The Late Truck Driver -
David Longanecker
2021-02-03

The Late Truck Driver isn't about a deceased truck driver or someone who arrives late to pick up or deliver a load. It's about becoming a truck driver later in life. David Longanecker

always dreamed of driving a big rig, but his life took a different path, leading him to enjoy a career as a higher education administrator and in policy analysis. When he retired, however, he chased his dream. In this book, he shares how he made the leap, what it was like prepping for and taking the test to earn his commercial driver's license, and how he earned real-world experience on the road. He also pays tribute to the beauty of big rigs and the pure joy that comes along with looking at them and driving them. There really is nothing like admiring the beauty of a landscape while sitting in the elevated cab of a big rig tractor. Whether you've wondered what it is like to drive a big rig, want to make a career change, or simply crave to know more about

truck driving culture, you'll get an accurate picture of what the life is all about with this book.

Photo: © Courtesy of The Northern Daily Leader, Tamworth. Photographer: Barry Smith, The Northern Daily Leader, Tamworth. The latest edition of this book has been updated to

incorporate the latest developments in case law and legislation. To cover all of Australia, the work has been expanded to include the law in Australia's smallest self-governing territory, Norfolk Island. For first aiders and paramedics, the discussion on the legal powers granted to paramedics when treating the mentally ill; the patient's right to refuse treatment and the use of professional training when responding as a volunteer or good Samaritan has been revised and expanded. The chapter on responding to large scale disasters has been significantly re-written to include a discussion on AIIMS (the Australian Inter-Agency Incident Management System (4th ed, 2013) and the relationship between AIIMS and state counter disaster or emergency management

legislation. Included is a detailed discussion on when control of emergency response can be transferred from the lead agency to a central coordinating committee or to the police. This discussion identifies sources of potential role conflict that may pose a significant threat in the next major catastrophe. There is a new discussion on the role of local government in Australian emergency management and a revised and expanded discussion on the role of the Commonwealth. The chapter on legal liability reports on the outcome of litigation arising from the catastrophic bushfires in 2001 (Sydney) and 2003 (Canberra). In light of the National Strategy on Disaster Resilience and the concept of shared responsibility for emergency management there is an expanded

discussion on how the law allocates responsibility to individuals, communities, workplaces and to the State.
