**The Enchantments of Technology** - Lee Bailey  
2005-09-14

In The Enchantments of Technology, Lee Worth Bailey erases the conventional distinction between myth and machine in order to explore the passionate foundations concealed in technological culture and address its

complex ethical, moral and social implications. Bailey argues that technological society does not simply disenchant the world with its reductive methods and mechanical metaphors, then shape machines with political motives, but is also borne by a deeper, subversive undertow of enchantment. Addressing

examples to explore the complexities of these enchantments, his thought is full of illuminating examinations of seductively engaging technologies ranging from the old camera obscura to new automobiles, robots, airplanes, and spaceships. This volume builds on the work of numerous scholars, including Jacques Ellul and Jean Brun on the phenomenological and spiritual aspects of technology, Carl Jung on the archetypal collective unconscious approach to myth, and Martin Heidegger on Being itself. Bailey creates a dynamic, interdisciplinary, postmodern examination of how our machines and their environments embody not only reason, but also desires.

*Representing Religion* - Tim Murphy 2014-12-05

If religion is continually in a state of flux how can the study of religion critically examine contemporary religious beliefs and values?

'Representing Religion' critically examines this

"crisis of representation". The volume traces the history of religious studies, critiquing the concept that "experience" is central to understanding religion. The views of influential semioticians and philosophers - notably Nietzsche, Saussure, Foucault, Barthes, and Bakhtin - are used to construct a new methodology for the critical study of religion.

Representing Religion will be of interest to students and scholars of semiotics as well as theory and method in religious studies.

**The Sacred Is the Profane** - William Arnal 2013

The Sacred is the Profane collects nine essays by William Arnal and Russell McCutcheon that advance current scholarly debates on secularism-debates. The essays return, again and again, to the question of what "religion"—word and concept—accomplishes, now, for those who employ it, whether at the popular, political, or scholarly level. The focus here is on the efficacy, costs, and the tactical work carried out by dividing the world between religious and political, church and state, sacred and profane.

**It's Only a Game** - Terry Bradshaw 2001-08-01

This is the absolutely guaranteed 100% mostly true story of Terry Bradshaw: the man who gained sports immortality as the first quarterback to win four Super Bowls -- and the man who later became America's most popular sports broadcaster. IT'S ONLY A GAME "I had a real job once," begins a memoir as honest, unexpected, and downright hysterical as Bradshaw himself. From his humble beginnings in Shreveport, Louisiana, to his success as the centerpiece of the highest-rated football studio show in television history, Terry has always understood the importance of hard work. A veritable jack-of-all-trades, he has probably held more jobs than any other football Hall of Famer ever: pipeline worker, youth minister, professional singer, actor, television and radio talk show host, and now one of the nation's most popular

speakers. But let's not forget one of the reasons why so many people know and love Terry Bradshaw: he won four Super Bowls! In *It's Only A Game*, Terry brings the reader right into the huddle and describes the game from the bottom of a two-ton pile to the top of the sports world. You'll sit right on the fifty-yard line and watch as Terry earns the title world's greatest benchwarmer. And you'll also hear about the single greatest play in pro football -- the Immaculate Reception -- as he never saw it. *It's Only A Game* is much more than a collection of Terry Bradshaw's favorite and funniest stories, it is the personal account of a great man's search for life before and after football...as only Terry could tell it.

**Biblical Figures in the Islamic Faith** - Stephen J. Vicchio 2008-07-01

Vicchio believes that by understanding how much Muslim tradition overlaps with the biblical traditions of Judaism and Christianity, we might begin to expose a wedge of common ground on which understanding and respect might begin to be built. Vicchio begins with a brief introduction sketching some fundamentals of Muslim history and culture, and clearing away some common misconceptions. His main goal, however, is to give us a detailed look at the treatment of biblical figures in the literature of Islam. The broad range of

his research and presentation is startling. He begins with the Qur'an but continues on to the collected writing of the roughly two hundred years after Mohammed (Hadith, Sunnah, Akhbar) that came to be regarded as authoritative in the various traditions that developed in early Islam. He then traces the interest in these biblical figures on into modern treatments of the role of these figures in Muslim scholarship and how these figures are understood and used in the traditions of Islam yet today. The result of Vicchio's scholarship and presentation will be a revelation to most Christian and Jewish readers. It has become somewhat commonplace to refer to Judaism, Christianity, and Islam as the three Abrahamic faiths. This shows a beginning awareness of the beginnings of each of these three great religions, birthed in the Middle East, in a common

ancestor, Abraham (Ibrahim). Abraham's faithfulness and his closeness to God make his a revered figure in each of these three great faiths, and for each Abraham is a beginning of the story of the particular relationship between God and the people of each of these religions. -- from the Foreword

**The Performance of Religion** - Cia Sautter 2017-01-12

The performing arts are uniquely capable of translating a vision of an

ideal or sacred reality into lived practice, allowing an audience to confront deeply held values and beliefs as they observe a performance. However, there is often a reluctance to approach distinctly religious topics from a performance studies perspective. This book addresses this issue by exploring how religious values are acted out and reflected on in classic Western theatre, with a particular emphasis on the plays put on during the Globe Theatre's yearlong season of 'Shakespeare and the Bible'. Looking at plays such as *Much Ado About Nothing*, *Dr. Faustus* and *Macbeth*, each chapter includes ethnographic overviews of the performance of these plays as well as historical and theological perspectives on the issues they address. The author also utilizes scholarship from other academics, such as Paul Tillich and Martin Buber, in examining the relationship

between art and culture. This helps readers of this book to look at religion in culture, and raise questions and explore ideas about how people appraise their religious values through an encounter with a performance. *The Performance of Religion: Seeing the sacred in the theatre* treads new ground in bringing performance and religious studies scholarship into direct conversation with one another. As such, it is essential reading for any academic with an interest in theology, religion and ethics and their expression in culture through the performing arts.

[The Future of God in the Global Village](#) - Thomas R. Mcfaul 2011-10

In the long trek of human history, the adage that there will never be peace among the nations until there is peace among the religions has never been truer. The growing trend toward spiritually inspired

violence throughout the emerging global village of the twenty-first century has taken a terrible toll on the lives of thousands of innocent victims. The primary purpose of this book is to address this issue head-on by examining the role that the earth's diverse faith communities can play in stopping the needless hatreds and hostilities that all too often arise from the search for spiritual fulfillment. At this stage of human evolution, nothing is more urgent.

Spiritual Masters of the World's Religions - Victoria Kennick 2012-12-28

Discusses the notion of a spiritual master and looks at examples in a variety of world religions. What is a spiritual master? *Spiritual Masters of the World's Religions* offers an important contribution to religious studies by addressing that question in the context of such themes as charismatic authority, role models, symbolism, and categories of religious perception. The book contains essays by scholar-practitioners on the topic of spiritual masters in Judaic, Christian, Islamic, Hindu, Sikh, Buddhist, Confucian,

and Daoist traditions. It provides a full spectrum of exemplars, including founders, spiritual masters who highlight cultural themes, and problematic figures of modern times. To define spiritual master, the work of Max Weber, Mircea Eliade, Daniel Gold, and Bruce Lincoln is referenced to provide a balanced notion that includes both religionist and reductionist perspectives. This book takes readers from the past spiritual masters to the future of masters of any sort, posing food for thought about the future of master-disciple relationships in an emerging age of egalitarian sentiments. Victoria Kennick is Professor of Humanities at the University of Maryland University College and the author of *Introducing World Religions*. Arvind Sharma is Birks Professor of Comparative Religion at McGill University. His many books include *Hinduism as*

a Missionary Religion; One Religion Too Many: The Religiously Comparative Reflections of a Comparatively Religious Hindu; and Religious Studies and Comparative Methodology: The Case for Reciprocal Illumination, all published by SUNY Press.

Konstruowanie historii - Anna Peck

Stosunek do własnej historii i roli dziejowej często różni się od sposobu jej postrzegania przez innych. Zjawisko kreowania wizji i interpretacji historycznych stanowi nieodłączny element procesu edukacyjnego. Percepcja oraz sposoby prezentacji polskiej historii i kultury w amerykańskich podręcznikach szkolnych i akademickich w zakresie przedmiotów historii powszechnej, historii europejskiej oraz historii cywilizacji zachodniej były w XX i na początku XXI wieku kształtowane pod wpływem zmieniającej się sytuacji społecznej i

politycznej oraz dominujących tendencji naukowych. W koncepcjach filozoficznych i intelektualnych, rozwijanych w Europie Zachodniej i Stanach Zjednoczonych od czasów oświecenia do końca okresu zimnej wojny, najczęściej wykluczono narody oraz państwa Europy Środkowej i Wschodniej z kręgu dominującej w świecie cywilizacji zachodniej. W konsekwencji Polska, jej historia i kultura były traktowane marginalnie. Autorka analizuje nie tylko zawartość podręczników, lecz także przyczyny, dla których ciągle jeszcze trudno znaleźć informacje m.in. na temat udziału Polaków w drugiej wojnie światowej, Katynia czy powstania warszawskiego.

**Problematizing Religious Freedom** - Arvind Sharma  
2011-08-08

The concept of religious freedom is the favoured modern human rights concept, with which the modern world hopes to tackle the phenomenon of religious pluralism, as our modern existence in an electronically shrinking globe comes to be increasingly characterised by this phenomenon. To begin with, the concept of religious freedom, as

embodied in Article 18 of the Universal Declaration of Human Rights, seems self-evident in nature. It is the claim of this book, however, that although emblematic on the one hand, the concept is also problematic on the other, and the implications of the concept of religious freedom are far from self-evident, despite the ready acceptance the term receives as embodying a worthwhile goal. This book therefore problematizes the concept along legal, constitutional, ethical and theological lines, and especially from the perspective of religious studies, so that religious freedom in the world could be enlarged in a way which promotes human flourishing.

Four Overarching Patterns  
of Culture - Robert Strauss  
2019-08-20

Justice has been the  
dominant cultural  
framework of people in the  
West for two centuries, ever  
since the rise of  
constitutional democracies.  
Consciously or not, most  
people in the West have a  
strong awareness of right  
and wrong. Their sense of  
morality is generally rooted  
in an obligation to the rule  
of law. In democratic  
societies, the rule of law  
ultimately relies on  
constitutional documents  
ratified by a widely-  
accepted process of  
development and  
implementation. For  
millennia, honor has been  
the dominant cultural  
framework of most people  
in the East and Middle East.

Here, people know that speech and behavior display respect or disrespect. While pervasive in all relationships, honor and shame are most important in the family, extended family, and local community. In the East, honor is not necessarily an internal feeling, as it is in a justice culture. Honor is more often an external attribution bestowed by others rather than claimed by oneself. Harmony is prevalent globally in indigenous cultures. Many indigenous peoples do not distinguish between the supernatural and natural worlds. All aspects of life are connected. Interactions with spirit beings are the key to maintaining harmony in order to be secure. Reciprocity is a common cultural framework in the Global South. Here, one

learns to develop connections with the right people in given circumstances for needed resources. These connections may or may not be characterized as "friendships" and provide not so much close friendships as reciprocal exchange. In some places, reciprocity is the means whereby one survives.
