Construction Supply Chain Economics - Kerry London 2007-12-11

This is the first comprehensive investigation of the industrial sourcing and procurement practices throughout sixty-eight construction industry supply channels across seven major commodity sectors at all levels. London presents real-world case studies to combine theory and practice to describe the economic structural and behavioural characteristics of sectors integral to the construction industry performance.

Construction Supply Chain Economics details 'everyday' experiences and procurement decisions made by people in firms in the industry related to projects as they seek out other firms to work with during the tendering stage. London creates a language that enables us to classify and understand behaviour and recognise the impact of our decisions on firms and projects within the industry. *Construction Supply Chain Economics* introduces a new model for mapping the construction sector of particular interest to construction management and economic researchers and to procurement decision makers, including policymakers and clients, as well as industry practitioners, such as contractors, consultants and materials suppliers.

Warm Beer, Lousy Food - John S. Columbia 2009-12

The line began forming after eight o'clock. Sal, short and heavy-set, kept everyone busy. Neat, in a white shirt and sports jacket, with his grey fedora cocked to the side, his crooked grin made you smile. Without warning the heavy door would swing open and the waiters would come outside to join him. They were dressed in pajamas or prison garb, with hats and horns, and were there to warm up the crowd. Some in line expected this, others were shocked. The pink polka dot building should have been a warning. Complete strangers in line became chummy, exchanging stories they had heard; toilet seat covers to serve drinks on, microphones in the ladies room, toilet paper for napkins. Most had brought their friends there to be roasted. The line of people varied in age. They all dressed casually because they'd heard you could get a pie in the face or a squirt in the eye. The club's routines were blue in color, but harmless. If you were lucky you might see a "Balls for the Queen" or a "Singing beer." The price was always right for a good time and Warm Beer and Lousy Food was the place to be.

Digital Legacy - Daniel Sieberg 2020-12-07

Do you know what will happen to your digital "stuff" when you die? No? Rest assured, you are not alone. This increasingly important but relatively unknown subject involves what happens to all of your accounts, social media, emails, photos, and documents and how you will be remembered in your online afterlife. This book will let you take control of your online afterlife and ensure that your important digital assets are treated according to your wishes. Given that the

average person spends close to seven hours per day online it's a must-read for everyone. Death: of course it's not an easy subject for any of us. Indeed, there are few subjects more difficult to discuss or imagine than death. It's like we'd rather talk about anything else than the one universal experience we all share. But it's now one that also needs to be addressed in the digital age. *Digital Legacy: Take Control Of Your Online Afterlife* provides both the context of how we got here but also the right guidance to move forward with your planning today. Authored by two tech executives (also former Googlers) and founders of the digital-legacy platform GoodTrust -- Daniel Sieberg and Rikard Steiber, CEO and founder of GoodTrust -- the book outlines the pitfalls, challenges and opportunities that are important for all of us to tackle.

The first in-depth, authoritative discussion of the role of the press in China and the way the Chinese government uses the media to shape public opinion China's 1.3 billion population may make the country the world's largest, but the vast majority of Chinese share remarkably similar views on these and a wide array of other issues, thanks to the unified message they get from tightly controlled state-run media. Official views are formed at the top in organizations like the Xinhua News Agency and China Central Television and allowed to trickle down to regional and local media, giving the appearance of many voices with a single message that is reinforced at every level. As a result, the Chinese are remarkably like-minded on a wide range of issues both domestic and foreign. Takes readers beyond China's economic miracle to show how the nation's massive state-run media complex not only influences public opinion but creates it Explores an array of issues, from Tibet and Taiwan to the environment and US trade relations, as seen through the lens of the Xinhua News Agency Tells the story of the official Xinhua News Agency along with its history and reporting over the years, as the foundation for telling the story

WINNER OF THE T. S. ELIOT PRIZE 2015

There is a Chinese proverb that says: 'It is more profitable to raise geese than daughters.' But geese, like daughters, know the obligation to return home. In her exquisite first collection, Sarah Howe explores a dual heritage, journeying back to Hong Kong in search of her roots. With extraordinary range and power, the poems build into a meditation on

hybridity, intermarriage and love - what meaning we find in the world, in art, and in each other. Crossing the bounds of time, race and language, this is an enthralling exploration of self and place, of migration and inheritance, and introduces an unmistakable new voice in British poetry.

Shantaram - Gregory David Roberts 2004-10-13

Based on his own extraordinary life, Gregory David Roberts' Shantaram is a mesmerizing novel about a man on the run who becomes entangled within the underworld of contemporary Bombay—the basis for the Apple + TV series starring Charlie Hunnam. "It took me a long time and most of the world to learn what I know about love and fate and the choices we make, but the heart of it came to me in an instant, while I was chained to a wall and being tortured." An escaped convict with a false passport, Lin flees maximum security prison in Australia for the teeming streets of Bombay, where he can disappear. Accompanied by his guide and faithful friend, Prabaker, the two enter the city's hidden society of beggars and gangsters, prostitutes and holy men, soldiers and actors, and Indians and exiles from other countries, who seek in this remarkable place what they cannot find elsewhere. As a hunted man without a home, family, or identity, Lin searches for love and meaning while running a clinic in one of the city's poorest slums, and serving his apprenticeship in the dark arts of the Bombay mafia. The search leads him to war, prison torture, murder, and a series of enigmatic and bloody betrayals. The keys to unlock the mysteries and intrigues that bind Lin are held by two people. The first is Khader Khan: mafia godfather, criminal-philosopher-saint, and mentor to Lin in the underworld of the Golden City. The second is Karla: elusive, dangerous, and beautiful, whose passions are driven by secrets that torment her and yet give her a terrible power. Burning slums and five-star hotels, romantic love and prison agonies, criminal wars and Bollywood films, spiritual gurus and mujaheddin guerrillas—this huge novel has the world of human experience in its reach, and a passionate love for India at its heart.

Business Banner Ads - Rwg Publishing

2020-11-06

Banner advertising has come a long way since its humble beginnings centuries ago. Yeah, that's right. Centuries flip through any old newspaper or publication from the American Colonial era, and you'll find rectangular banner ads pitching everything from beer to stockings, complete with the main image carefully chosen brand elements. Amado or a unique selling proposition. And even a call to action. Of course, we're not here to discuss old print banner ads for stylish powdered wigs or state of the art wooden dentures. Although it is useful to remember how long the ancestors of today's digital banner ads have been around in this guide, we're going to be discussing modern digital banner ads in all their glory. So for starters, what are they? Basically, banner advertisements are actionable, clickable tappable images that invite web visitors to buy, learn about, or receive something in exchange for a click through. These ads can appear anywhere and are typically seen within and around the content of various websites, such as the header area on a forum page, the sidebar of a blog, or a news site, or even squeezed in among the paragraphs of a news article. These banner ads come in all shapes and sizes. Typically variations of the trusty old rectangle and will either be static or animated. In more recent years, some businesses have been leveraging rich media banner ads that do all sorts of wacky stuff like send a car, zooming across your screen in front of the article you were reading, and these ads aren't going anywhere soon. Banner ads still make up around 34% of all online ad spending. Second, only to search engine marketing. So since they've been around for hundreds of years and businesses are spending a ton on them every year, clearly they work. The question is should you be using them in your business? That's what we'll be looking at in the next video.

Osmos Magazine: Issue 03 - Cay Sophie Rabinowitz 2014-04-30

The Osmos brand was initiated 15 years ago with a project space in Berlin and has since developed into a fully integrated concept for curatorial and editorial activities. Currently, the Osmos address is located at 50 East 1st Street, in a Manhattan East Village storefront that was

once a saloon frequented by Emma Goldman and other radicals. Former Parkett editor and Fantom cofounder Cay Sophie Rabinowitz launched Osmos Magazine as a journal of texts and image series created by practitioners and professionals investigating the uses and abuses of photography. One outstanding feature is a critical approach to the cover, which acknowledges the delayed effect of image capture or so-called after image, by featuring an artist or work to be discussed in the following issue. With a radical blend of arresting images, print quality and distinctive design, Osmos Magazine is the most recognized publication in the market fostering contemporary perspectives in photography as the medium crossing all creative industries and practices-art, design, fashion and even advertising-at the core of our imagination. Current and forthcoming issues feature Erica Baum, Carolyn Drake, Richard Hamilton, Keizo Kitajima, Duane Michals, Elio Montinari, Anna Ostoya, Humphrey Spender and Christopher Williams, among others.

Blueprint for Black Power - Amos N. Wilson 1998

Afrikan life into the coming millennia is imperiled by White and Asian power. True power must nest in the ownership of the real estate wherever Afrikan people dwell. Economic destiny determines biological destiny. 'Blueprint for Black Power' details a master plan for the power revolution necessary for Black survival in the 21st century. White treatment of Afrikan Americans, despite a myriad of theories explaining White behavior, ultimately rests on the fact that they can. They possess the power to do so. Such a power differential must be neutralized if Blacks are to prosper in the 21st century ... Aptly titled, 'Blueprint for Black Power' stops not at critique but prescribes radical, practical theories, frameworks and approaches for true power. It gives a biting look into Black potentiality. (Back cover).
