The Loving Person - Nina Karin Monsen
2021-11-03

In modern society it is often supposed that morality is outdated. Everybody should be free to do what they want, and become who they like.

This often means lack of meaning and unstable wills. But the human being is a real person, and has to strive to get to know him or herself. This knowledge can only be obtained through truthfulness, true thoughts,

and honest feelings. The person will develop when he or she fights to understand the good, to find beauty and truth, to see one's own place in a greater connection, and to engage in reflective dialogue with other persons. Out of this come rules of life such as generosity, friendship, and love. This is a great challenge that will release the true person, and make the will healthy. It makes morality a necessary guide to reality.

Competing Comparative Constructions in Europe - Thomas Stolz 2013-10-24

This in-depth areal-typological study analyzes the grammatical means which are employed in the languages of Europe to express the comparative of inequality/superiority. The extant theories and hypotheses about the morphosyntactic structure and the cross-linguistic distribution of construction types are reviewed. The behavior of comparatives under the conditions of language contact is discussed. Data from more than 170 standard and nonstandard varieties of European languages are scrutinized systematically. The synchronic picture is complemented by a chapter on the diachrony of comparative constructions. The European facts are

compared to those of the geographically adjacent Asian and African regions. It is argued that cross-linguistic investigations must take account also of so-called secondary options. These secondary options suggest strongly that the supposedly dominant role of the particle comparative cannot be upheld for Europe. Moreover, only the secondary options allow us to draw isoglosses which cross the borders between Europe and Asia (and Africa).

Jag minns min blå Donau - Jascha Golowanjuk 2021-11-16

Dima vet inte hur länge han har vandrat. Han vet inte ens hur gammal han är vid det här laget. Allt han vet är att han tagit sig hela vägen från Saratov till Wien. Den långa

vägen, via Finland. Och nu är han plötsligt framme, trött och hungrig och alldeles ensam. Det fattades ju bara att polisen skulle dyka upp också. Vad har han gjort för fel? När Beatrix von Bergendorf får se en mager yngling på en parkbänk måste hon genast förbarma sig över honom. Att hennes hushållerska inte är imponerad bryr hon sig inte om. Inte kan hon lämna pojken på gatan! Vad spelar det för roll att han är ryss? Knappt har hon hunnit visa sin skyddsling till gästrummet förrän ryktet går som en löpeld genom Wiens societet. Stackars Trixi, hon har ju redan blivit lurad en gång, av den där spanjoren hon brukade hänga ihop med. Vad är det nu för någon hon tagit sig an? Och går han verkligen att lita på? Jascha Golowanjuk (1905-1974) var en svensk författare,

musiker och skådespelare. Han föddes i rysk-uzbekiska Samarkand men kom till Danmark som 14-åring och studerade där vid Det Kongelige Danske Musikkonservatorium. Som dansk medborgare flyttade han sedan till Sverige år 1929 och fick sedermera även svenskt medborgarskap. Han medverkade i flera av Kar de Mummas revyer och blev så småningom en av de svenska bibliotekens mest utlånade författare.

Den lille prinsen - Antione de Saint-Exupéry 2023-03-22

80-års jubileumsutgåva i ny svensk översättning Mitt ute i Saharaöknen, där en pilot tvingats nödlanda sitt flygplan, dyker en liten prins upp från ingenstans. Det tar lite tid för dem att förstå varandra. Men så kommer också den lille prinsen från en annan planet, där hans ros väntar på honom. Antoine de Saint-Exupérys filosofiska fantasysaga Den lille prinsen är en av världens mest älskade böcker, läst av generation efter generation världen över sedan

den gavs ut i original 1943. Här i en specialutgåva inför bokens 80-årsjubileum, i nyöversättning av Evelina Ivarsson och med digitalt restaurerade originalillustrationer. ANTOINE DE SAINT-EXUPÉRY [1900-1944] var en fransk författare, pilot, matematiker, uppfinnare och diplomat. I dag är han mest berömd för sin sista bok, den poetiska och filosofiska sagan Den lille prinsen [Le Petit Prince, 1943], vilken också innehåller hans egna illustrationer. Boken tillägnas barnen och adresserar fundamentala frågor om livet och den mänskliga naturen. Som den mest översatta boken i fransk litteratur - utgiven på 260 språk och såld i över 140 miljoner exemplar - hör Den lille prinsen till världens största litterära klassiker.

Spatial Interrogatives in Europe and Beyond - Thomas Stolz 2017-08-07

The extant generalizations about the grammar of space rely heavily on the analyses of declarative sentences. There is a need to check whether these generalizations also hold in the domain of interrogation. To this end this book analyzes data from some 450 languages (including non-standard varieties). The focus is on paradigms of spatial interrogatives such as English where, whither and whence and their internal organization. These paradigms are checked for recurrent patterns of morphological mismatches (such as syncretism) and different

degrees of complexity (e.g. the number of segments). The data-base consists of a large parallel literary corpus (Le petit prince and translations thereof) which is complemented by further sources of information such as descriptive grammars. The data are analyzed from a synchronic perspective. However, diachronic issues are addressed unsystematically, too. It is shown that the distribution of phenomena which characterize paradigms of spatial interrogatives are subject to areal-linguistic factors. This is the first typological study of spatial interrogatives. It provides new insights for students of the grammar of space, morphological paradigms, and language typology.

Dynamics of Contact-Induced Language Change - Claudine Chamoreau

2012-04-26

Open publication The volume deals with previously undescribed morphosyntactic variations and changes appearing in settings involving language contact. Contact-induced changes are defined as dynamic and multiple, involving internal change as well as historical and sociolinguistic factors. A variety of explanations are identified and their relationships are analyzed. Only a multifaceted methodology enables this fine-grained approach to contact-induced change. A range of methodologies are proposed, but the chapters generally have their roots in a typological perspective. The contributors recognize the precautionary principle: for example, they emphasize the difficulty of studying languages that have not been

described adequately and for which diachronic data are not extensive or reliable. Three main perspectives on contact-induced language change are presented. The first explores the role of multilingual speakers in contact-induced language change, especially their spontaneous innovations in discourse. The second explores the differences between ordinary contact-induced change and change in endangered languages. The third discusses various aspects of the relationship between contact-induced change and internal change.

- Thomas Stolz 2006

The series is a platform for contributions of all kinds to this rapidly developing field. General problems are studied from the perspective of individual languages, language families, language groups, or language samples. Conclusions are the result of a deepened study of empirical data. Special emphasis is given to little-known languages, whose analysis may shed new light on long-standing problems in general linguistics.

Bära bud - Håkan Bravinger 2009-10-29

Två bröder i en livslång fejd med varandra. Den ene förgrundsgestalt inom psykoanalysen, övertygad om sin egen storhet, den andre alltid i broderns skugga. I sin romandebut gestaltar Håkan Bravinger bröderna Bjerres komplicerade relation genom några avgörande och dramatiska händelser i deras liv. Brödernas relation var ständigt laddad, men blev särskilt svår att hantera när Andreas tjugofem år gammal gifter sig med Amelie Posse, och på smekmånaden nås av beskedet att brodern Poul friat till Amelies mamma, Gunhild. Egendomliga familjeband, mindervärdeskänslor och sexuella tvångsdrömmar – allt bidrar till att ytterligare komplicera brödernas relation. Poul Bjerre (1876–1964) tillhörde under några år den inre kretsen kring Freud och introducerade

också Freud i Sverige. Andreas Bjerre (1879–1925) var Pouls yngre bror, utbildad kriminalpsykolog, som i hela sitt liv stod i broderns skugga. Bära bud bygger till viss del på dagböcker och brev men är ändå en fri gestaltning av brödernas relation. Håkan Bravinger är född 1968 och har tidigare utgivit två diktsamlingar. *Den Lille Prinsen* - Antoine de Saint-Exupéry 2015

All kjærlighets begynnelse - Judith Hermann 2015-06-15

Judith Hermann har med "All kjærlighets begynnelse" skrevet en roman om kjærlighetens krav og grunnvilkår. Om livets utsatthet og ensomheten både i og utenfor andres selskap. Og ikke minst om hvordan et behov om nærhet kan anta skremmende former. Stella og Jason, et ekteskap,

en datter, et enkelt og fint hus i utkanten av byen, en liten hage, et rolig og hverdagslig liv, mest uten Jason som jobber mye. Men en dag står det en mann foran dette huset, en fremmed Stella aldri har sett før. Han sier han gjerne vil snakke med henne. Stella avslår, men han kommer igjen neste dag, og dagen etter. Han vil ikke la henne i fred, og sakte men sikkert eskalerer dette til et terroriserende mareritt som tar over Stellas liv. . I et glassklart, brutalt enkelt språk og nærmest irriterende vakre bilder, skildrer Judith Hermann frykten i kjærligheten og det plutselige sammenbruddet i et liv der tryggheten forsvinner. Boken er oversatt av Sverre Dahl Judith Hermann regnes som en av Tysklands

beste og mest stilsikre forfattere. Hun ble født i Berlin i 1970, der hun fremdeles bor og skriver. Hermann har tidligere gitt ut tre novellesamlinger, deriblant Alice (Pelikanen 2013) som ble nominert til Independent Foreign Fiction Prize. All kjærlighets begynnelse marker hennes debut som romanforfatter. Norsk 1 Nordmenn Og Norge - Louis E.
