Acting Out Culture - James S. Miller 2017-11-03

Cultural messages bombard students daily, laden with unstated rules about what makes our work valuable, our bodies ideal, our connections meaningful. Acting Out Culture empowers students to critically read those messages and use writing to speak back to their culture and question its rules. This book appeals especially to those students who are not full participants in the dominant culture, as well as to their instructors, who want to help students see how subtle (and not so subtle) cultural forces can shape their lives--and how they can challenge and resist those forces. The new edition of Acting Out Culture builds on that success, with provocative readings (more than 50 percent of them new) that challenge the rules we live by; pedagogical tools to encourage students to read, think, and write critically about their culture; and instructional support featuring sample syllabi, additional discussion topics, and ideas for teaching with visuals and online content.

Matt Keegan: 1996 - Matt Keegan 2020-09-22

Matt Keegan interviews artists and commissions writing to reassess the 1990s as the moment when the Democratic Party abandoned its New Deal values and swung to the right. In the wake of the Trump election, artist Matt Keegan (born 1976) began investigating the Democratic Party's shifts over recent decades. In the late '80s, members of the Democratic Leadership Council successfully moved the party's platform to the right by including a pro-business, pro-military, interventionist agenda, and downplaying social infrastructure as a calculated break from its New Deal-era foundation. This shift led to Bill Clinton's consecutive terms. 1996 captures this pivotal time in American politics and society through the experience of artists who completed their undergraduate studies in that year and voted for Clinton, and others who were born in 1996 and voted for the first time in 2016. Essays focus on cultural and ideological shifts from that time, such as the 1994 Crime Bill, 1996 Immigration Act, the Telecommunications Act, the start of Fox News and beyond.
