Bioethics of Nonexistence - Leonard Tumaini

Chuwa 2020-08-03

The greatest violence and violation of human life is legalization of its disposability and

annihilation based on its condition. Such killing, whether of self or another, depicts absolute contradiction and betrayal of the very hypothesis of humanity. It manifests absolute failure to provide due care, and that is inhuman. Human life is who we are. It is the basis of any argument for human rights. There cannot be a right to terminate the existence of the rights bearer. Such a right contradicts the possibility of its own existence. There cannot be dignity in terminating the one in whom dignity resides. There can only be indignity in killing a person. The paradox of legalization of euthanasia and assisted suicide represents humanity turned on itself. It is endorsement of existential nihilism and objectification of human life. It is the beginning of the end of humanhood. This book is a critical ethical exploration of mind-sets around euthanasia and assisted suicide to provide clarity, sobriety, and objectivity. The book is really about ontology of human life. Dr. Leonard Tumaini Chuwa is a Catholic priest and scholar

working for Ascension as director of spiritual care for the state of Florida. Dr. Chuwa is certified by the National Association of Catholic Chaplains (NACC). Chuwa has bachelor of arts degrees in philosophy and theology; master of arts degree in theology and religious studies from John Carroll Jesuit University in Cleveland, Ohio; and a doctor of philosophy degree in bioethics and health-care ethics from Duquesne University in Pittsburgh, Pennsylvania. Chuwa is a distinguished public speaker on different bioethical issues. His first book, titled African Indigenous Ethics in Global Bioethics: Interpretation of Ubuntu, was published by Springer Academic Publishing as the first book in a new global bioethics series. Father Chuwa also authored Bioethical False Truths: Egotistic and Relativistic Autonomy vs. Christian and Ubuntu Relational Autonomy. *Macmillan English Dictionary: For Advanced Learners (PB with CD) - Macmillan 2009-02-01* New! The Law of Pre-Trial Criminal Procedure in Namibia - Mapaure, Clever 2016-01-29

The Namibian Constitution entrenches fundamental rights and freedoms, and provides for their vertical and horizontal application in any criminal process. However, since Independence in 1990, Namibia has developed its own criminal jurisprudence. Criminal procedure and law are taking new shape. Namibian courts have pronounced on criminal issues, and legislation has been passed to keep up with the demands, aspirations, spirit, and vision of the Namibian Constitution and its people. CLEVER MAPAURE, NDJODI NDEUNYEMA, PILISANO MASAKE, FESTUS WEYULU and LOIDE SHAPARARA have written an invaluable book that deals with these

developments. It explains the rights of individuals, the duties of law enforcement officers, and the procedures of the courts in criminal cases. The Law of Pre-Trial Criminal Procedure in Namibia introduces readers to the fundamental principles and values underlying Namibian criminal law, through a systematic examination of the provisions of the Criminal Procedure Act, 1977 (Act No. 51 of 1977) as amended, which was originally passed by the legislature of South Africa, and still regulates criminal procedure in Namibia, the amendments to it since 1990, and relevant Namibian Case Law. The book captures and discusses the law relating to the pre-trial criminal process in Namibia in detail, from the roles of the prosecutor and the police, search, seizure and forfeiture, interrogation, notices and summons, arrest, court appearance, bail, criminal charges, disclosure, diminished capacity, right to assistance, to pleas and plea-bargaining.

The Oxford Handbook of Clinical Geropsychology - Nancy A. Pachana

2014-11-06

Throughout the world, the population of older adults continues to grow. The rise in geriatric populations has seen an increase in research on clinical diagnostic, assessment, and treatment issues aimed at this population. Clinical geropsychologists have increased their interest both in providing mental health services as well as developing approaches to improve quality of life for all older adults. The Oxford Handbook of Clinical Geropsychology is a landmark publication in this field, providing broad and authoritative coverage of the research and practice issues in clinical geropsychology today, as well as innovations expanding the field's horizons. Comprising chapters from the foremost scholars in clinical geropsychology from around the world, the handbook captures the global proliferation of activity in this field. In addition to core sections on topics such as sources of psychological distress, assessment, diagnosis, and intervention, the handbook

includes valuable chapters devoted to methodological issues such as longitudinal studies and meta-analyses in the field, as well as new and emerging issues such as technological innovations and social media use in older populations. Each chapter offers a review of the most pertinent international literature, outlining current issues as well as important cultural implications and key practice issues where relevant, and identifying possibilities for future research and policy applications. The book is essential to all psychology researchers, practitioners, educators, and students with an interest in the mental health of older adults.
