of how children learn languages and how teachers can best facilitate this learning, it also provides practical resources and ideas for activities and techniques that have proved successful in English classrooms in Africa, both at primary and secondary level. It is intended to be a practical guide, so references and citations are kept to a minimum and concepts are presented using examples that are likely to be familiar to most teachers working in Africa. If there is a bias in this book, it is towards the needs of teachers working in low-resource, isolated contexts in Africa, as these teachers

are so often neglected by literature on teaching methodology.
