**In Harm's Way** - Doug Stanton  
2003-05-01

A harrowing, adrenaline-charged account of America's worst naval disaster -- and of the heroism of the men who, against all odds, survived. On July 30, 1945, the USS Indianapolis was torpedoed in the South Pacific by a Japanese submarine. An estimated 300 men were killed upon impact; close to 900 sailors were cast into the Pacific Ocean, where they remained undetected by the navy for nearly four days and nights. Battered by a savage sea, they struggled to stay alive, fighting off sharks, hypothermia, and dementia. By the time rescue arrived, all but 317 men had died. The captain's subsequent court-martial left many questions unanswered: How did the navy fail to realize the Indianapolis was missing? Why was the cruiser traveling unescorted in enemy waters? And perhaps most amazing of all, how did these 317 men manage to survive? Interweaving the stories of three survivors -- the captain, the ship's doctor, and a young marine -- journalist Doug Stanton has brought this astonishing human drama to life in a narrative that is at once immediate and timeless. The

definitive account of a little-known chapter in World War II history, In Harm's Way is destined to become a classic tale of war, survival, and extraordinary courage.

Written for the highly successful Methods in Molecular Biology series, chapters include introductions to their respective topics, lists of the necessary materials and reagents, step-by-step, readily reproducible laboratory protocols, and tips on troubleshooting and avoiding known pitfalls. The White Earth Nation - Gerald Vizenor 2012-11-01

The White Earth Nation of Anishinaabeg Natives ratified a new constitution in 2009, the first indigenous democratic constitution, on a reservation in Minnesota. Many Native constitutions were written by the federal government, and with little knowledge of the people and cultures. The White Earth Nation set out to create a constitution that reflected its own culture. The resulting document provides a clear Native perspective on sovereignty, independent governance, traditional leadership values, and the importance of individual and human rights. This volume includes the text of the Constitution of the White Earth Nation; an introduction by David E. Wilkins, a legal and political scholar who was a special consultant to the White Earth Constitutional Convention; an essay by Gerald Vizenor, the delegate and principal writer of the Constitution of the White Earth Nation; and articles first published in *Anishinaabeg Today* by Jill Doerfler, who coordinated and participated in the deliberations and ratification of the Constitution.

Together these essays and the text of the Constitution provide direct insight into the process of the delegate deliberations, the writing and ratification of this groundbreaking document, and the current constitutional, legal, and political debates about new constitutions.

Innovations in Competitive Manufacturing is an examination of manufacturing innovations - both technical and knowledge-based. Over the recent past, technology has created dramatic changes in manufacturing. As a result, the book focuses on the use of technology in gaining competitive advantage in global manufacturing. Forty topics are surveyed in the book, organized into thirteen chapters. Each topic is a carefully written account by one or more leading researchers in that area. This is the first systematic examination of the recent innovations in manufacturing strategy and technology. In addition to providing an understanding of these manufacturing innovations, the book underscores the strategic importance of creating and sustaining the technological resources to ensure a stable manufacturing economic base. The book's purpose is to examine the elements that make today's manufacturers successful. Many examples from industry throughout the book will enable the reader to appreciate and comprehend the concepts presented in the article. Four in-depth descriptions of real-life cases provide illustration of key principles. The book has been constructed as a reference tool for manufacturing researchers, students, and practitioners. Hence, after reading the introduction 'Innovation in Competitive Manufacturing: From JIT to E-Business', any section or topic in the book can be consulted and/or read in any sequence the reader may choose.

Nanomineralogy - Yiwen Ju 2020-12-14  
In 2018, the International Symposium on Nanogeoscience was held in Guiyang, China. Scholars from around

the globe gathered to discuss recent progress and development trends in various aspects of nanogeoscience, including nanomineralogy.

Nanomineralogy, an important aspect of nanogeoscience, focuses on the composition, structure, and physical and chemical properties of nanoscale minerals and their interrelations with other Earth critical components. To give a sampling of the latest progress in nanomineralogy and related fields, we offer this Special Issue, which describes a full range of recent nanomineralogic achievements relating to everything from nanominerals and geochemistry, mineral nanostructures, and nanomineral deformation, to nanopores in oil and gas reservoirs, nanomineral deposits, and nanomineral material. Today, nanomineralogy faces a new strategic opportunity as well as a revolutionary challenge. We thus present this special nanomineralogy-focused issue of Minerals with the aim of encouraging our colleagues to familiarize themselves with current developments, trends, and directions in nanomineralogy, enabling an understanding of the potential of the field as a whole. We look forward to developing further scientific research and cooperation in nanomineralogy, hoping thereby to attract and guide young scholars to participate in this field.

**Audrey Style** - Pamela Keogh Clarke  
2010-08-31

Everyone, it seems, is a fan of Audrey's. She was Gigi, a princess, Holly Golightly, a nun, Maid Marian, even an angel. And we believed her in every role. But Audrey Hepburn was also one of the most admired and emulated women of the twentieth century, who encouraged women to discover and highlight their own strength. By example, she not only changed the way women dress--she forever altered the way they viewed themselves. But Audrey Hepburn's beauty was more than skin deep. "You know the Audrey you saw onscreen? Audrey was like that in real life, only a million times better," says designer Jeffrey Banks. For the first time, this style biography reveals

the details--fashion and otherwise-- that contributed so greatly to Audrey's appeal. Drawing on original interviews with Hubert de Givenchy, Gregory Peck, Nancy Reagan, Doris Brynner, and Audrey Wilder, as well as reminiscences of professional friends like Steven Spielberg, Ralph Lauren, noted Hollywood photographer Bob Willoughby, Steven Meisel, and Kevyn Aucoin, Audrey Style brings the Audrey her family and friends loved to life. With more than ninety color and black-and-white photographs, many of which have never before been published, and original designer sketches from Edith Head, Hubert de Givenchy, Vera Wang, Manolo Blahnik, Alexander McQueen, and others, Audrey Style gives measure to the grace, humor, intelligence, generosity, and inimitable fashion sense that was Audrey Hepburn.

All sexual contact is expressly forbidden. Carnal pursuits are a distraction from learning, so says the Headmistress, and virtue is

to be as highly regarded as education-if not higher. This harsh ban on expressions of love becomes especially problematic when Rylie meets her new French Housemistress, Vivienne Carriveau, and attraction sparks. In a sexless environment, thirty-one-year-old Mademoiselle Carriveau is a magnet for the affections of her hormonal, adolescent students. Competition for her attention is fierce, and when it starts to become clear that Rylie's burgeoning interest in her is reciprocated in equal measure, tension among the student body rises to a deadly level.
