psychologists, curriculum specialists, teacher educators, and researchers have developed a two-dimensional framework, focusing on knowledge and cognitive processes. In combination, these two define what students are expected to learn in school. It explores curriculums from three unique perspectives- cognitive psychologists (learning emphasis), curriculum specialists and teacher educators (C & I emphasis), and measurement and assessment experts (assessment emphasis). This revisited framework allows you to connect learning in all areas of curriculum. Educators, or others interested in educational psychology or educational methods for grades K-12.

Jigs & Reels - Joanne Harris 2009-03-17
Each of the twenty-two tales in this enchanting

collection is a surprise and a delight, melding the poignant and the possible with the outrageous, the magical, and, sometimes, the eerily haunting. Wolf men, dolphin women, defiant old ladies, and middle-aged manufacturers of erotic leatherwear -- in *Jigs & Reels* the miraculous goes hand in hand with the mundane, the sour with the sweet, and the beautiful, the grotesque, the seductive, and the disturbing are never more than one step away. Whether she's exploring the myth of beauty, the pain of infidelity, or the wonder of late-life romance, Joanne Harris once again proves herself a master of the storyteller's trade.

Schooling Beyond Measure and Other Unorthodox Essays about Education - Alfie Kohn 2015

"Kohn's analytical style ... is brought to bear on big-picture policy issues as well as small-scale classroom interactions. He looks carefully at research about homework, play, the supposed benefits of practice, parent involvement in

education, and summer learning loss - discovering in each case what we've been led to believe doesn't always match what the studies actually say. Kohn actually challenges us to reconsider the goals that underlie our methods, to explore the often troubling values that inform talk about everything from the disproportionate enthusiasm for STEM subjects to claims made for "effective" teaching strategies."--Back cover.
