The Global Revolution - Silvio Pons
2014-08-28

The Global Revolution. A History of International Communism 1917-1991 establishes a relationship between the history of communism

and the main processes of globalization in the past century. Drawing on a wealth of archival sources, Silvio Pons analyses the multifaceted and contradictory relationship between the Soviet Union and the international communist movement, to show how communism played a major part in the formation of our modern world. The volume presents the argument that during the age of wars from 1914 to 1945, the establishment of the Soviet state in Russia and the birth of the communist movement had an enormous impact because of their promise of world revolution and international civil war. Such perspective appeared even more plausible in the aftermath of the Second World War and of revolution in China, which paved the way for the expansion of communism in the post-colonial world. Communism challenged the West in the Cold War - by means of anti-capitalist modernization and anti-imperialist mobilization - showing itself to be a powerful factor in the politicization of global trends. However, the

international legitimacy of communism declined rapidly in the post-war era. Soviet power exposed its inability to exercise hegemony, as distinct from domination. The consequences of Sovietization in Europe and the break between the Soviet Union and China were the primary reasons for the decline of communist influence and appeal. Since communism lost its political credibility and cultural cohesion, its global project had failed. The ground was prepared for the devastating impact of Western globalization on communist regimes in Europe and the Soviet Union.

Dialogues With Marcel Duchamp - Pierre Cabanne 2009-07-21

With an introduction by Robert Motherwell and an appreciation by Jasper Johns "Marcel Duchamp, one of this century's pioneer artists, moved his work through the retinal boundaries which had been established with Impressionism into a field where language, thought and vision act upon one another. There it changed form

through a complex interplay of new mental and physical materials, heralding many of the technical, mental and visual details to be found in more recent art. . . "In the 1920s Duchamp gave up, quit painting. He allowed, perhaps encouraged, the attendant mythology. One thought of his decision, his willing this stopping. Yet on one occasion, he said it was not like that. He spoke of breaking a leg. 'You don't mean to do it,' he said. "The Large Glass. A greenhouse for his intuition. Erotic machinery, the Bride, held in a see-through cage-'a Hilarious Picture.' Its cross references of sight and thought, the changing focus of the eyes and mind, give fresh sense to the time and space we occupy, negate any concern with art as transportation. No end is in view in this fragment of a new perspective. 'In the end you lose interest, so I didn't feel the necessity to finish it.' "He declared that he wanted to kill art ('for myself') but his persistent attempts to destroy frames of reference altered our thinking, established new units of thought, 'a

new thought for that object.' "The art community feels Duchamp's presence and his absence. He has changed the condition of being here."-- Jasper Johns, from Marcel Duchamp: An Appreciation

Eating Animals - Jonathan Safran Foer
2009-11-02

Part memoir and part investigative report, Eating Animals is the groundbreaking moral examination of vegetarianism, farming, and the food we eat every day that inspired the documentary of the same name. Bestselling author Jonathan Safran Foer spent much of his life oscillating between enthusiastic carnivore and occasional vegetarian. For years he was content to live with uncertainty about his own dietary choices but once he started a family, the moral dimensions of food became increasingly important. Faced with the prospect of being unable to explain why we eat some animals and not others, Foer set out to explore the origins of many eating traditions and the fictions involved

with creating them. Traveling to the darkest corners of our dining habits, Foer raises the unspoken question behind every fish we eat, every chicken we fry, and every burger we grill. Part memoir and part investigative report, *Eating Animals* is a book that, in the words of the Los Angeles Times, places Jonathan Safran Foer "at the table with our greatest philosophers" -and a must-read for anyone who cares about building a more humane and healthy world.

Hard Times illustrated - Charles Dickens 2021-08-18

Hard Times illustrated Charles Dickens - *Hard Times: For These Times* (commonly known as *Hard Times*) is the tenth novel by Charles Dickens, first published in 1854. The book surveys English society and satirises the social and economic conditions of the era. "Now, what I want is, Facts. . . . Facts alone are wanted in life." Thus begins Superintendent Mr. Gradgrind—a wealthy, retired merchant—addressing a group of young students at his school in the industrial town of Coketown, England. A rigid man of fact, rational self-interest and realities, he not only teaches his pupils according to the utilitarian principles, but also raises his children with the same philosophy. When they grow up, as their lives begin to turn chaotic, they reproach their father for their upbringing. Will Mr. Gradgrind realize his flaws and become a humble man? Satirizing the laissez-faire system, Dickens' *Hard Times* lays bare the wide gap between the rich and the poor. Criticizing the materialistic world, this

Victorian novel throws light on the value of emotions and the human heart. It has undergone several film and theatre adaptations.
