She'll Be Right! - Chantal Simons
2017-05-02

At the age of twenty-six, Chantal Simons, born and raised in the Netherlands, can no longer contain her adventurous spirit. Having seen enough of everyday life, she makes the bold decision to take to the roads of the vast Australian continent on her 250CC motorbike, lovingly known as the 'Chook Chaser'.

Starting her travels in Perth, Chantal heads east in the company of her father. After crossing the Nullarbor together the pair split up and Chantal continues her odyssey alone, riding all the way to Queensland where she temporarily settles down to a life of sun and surf on the Sunshine Coast. After a spell of teaching at a Brisbane university, she again heads off, in the company of a friend, into the red heart of Australia on a journey that will ultimately lead the pair all the way to Darwin. Along the way Chantal meets extraordinary people, has up-close encounters with local wildlife and visits some of the world's most exquisite natural creations. Facing mental as well as physical challenges, she spends much of her time on the road pondering the deeper

questions of life. The inevitable fears and doubts inherent in such ventures are dismissed, along with much cautionary advice from well-meaning others, as Chantal single-mindedly follows what she has decided is her destiny. Life on the road teaches her to rely on herself and her intuition. *She'll be Right!* is the story of a young woman's journey around Australia, spiced with plenty of adventure, a pinch of soul searching and a sparkle of romance.

Lone Rider - Elspeth Beard 2017-07-06

In 1982, at the age of just twenty-three and halfway through her architecture studies, Elspeth Beard left her family and friends in London and set off on a 35,000-mile solo adventure around the world on her 1974 BMW R60/6. Reeling from a recent breakup and with only limited savings from her pub job, a tent, a few clothes and some tools, all packed on the back of her bike, she was determined to prove herself. She had ridden bikes since her teens and was well travelled. But nothing could prepare her for what lay ahead. When she returned to London nearly two and a half years later she was stones lighter and decades wiser. She'd ridden through unforgiving landscapes and countries ravaged by war,

witnessed civil uprisings that forced her to fake documents, and fended off sexual attacks, biker gangs and corrupt police convinced she was trafficking drugs. She'd survived life-threatening illnesses, personal loss and brutal accidents that had left permanent scars and a black hole in her memory. And she'd fallen in love with two very different men. In an age before email, the internet, mobile phones, satnavs and, in some parts of the world, readily available and reliable maps, Elspeth achieved something that would still seem remarkable today. Told with honesty and wit, this is the extraordinary and moving story of a unique and life-changing adventure.

Riding in the Zone - Ken Condon
2019-10-15

Riding motorcycles is fun, but author Ken Condon maintains that there is a state of consciousness to be achieved beyond the simple pleasure of riding down the road. *Riding in the Zone* helps riders find that state of being. It's the experience of being physically and mentally present in the moment, where every sense is

sharply attuned to the ride. Your mind becomes silent to the chatter of daily life, and everyday problems seem to dissolve. You feel a deeper appreciation for life. Your body responds to this state of being with precise, fluid movements, you feel in balance, your muscles are relaxed, and it seems as though every input you make is an expression of mastery. This is "the Zone." Condon identifies all of the factors that affect entering the Zone and addresses each one individually, from the development of awareness and mental skills to mastering physical control of the motorcycle. At the end of each chapter are drills designed to transform the book's ideas into solid, practical riding skills. Riding in the Zone takes riders to the next level in their skill set.
