[Handbook of Innovative Career Counselling](#) -

Jacobus G. Maree 2019-07-20

This book examines a topic widely regarded as the most pressing in career counselling today,

i.e., how to ensure that everyone receives career counselling and that all workers have the opportunity to engage in sustainable, decent work. The author holds that career counselling should not only advance workers' self- and career construction, helping them design successful career-lives and make social contributions, and live purposeful lives – it should also expound new theoretical approaches and interventions. Furthermore, the book criticizes global society for overlooking the basic needs of many workers, especially the most vulnerable and disadvantaged. An important feature of the book

is its emphasis on promoting a creative and innovative approach to career counselling so as to better answer contemporary career-related questions. It offers guidance on how to advance entrepreneurship and help workers develop critical thinking, curiosity, creativity, collaboration, and communication skills. In this way the book promotes innovation in career counselling and maps the way forward in a theoretical and practical manner that helps clients 'flourish' rather than merely 'survive' in turbulent times impacted by the fourth wave in psychology, career counselling, the economy, as well as the 4th

industrial revolution (Work 4.0).

There are multiple manifestations of internal security which are both implicit and explicit. 'Communalism' has been identified as one of the principal threats to internal security with specific reference to Hyderabad. In this background it is highly desirable and required to strengthen 'community' to face any eventualities and encourage working and functional partnership with security and law enforcement agencies
